Important information

This Product Disclosure Statement (PDS) is a summary of significant information and contains a number of references to important information (each of which forms part of this PDS) and persons should consider that information before making a decision about the Fund.

The information provided in this PDS is general information only and does not take into account your individual objectives, financial situation, needs or circumstances. You should therefore assess whether the information is appropriate for you and obtain financial advice tailored to you having regard to your individual objectives, financial situation, needs and circumstances.

This PDS can only be used by investors receiving it (electronically or otherwise) in Australia. This PDS is not an offer to any person or any place in which it is unlawful to make such an offer. Units in the Fund have not been, and will not be, registered under the U.S. Securities Act of 1933 or the securities laws of any of the states of the United States. The Fund is not and will not be registered as an investment company under the U.S. Investment Company Act of 1940. Investment in units of the Fund by or on behalf of U.S. persons is not permitted. Units in the Fund may not at any time be offered, sold, transferred or delivered within the United States or to, or for the account or benefit of, a U.S. person. Any issue, sale or transfer in violation of this restriction will not be binding upon the Fund and may constitute a violation of U.S. law.

If any part of this PDS is established to be invalid or unenforceable under the law, it is excluded so that it does not in any way affect the validity or enforceability of the remaining parts.

The Responsible Entity can change any terms and conditions of the offer contained in this PDS at any time. We reserve the right to outsource any or all investment, management and administration functions, including to related parties, without notice to investors.

Incorporation by Reference

The Corporations Act 2001 (Cth) (**Corporations Act**) allows us to provide certain information to you separately to this PDS. Where you see references to “Additional information incorporated by reference” additional information concerning the topic has been incorporated by reference and forms part of the PDS. This information can be found in the BlackRock Additional Fund Information No. 1 document, available at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>. You should read this information before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. This information is available to you free of charge upon request in paper format by contacting the BlackRock Client Services Centre.

Information subject to change

Information in this PDS, as well as the terms and features of the Fund, is subject to change from time to time. We will notify you of any material changes or other significant events that affect the information in this PDS in accordance with our obligations under the Corporations Act.

Updated information that is not materially adverse can be obtained from our website at <https://www.blackrock.com/au>. A paper copy of any updated information will be given, or an electronic copy made available, free of charge upon request.

Where the Fund is subject to the continuous disclosure requirements of the Corporations Act, we will satisfy our obligations by disclosing material information regarding the Fund on our website at <https://www.blackrock.com/au>. A paper copy of this material is available free of charge upon request.

Annual report

A copy of the audited annual financial report of the Fund is generally available by the end of September from us or upon request from your Investor Directed Portfolio Service (**IDPS**), superannuation fund or master trust operator. The audited annual financial report will be made available on our website at <https://www.blackrock.com/au>. You may also elect to receive a hard copy of the report by contacting our Client Services Team on the telephone number shown on the right of this page.

Investing through an IDPS, superannuation fund or master trust

If you have invested through an IDPS, superannuation fund or master trust, you can use this PDS for information purposes; however, if you wish to make any change to your investment you should contact the operator of such service and complete their required documentation. The operator of such service may process unitholder transactions and requests in accordance with processes that are different to those set out in this document.

1. About BlackRock Investment Management (Australia) Limited

BlackRock Investment Management (Australia) Limited, ABN 13 006 165 975 (referred to in this PDS as **BlackRock, Responsible Entity, Manager, we, our or us**) is the responsible entity and the issuer of units in the BlackRock Wholesale International Bond Fund (**Fund**).

BlackRock is a wholly owned subsidiary of BlackRock, Inc.® (**BlackRock Inc**) but is not guaranteed by BlackRock Inc, or any BlackRock Inc subsidiary or associated entity (the **BlackRock Group**). Neither BlackRock nor any member of the BlackRock Group guarantees the success of the Fund, the achievement of the investment objective, or the repayment of capital or particular rates of return on investment or capital. An investor in the Fund could lose all or a substantial part of their investment. In particular, the performance of the Fund will depend on the performance and market value of the assets held by the Fund.

The investment strategy of the Fund is managed by the BlackRock Group's Global Fundamental Fixed Income Team.

2. How the BlackRock Wholesale International Bond Fund works

2.1 The interests that members acquire

The Fund is structured as a unitised registered managed investment scheme. When you invest in the Fund, you are allocated a number of units. Each of these units represents an equal share in the net assets of the Fund. As a result, each unit has a dollar value or "unit price". The unit price will vary as the market value of assets in the Fund rises or falls.

2.2 Minimum investment amounts

When investing in the Fund you generally need a minimum amount of \$50,000 or such other amount as we may determine from time to time. There is no minimum investment for subsequent applications. While there is no minimum redemption amount, we generally require a minimum balance in your Fund account of \$50,000.

2.3 How investors can increase or decrease their investment

Investors can increase or decrease their investment by acquiring units (refer to section 8.1 of this PDS titled "How to invest") or redeeming all or part of their investment (refer to section 2.4 of this PDS titled "How to redeem your investment").

2.4 How to redeem your investment

Redemption requests can be made in writing (including by facsimile). You will normally be able to redeem from the Fund on any **Business Day**, being a day other than a Saturday or Sunday on which banks are open for general banking business in Sydney. A list of public holidays affecting the Fund is available on our website at <https://www.blackrock.com/au>.

Investor transaction requests are required to be received by 1.00 pm (Sydney time) on any Business Day (**Transaction Cut-off Time**). Transaction requests received before this time will generally be executed on the same day (**Trade Date**). Investor transaction requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received the following Business Day.

Following receipt of a redemption request, we will deposit redemption proceeds into your nominated Australian bank account, generally within four Business Days of our having received the redemption request, although we are allowed longer periods under the Fund's constitution. In certain circumstances, we can also stagger the acceptance of large redemption requests in accordance

with the Fund's constitution, for example, if a redemption request represents more than 5% of the units on issue. In some circumstances, such as when there is a freeze on withdrawals, investors may not be able to withdraw from the Fund within the usual period upon request.

2.5 Frequency of distributions and how they are calculated

If you hold units in the Fund at the close of business on the last day of a distribution period, you are entitled to participate in the distributable income of the Fund. Any income you receive from your investments will be in the form of distributions. Your distribution may include interest, dividends, other income and realised gains. Distributions are not guaranteed and there may be periods for which distributions are higher or lower than expected.

Distributions (if any) are generally determined at the end of March, June, September and December each year. Distributions (if any) are usually paid within 21 Business Days of the end of the distribution period.

Additional information incorporated by reference

You should read the information about the acquisition and disposal of interests before making an important decision. This material may change between the time when you read this PDS and the day when you acquire the product. Go to section 2 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>

3. Benefits of investing in the BlackRock Wholesale International Bond Fund

Access to BlackRock's global expertise: The investment process is focused on accessing the best ideas of the BlackRock Group's Global Fundamental Fixed Income Team, which seeks to add value by managing duration and yield curve, as well as sector (eg. corporate, mortgage backed, agency debt, emerging market debt, etc.), individual security, country and currency exposures.

Rigorous risk management: The Fund is actively managed within a rigorous risk management framework. The portfolio is monitored and where necessary adjusted, to suit changing economic and market conditions. Great importance is placed on research and a team based approach to making investment decisions.

Additional information incorporated by reference

You should read the information about the other features and benefits of the Fund before making an important decision. This material may change between the time when you read this PDS and the day when you acquire the product. Go to section 3 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>

4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

Returns are not guaranteed. Future returns may differ from past returns and investors may lose some or all of their investment.

The appropriate level of risk for each investor will vary depending on a range of factors including age, investment time frames, where other parts of the investor's wealth is invested and the investor's risk tolerance.

The specific investment risks of investing in the Fund include:

Asset-backed and mortgage-backed securities risk. The Fund may be exposed to asset-backed securities (ABS) and mortgage backed securities (MBS). The obligations associated with these securities may be subject to greater credit, liquidity and interest rate risk compared to other fixed income securities such as government issued bonds. ABS and MBS are often exposed to extension risk (where obligations on the underlying assets are not paid on time) and prepayment risks (where obligations on the underlying assets are paid earlier than expected), these risks may have a substantial impact on the timing and size of the cash flows paid by the securities and may negatively impact the returns of the securities. The average life of each individual security may be affected by a large number of factors such as the existence and frequency of exercise of any optional redemption and mandatory prepayment, the prevailing level of interest rates, the actual default rate of the underlying assets, the timing of recoveries and the level of rotation in the underlying assets.

Delayed delivery transaction. The Fund may be exposed to "To Be Announced" securities (TBAs), a common trading practise in the mortgage-backed securities market whereby securities are purchased from a mortgage pool for a fixed price at a future date. TBAs may involve counterparty default risk and a risk that the agreed (fixed) price is higher than the prevailing market price at the settlement date. These may have an adverse impact on the value of a fund exposed to such securities.

Derivative risk. The Fund may be exposed to derivative securities. The use of derivatives expose a fund to different risks as opposed to investing directly in a security. For example, derivatives can cause a fund to make greater gains or incur greater losses than the gains and losses of the underlying security in relation to which the derivative derives its value.

Derivative transactions may be subject to the risk that a counterparty to the transaction will wholly or partially fail to perform their contractual obligations under the arrangement (including failing to meet collateral requirements under the arrangement). Additionally, OTC markets are not guaranteed by an exchange or clearing corporation and generally do not require payment of margin. To the extent that a fund has unrealised gains in such instruments or has deposited collateral with its counterparty that fund is at risk that its counterparty will become bankrupt or otherwise fail to honour its obligations. Derivative transactions may also expose a fund to a risk of potential illiquidity if the derivative instrument is difficult to purchase or sell.

The BlackRock Group attempts to minimise these risks by engaging in derivative transactions only with financial institutions that have substantial capital or that have provided a third-party guarantee or other credit enhancement.

Fixed income securities risk. The Fund may be exposed to fixed income securities. There are a number of risks associated with an investment in fixed income securities, which can result in significant

variability in investment returns and a loss of income or capital value. These include:

- ▶ **Credit risk.** The value of a fund investing in fixed income securities is affected by the perceived or actual credit worthiness of the issuer of the security. A perceived or actual deterioration of credit quality of a fixed income security will adversely impact the value of such investments (e.g. an issuer credit downgrade or credit event leading to a revised premium attributable to investment due to credit worthiness downgrade).
- ▶ **Interest rate risk.** An increase in interest rates will cause the values of fixed income securities, in particular fixed rate securities, to decline, which will in turn impact the returns of a fund investing in such securities. Interest rate risk is generally lower for shorter term fixed income investments and higher for longer term fixed income investments.
- ▶ **Income risk.** A fund investing in fixed income securities may experience a decline in income where market interest rates are falling. This can result when a fund reinvests in securities at a lower yield than the current fund portfolio yield.
- ▶ **Issuer risk.** Corporate issuers of fixed income securities may willingly or unwillingly default on their obligation to make interest or principal payments. Similarly, sovereign issuers (i.e. governments of a country or an agency backed by a government) may refuse to comply with their obligations during economically difficult or politically volatile times. Such events may cause a downgrade in the credit rating of an issuer and/or its fixed income security, which in turn may cause the value of the fixed income security to fall. There is also no assurance that an issuer of fixed income securities will continue to issue the fixed income securities or keep that particular fixed income securities market open.
- ▶ **Spread risk.** The prevailing rates of compensation for creditworthiness of issuers of instruments (spread) is affected by market factors including sentiment, supply and demand and general economic conditions. A change in these factors, which impact spread, can negatively impact the yield earned by a fund investing in credit instruments.

Foreign investment risk. Exposure to securities or derivative instruments issued in foreign markets may include certain risks associated with:

- ▶ Differences in trading, settlement and clearing procedures that may restrict trading (as a result of suspensions or daily quotas), increase default or market operational risks or require securities to be held on a beneficial basis via a depository nominee.
- ▶ **Currency risk.** The risk that foreign currencies change in value relative to the Australian dollar, which may affect a fund's investment returns. These movements may either add to or subtract from performance. Passive currency management may be undertaken, however, it may not be possible to perfectly match performance of the hedging relative to that of its benchmark. Additionally, active currency management may be undertaken from time to time, with a view to manage risk and return. Currency management can result in capital losses and investment returns are not guaranteed.
- ▶ **Country specific risk.** Countries may be subject to considerable degrees of market volatility, economic, political and social instability, which may reduce or preclude the ability to trade security exposures or negatively affect a security's value. Additionally, differences in accounting, financial reporting, taxation, legal, regulatory, liquidity and pricing practices can be subject to change and if so, may adversely affect a fund.

- ▶ differences in accounting, financial reporting, taxation, legal, regulatory, liquidity and pricing practices that are subject to change and if so may adversely affect a fund; and
- ▶ differences in trading, settlement and clearing procedures that may restrict trading (as a result of suspensions or daily quotas), increase default or market operational risks or require securities to be held on a beneficial basis via a depository nominee;

Liquidity risk. The Fund may be exposed to securities with limited liquidity, which are in practice infrequently traded or for which typical daily volumes traded are small. It may not be possible to sell such securities when it is desirable to do so or to realise what the manager perceives to be their fair value in the event of a sale. The general level of market liquidity also varies and may deteriorate. Such a deterioration may negatively impact the ability to trade fund securities and may negatively affect the price at which a trade is executed. These circumstances could impair a fund's ability to make distributions to a redeeming unit holder in a timely manner and a fund may need to consider suspending redemptions. The BlackRock Group aims to reduce these risks by understanding the liquidity characteristics of securities a fund is exposed to and plans trading so as to minimise the adverse consequences of low liquidity.

Underlying fund risk. The Fund may implement some or all of its investment strategy through an investment in an underlying fund. The Fund and underlying fund are managed as separate entities, with separate investment objectives and investment strategies. No guarantee can be given that the underlying fund will meet its investment objective, continue to be managed according to its current investment strategy or be open to investments in the future. Changes to the underlying fund may be made without unitholder approval. Should the underlying fund change its investment objective or investment strategy, we will review such changes with consideration to the investment objective and strategy of the Fund. Further, if the underlying fund were to be suspended, closed or terminated for any reason, the Fund would be exposed to those changes.

Other risks more generally associated with investing in a fund include:

Counterparty risk. Institutions, such as brokerage firms, banks, and broker-dealers, may enter into transactions with the manager of a fund in relation to the sale and purchase of assets or securities. Such institutions may also be issuers of the securities in which a fund invests. Bankruptcy, fraud, regulatory sanction or a refusal to complete a transaction at one of these institutions could significantly impair the operational capabilities or the capital position of a fund. While the BlackRock Group uses reasonable efforts to mitigate such risks, there can be no guarantee that transactions between such counterparties will always be completed in the manner contemplated by, and favourable to, the relevant fund.

Operational risk: The risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. Adverse impacts may arise internally through human error, technology or infrastructure changes, or through external events such as third party failures or crisis events. The BlackRock Group has procedures in place to manage these risks and, as much as possible, monitor the controls within these procedures to ensure operational risks are adequately managed.

Regulatory and business risk: Changes in corporate, taxation or other relevant laws, regulations or rules may adversely affect your investment. For example, such changes may adversely affect a fund's ability to execute certain investment strategies, which could have a material effect on performance. The laws affecting

registered managed investment schemes may also change in the future.

Fund risk. The price of units in a fund and the income from them may go down as well as up. Investors may not get back their original investment. There can be no assurance that a fund will achieve its investment objective or that an investor will achieve profits or avoid losses, significant or otherwise. Capital return and income of a fund is based on the capital appreciation and income of the securities invested in, less expenses incurred. Fund returns may fluctuate in response to changes in such capital appreciation or income. The payment of distributions is at the discretion of the fund issuer, taking into account various factors and its own distribution policy. Distributions are not guaranteed and there may be periods for which distributions are higher or lower than expected. Investing in a fund may result in a different tax outcome than investing in securities directly. The application of tax laws and certain events occurring within a fund may result in you receiving some of your investment back as income in the form of a distribution. A fund will generally not be managed with consideration of the individual circumstances, including specific tax considerations, applicable to any single unitholder in the fund. Past performance is not indicative of future performance.

Conflicts of interest risk. Certain conflicts of interest may arise in the operation of a BlackRock Group fund. Fund structures may involve members of the BlackRock Group acting in more than one capacity, while BlackRock Group funds may hold over-the counter derivative agreements where a member of the BlackRock Group is acting (in different capacities) on both sides of the agreement. BlackRock Group funds may be invested in by persons associated with BlackRock Group or by other funds and accounts managed by different members of the BlackRock Group. Investors in a fund may, in some instances, invest on different terms to each other, some of which may be more favourable than others. Each investor in a fund may act in a way which is adverse to the interests of other investors in that fund. Additionally, funds and accounts managed by different members of the BlackRock Group may act as a seed investor in a BlackRock Group fund, which may create a commercial opportunity for the BlackRock Group. For example, a seed investment may allow the BlackRock Group to establish a track record for a fund that can then be sold to other clients. Certain investment strategies of the BlackRock Group may conflict with each other and may affect the price and availability of securities in which to invest. Members of the BlackRock Group may also give advice or take action with respect to any of their clients, which may differ from the advice given or the timing or nature of any action taken with respect to the investments of other BlackRock Group funds or accounts.

While conflicts of interest may arise from time to time, the BlackRock Group has established policies and procedures in place to manage any such conflict, which includes ensuring transactions between BlackRock Group entities are conducted on an arm's length commercial basis.

Individual investment risk. Individual securities held by a fund can and do fall in value for many reasons. Both price and levels of income are subject to fluctuation. Returns from individual securities will vary and price movements can be volatile.

Market risk. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the Fund and its investments.

5. How we invest your money

Investors should consider the likely investment return, the risk, and their investment timeframe when choosing a fund in which to invest. This Fund only offers a single investment option.

The Fund aims to generate capital and income return for those investors seeking exposure to international fixed income markets, including Australia. We aim to outperform the Bloomberg Barclays Global Aggregate 500 Index (hedged in AUD) (**Benchmark**) over rolling three-year periods.

The Fund aims to achieve its investment objective by accessing the best ideas of the BlackRock Group's Global Fundamental Fixed Income Team located around the globe, which seek to add value by managing duration, yield curve, credit (e.g. mortgage backed, corporates, agencies and emerging markets) and individual security, country and currency exposures against the Benchmark.

The investment strategy is actively managed within a rigorous risk management framework. The Fund's portfolio is continually monitored and, where necessary, adjusted to suit changing economic and market conditions. Great importance is placed on research and a team based approach to making investment decisions. In seeking to access a broad array of enhancement strategies, the investment strategy may utilise proprietary research-based knowledge, fundamental macro-economic and credit, sector and security analysis.

The management of risk is central to the Fund's investment process. Exposures are reviewed on an on-going basis, to ensure the Fund maintains a risk/reward profile appropriate to changing market conditions and the degree of confidence we have in our return expectations.

Currency is actively managed in the Fund around a fully hedged Australian dollar benchmark.

To achieve its investment objective the Fund invests substantially all of its assets in the BlackRock Global Diversified Bond Fund (**Underlying Fund**), another fund managed by us which has the same investment strategy as the Fund.

The Underlying Fund invests predominantly in international debt securities and foreign currency exposures. These include a broad universe of debt securities, including, but not limited to:

- ▶ any fixed income security, negotiable instrument, note, mortgage or asset backed security or other debt instrument issued or guaranteed by a central or regional government (or their agencies), corporation or supranational body.
- ▶ foreign currency exposures;
- ▶ repurchase agreements or stock lending on any eligible investments; and
- ▶ cash and cash equivalents (including investments in other BlackRock Group funds) and other money market securities

The Underlying Fund may implement some of its investment strategy via an investment in other funds, including those managed by us or other entities in the BlackRock Group, where the investments of any such other fund include the permitted investments of the Underlying Fund.

The Fund and Underlying Fund may also hold a small allocation of cash (or cash equivalents including other BlackRock Group funds) for cash flow management purposes.

Asset allocation ranges (%)

Asset sector	Min.	Bench.	Max.
International Fixed Income	0	100	100
Cash	0	0	100

Derivatives, such as futures, swaps, credit default swaps and forwards can be used to implement investment decisions and to manage risk and return. When derivative positions are established, they will always be backed by cash holdings and/or underlying assets. Derivative securities will not be used to gear the Underlying Fund.

While the constitution of the Fund allows the Responsible Entity to borrow, it is our intention that no borrowing arrangements will be entered into, other than temporary overdrafts, which may be used as a means of managing certain cash flows.

The Fund may be suitable for investors seeking capital and income returns through exposure to international fixed income markets including Australia. The minimum suggested timeframe for holding investments in the Fund is five years. From an investor's perspective, the Fund is considered medium/low risk. Generally,

Additional information incorporated by reference

You should read the information about how we invest your money, our consideration of labour standards or environmental, social or ethical issues, switching your investment and changes to the investment option, before making an important decision. This material may change between the time when you read this PDS and the day when you acquire the product. Go to section 5 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>

the risk level associated with the Fund is greater if the Fund is held for a period less than the minimum suggested time frame described above.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) website** (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

6.1 Fees costs and summary

The following table shows fees and other costs that you may be charged. Unless otherwise indicated, fees are inclusive of Goods and Services Tax (GST), any applicable stamp duty and take into account expected reduced input tax credits in respect of the GST component of the fee.

Information in the fee table can be used to compare costs between different managed investment schemes. Fees and costs can be paid directly from your Fund account or deducted from investment returns.

Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment ¹	0.55% p.a.	The Fund's management fee is 0.55% p.a. and is calculated in relation to the NAV of the Fund on a daily basis. This cost is deducted from the Fund's assets and is generally paid to us monthly in arrears. Management fees and costs include indirect costs of 0.00% .
Performance fees Amounts deducted from your investment in relation to the performance of the product	Nil	The Fund does not charge a performance fee.
Transaction costs The costs incurred by the Fund when buying or selling assets	0.09%p.a.	Transaction costs that are not recovered from the buy-sell spread ('net transaction costs') reduce returns and are reflected in the Fund's unit price.

Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)

Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the Fund	<i>Buy</i> 0.23% <i>Sell</i> 0.23%	Estimated transaction costs are allocated when an investor buys or sells units in the Fund by applying a buy-sell spread on the Fund's entry and exit unit prices, where appropriate.

Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee¹ The fee to close your investment	Nil	
Switching fee The fee for changing investment options	Nil	

¹ This fee includes an amount payable to an adviser

6.2 Example of annual fees and costs

The table below gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example

Balance of \$50,000 with a contribution of \$5,000 during year

Contribution Fees	Nil	For every additional \$5,000 you put in you will be charged \$0.
--------------------------	-----	--

PLUS

Management fees and costs	0.55%	And, for every \$50,000 you have in the Fund you will be charged or have deducted from your investment an estimated \$275 each year.
Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Transaction costs	0.09%	And , you will be charged or have deducted from your investment \$45 in transaction costs

EQUALS

Cost of Fund	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year you would be charged fees and costs of \$320 . ¹ What it costs you will depend on the fees you negotiate.
---------------------	---

1. Additional fees may apply. A buy spread of 0.23%, equal to \$11.50 on a \$5,000 contribution, will also apply.

There is a calculator provided by ASIC on its MoneySmart website (www.moneysmart.gov.au) which can be used to calculate the effect of fees and costs on Fund account balances.

6.3 Additional explanation of fees and costs

Can the fees and charges change?

All fees can change. The current fees applicable to your investment are set out in this PDS and although we have the power to change our fee structure without your consent, we have no present intention to do so. Fees may vary over time due to changes to the Fund, changing economic conditions or changes in regulation. We will provide investors 30 days' notice of any proposed increase to our fees and charges

Additional information incorporated by reference

You should read the information about fees and costs before making an important decision. This material may change between the time when you read this PDS and the day when you acquire the product. Go to section 6 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>

7. How managed investment schemes are taxed

Investing in a registered managed investment scheme is likely to have tax consequences and you are strongly advised to seek professional tax advice. Registered managed investment schemes generally do not pay tax on behalf of investors. However, BlackRock may be required to withhold tax from each distribution at the relevant withholding tax rates under certain circumstances. You are assessed for tax on any income and capital gains generated by the registered investment scheme to which you are entitled.

Additional information incorporated by reference

You should read the information about taxation before making an important decision. This material may change between the time when you read this PDS and the day when you acquire the product. Go to section 7 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at <https://www.blackrock.com/au/individual/literature/product-disclosure-statement/blackrock-additional-fund-information-no1-en-au.pdf>

8. How to invest**8.1 How to invest**

To make your initial investment complete and send to us (including by facsimile) the Fund's Application Form that accompanies this PDS or is available from our website at <https://www.blackrock.com/au> or by calling our Client Services Centre (refer to page 2 of this PDS for contact details). You will normally be able to invest in the Fund on any Business Day. A list of public holidays affecting the Fund is available on our website at <https://www.blackrock.com/au>. We have absolute discretion to accept, reject, or limit any application request.

If you choose to send us your completed Fund Application Form by facsimile, you will need to send us your original Fund Application Form for our records.

Investor transaction requests are required to be received prior to the Transaction Cut-off Time. Transaction requests received before this time will generally be executed on the relevant Trade Date. Investor transaction requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received the following Business Day.

Your investment amount can be deposited into the application bank account (as shown on the Fund's Application Form). **If you choose to deposit your investment amount in the application bank account, you must provide us with verification from your financial institution that the money has been banked**

In order for us to be able to process your investment, you must ensure that BlackRock receives cleared money in relation to the relevant Trade Date. You may also need to complete an Investor Identification Form (which follows the Fund Application Form) for the purpose of Anti-Money Laundering and Counter-Terrorism Financing legislation.

Refer to section 2.4 of this PDS titled "How to redeem your investment" for details of the Fund's Business Day, Transaction Cut-off Time and Trade Date.

8.2 Do you have "cooling off" rights?

If you are not otherwise a "wholesale client" or "professional investor" (as defined in the Corporations Act) you have a 14-day cooling off period in which to decide if the investment is right for you. The 14-day cooling off period starts when your initial investment in the Fund is confirmed or the end of the fifth business day after the day on which units in the Fund are first issued, whichever is earlier.

If you would like to exercise your cooling off right, you must submit your request to us in writing (including by facsimile) and specifically state that you are exercising your cooling off right. If we receive your request by the Transaction Cut-off Time, your refund will generally be executed on the relevant Trade Date. Cooling off requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received on the following Business Day. The amount of your refund will be reduced or increased for market movements in the Fund as well as any applicable transaction costs and less any non-refundable tax or duty paid or payable. Accordingly, depending upon the circumstances, the amount returned to you may be greater or less than the amount initially invested.

Refer to section 2.4 of this PDS titled "How to redeem your investment" for details of the Fund's Business Day, Transaction Cut-off Time and Trade Date

8.3 Enquiries and complaints

If you have an enquiry or complaint, you can contact our Enquiries and Complaints Officer via our Client Services Centre. We have established procedures for dealing with enquiries and complaints. If you make a complaint to us, the complaint will be acknowledged and steps will be taken to investigate your concerns. A final response will be provided within 45 days in accordance with our obligations.

BlackRock is a member of the Australian Financial Complaints Authority (AFCA), an independent complaint resolution body. If your complaint is not addressed within 45 days from the date it was received, or you are not satisfied with our response, you may refer your complaint to AFCA. AFCA provides fair and independent financial services complaint resolution that is free to consumers. AFCA can be contacted by:

- ▶ Telephone: 1800 931 678 (free call)
- ▶ Mail: Australian Financial Complaints Authority, GPO Box 3, Melbourne VIC 3001
- ▶ Email: info@afca.org.au
- ▶ Website: www.afca.org.au.

For the hearing and speech impaired, AFCA can be contacted by either:

- ▶ National Relay Service: www.relayservice.com.au
- ▶ TTY/Voice Calls: 133 677 (local), or
