Description of Activity: Over the course of the inspection, we performed a full count of 1,591 bars of platinum, based upon the Custodian's platinum inventory as of 31st October 2025, including but not limited to the following:

- The platinum inventory records of Administrator, State Street Bank and Trust Company, were reconciled to the records of the Custodian.
- Each individual bar in the platinum count was agreed to the records of the Custodian as being held in the name of the above-mentioned account.
- Each bar was physically verified as correct through serial numbers, refiner brands and purities versus inventory reports and receipts supplied by the Custodian as at 31st October 2025.
- Fifty-five of the platinum bars were selected at random and checked against the records of the Custodian.

Summary of Results: All 1,591 bars were found to be in the vault, consistent with the stated records of the iShares Physical Metals PLC. Reconciliation was performed on the physical movement of bars which occurred during the inspection period between 1st November and 10th November 2025. The Custodian's records were found to have been correctly recorded.

Non-conformities: There were no non-conformities identified in respect of the Platinum bars during the audit.

There were no physical non-conformities identified in respect of the Platinum bars during the audit.

The audit was carried out to the best of our knowledge and this report reflects our findings as at the time and place of the audit only.
