Investment Objective and Strategies

The investment objective of the Fund is to provide investors with a diversified, equal-weighted investment in a portfolio of common shares of the largest Canadian banks and Canadian life insurance companies. The Fund seeks to provide investors with monthly cash distributions targeted to be \$0.04167 per unit (approximately \$0.50 per annum). Currently, the Fund pays monthly cash distributions of \$0.027 per Common Unit (\$0.324 per annum) and \$0.0325 per Advisor Class Unit (\$0.39 per annum).

The investment strategy of the Fund is to invest in common shares of the largest Canadian banks and Canadian life insurance companies. Securities are selected for inclusion in the CEW portfolio based on the following criteria: (i) the minimum market capitalization of such an issuer is \$5 billion for banks and \$1.5 billion for life insurance companies; and (ii) the issuer must be a Canadian bank or a Canadian life insurance company. The Fund is rebalanced semi-annually to adjust for changes in the market value of investments and to reflect the impact of a merger, acquisition or other significant corporate action affecting the issuers in the portfolio.

Risk

The risks of investing in the Fund are described in the prospectus. There have been no changes to the Fund over the financial period that materially affected the risk level of the Fund.

Results of Operations

The Fund's net asset value decreased from \$190.1 million at December 31, 2017 to \$145.7 million at December 31, 2018. This change in net asset value represents a decrease of \$17.0 million due to net redemptions from the Fund and a decrease of \$27.4 million due to investment operations less distributions paid.

For the year ended December 31, 2018, the Fund's Common Units returned -12.68%.

For the period from January 1, 2018 to April 6, 2018, the Fund's Advisor Class Units returned -5.58%.

The Fund has a distribution policy that requires it to distribute sufficient net income and net realized capital gains so that it will not be liable to pay income tax under Part I of the *Income Tax Act* (Canada). Amounts included in the calculation of net income and net realized capital gains of the Fund for a taxation year, that must be distributed in accordance with the distribution policy, sometimes include amounts that have not actually been received by the Fund.

The Fund may borrow cash in accordance with the restrictions in National Instrument 81-102 – *Investment Funds*. For the year ended December 31, 2018, the Fund did not borrow any cash.

Recent Developments

Master Declaration of Trust

The Fund's master declaration of trust was amended and restated as follows:

Director & Officer Appointments

Effective July 1, 2018, Jeffrey Berman was appointed as a director and officer of BlackRock Canada.

Effective October 30, 2018, Michelle Daly was appointed as Chief Financial Officer of BlackRock Canada.

Director & Officer Resignations

Effective March 16, 2018, Lee Wanie resigned as a director and officer of BlackRock Canada.

Effective June 30, 2018, Warren Collier resigned as a director and officer of BlackRock Canada.

Effective October 30, 2018, Saurabh Pathak resigned as Chief Financial Officer of BlackRock Canada.

Reclassification of Advisor Class Units

On the Reclassification Date BlackRock Canada completed the reclassification of all Advisor Class Units of the Funds into the corresponding Common Units of the Fund.

Unitholders of Advisor Class Units as of the Reclassification Date received a number of whole Common Units of the Fund equal to the net asset value ("NAV") per Advisor Class Unit as of the Reclassification Date divided by the corresponding NAV per Common Unit as of the Reclassification Date (the "Reclassification Ratio"). The Reclassification Ratio of Advisor Class Units to Common Units of the Fund was 0.7232962525.

The reclassification of Advisor Class Units into whole Common Units of the Fund did not give rise to a disposition by unitholders of Advisor Class Units for tax purposes on any whole units reclassified. Any remaining fractional Advisor Class Units were redeemed for cash and such redemption would be considered a disposition for tax purposes.

As a result of the reclassification, holders of Advisor Class Units on the Reclassification Date are now holders of Common Units of the same Fund and the annual management fees and ticker symbols of the Advisor Class units of the Fund have changed to the annual management fees and ticker symbols of the corresponding Common Units.

Immediately following the completion of the reclassification, the Advisor Class Units were delisted from the Exchange.

¹ This information is derived from the Fund's audited annual financial statements and is not a reconciliation of the beginning and ending net assets per unit. The net assets per unit presented in the financial statements is the same as the net asset value per unit calculated for Fund pricing purposes.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the year.

³ Rounded to less than \$0.01.

⁴ Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.

⁵ The tax characteristics of distributions are reported annually by the Fund to CDS Clearing and Depository Services Inc. ("CDS"). CDS makes this information available to brokers who provide it to unitholders through standard tax reporting.

⁶ This information is provided as at December 31 of the years shown.

⁷ Management expense ratio ("MER") is based on total fees and expenses (excluding commissions and other portfolio transaction costs) for the stated year, including the Fund's proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of average daily net asset value during the year.

⁸ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily net asset value during the stated year. Where the Fund invests in any underlying fund, the TER includes the Fund's proportionate share of the commissions of any underlying fund in which the Fund has invested.

⁹ Rounded to less than 0.01%.

¹⁰ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The management fees are calculated based on 0.55% per annum of the average daily net asset value of the Fund. The fees are accrued daily and are paid monthly in arrears. In addition, BlackRock Canada and/or an affiliate, as applicable, is entitled to receive management fees for acting as trustee or manager of any iShares ETF held by the Fund (“underlying product fee”). As the underlying product fees are embedded in the market value of any iShares ETF in which the Fund invests, the underlying product fees are paid indirectly by the Fund.

BlackRock Canada has adjusted the management fee payable by the Fund during the year to ensure that total annual fees paid directly and indirectly by the Fund to BlackRock Canada and/or its affiliate, as applicable, did not exceed 0.55% per annum (excluding GST and HST) of the Fund’s net asset value.

For the year ended December 31, 2018, the Fund accrued, directly and indirectly, \$961,452 (excluding GST and HST in the amount of \$88,367) in total annual fees (management fees and underlying product fees of \$935,304 and \$26,148, respectively).

The total annual fees were received by BlackRock Canada and/or its affiliate, as applicable, for managing the Fund’s portfolio and the portfolio of any iShares ETF in which the Fund invests, maintaining portfolio systems used to manage the Fund and any iShares ETF, maintaining the www.blackrock.com/ca website, and providing all other services including marketing and promotion.

Prior to the Reclassification Date, in accordance with the Declarations of Trust of certain Funds, BlackRock Canada, in its capacity as the Fund’s trustee and manager, was entitled to collect from Advisor Class Units a service fee paid to registered dealers whose clients held Advisor Class Units of the Fund. The service fee was calculated based on 0.75% per annum of the average daily net asset value of the Advisor Class Units of the Fund. The fees were accrued daily and were paid at the end of each calendar quarter. For the year ended December 31, 2018, the Fund accrued \$114,784 (excluding GST and HST in the amount of \$14,936) in service fees.

Past Performance

The following charts show past performance for each class of the Fund. The indicated rates of return (a) are the historical total returns including changes in net asset value per unit, and (b) assume reinvestment of all distributions during the period in additional units at the net asset value per unit at the time of the distribution. The reinvestment of distributions increases returns. These returns do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. These returns do not indicate how each class of the Fund will perform in the future.

The following tables show the annual compound total return for the Common Units of the Fund for the years ended on December 31, 2018. The annual compound return is compared to the returns of the following securities market indices calculated on the same basis:

Index Name	Description
S&P/TSX Capped Composite Index	The S&P/TSX Capped Composite Index is comprised of the largest (by market capitalization) and most liquid securities listed on the TSX, selected by S&P using its industrial classifications and guidelines for evaluating issuer capitalization, liquidity and fundamentals.
S&P/TSX Capped Financials Index	The S&P/TSX Capped Financials Index is comprised of securities of Canadian financial sector issuers listed on the TSX, selected by S&P using its industrial classifications and guidelines for evaluating issuer capitalization, liquidity and fundamentals.

Performance figures for the indices below are provided for comparative purposes only and are in Canadian dollars. Since the Fund's investment objective is not specifically to track the indices and the Fund is not managed relative to the composition of any of the indices, the performance of the Common Units class of the Fund may not reflect that of the indices.

Common Units	1 Year	3 Years	5 Years	10 Years
CEW	-12.68%	7.31%	5.94%	11.73%
S&P/TSX Capped Composite Index	-8.89%	6.37%	4.06%	7.92%
S&P/TSX Capped Financials Index	-9.22%	8.50%	6.88%	12.16%

Former Advisor Class unitholders had their units converted to Common units of the ETF based on the Conversion Ratio disclosed in the Recent Developments section as at the close of business on April 6, 2018. Assuming the former Advisor Class unitholders held the Common units they received as part of the Conversion until December 31, 2018, the returns those unitholders would have experienced for 2018 and for the other periods disclosed in the table above would have been substantially similar to those of the Common unitholders, when adjusted for the differences in the expenses of the ETF paid by each class.
