

Position your client portfolios for success

Portfolio Consulting Services powered by BlackRock

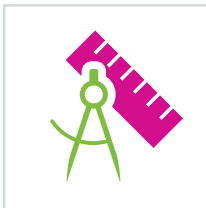

Wealth managers have long worked to redefine the value they provide to investors. In a world of rapidly changing technologies, products and regulations, we believe portfolio construction has become a critical and differentiating discipline.

Successful financial professionals will be those who consistently improve their portfolio construction and fund selection process to deliver greater value to their clients.

Customized consultations

Our Portfolio Consulting Services leverage the full breadth of global BlackRock resources and analytics to help wealth managers and financial advisors navigate the next generation of portfolio construction.

Our dedicated team can help you:

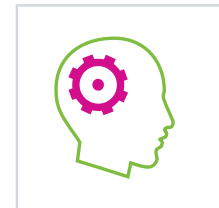

Measure the level of risk contained in your portfolio, understand the factors that drive portfolio risk and predict how your portfolio is expected to perform under various stress scenarios

Build, enhance or benchmark your portfolios, with a modular framework that allows you to blend ETFs with single stocks or mutual funds

Streamline your investment research process with objective insights into ways to lower fees, increase performance, diversify risk and enhance the scalability and efficiency of your practice

Leverage insights and actionable ideas with our market, asset class, and sub-asset class views

Why BlackRock

BlackRock is trusted to manage more money than any other investment manager in the world, helping millions of people and the world's biggest institutions and governments reach their investing goals.

BlackRock offers:

Global market and investment insights. Access to major asset classes gives BlackRock unparalleled market intelligence that can help drive results for clients.

A comprehensive set of innovative products. BlackRock offers a wide range of portfolio building blocks, including both indexed strategies and active products.

A sophisticated risk management platform. BlackRock created Aladdin®, to help manage risk and results on behalf of our client portfolios. In addition, many institutions rely on Aladdin to analyze and manage their own assets. Today, Aladdin is used to support the complex structures, asset classes and global nature of over 200 client assignments, including BlackRock's \$6.44 trillion in client assets.
