

# Comparing bank deposits to money market funds

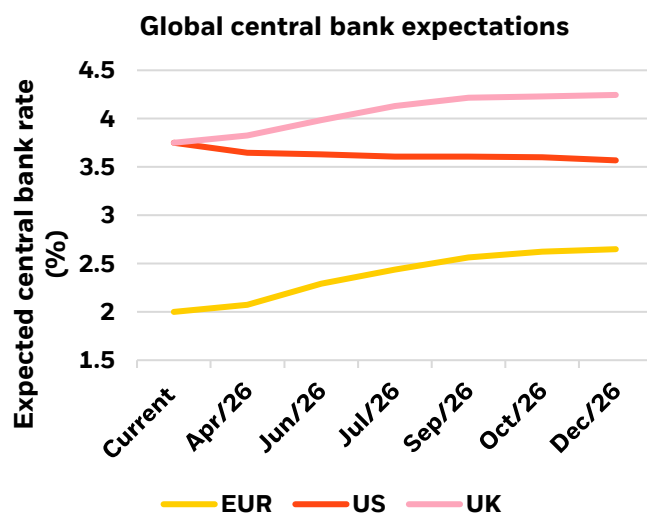

March 2026

In today's environment of elevated policy rates and heightened geopolitical uncertainty, money market funds (MMFs) remain a compelling cash management solution.

Since early 2025, central banks have shifted from aggressive rate cuts to a more cautious "higher-for-longer" stance, with the Federal Reserve, ECB, and Bank of England all signalling limited room for further easing.

This pivot, combined with the recent surge in oil prices and market volatility following the US-Israel conflict with Iran, has reinforced the need for liquidity, diversification and capital preservation. MMFs, which are actively managed and diversified across high-quality issuers, are well-positioned to capture attractive yields while mitigating single-counterparty risk whilst offering daily liquidity.

Against a backdrop of sticky inflation, geopolitical shocks and constrained monetary policy, MMFs provide a resilient and flexible alternative to traditional bank deposits.

Sources: BlackRock & Bloomberg. Forward Overnight Indexed Swap used. **There is no guarantee forecasts will come to pass** Data as of 31 March 2026.<sup>1</sup>

	Bank deposit	Money market fund
<b>Counterparty diversification</b>	Exposure to a single bank counterparty.	Investment in multiple counterparties resulting in diversification. <b>Risk:</b> Not FDIC insured.
<b>Liquidity</b>	Potential penalties for accessing cash prior to maturity of term deposit.	Most MMFs offer same or next-day liquidity with no lock up period. <b>Risk:</b> Product is not guaranteed by the bank and values may fluctuate such that you lose value. Liquidity fees and redemption gates remain mechanisms that may be incorporated in times of uncertainty.
<b>Operational ease</b>	Multiple bi-lateral agreements with banks typically required to achieve laddered and diversified investment. Multiple individual instructions may be required to execute.	Single transaction which can be executed in various ways. Instructions needed for subsequent redemptions and subscriptions.
<b>Yield</b>	Rates driven by bank funding needs, which can be volatile.	Active management of diversified money market securities allows for nimble positioning in changing market conditions. <b>Risk:</b> A MMF is not a guaranteed investment. Investment in MMFs can fluctuate and investors' capital is at risk.
<b>Fees</b>	Agreed between client and bank (often costs to break term agreements). <b>Risk:</b> Low interest rate and money may be locked for certain periods of time.	Costs and fees embedded in product, so yields are received net.

The table above is intended to provide a general summary and is not exhaustive. A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share.

1. There is no guarantee that any forecasts made will come to pass.

# Money market funds are a cash management solution that seek to achieve diversification, daily access to cash and operational ease.

## Risk

### We believe diversification is key.

A bank deposit results in sole credit exposure to that single banking counterpart. To diversify this exposure, an investor may seek to enter into bank deposits with many different banks.

MMFs are actively managed in accordance with offering documents as well as various regulatory and best practice thresholds. MMFs seek to mitigate risk by allocating across high-credit quality issuers and money market sectors (excluding Government MMFs). Concentration risk is managed through diverse issuer counterparty selection<sup>2</sup>.

## Liquidity

### MMFs are designed to provide daily liquidity.

Overnight deposits provide the same liquidity profile as MMFs. However, term deposits typically lock up your capital for a defined period of time, and depending on the agreement, it can be difficult to gain access to your capital before maturity.

MMFs are required to hold minimum levels of daily and weekly maturing assets to help provide sufficient liquidity to meet investors needs. The active management of MMFs allows the fund to tailor liquidity levels through changing market cycles.

## Fees

### Consider the cost of liquidity.

Depending on the agreement term, bank deposits may involve restrictions and/or penalties for accessing your capital before its maturity.

MMFs incorporate costs and fees within the product itself as a single charge. There are no additional fees for subscriptions. Liquidity fees and redemption gates remain mechanisms that may be incorporated to help maintain fair treatment towards all MMF investors in times of uncertainty.

2. Risk management cannot fully eliminate the risk of investment loss.

Diversification may not fully protect you from market risk.

## Yield

### Active management of MMFs allows for the potential of enhanced yield.

Deposits are issued either on a fixed- or floating-yield basis (often linked to an overnight reference rate). While the initial rate offered can often look attractive, we believe it is important to consider the 'break-even' compared to shorter-dated investments and how interest rate movements can impact the relative value.

MMFs blend highly-rated, short-term securities with longer-dated securities (final maturity of up to 13 months in short-term MMFs). The 'blend' of securities and duration exposures are determined by a team of portfolio managers' views on interest rates and market fundamentals. Thus often, MMFs can actively adapt their positioning in line with the latest market dynamics.

## Operational ease

### MMFs may achieve diversification whilst minimizing the volume of day-to-day operational needs.

Bank deposits are typically a direct bi-lateral agreement between the client and the bank. To achieve any level of counterparty and maturity diversification, multiple agreements may be needed to be executed with multiple banking entities, which can be resource intensive as they need to be rebooked each time.

Shares of MMFs can typically be traded directly with the MMFs transfer agent via various platforms. MMFs are also widely available across trading platforms with many execution options. After the initial subscription, only subsequent transactions based on your cash needs are required.

In most cases, MMFs can also benefit from a sweep functionality, which could automate the investment of surplus cash or the need to raise cash from existing holdings.

**For investors in Italy:**

**This document is marketing material:** Before investing please read the Prospectus and the PRIIPs KID available on [www.blackrock.com/it](http://www.blackrock.com/it), which contain a summary of investors' rights.

**Risk Warnings**

**Capital at risk.** The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

Changes in the rates of exchange between currencies may cause the value of investments to diminish or increase. Fluctuation may be particularly marked in the case of a higher volatility fund and the value of an investment may fall suddenly and substantially. Levels and basis of taxation may change from time to time and depend on personal individual circumstances.

**A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share. Further information about the funds, including the methods used by the MMF to value the assets of the MMF and calculate the NAV, are available at [blackrock.com/cash](http://blackrock.com/cash).**

**For investors in Central America,** these securities have not been registered before the Securities Superintendence of the Republic of Panama, nor did the offer, sale or their trading procedures. The registration exemption has made according to numeral 3 of Article 129 of the Consolidated Text containing of the Decree-Law No. 1 of July 8, 1999 (institutional investors). Consequently, the tax treatment set forth in Articles 334 to 336 of the Unified Text containing Decree-Law No. 1 of July 8, 1999, does not apply to them. These securities are not under the supervision of the Securities Superintendence of the Republic of Panama. The information contained herein does not describe any product that is supervised or regulated by the National Banking and Insurance Commission (CNBS) in Honduras. Therefore any investment described herein is done at the investor's own risk. This is an individual and private offer which is made in Costa Rica upon reliance on an exemption from registration before the General Superintendence of Securities ("SUGEVAL"), pursuant to articles 7 and 8 of the Regulations on the Public Offering of Securities ("Reglamento sobre Oferta Pública de Valores"). This information is confidential, and is not to be reproduced or distributed to third parties as this is NOT a public offering of securities in Costa Rica. The product being offered is not intended for the Costa Rican public or market and neither is registered or will be registered before the SUGEVAL, nor can be traded in the secondary market. If any recipient of this documentation receives this document in El Salvador, such recipient acknowledges that the same has been delivered upon their request and instructions, and on a private placement basis. In Guatemala, this communication and any accompanying information (the "Materials") are intended solely for informational purposes and do not constitute (and should not be interpreted to constitute) the offering, selling, or conducting of business with respect to such securities, products or services in the jurisdiction of the addressee (this "Jurisdiction"), or the conducting of any brokerage, banking or other similarly regulated activities ("Financial Activities") in the Jurisdiction.

Neither BlackRock, nor the securities, products and services described herein, are registered (or intended to be registered) in the Jurisdiction. Furthermore, neither BlackRock, nor the securities, products, services or activities described herein, are regulated or supervised by any governmental or similar authority in the Jurisdiction. The Materials are private, confidential and are sent by BlackRock only for the exclusive use of the addressee. The Materials must not be publicly distributed and any use of the Materials by anyone other than the addressee is not authorized. The addressee is required to comply with all applicable laws in the Jurisdiction, including, without limitation, tax laws and exchange control regulations, if any.

**For investors in the Caribbean,** For investors in the Caribbean, any funds mentioned or inferred in this material have not been registered under the provisions of the Investment Funds Act of 2003 of the Bahamas, nor have they been registered with the securities regulators of Bermuda, Dominica, the Cayman Islands, the British Virgin Islands, Grenada, Trinidad & Tobago or any jurisdiction in the Organisation of Eastern Caribbean States, and thus, may not be publicly offered in any such jurisdiction. The shares of any fund mentioned herein may only be marketed in Bermuda by or on behalf of the fund or fund manager only in compliance with the provision of the Investment Business Act 2003 of Bermuda and the Companies Act of 1981. Engaging in marketing, offering or selling any fund from within the Cayman Islands to persons or entities in the Cayman Islands may be deemed carrying on business in the Cayman Islands. As a non-Cayman Islands person, BlackRock may not carry on or engage in any trade or business unless it properly registers and obtains a license for such activities in accordance with the applicable Cayman Islands law. In the Dominican Republic, any securities mentioned or inferred in this material may only be offered in a private character according to the laws of the Dominican Republic, falling beyond the scope of articles 1 numeral (31), 46 et al of Law 249-17 dated 19 December 2017, as amended and its Regulations. Since no governmental authorizations are required in such offering, any "securities" mentioned or inferred in this material have not been and will not be registered with the Stock Market Superintendency of the Dominican Republic (Superintendencia de Mercado de Valores de la República Dominicana), and these "securities" may only be circulated, offered and sold in the Dominican Republic in a private manner based on the criteria established under Dominican laws and regulations.

**United Arab Emirates:** This material is for distribution to Professional Clients (as defined by the FCA or MiFID Rules) and Qualified Investors only and should not be relied upon by any other persons.

BlackRock Advisors (UK) Limited -Dubai Branch is a DIFC Foreign Recognised Company registered with the DIFC Registrar of Companies (DIFC Registered Number 546), with its office at Unit L15 - 01A, ICD Brookfield Place, Dubai International Financial Centre, PO Box 506661, Dubai, UAE, and is regulated by the DFSA to engage in the regulated activities of 'Advising on Financial Products' and 'Arranging Deals in Investments' in or from the DIFC, both of which are limited to units in a collective investment fund (DFSA Reference Number F000738).
