

BlackRock ICS US Dollar Liquidity Fund - Core (Dis) Shares USD

BlackRock

Institutional Cash Series plc

December 2023 Minimum Disclosure Document

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 31-Dec-2023. All other data as at 15-Jan-2024.

This document supplements the Key Investor Document (KIID) / Minimum Disclosure Document for South African Investors.

FUND OVERVIEW

The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold in normal market conditions. Money invested in the Fund is not protected or guaranteed. The Fund invests in a broad range of fixed income securities (such as bonds) and MMLs (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e. banks). The investment manager will take into account certain environmental social and governance criteria when selecting investments, as detailed in the Fund's prospectus. The Fund is a "Short Term Low Volatility Variable Net Asset Value Money Market Fund "Fund"(or LVNAV) as defined by the EU Money Market Funds Regulations. Details of the current credit ratings (if any) attributed to the Fund are available from www.blackrock.com/cash. The Fund's assets may be issued or guaranteed by United States (or non US issuers including governments, government agencies, companies and supranationals and shall always be denominated in US Dollars. They will be rated high quality (i.e. meet a specified level of credit worthiness) at the time of purchase. The Fund will limit its investment to assets which have 397 days or less remaining until the full principal must be repaid. The weighted average maturity (i.e. the average length of time to the date when the principal of the asset is to be repaid in full (in respect of Interest rate notes, the average length of time to the next interest rate reset to a money market rate) of all of the Fund's assets will be up to 60 days. The weighted average life (i. the average length of time to the date when the principal of the assets is to be repaid in full) of all of the Fund's assets will be up to 120 days. The Fund may also enter into reverse repurchase agreements on a short term basis. Through these, the Fund agrees to purchase government securities from certain eligible third parties for cash and that the seller can buy these back at an agreed time and price. The Fund is actively managed. The investment manager has discretion to select the Fund's investments and is not constrained by any benchmark in this process. The Secured Overnight Financing Rate (should be used by investors to compare the performance of the Fund. LVNAV Funds are valued using a mixture of the amortised cost and mark to market method (i. a valuation based on current market prices) where possible, and, if not available, the mark to model method (i. a valuation based on a Financial model). The NAV may be rounded for dealing purposes. A comparative NAV is also calculated using the mark to market method where possible, and if not, the mark to model method, to four decimal places daily. Recommendation: This Fund may not be suitable for investors who seek long term capital growth. Your shares will be distributing shares (i. dividend income will be paid on the shares monthly). The share class seeks to maintain a stable net asset value per share however this is not guaranteed. Your shares will be denominated in US Dollar, the Fund's base currency. You can buy and sell your shares daily. The Fund is valued at multiple valuation points throughout each day in order to offer investors the ability to buy and sell shares at multiple times during the day. The minimum initial investment for this share class is US\$1,000,000. For more information on the Fund, share/unit classes, valuation methodology, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com. Rated by S&P (AAAm), Moody's (Aaa-mf), and Fitch (AAAmmf). The Fund is rated by an external rating agency(ies). Such rating is solicited and financed by BlackRock.

Synthetic Risk & Reward Indicator (SRRI)

Lower Risk

Higher Risk

Potentially Lower Rewards

Potentially Higher Rewards

KEY RISKS: A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share. Short Term Money Market Funds do not generally experience extreme price variations. Changes in interest rates will impact the Fund. On any day where the net return (i.e. return less costs and expenses) of the Fund is negative an Accumulating Share Class of the fund will see a decrease in the NAV per Share.

ESG Risk: The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.

Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.

Capital at Risk: All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed.

SFDR Classification - Article 8 : products that promote environmental or social characteristics and promote good governance practices.

The Fund is actively managed. The investment manager has discretion to select the Fund's investments and is not constrained by any benchmark in this process. The Secured Overnight Financing Rate (SOFR) should be used by investors to compare the performance of the Fund. On the 26 November 2021, the benchmark changed to Secured Overnight Financing Rate (SOFR). Prior to the change, the Fund benchmark was USD 1-Week LIBID.

KEY FACTS

Allocations are subject to change. Source: BlackRock

The Fund is rated by an external rating agency(ies). Such rating is solicited and financed by BlackRock

Sector exposure is calculated by aggregating the percent par of individual securities in the portfolio by security type. BlackRock uses a proprietary process to determine the security type of individual securities, by conducting a thorough analysis of the issuer/obligor, including but not limited to any support providers or enhancers. The values reported include cash, accrued income, and/or payables/receivables which may result in negative weightings from specific circumstances (including timing differences between trade and settle dates of securities purchased by the funds). Allocations are subject to change

Business Involvement

Business Involvement metrics can help investors gain a more comprehensive view of specific activities in which a fund may be exposed through its investments. Business Involvement metrics are not indicative of a fund's investment objective, and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

Business Involvement

MSCI - Controversial Weapons	0.00%
MSCI - Nuclear Weapons	0.00%
MSCI - Civilian Firearms	0.00%
MSCI - Tobacco	0.00%
Percentage of Fund not covered	26.80%

MSCI - UN Global Compact Violators	0.00%
MSCI - Thermal Coal	0.00%
MSCI - Oil Sands	0.00%
Business Involvement Coverage	73.20%

BlackRock business involvement exposures as shown above for Thermal Coal and Oil Sands are calculated and reported for companies that generate more than 5% of revenue from thermal coal or oil sands as defined by MSCI ESG Research. For the exposure to companies that generate any revenue from thermal coal or oil sands (at a 0% revenue threshold), as defined by MSCI ESG Research, it is as follows: Thermal Coal 0.00% and for Oil Sands 0.00%. Business Involvement metrics are calculated by BlackRock using data from MSCI ESG Research which provides a profile of each company's specific business involvement. BlackRock leverages this data to provide a summed up view across holdings and translates it to a fund's market value exposure to the listed Business Involvement areas above. Business Involvement metrics are designed only to identify companies where MSCI has conducted research and identified as having involvement in the covered activity. As a result, it is possible there is additional involvement in these covered activities where MSCI does not have coverage. This information should not be used to produce comprehensive lists of companies without involvement. Business Involvement metrics are only displayed if at least 1% of the fund's gross weight includes securities covered by MSCI ESG Research.
