Explanatory notes

If you have any questions about your organisation's classification, please contact your tax adviser. Certain capitalised terms in these Explanatory Notes are not defined herein, for the meaning of these terms please see the relevant Tax Regulations.

Definitions common to FATCA and CRS

1 Tax Regulations

The term 'Tax Regulations' refers to laws, treaties and regulations created to enable automatic exchange of tax information and include FATCA, the CRS and any regulations, guidance or intergovernmental agreements implementing or similar to the same².

2 FATCA and CRS

'FATCA' means sections 1471 to 1474 of the United States ('US') Internal Revenue Code and the US Treasury regulations and official guidance issued thereunder, as amended from time to time together with any intergovernmental agreement implementing the same.

'CRS' means the OECD Common Reporting Standard for Automatic Exchange of Financial Account Information.

3 Non-Profit Organisation

The term 'Non-Profit Organisation' means an Entity that meets ALL of the following criteria:

- (a) it is established and operated in its jurisdiction of residence exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or it is established and operated in its jurisdiction of residence and it is a professional organisation, business league, chamber of commerce, labour organisation, agricultural or horticultural organisation, civic league or an organisation operated exclusively for the promotion of social welfare;
- (b) it is exempt from income tax in its country of residence;
- (c) it has no shareholders or members who have a proprietary or beneficial interest in its income or assets;
- (d) the applicable laws of the Entity's country of residence or the Entity's formation documents do not permit any income or assets of the Entity to be distributed to, or applied for the benefit of, a private person or non-charitable Entity other than pursuant to the conduct of the Entity's charitable activities, or as payment of reasonable compensation for services rendered, or as payment representing the fair market value of property which the Entity has purchased; and
- (e) the applicable laws of the Entity's country of residence or the Entity's formation documents require that, upon the Entity's liquidation or dissolution, all of its assets be distributed to a governmental Entity or other non-profit organisation, or escheat to the government of the Entity's country of residence or any political subdivision thereof.

4 Controlling Persons

The term 'Controlling Persons' means the natural persons who exercise control over an entity. In the case of a trust, such term means the settlor, the trustees, the protector (if any), the beneficiaries or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions. The term 'Controlling Persons' must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

'Control' over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest in the Entity. A 'control ownership interest' depends on the ownership structure of the legal person and is usually identified on the basis of a threshold applying a risk-based approach (e.g. any person(s) owning more than a certain percentage of the legal person, such as 25%). Where no natural person(s) exercises control through ownership interests, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is identified as exercising control of the Entity, the Controlling Person(s) of the Entity will be the natural person(s) who holds the position of senior managing official.

5 Entity

The term 'Entity' means a legal person or a legal arrangement, such as a corporation, organisation, partnership, trust or foundation.

A money market fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. An MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share. The credit ratings were solicited and financed by BlackRock.

Further information about the funds, including the methods used by the MMF to value the assets of the MMF and calculate the NAV, are available at www.blackrock.com/cash
