The following funds are registered as constant NAV UK reporting funds. Under normal circumstances these funds would not be required to report information to investors on an annual basis, however, in the period to 30 September 2016 these funds maintained a constant NAV through the operation of a reverse distribution mechanism, which does not meet the definition of a constant NAV fund for UK reporting fund purposes. On this basis, these funds have reported the information necessary to comply with the UK reporting fund regulations, such that they maintain their status as UK reporting funds.
