BlackRock ICS Sterling Liquidity Fund

A sub-fund of Institutional Cash Series plc

Class Premier Distributing GBP

ISIN: IE00B3L10356

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold (in normal market conditions). Money invested in the Fund is not protected or guaranteed.
- ▶ The Fund invests in a broad range of high credit quality fixed income securities (such as bonds) and MMIs (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e.g. banks).
- ▶ The investment manager will take into account certain environmental social and governance criteria when selecting investments, as detailed in the Fund's prospectus.
- ▶ The Fund is a "Short Term Low Volatility Variable Net Asset Value Money Market Fund" (or LVNAV) as defined by the EU Money Market Funds Regulations. Details of the current credit ratings (if any) attributed to the Fund are available from www.blackrock.com/cash.
- ▶ The Fund will limit its investment to assets which have 397 days or less remaining until the full principal must be repaid. The weighted average maturity (i.e. the average length of time to the date when the principal of the asset is to be repaid in full (or, in respect of interest rate notes, the average length of time to the next interest rate reset to a money market rate) of all of the Fund's assets will be up to 60 days. The weighted average life (i.e. the average length of time to the date when the principal of the assets is to be repaid in full) of all of the Fund's assets will be up to 120 days.
- ▶ The Fund may also enter into reverse repurchase agreements on a short term basis. Through these, the Fund agrees to purchase government securities from certain eligible third parties for cash and that the seller can buy these back at an agreed time and price.
- ▶ The Fund's assets may be issued or guaranteed by both United Kingdom (UK) and non-UK issuers including governments, government agencies, companies and supranationals and shall always be denominated in Sterling. They will be rated high quality (i.e. meet a specified level of credit worthiness) at the time of purchase.
- ▶ The Fund is actively managed. The investment manager has discretion to select the Fund's investments and is not constrained by any benchmark in this process. The Sterling Overnight Index Average Rate (SONIA) should be used by investors to compare the performance of the Fund.
- ▶ LVNAV Funds are valued using a mixture of the amortised cost and mark-to-market method (i.e. a valuation based on current market prices) where possible, and, if not available, the mark to model method (i.e. a valuation based on a financial model). The NAV may be rounded for dealing purposes. A comparative NAV is also calculated using the mark-to-market method where possible, and if not, the mark-to-model method, to four decimal places daily.
- ▶ Recommendation: This Fund may not be suitable for investors who seek long-term capital growth.
- ▶ The share class seeks to maintain a stable net asset value per share however this is not guaranteed.
- ▶ Your shares will be distributing shares (i.e. dividend income will be paid on the shares monthly).
- ▶ Your shares will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your shares daily. The Fund is valued at multiple valuation points throughout each day in order to offer investors the ability to buy and sell shares at multiple times during the day. The minimum initial investment for this share class is £500,000,000.

- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated one due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

- Short Term Money Market Funds do not generally experience extreme price variations. Changes in interest rates will impact the Fund.
