BlackRock Global Funds

6th May 2024

*To the shareholders of:
BlackRock Global Funds – Emerging Europe Fund
ISINs in the scope of this letter are listed in **Appendix I***

Dear Shareholder,

Reference is made to the letter sent to you on 18th March 2024 (the “**Letter**”).

As we informed you of, on 29 November 2023, the board of directors (the “**Directors**”) of BlackRock Global Funds (the “**Company**”) took the decision to proceed with the transfer of the liquid and tradeable portion of assets (the “**Liquid Assets**”) of the Emerging Europe Fund (the “**Fund**”) to a newly created sub-fund, Emerging Europe II Fund, hereafter referred to as the “**Receiving Fund**” (the “**Split**”).

The Directors would like to highlight that the Split will be effective on 13th May 2024 (the “**Split Effective Date**”). As from this date, you will remain invested in the Fund and will receive shares on a pro-rata basis in the Receiving Fund. You will be able to redeem your shares in the Receiving Fund from the first Dealing Day following the Split Effective Date in accordance with the terms of the Prospectus. The Receiving Fund will continue to be closed to subscriptions until the Repositioning Effective Date, as defined below.

This letter is to inform you that the Receiving Fund will change its investment objective, policy and name to “Emerging Markets Ex-China Fund” (the “**Repositioning**”), this with effect from 17th June 2024 (the “**Repositioning Effective Date**”).

As previously mentioned in the Letter, the Directors consider that this change will provide greater and broader opportunities for shareholders given the expanded investment universe through exposure to global emerging countries. The Repositioning will aim also to attract a greater range of investment and will increase the potential for shareholders to benefit from economies of scale over time.

Transaction and trading costs resulting from the change of investment policy and investment objective of the Receiving Fund associated with the sale of securities prior to the Repositioning Effective Date will be borne by the **Receiving Fund**.

Shareholders should note that the sale and purchase of securities necessary for the Receiving Fund to align its portfolio with its new investment objective and policy will begin up to two weeks prior to the Repositioning Effective Date. As a result, the Receiving Fund may not fully comply with its investment objective and policy (as set out in Appendix III) during this period of two weeks prior to the Repositioning Effective Date.

From the Repositioning Effective Date, management fees, distribution fee or CDSC, as may be applicable will be charged again, in accordance with the provisions of the Prospectus.

Shareholders will be entitled, free of charge, until 12 noon Central European Time on 14th June 2024 to redeem their shares in the Receiving Fund.

For further details regarding the Repositioning, shareholders should refer to Appendix II and Appendix III related to the investment objective of the Receiving Fund following the Repositioning, its base currency, and the change of the share classes after Repositioning and as well as the Letter. A copy thereof can be obtained free of charge from the registered office of the Company.

We also advise you to carefully read the KID of the Receiving Fund showing the investment policy as of the Repositioning Effective Date, **as enclosed to this letter under Appendix IV or as available upon request from the registered office or from your local representative.**

Terms not defined in this letter have the same meaning given to them in the Company's prospectus (available at www.blackrock.com) (the "**Prospectus**").

Appendix II – Investment objective and policy of the Receiving Fund as of the Repositioning Effective Date

The **Emerging Markets Ex-China Fund** seeks to maximise total return through a combination of capital growth and income on Fund assets. The Fund invests globally at least 80% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, emerging markets, excluding China. Investments may also be made in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, developed markets that have significant business operations in emerging markets (excluding China).

The Fund may indirectly invest in emerging markets securities (excluding China) by investing in American Depository Receipts (ADRs) and Global Depository Receipts (GDRs), which are listed or traded on stock-exchanges and regulated markets outside emerging markets. ADRs and GDRs are investments issued by financial institutions which give exposure to underlying equity securities.

The Fund may use derivatives for investment purposes and for the purposes of efficient portfolio management.

Risk management measure used: Commitment Approach.

Benchmark use

The Fund is actively managed, and the Investment Adviser has discretion to select the Fund's investments. In doing so, the Investment Adviser will refer to the **MSCI Emerging Markets Ex-China 10/40 Index** (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The Investment Adviser is not bound by the components or weighting of the Index when selecting investments. The Investment Adviser may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the geographical scope of the investment objective and policy may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by investors to compare the performance of the Fund.

What happens if BlackRock (Luxembourg) S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, The Bank of New York Mellon SA / NV, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario. USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	757 USD	1,828 USD
Annual cost Impact (*)	8.0%	3.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.0% before costs and 0.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early? Recommended Holding Period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.
