## Engagements by region

America : **1,740** | Europe, Middle East, and Africa (EMEA) : **801** | Asia-Pacific : **960**

BlackRock Investment Stewardship (BIS) views engagement as a key mechanism for providing feedback or signaling concerns to companies about factors that affect long-term performance. We define an engagement as a meeting between BIS and a company where meaningful dialogue occurred.

The table below summarizes our global company engagement activity from 1 January 2020 to 31 December 2020. The data is broken down by region and sector, and includes the specific topics discussed with each company engaged. We will update this report quarterly to show a rolling year of engagements, providing transparency into the range of topics we discuss with the companies in which we invest on behalf of our clients.

Points of note:

- Company engagements may cover multiple topics within a single meeting and are focused on our engagement priorities
- Sectors are defined by the Global Industry Classification Standard (GICS) sector level one breakdown. GICS is a standardized classification system used to sort business entities by sector and industry groups
