

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

iShares Euro Corporate Bond ESG SRI Index Fund (IE) (the "Fund"), **Flex Accu GBP** (the "Share Class"), ISIN: **IE00029JTMU3**, is authorised in Ireland and manufactured by BlackRock Asset Management Ireland Limited (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Ireland and regulated by the Central Bank of Ireland (the "CBI") and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling **+353 1 612 3394**. This document is dated 09 April 2026.

What is this product?

Type: The Fund is a sub-fund of BlackRock Fixed Income Dublin Funds plc, an umbrella company incorporated in Ireland, authorised by the Central Bank of Ireland as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to achieve a total return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the iBoxx MSCI ESG SRI EUR Corporates Index ("Index").
- The Fund invests in fixed income (FI) securities (such as bonds) which predominantly make up the Index (which comprises corporate bonds) and comply with the index provider's socially responsible investment ("SRI") requirements and/or environmental, social and governance ("ESG") requirements and other eligibility criteria. For further details please refer to the prospectus.
- The Benchmark Index applies the EU Paris-aligned Benchmark Exclusions
- Companies are excluded from the Index if they are involved in certain business lines/activities, as outlined in the Index description of the Fund in the Fund's Prospectus. Issuers that are in violation of United Nations Global Compact principles or OECD Guidelines for Multinational Enterprises are also excluded from the Index.
- The Index measures the performance of investment grade, euro dominated FI securities of corporate issuers, which pay income according to a fixed rate of interest and meet the Index provider's SRI / ESG requirements. and other eligibility criteria.
- The FI securities will at the time of inclusion in the Index, meet the index provider's SRI/ESG requirements and be investment grade (i.e. meet a specified level of credit worthiness) or deemed by the investment manager (IM) to be of equivalent at the time of purchase. If the credit rating of a FI security is downgraded or if it no longer complies with the SRI/ ESG requirements, the Fund may continue to hold the security, until it is practicable to sell it.
- The Fund uses techniques for efficient portfolio management purposes (i.e. to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income). These techniques may include the strategic selection of certain securities that make up the Index or other FI securities which provide similar performance to certain constituent securities. They may also include the use of financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets).
- Where the Fund invests in assets denominated in a currency other than Euro, it will use FDIs in order to reduce the effect of fluctuations in the exchange rate between that other currency and Euro.
- The Fund is passively managed and is designed to provide investors with a selected exposure to the Index.
- The price of FI securities may be affected by changing interest rates which in turn may affect the value of your investment. FI securities prices move inversely to interest rates. Therefore, the market value of FI securities may decrease as interest rates increase. The credit rating of an issuing entity will generally affect the yield that can be earned on FI securities; the better the credit rating the smaller the yield.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depositary of the Fund is J.P. Morgan SE – Dublin Branch.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Fixed Income Dublin Funds plc. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the BlackRock website at: www.blackrock.com or the iShares website at: www.ishares.com or by calling the International Investor Servicing team on +353 1612 3394.
- Your shares will be accumulating shares (i.e. dividend income will be included in their value).
- The Fund's base currency is Euro. Shares for this class are bought and sold in Sterling. The performance of your shares may be affected by this currency difference.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- You can buy and sell your shares daily. The minimum initial investment for this share class is £500,000.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
 <p>The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.</p>						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 2 out of 7, which is a low risk class. This classification rates the potential losses from future performance at a low level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 3 years		Example Investment : GBP 10,000	
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	8,420 GBP	7,520 GBP
	Average return each year	-15.8%	-9.1%
Unfavourable**	What you might get back after costs	8,420 GBP	8,570 GBP
	Average return each year	-15.8%	-5.0%
Moderate**	What you might get back after costs	10,250 GBP	10,570 GBP
	Average return each year	2.5%	1.9%
Favourable**	What you might get back after costs	11,090 GBP	12,370 GBP
	Average return each year	10.9%	7.3%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between :

Scenarios	1 year	3 years
Unfavourable	September 2021 - September 2022	September 2019 - September 2022
Moderate	March 2016 - March 2017	August 2017 - August 2020
Favourable	September 2023 - September 2024	October 2022 - October 2025

What happens if BlackRock Asset Management Ireland Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, J.P. Morgan SE – Dublin Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	3 GBP	10 GBP
Annual cost Impact (*)	0.0%	0.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.9% before costs and 1.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	-
Exit costs	We do not charge an exit fee.	-

Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.03% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	3 GBP
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 GBP

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	-
