BLACKROCK FUNDS I ICAV

GENERAL INFORMATION (continued)

Entity registration number: C178885

For Swiss investors: The prospectus of the Entity, Articles of Association, the Key Information Documents ("KID"), the Packaged Retail and Insurance-based Investment Products Key Information Documents ("PRIIP KID"), the latest published annual and interim Report and Financial Statements, as applicable and a detailed list of investments purchased and sold for each Fund during the financial year may be obtained on request and free of charge from the representative in Switzerland.

Please note that no notification for the distribution of shares according to section 310 for UCITS of the German Capital Investment Code (Kapitalanlagegesetzbuch) has been made for the following Fund: BlackRock Systematic Equity Factor Plus Fund. Therefore, shares of this Fund may not be distributed in the Federal Republic of Germany.

The Fund is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 1742.

BLACKROCK FUNDS I ICAV

BACKGROUND

BlackRock Funds I ICAV (the “Entity”) is an Irish collective asset-management vehicle. The Entity was incorporated in Ireland on 8 March 2018 with segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland (“CBI”) pursuant to the Irish Collective Asset-Management Vehicles Act 2015 (the “ICAV Act 2015”) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Entity is structured as an umbrella fund and comprises of separate funds (“Fund”) of the Entity. The shares of each Fund may be grouped into different classes of shares (each a “share class”). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another. However, the Entity is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation of liability.

The term “Fund” or “Financial Product” shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term “BlackRock” and “Investment Manager” are used to represent BlackRock Investment Management (UK) Limited as appropriate. All references to “redeemable shares” shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term “Directors” means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

Fund details

The Entity had 16 Funds in operation as at 30 April 2026.

The following Funds terminated operations in prior years and are pending revocation by the CBI. Financial statements continue to be prepared for the BlackRock Emerging Markets ESG Screened Fund as the Fund still holds financial assets at the balance sheet date. No audited financial statements have been prepared for the other terminated Funds as no financial assets are held by such Funds and final termination audited financial statements have been prepared in a prior year.

- BlackRock Emerging Markets ESG Screened Fund
- BlackRock Euro-Markets ESG Screened Fund
- BlackRock Global Impact Fund
- BlackRock US Flexible Equity ESG Screened Fund

Changes to the Entity during the financial year

On 22 May 2025, the Class A SEK Hedged Accumulating was launched for the BlackRock Tactical Opportunities Fund.

On 30 May 2025, the BlackRock Systematic ESG Equity Absolute Return Fund was terminated.

On 5 June 2025, an updated prospectus was issued for the Entity to incorporate the following changes:

- Updates to the information of directors of the Manager and the Entity.
- Update to the benchmark index for BlackRock Tactical Opportunities Fund.

On 6 June 2025, the Class W NOK Accumulating and Class W SEK Accumulating were launched for the BlackRock Global Unconstrained Equity Fund.

Effective 21 July 2025, the registered address of the Manager was updated to 3rd Floor, Glencar House, 20 Merrion Road, Dublin 4, D04 T9F3.

On 29 July 2025, the Class D GBP Accumulating was launched for the BlackRock Advantage Emerging Markets Equity Fund.

On 18 September 2025, the Class D JPY Hedged Accumulating was launched for the BlackRock Tactical Opportunities Fund.

On 25 September 2025, the Class D GBP Accumulating was launched for the BlackRock Advantage World Equity Fund.

With effect from 7 October 2025, Francis Drought resigned as a non-executive Director and Andrew Alabaster was appointed as a non-executive Director.

With effect from 8 October 2025, Niall Ryan was appointed as a non-executive Director.

On 13 October 2025, an updated prospectus was issued for the Entity to facilitate the updates on launch of new share classes.

On 14 October 2025, the Class X EUR Accumulating was launched for the BlackRock Global Unconstrained Equity Fund.

On 11 December 2025, an updated prospectus was issued for the Entity with updates to environmental, social and governance (“ESG”) notes.

BLACKROCK FUNDS I ICAV

BACKGROUND (continued)

Changes to the Entity during the financial year (continued)

Effective 31 December 2025, the Secretary, Apex Group Corporate Administration Services Ireland Limited, merged into Apex IFS Limited as part of an intra-group restructuring and was subsequently renamed Apex IFS Limited.

On 7 January 2026, the Class D SGD Hedged Accumulating was launched for the BlackRock Tactical Opportunities Fund.

On 20 January 2026, the Class A USD Accumulating was launched for the BlackRock Systematic Multi-Strategy Fund.

On 30 January 2026, an updated prospectus was issued for the Entity to facilitate the updates on launch of new share classes.

On 27 February 2026, an updated prospectus was issued for the Entity to include the approval of a new fund, BlackRock Islamic Multi-Asset Fund.

On 3 March 2026, the Class D GBP Accumulating was launched for the BlackRock Advantage Europe ex UK Equity Fund.

On 19 March 2026, the Class X GBP Hedged Accumulating was launched for the BlackRock Advantage World Equity Fund.

On 24 March 2026, an updated prospectus was issued for the Entity to facilitate the updates on launch of new share classes.

On 27 March 2026, an updated prospectus was issued for the Entity to include the approval of a new fund, BlackRock Advantage ASEAN Equity Fund.

On 1 April 2026, an updated prospectus was issued for the Entity to facilitate the additional updates in respect to the BlackRock Islamic Multi-Asset Fund.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT

BlackRock Advantage Asia ex Japan Equity Fund BlackRock Advantage Emerging Markets Equity Fund BlackRock Advantage Europe Equity Fund BlackRock Advantage Europe ex UK Equity Fund

The investment objective of each Fund is to achieve long-term capital growth.

BlackRock Advantage Global Corporate Credit Screened Fund

The investment objective of the Fund is to provide a total return in the form of capital growth and income and invest in a manner consistent with the principles of environmental, social and governance ("ESG") focused investing.

BlackRock Advantage Global High Yield Credit Screened Fund

The investment objective of the Fund is to provide a total return in the form of capital growth and income.

BlackRock Advantage Emerging Markets ex China Equity Fund

BlackRock Advantage US Equity Fund BlackRock Advantage World Equity Fund

The investment objective of the Fund is to achieve long-term capital growth, in a manner consistent with the principles of sustainable investing.

BlackRock Global Target Return: Conservative Fund

The investment objective of the Fund is to provide a total return in the form of capital and income, whilst targeting a conservative risk profile.

BlackRock Global Target Return: Growth Fund

The investment objective of the Fund is to provide a total return in the form of capital and income, whilst targeting a growth risk profile.

BlackRock Global Target Return: Moderate Fund

The investment objective of the Fund is to provide a total return in the form of capital and income, whilst targeting a moderate risk profile.

BlackRock Global Unconstrained Equity Fund

The investment objective of the Fund is to achieve long-term capital growth by investing in a global portfolio of equity securities.

BlackRock Systematic Equity Factor Plus Fund

The investment objective of the Fund is to provide a total return taking into account both capital and income returns, whilst investing in a manner consistent with the principles of sustainable investing.

BlackRock Systematic ESG Equity Absolute Return Fund

The investment objective of the Fund was to provide an absolute return with a limited correlation to market movements, in a manner consistent with ESG focused investing.

BlackRock Systematic Multi-Strategy Fund

The investment objective of the Fund is to provide a total return in the form of capital and income.

BlackRock Tactical Opportunities Fund

The investment objective of the Fund is to provide an absolute return with a limited correlation to market movements.

Investment management approach and environmental, social and governance ("ESG") policy

The following table outlines the investment management approach adopted for each Fund. It also identifies which Funds promote environmental or social characteristics ("Article 8 Funds") or have sustainable investments as their objective ("Article 9 Funds"), under the EU Sustainable Finance Disclosure Regulation ("SFDR"). Further detail around how Article 8 and Article 9 Funds have achieved these characteristics and objectives is included in the SFDR disclosures supplementary section to the Annual Report.

For any other Funds that do not meet the SFDR criteria for Article 8 or 9 Funds, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator ("PAI") data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all portfolios and these risks may coincide with environmental or social themes associated with the PAIs, unless stated otherwise in the prospectus, each Fund does not commit to considering PAIs in driving the selection of its investments.

²The Fund terminated on 30 May 2025.

Performance summary

The following table outlines the realised Fund performance for the twelve-month period ended 30 April 2026.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees and expenses charged directly within the relevant share class, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. The return of the primary share class disclosed may differ to the aggregate Fund performance for all share classes as reported in the financial statements primarily due to the impact of foreign currency translation and share class specific expenses. Performance returns for any other share class can be made available on request.
- Fund returns are based on the net asset value ("NAV") calculated in accordance with the prospectus for the financial year under review with any dividends reinvested. Due to Financial Reporting Standard 102 ("FRS 102") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.

¹ The Fund ceased trading during the financial year. Returns are shown from the first date of the financial year to the termination date.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements as well as PRIIP KIDs form an integral part, copies of which are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or the Distributor.

Global economic overview

Global equities, as represented by the MSCI All Country World Index, returned 31% (in USD terms) during the twelve months ended 30 April 2026. Equities gained amid lower inflation (the rate of increase in the prices of goods and services), easing monetary policy from the world's largest central banks and strong corporate performance, especially in the technology sector. However, rising geopolitical tensions, including the intensifying conflict in the Middle East as well as the introduction of protectionist trade policies in the US, raised the prospect of significant disruption to the global economy.

Economic growth in the US recovered from a subdued start to 2025, however growth for the fourth quarter of 2025 undershot expectations, in part as a result of the extended government shutdown that began in October 2025. US gross domestic product ("GDP") expanded rapidly in early 2026 but remained weaker than forecast. In Japan, GDP rose quickly than expected in the second quarter of 2025 but underperformed expectations in the third and fourth quarters of 2025. UK economic output was positive in early 2025 but slowed as the year progressed. Eurozone GDP growth held steady at 0.3% in both the third and fourth quarters of 2025, but decelerated in the first quarter of 2026.

Major emerging markets continued to expand, with the resilience of the US economy providing support despite concerns related to President Donald Trump's tariff policies and energy market disruption caused by the war in Iran. In China, stimulus measures continued to support economic growth, and Chinese GDP remained resilient over the course of 2025 and in early 2026 partly due to a rise in exports. The Indian economy expanded at a robust pace, recording strong growth in the first nine months of 2025 before slowing slightly in the final quarter of 2025. Growth in Brazil accelerated in early 2025 as a result of rising household demand and farm output but decelerated somewhat in the months that followed.

Most of the world's largest central banks continued to loosen monetary policy as inflation remained under control. However, policymakers warned that rates may need to be raised later in 2026 in order to address the expected spike in inflation caused by the conflict in Iran and consequent disruption to the global supply of fuel and fertiliser. The US Federal Reserve (the "Fed") reduced interest rates three times in the final four months of 2025. The Bank of England ("BoE") and the European Central Bank ("ECB") continued their programmes of rate cuts over the twelve months, while the Bank of Japan ("BoJ") responded to elevated domestic inflation by increasing interest rates at the end of 2025.

Global equity performance was positive during the twelve-month period as the ongoing strength of the world economy averted concerns about a possible slowdown in growth. In the US, there were concerns at the start of 2025 that the new Trump administration's introduction of tariffs on major trading partners could lead to higher inflation and more subdued global growth. However, America's willingness to strike a series of trade agreements helped to calm investors' fears. Major technology stocks continued to advance on hopes that artificial intelligence ("AI") would deliver significant productivity gains, but there were concerns about the extensive infrastructure investment required to support AI platforms, high valuations among companies with significant AI exposures and the potential for the technology to significantly disrupt existing business models in the software sector. In March 2026, conflict between the US and Iran led to sharp declines in equity prices around the world after the Strait of Hormuz, a vital shipping lane for global energy markets, was effectively closed. However, the announcement of a ceasefire in early April 2026 drove a recovery in share prices.

Globally, investments that factor in companies' ESG characteristics faced regulatory concerns and shifting investor sentiment. ESG funds experienced significant outflows in the second half of 2025 following a weak start to the year.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview (continued)

Yields (which move inversely to bond prices) on the 10-year US Treasury, a benchmark lending rate for the global bond market, finished the twelve-month period higher. Yields elevated in early 2025 due to concerns that President Trump's economic policies could lead to higher inflation and increased government borrowing but declined as the Fed reduced interest rates. However, conflict in the Middle East in March 2026 led to rises in yields as investors priced in higher inflation and potential increases in interest rates. In the UK and Europe, yields also rose on concerns around the impact of an energy supply shock. Yields in Japan increased to record highs at the start of 2026 as investors reacted to the prospect of higher government spending and potential increases in rates.

Global corporate bonds posted solid gains overall as markets reassessed credit in light of declining inflation and interest rates, while continued resilience in the global economy alleviated credit concerns relating to issuers of high yield bonds.

Emerging market equities also gained, benefiting from the relatively stable global economic environment and the easing of monetary policy. Emerging market bonds posted a positive return as investors reacted to less restrictive monetary policy in developed economies.

Commodities markets were disrupted by geopolitical tensions and concerns about the impacts of US tariffs and military action in Iran. Brent crude oil prices initially declined as global oil production increased and hopes of a resolution to the conflict between Ukraine and Russia rose. However, oil prices surged in 2026 due to supply disruption in the Middle East. Natural gas prices rose in late 2025 as cold weather returned and exports of liquefied natural gas increased. Gold prices rose to record highs in early 2026 as a result of geopolitical concerns and the possibility that American trade and foreign policy could lead to ongoing volatility in equity and bond markets.

In foreign exchange markets, the US dollar's performance against other major global currencies was largely negative. It fell against the euro, sterling and the Chinese yuan, but rose against the Japanese yen.

Fund performance review and activity

BlackRock Advantage Asia ex Japan Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 52.33% and the active return was 4.14%, outperforming its performance measure which returned 48.19% (active return is the difference between the Fund's return and the performance measure).

Asian equities excluding Japan delivered strong gains despite volatility from tariff concerns, geopolitical tensions, and shifting rate expectations. Performance was supported by continued demand for AI infrastructure, semiconductors, and advanced computing, which benefited Taiwan and Korea. Financials and consumer staples also advanced on improving trade activity and resilient economic growth across parts of Asia, while India lagged as valuations moderated and investor sentiment softened toward consumer and financial sectors.

In this context, the Fund outperformed its benchmark through strong stock selection and positioning within semiconductors, computer equipment and diversified financials, particularly across Taiwan and Korea. Holdings linked to AI infrastructure, electronics manufacturing and memory chips contributed strongly to returns, while sentiment and quality-driven insights also supported performance. Detractors were concentrated in communication services and selected Indian technology holdings, while an underweight position in Taiwan semiconductor manufacturing company weighed on relative performance amid the continued rally in global semiconductor markets.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Taiwan ^o	2.29%	China ^o	(0.74%)
South Korea ^o	0.61%	India ^o	(0.11%)
Hong Kong ^o	0.26%		
Philippines ^o	0.24%		
Singapore [#]	0.15%		

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

The positive performance was predominantly driven by overweight Taiwanese electronic equipment and financial which was offset by underweight positions in semiconductors and banks. This was followed by overweight positions in South Korea within semiconductor and technology firms, while overall exposure remained underweight. Top detractor was Chinese electronic equipment and Indian information technology service companies. Over positive contributing industries were information technology and financial sectors.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
China	0.22%	Indonesia	0.33%
Thailand	0.21%	China	0.31%
Indonesia	0.02%	Korea	0.23%

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage Asia ex Japan Equity Fund (continued)

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
India	(0.41%)	India	(0.78%)
Taiwan	(0.30%)	Taiwan	(0.42%)
Philippines	(0.26%)	Thailand	(0.17%)

Compared to the prior year, China and Indonesia remained the top overweight, while India and Taiwan stayed as the most relevant underweights. Thailand on the other hand moved exposures from underweight to overweight, driven by oil and gas and wireless telecom companies.

BlackRock Advantage Emerging Markets Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 48.77% and the active return was 2.09%, outperforming its performance measure, which returned 46.68% (active return is the difference between the Fund's return and the performance measure).

Emerging market equities delivered strong gains despite volatility from tariff concerns, geopolitical tensions, and shifting rate expectations. Performance was supported by strong demand for artificial intelligence infrastructure, semiconductors, and technology hardware, which benefited Taiwan and Korea. Financials and industrials also advanced on improving economic activity, while Brazil and South Africa benefited from stronger commodity prices following the US-Iran conflict. India lagged amid elevated valuations and softer consumer demand.

In this context, the Fund outperformed its performance measure through strong stock selection and positioning within semiconductors, computer equipment and diversified financials, particularly across Taiwan and Korea. Holdings linked to AI infrastructure, electronics manufacturing and technology supply chains contributed strongly to returns, while thematic and sentiment-driven insights also added value. Detractors were concentrated in communication services, selected Chinese consumer exposures and an underweight position in Taiwan semiconductor manufacturing company, which underperformed relative performance amid the continued semiconductor rally.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Taiwan [#]	2.82%	China [#]	(1.17%)
Saudi Arabia ^o	0.34%	Thailand [#]	(0.38%)
Philippines ^o	0.20%	Brazil ^o	(0.24%)
India ^o	0.15%	Greece ^o	(0.14%)
Indonesia [#]	0.14%	United Arab Emirates ^o	(0.14%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

The positive performance was primarily driven by overweight positions in Taiwan by companies from technology, electronics and semiconductor industries. On the other hand, negative contribution was driven by Chinese media and pharma companies.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Thailand	1.46%	Thailand	1.36%
Taiwan	1.39%	Korea	0.72%
Poland	0.44%	China	0.58%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Brazil	(0.83%)	Brazil	(0.82%)
Korea	(0.64%)	India	(0.62%)
Mexico	(0.52%)	Poland	(0.41%)

Compared to the prior year, Thailand driven by oil and gas names remained the top overweight amongst countries, while Taiwan increased its position driven by companies in the electronic equipment and financials industries. On the other hand, Brazil remained as the top underweight position, driven by electric utilities.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage Emerging Markets ex China Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 68.43% and the active return was 7.22%, outperforming its performance measure which returned 61.21% (active return is the difference between the Fund's return and the performance measure).

Emerging market equities delivered strong gains despite volatility from tariff concerns, geopolitical tensions, and shifting rate expectations. Performance was supported by strong demand for artificial intelligence infrastructure, semiconductors, and technology hardware, which benefited Taiwan and Korea. Financials and industrials also advanced on improving economic activity, while Brazil and South Africa benefited from stronger commodity prices following the US-Iran conflict. India lagged amid elevated valuations and softer consumer demand.

In this context, the Fund outperformed its performance measure through strong stock selection and positioning within semiconductors, computer equipment and diversified financials, particularly across Taiwan and Korea. Holdings linked to AI infrastructure, electronics manufacturing and memory-chip demand contributed strongly to returns, while thematic, sentiment and quality-driven insights also added value. Detractors were concentrated in communication services and selected telecom and real estate holdings, while a significant underweight position in Taiwan semiconductor manufacturing company weighed on relative performance amid the continued semiconductor rally.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Taiwan [#]	2.47%	Thailand [#]	(0.36%)
South Korea [#]	1.23%	United Arab Emirates [#]	(0.20%)
Saudi Arabia ^o	0.46%	Greece ^o	(0.19%)
Indonesia ^o	0.19%	South Africa [#]	(0.15%)
Philippines [#]	0.14%	Poland [#]	(0.14%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

The positive performance was primarily driven by overweight positions in Taiwan by companies from technology, electronics and semiconductor industries. South Korean semiconductors and electronic also contributed positively. Negative contribution was driven by Thai telecommunication and consumer retail services.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Thailand	1.33%	Thailand	1.04%
Poland	0.57%	Malaysia	0.93%
Taiwan	0.43%	South Korea	0.86%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Mexico	(0.52%)	Brazil	(0.74%)
Brazil	(0.50%)	India	(0.55%)
Hungary	(0.28%)	Qatar	(0.48%)

Compared to the prior year, Thailand remained as the top overweight position driven by oil and gas names, while Poland and Taiwan increased their positive exposures. Brazil stayed as one of the top underweights compared to the previous financial year-end, followed by Brazil.

BlackRock Advantage Europe Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 21.69% and the active return was 2.88%, outperforming its performance measure which returned 18.82% (active return is the difference between the Fund's return and the performance measure).

European equities delivered positive returns despite volatility from tariff concerns, geopolitical tensions, and shifting rate expectations. German fiscal stimulus supported Industrials and defence stocks, while Financials benefited from resilient earnings. Energy stocks rallied following the US-Iran conflict and higher oil prices, although concerns around supply disruptions and energy security persisted.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage Europe Equity Fund (continued)

The Fund outperformed its performance measure over the period, driven primarily by strong stock selection within themes, sentiment, and fundamental value insights, particularly through tactical macro positioning, improving analyst sentiment, and institutional flow-related signals. Positive contributions came from Industrials, Financials, and selective cyclical exposures in Switzerland, the UK, Spain, and the Netherlands, with capital goods, insurance, banks, and utilities among the strongest industry drivers. Defensive underweights in consumer staples, including food and household products, also added value as investors favoured more cyclical sectors. Offsetting factors included selected technology and growth-oriented holdings in Germany and the UK, where software, semiconductor, and communications exposures lagged amid shifting market leadership and evolving AI-related expectation.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Switzerland ^o	1.26%	Germany [#]	(0.64%)
United Kingdom ^o	0.80%	France [#]	(0.16%)
Netherlands [#]	0.50%	Belgium ^o	(0.14%)
Spain ^o	0.50%	Austria ^o	(0.06%)
Portugal [#]	0.11%	Ireland ^o	(0.01%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Positive returns were driven by Swiss capital goods and food holdings, alongside UK industrial and banking exposures, while Spanish utilities and Dutch financials also contributed positively. The main detractors were German software, semiconductor, and consumer-related positions amid weaker technology and growth sentiment.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Spain	1.20%	France	2.39%
Germany	0.91%	Germany	0.58%
Netherlands	0.79%	Netherlands	0.40%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Italy	(1.25%)	United Kingdom	(1.21%)
Belgium	(0.84%)	Spain	(0.92%)
Switzerland	(0.74%)	Finland	(0.91%)

Compared to the prior year, Spain became the largest overweight position, supported by increased exposure to banks and utilities, while the fund maintained an overweight position in Germany driven by technology and industrial holdings. Conversely, the underweight in Italy increased materially, primarily due to automobiles exposure, alongside continued underweights in Belgium and Switzerland.

BlackRock Advantage Europe ex UK Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 19.38% and the active return was 2.43%, outperforming its performance measure which returned 16.95% (active return is the difference between the Fund's return and the performance measure).

European equities excluding US delivered positive returns despite volatility from tariff concerns, geopolitical tensions, and shifting rate expectations. German fiscal stimulus supported industrials and defence stocks, while financials benefited from resilient earnings. Energy stocks rallied following the US-Iran conflict and higher oil prices, although concerns around supply disruptions and energy security persisted.

The Fund outperformed its performance measure over the period, driven primarily by strong thematic, value, and sentiment-based Insights. Performance benefited from exposures to infrastructure investment, electrification, industrial automation, and institutional flow momentum, alongside successful stock selection within capital goods, utilities, financials, and pharmaceuticals. Country allocation in Switzerland, Spain, and Netherlands added value, with industrial and insurance exposures were particularly supportive. Detractors came mainly from overweight positions in selected German software and consumer names, as well as weaker performance in certain technology and materials holdings. Overall, the portfolio benefited from cyclical and value-oriented market leadership.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage Europe ex UK Equity Fund (continued)

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
Switzerland ^o	1.36%	Germany [#]	(0.79%)
Spain ^o	0.60%	Belgium ^o	(0.16%)
Netherlands [#]	0.42%	Norway ^o	(0.07%)
Sweden [#]	0.25%	Austria ^o	(0.05%)
France [#]	0.16%	Ireland ^o	(0.03%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Positive returns were primarily driven by Switzerland's capital goods and food-related holdings, while in Spain, utilities and banks delivered positive returns. Positioning across Germany detracted primarily due to overweight positions in software, consumer discretionary, and telecommunications companies, as well as underweight exposure to semiconductor names that outperformed over the period.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
France	1.49%	France	2.25%
Germany	0.73%	Germany	0.71%
Spain	0.62%	Switzerland	0.48%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Italy	(1.39%)	Spain	(1.12%)
Ireland	(0.85%)	Finland	(0.93%)
Belgium	(0.72%)	Ireland	(0.61%)

Across country positioning, leadership remained concentrated in France, Switzerland, Spain, and the Netherlands, supported by strong contributions from capital goods, utilities, pharmaceuticals, and financial holdings, while Germany remained the primary detractor driven by weaker software, consumer discretionary, and semiconductor exposures.

BlackRock Advantage Global Corporate Credit Screened Fund

BlackRock Advantage Global High Yield Credit Screened Fund

Over the financial year to 30 April 2026, the Funds' returns were 4.77% and 8.68% for BlackRock Advantage Global Corporate Credit Screened Fund and BlackRock Advantage Global High Yield Credit Screened Fund, respectively. The active return was (0.17%), underperforming its performance measure which returned 4.95% for BlackRock Advantage Global Corporate Credit Screened Fund and the active return was 0.45%, outperforming its performance measure which returned 8.23% for BlackRock Advantage Global High Yield Credit Screened Fund (active return is the difference between the Funds' return and the performance measure).

Credit markets were broadly resilient over the period, with spreads tightening through most of the year as solid economic data, easing US-China trade tensions and improving policy clarity supported risk appetite. The rally was strongest through the summer, helped by trade agreements, resilient corporate earnings and rising expectations for Fed easing. Sentiment weakened briefly in August 2025 amid Fed independence and fiscal concerns but recovered as the Fed commenced rate reduction in September 2025. Early 2026 remained mixed, as easing inflation supported credit while renewed tariff headlines and Middle East tensions created volatility.

BlackRock Advantage Global Corporate Credit Screened Fund

Across industrials, the Fund maintained a defensive stance in selected consumer non-cyclical and capital goods sub-sectors, while also avoiding certain consumer cyclical and communication services sectors exposures. The Fund also screened out selected issuers within basic industry sector. Within financial institutions, the Fund held underweight exposures to selected banks, life and health insurers, and other financial issuers. Within utilities sector, the Fund screened out selected electric and other utility issuers.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage Global Corporate Credit Screened Fund (continued)

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Communications [#]	0.19%	Technology [#]	(0.08%)
Transportation [#]	0.02%	Consumer Cyclical ^o	(0.03%)
Consumer Non-Cyclical ^o	0.02%	Electric ^o	(0.02%)
Capital Goods ^o	0.02%	Real Estate Investment Trusts ^o	(0.01%)
Energy [#]	0.01%	Banking ^o	(0.01%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

The Fund outperformed its performance measure over the review period. Within industrials, the Fund's overall overweight positioning was additive to performance. The Fund's overall underweight exposure to financial institutions modestly detracted from returns, as did its underweight positioning within utilities sector.

BlackRock Advantage Global High Yield Credit Screened Fund

Across industrials, the Fund maintained underweight exposures to selected sub-sectors within basic industry and consumer non-cyclical sectors. In addition, the Fund avoided selected capital goods sub-sectors and screened out certain technology names. Within financial institutions sector, the Fund held underweight positions in selected property and casualty insurers and financial other issuers. Within utilities sector, the Fund screened out selected electric issuers.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Communications [#]	0.39%	Consumer Cyclical [#]	(0.28%)
Basic Industry ^o	0.22%	Energy [#]	(0.06%)
Technology ^o	0.13%	Banking [#]	(0.03%)
Capital Goods ^o	0.12%	Real Estate Investment Trusts [#]	(0.02%)
Transportation [#]	0.07%	Insurance ^o	(0.02%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

BlackRock Advantage US Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 37.01% and the active return was 5.59%, outperforming its performance measure which returned 31.42% (active return is the difference between the Fund's return and the performance measure).

US equities posted positive returns despite volatility from trade policy, geopolitical tensions, and shifting rate expectations. Resilient growth, moderating inflation, and AI-driven investment supported markets, with technology, financials, and industrials leading gains. Energy was volatile, benefiting from oil price spikes following the US-Iran conflict before moderating as demand expectations softened.

In this context, the Fund outperformed its performance measure through strong stock selection and positioning within semiconductors, diversified financials and industrial companies. Holdings tied to AI infrastructure, construction and engineering, and capital markets activity contributed strongly to returns, while macro and sentiment-driven insights also added value. Detractors were concentrated within select software, real estate and energy holdings, while certain mega-cap technology positions and underweight exposure to energy stocks modestly weighed on relative performance.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Financials [#]	0.94%	Energy ^o	(0.23%)
Industrials ^o	0.91%		
Health care [#]	0.84%		
Information technology [#]	0.79%		
Consumer discretionary [#]	0.54%		

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage US Equity Fund (continued)

Positive outperformance was largely driven by overweight positions in financials, health care, information technology, and consumer discretionary, alongside an underweight exposure to industrials. Conversely, positioning within the energy sector detracted amid heightened geopolitical volatility and increasing energy prices.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Sector	Weighting	Sector	Weighting
Information Technology	1.09%	Information technology	0.85%
Energy	0.80%	Health care	0.83%
Health care	0.64%	Consumer staples	0.37%

Largest underweight position			
30 April 2026		30 April 2025	
Sector	Weighting	Sector	Weighting
Utilities	(1.48%)	Industrials	(1.29%)
Real estate	(1.06%)	Communication services	(0.63%)
Consumer discretionary	(0.50%)	Consumer discretionary	(0.37%)

Sector leadership remained broadly unchanged over the period, with Information Technology retaining its largest overweight position, supported by Software and Semiconductor companies, alongside Health Care. On the underweight side, the portfolio maintained lower exposure to rate-sensitive sectors such as Utilities, particularly Electric Utilities and Real Estate.

BlackRock Advantage World Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 36.89% and the active return was 6.89%, outperforming its performance measure which returned 30.00% (active return is the difference between the Fund's return and the performance measure).

Global equities delivered solid gains over the period, supported by resilient economic growth, easing inflation expectations and continued strength in artificial intelligence and technology-related investment themes. Information technology, financials and Industrials were among the strongest contributors to market performance, led by the United States, while improving earnings momentum and strong demand for semiconductors and digital infrastructure supported investor sentiment. European markets also contributed positively through financials and industrials, while parts of health care and consumer sectors lagged amid softer demand trends and mixed earnings results.

In this context, the Fund outperformed its performance measure through strong stock selection and positioning within semiconductors, computer equipment, diversified financials and capital goods. Holdings tied to AI infrastructure, memory chips and industrial automation contributed strongly, particularly across the United States and Europe, while thematic and sentiment-driven insights added value. Detractors concentrated in select software, telecommunications and consumer-related holdings, while an underweight position in ASML and weaker performance from certain US technology names weighed modestly on relative returns.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Country	Effect on Fund return	Country	Effect on Fund return
United States [#]	4.15%	Israel [#]	(0.24%)
Switzerland ^o	0.56%	Netherlands ^o	(0.17%)
Italy [#]	0.37%	United Kingdom [#]	(0.13%)
Denmark ^o	0.22%	Finland ^o	(0.07%)
Germany [#]	0.19%	Canada ^o	(0.06%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Positive outperformance was primarily driven by US holdings, particularly within semiconductors, chemicals, technology, and financials. Underweight positioning in Switzerland, as well as exposure to Italian industrials and financials, also contributed positively. Conversely, Israeli software names detracted from performance.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Advantage World Equity Fund (continued)

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Italy	1.93%	Japan	1.72%
France	1.72%	United Kingdom	1.68%
United States	1.46%	Germany	1.12%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Canada	(2.36%)	United States	(1.74%)
Switzerland	(1.26%)	Australia	(1.20%)
Spain	(0.57%)	Netherlands	(0.67%)

Leadership at the country level shifted during the period, with Italy, France, and the US increasing their overweight positions, driven by sectors such as banks and semiconductors, while exposures to Japan and the UK were reduced. Notably, the US moved from the largest underweight position to an overweight position. Meanwhile, Canada and Switzerland saw increased underweight exposures by period-end.

BlackRock Global Target Return: Conservative Fund

BlackRock Global Target Return: Growth Fund

BlackRock Global Target Return: Moderate Fund

Over the financial year to 30 April 2026, the Funds' performance return was 11.88%, 20.15% and 15.68% for BlackRock Global Target Return: Conservative Fund, BlackRock Global Target Return: Growth Fund and BlackRock Global Target Return: Moderate Fund, respectively. The active returns were 7.82%, 16.09% and 11.62%, outperforming their performance measure which returned 4.06% each (active return is the difference between the Funds' return and the performance measure).

The Funds invest tactically across asset classes and countries with a wide universe and asset allocation range. Over the past 12 months, broad equity and fixed income markets delivered positive returns despite periods of heightened volatility and shifting macroeconomic expectations. Following tariff-driven declines in April 2025, equities rebounded strongly through mid-year and continued to advance, supported by resilient corporate earnings, moderating inflation, and growing expectations of policy easing. AI-driven technology stocks remained key market leaders globally, particularly in the US and Asia, while performance broadened intermittently across other sectors. On the fixed income side, declining inflation and the transition toward a more accommodative monetary policy stance from major central banks provided support to bond markets, although yields remained volatile amid evolving rate expectations. On an absolute basis, the Funds produced a positive return over the past 12 months.

BlackRock Global Target Return: Conservative Fund

During the financial year the following were the largest contributors to the Fund's return:

Largest contributors	
Asset class	Effect on Fund return
North America equities	5.78%
Emerging markets equities	2.21%
USD fixed income	1.28%
Europe equities	1.03%
Pacific basin equities	0.66%

During this period, US equities were the primary contributor to overall performance, driven by strong earnings growth and sustained leadership from large-capitalised technology and AI-related companies. Despite intermittent volatility, investor sentiment remained supported by the resilience of the US economy and increasing confidence in a gradual shift toward monetary policy easing.

The following table details the significant portfolio weightings at 30 April 2026 and 30 April 2025:

30 April 2026		30 April 2025	
Asset class	Gross exposure	Asset class	Gross exposure
US equities	19.94%	US equities	31.70%
Investment grade bonds	17.98%	UK government bonds	7.98%
Inflation linked bonds	15.80%	Eurozone Government bonds	7.86%
UK government bonds	15.74%	US government bonds	7.84%
Emerging markets debt	3.01%	Japan equities	6.90%

BlackRock Global Target Return: Growth Fund

During the financial year the following were the largest contributors to the Fund's return:

Largest contributors	
Asset class	Effect on Fund return
North America equities	9.56%
Emerging markets equities	5.68%
Europe equities	1.75%
Pacific basin equities	1.42%
USD fixed income	1.17%

During this period, US equities were the primary contributor to overall performance, driven by strong earnings growth and sustained leadership from large-capitalised technology and AI-related companies. Despite intermittent volatility, investor sentiment remained supported by the resilience of the US economy and increasing confidence in a gradual shift toward monetary policy easing.

The following table details the significant portfolio weightings at 30 April 2026 and 30 April 2025:

30 April 2026		30 April 2025	
Asset class	Gross exposure	Asset class	Weighting
US equities	38.28%	US equities	21.21%
Emerging markets equities	15.71%	US government bonds	6.47%
UK government bonds	9.60%	UK government bonds	6.15%
Investment grade bonds	6.99%	Eurozone government bonds	6.04%
Inflation linked bonds	6.61%	Emerging market equities	3.58%

BlackRock Global Target Return: Moderate Fund

During the financial year the following were the largest contributors to the Fund's return:

Largest contributors	
Asset class	Effect on Fund return
North America equities	7.62%
Emerging markets equities	3.83%
Europe equities	1.41%
USD fixed income	1.21%
Pacific basin equities	0.89%

During this period, US equities were the primary contributor to overall performance, driven by strong earnings growth and sustained leadership from large-capitalised technology and AI-related companies. Despite intermittent volatility, investor sentiment remained supported by the resilience of the US economy and increasing confidence in a gradual shift toward monetary policy easing.

The following table details the significant portfolio weightings at 30 April 2026 and 30 April 2025:

30 April 2026		30 April 2025	
Asset class	Gross exposure	Asset class	Gross exposure
US equities	30.01%	US equities	26.33%
Emerging markets equities	10.49%	UK government bonds	6.94%
Investment grade bonds	10.30%	Eurozone government bonds	6.84%
UK government bonds	10.28%	US government bonds	6.82%
Inflation linked bonds	9.44%	Floating rates bonds	4.76%

BlackRock Global Unconstrained Equity Fund

Over the financial year to 30 April 2026, the Fund's return was 32.33% and the active return was 3.18%, outperforming its performance measure which returned 29.16% (active return is the difference between the Fund's return and the performance measure).

Developed market equities delivered strong but volatile returns, driven by AI-driven earnings growth and resilient corporate fundamentals. Markets navigated shifting rate expectations, trade tensions and geopolitical shocks, most notably energy disruption arising from the Middle East conflict, while rapid advances in AI capabilities intensified disruption narratives that drove broad cross-sector dispersion.

Portfolio positioning evolved in response to the changing long-term opportunity set, supporting strong relative performance over the period. At a sector level, industrials and information technology were the primary contributors, driven by robust earnings across aerospace and AI-linked beneficiaries, including semiconductors, data centre infrastructure and cloud platforms.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Global Unconstrained Equity Fund (continued)

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Stock	Effect on Fund return	Stock	Effect on Fund return
Vertiv Holdings Co. [#]	7.05%	Adyen NV [#]	(2.18%)
Intel Corporation [#]	3.81%	Nvidia Corporation ^o	(2.18%)
ASML Holding NV [#]	3.36%	S&P Global Inc. [#]	(1.86%)
Howmet Aerospace Inc. [#]	2.14%	Mastercard Inc. [#]	(1.72%)
Alphabet Inc. [#]	1.56%	Visa Inc. [#]	(1.48%)

[#] Overweight position - held more exposure than the performance measure.

^o Underweight position - held less exposure than the performance measure.

Vertiv Holdings Co., a leading provider of liquid cooling solutions for data centres, was the portfolio's top contributor, benefiting from successive earnings upgrades. Alongside Intel Corporation and ASML Holding NV, its results and longer-term outlook were supported by increased investment in data centre capacity to meet AI-driven demand.

Detractors generally delivered strong absolute growth but were pressured as advances in AI prompted debate around terminal values across industries, particularly within payments and data and analytics.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Stock	Weighting	Stock	Weighting
ASML Holding NV	8.41%	Cadence design systems Inc	5.96%
Howmet Aerospace Inc.	7.89%	S&P global	5.65%
Amazon.com Inc.	5.56%	Howmet aerospace	4.92%

Largest underweight position			
30 April 2026		30 April 2025	
Stock	Weighting	Stock	Weighting
Nvidia Corporation	(5.57%)	Apple Inc	(4.66%)
Apple Inc.	(4.58%)	Nvidia corporation	(3.89%)
Tesla Inc.	(1.24%)	Broadcom Inc.	(1.25%)

There were a number of changes to portfolio composition over the period, reflecting the evolving opportunity set and a continued focus on identifying companies best positioned to capture structural growth opportunities. At a high level, the portfolio evolved to have fewer consumer cyclical and defensive businesses and more exposure to industrial cyclicals primarily via aerospace and AI-infrastructure facilitators. The reduction in consumer exposure was primarily driven by the disposal of luxury goods holdings, while the decline in defensives included the sale of three long-held healthcare positions.

We remain constructive on developed market equities from a fundamental perspective, although the macro backdrop is more complex. Ongoing geopolitical tensions, elevated inflation risks and interest rate uncertainty may drive continued volatility. However, structural growth drivers, particularly AI and infrastructure investment, continue to support corporate profitability.

The portfolio remains focused on high-conviction investments in companies with durable competitive advantages and long-term compounding potential. While near-term volatility may persist, over time we expect share prices to reflect the underlying economic value these businesses create, which the strategy seeks to capture.

BlackRock Systematic Equity Factor Plus Fund

Over the financial year to 30 April 2026, the Fund's return was 35.79% and the active return was 6.63%, outperforming its performance measure which returned 29.16% (active return is the difference between the Fund's return and the performance measure).

Global equities navigated elevated volatility driven by trade tensions, shifting monetary policy expectations, and geopolitical risks, but still delivered resilient returns overall. Markets were supported by easing inflation, expectations for lower interest rates, and strong corporate earnings, particularly within AI-led technology sectors. Performance was increasingly shaped by structural themes including AI investment, geopolitical fragmentation, and a broadening beyond US market leadership.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Systematic Equity Factor Plus Fund (continued)

The Fund outperformed its performance measure over the financial year, driven primarily by strong momentum and alpha contributions, which benefited from continued leadership in AI-related technology and cyclical sectors. Value exposures also contributed positively as market leadership broadened beyond mega-cap growth stocks. This was moderated by weaker returns from minimum volatility and quality exposures as investors favoured more cyclical and higher-beta areas of the market.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Sector	Effect on Fund return	Sector	Effect on Fund return
Financials [#]	2.69%	Utilities ^Ø	(0.54%)
Information technology [#]	1.25%	Energy ^Ø	(0.50%)
Communication services [#]	1.20%	Consumer discretionary ^Ø	(0.45%)
Industrials [#]	1.18%	Real estate ^Ø	(0.27%)
Health care ^Ø	0.49%		

[#] Overweight position - held more exposure than the performance measure.

^Ø Underweight position - held less exposure than the performance measure.

Financials sector was the largest contributor to relative performance, driven by strong security selection within global banking and capital markets companies. Information technology and communication services sectors also added value through overweight positioning and continued strength in AI-related businesses. Conversely, underweight positions in energy, consumer discretionary and utilities sectors modestly detracted as oil prices strengthened, cyclical sentiment improved, and investors periodically rotated towards more defensive sectors.

The following table details the significant active positions, where the Fund was overweight and underweight as at 30 April 2026 and 30 April 2025:

Largest overweight position			
30 April 2026		30 April 2025	
Sector	Weighting	Sector	Weighting
Information technology	3.04%	Financials	3.92%
Industrials	1.44%	Information technology	2.89%
Energy	1.02%	Industrials	2.36%

Largest underweight position			
30 April 2026		30 April 2025	
Country	Weighting	Country	Weighting
Consumer staples	(1.90%)	Consumer discretionary	(2.65%)
Consumer discretionary	(1.82%)	Consumer staples	(2.63%)
Utilities	(1.66%)	Utilities	(1.95%)

Overall, the Fund's largest overweight and underweight sector positions remained broadly consistent over the financial year, with Information technology and industrials sectors remaining key overweight exposures, while consumer staples, consumer discretionary and utilities continued to be the largest underweights. One notable change was within energy, which moved from an underweight position for most of the year to an overweight at period end, reflecting strengthening momentum signals, supportive macroeconomic conditions and improving sector fundamentals.

The Fund remains positioned in line with its systematic, model-driven investment process, which seeks to capture diversified sources of excess return through exposure to style factors alongside proprietary alpha insights. At period end, the portfolio maintained greater exposure to sectors expected to benefit from improving economic conditions and ongoing investment in AI-related themes, while remaining broadly diversified and risk aware.

BlackRock Systematic ESG Equity Absolute Return Fund

Over the period from 1 May 2025 to 30 May 2025, the Fund's return was 0.01% and the active return was (0.20%), underperforming its performance measure, which returned 0.21% (active return is the difference between the Fund's performance return and the performance measure).

On 30 January 2025, the Directors made the decision to close the BlackRock Systematic ESG Equity Absolute Return Fund with effect from 30 May 2025. In May the final tranches of outflows were processed, and the Fund struck its final NAV on 30 May 2025. On this day, remaining units were redeemed.

BlackRock Systematic Multi-Strategy Fund

Over the financial year to 30 April 2026, the Fund's return was 1.75% and the active return was (2.20%), underperforming its performance measure which returned 3.95% (active return is the difference between the Fund's return and the performance measure).

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Systematic Multi-Strategy Fund (continued)

Equities rallied strongly through 2025, driven by improving risk appetite and expectations of Fed easing, with gains broadening initially but later narrowing to higher-quality names amid valuation discipline and episodic volatility. Fixed income also delivered robust returns as yields declined and stabilised. However, markets were punctuated by geopolitical shocks and policy developments, contributing to underlying volatility. Entering 2026, conditions remained constructive but fragile, with rising geopolitical tensions, particularly around Iran—triggering inflation concerns, higher yields, and a sharp setback across both equities and bonds in March 2026.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Strategy	Effect on Fund return	Strategy	Effect on Fund return
Direction asset allocation	5.29%	Macro Defensive equities	(0.33%) (2.04%)

Directional asset allocation strategy was the main contributor, driven by positive contributions from duration and carry exposures over the period. Defensive equity strategies detracted, driven by headwinds in July 2025 where defensive and quality signals underperformed, and during March and April 2026 due to the stagflationary backdrop tied to the Iran conflict. Macro strategies also detracted over the period as the underlying strategies struggled to gain traction in a fast-evolving policy environment.

The following table details the significant portfolio weightings as at 30 April 2026 and 30 April 2025:

30 April 2026		30 April 2025	
Sector	Gross exposure	Sector	Gross exposure
Industrial	51.43%	Industrial	68.83%
Financial institutions	26.59%	Financial institutions	20.32%
Mortgage-backed securities pass-through	10.86%	Mortgage-backed securities pass-through	11.11%
Collateralised mortgage obligation	4.62%	Collateralised mortgage obligation	10.84%
Utility	2.93%	Utility	4.92%

The portfolio modestly increased front-end investment grade exposure, reflecting a late-cycle expansion outlook and preference for shorter-duration positioning amid expectations of limited Fed cuts. The Iran conflict has increased uncertainty, with markets currently assuming only a temporary energy shock. However, prolonged disruption could weaken growth and restore duration's diversification benefits. Given inflation-driven bond volatility and tight credit spreads, the strategy maintains a cautious stance on duration and underweights high yield in favour of defensive equities. The macro sleeve continues to provide diversification and episodic alpha through diversified macro strategies across rates, currencies, inflation, and emerging markets

BlackRock Tactical Opportunities Fund

Over the financial year to 30 April 2026, the Fund's return was 14.41% and the active return was 10.46%, outperforming its performance measure which returned 3.95% (active return is the difference between the Fund's return and the performance measure).

The Fund is actively managed, seeking to generate alpha over its performance measure by taking long and short positions in 25+ countries in stocks, bonds, and foreign currencies. Positions are driven by the investment team's macroeconomic views on growth, inflation, policy, and pricing. These views are informed by both systematic strategies and discretionary research. Over the trailing 1-year period, the Fund outperformed its performance measure given asset pricing moved in line with the investment team's macroeconomic views. Additionally, the current market environment, characterized by elevated volatility and greater dispersion across assets and geographies, has been supportive of global macro strategies.

During the financial year the following were the largest contributors to and detractors from the Fund's return relative to the performance measure:

Largest contributors		Largest detractors	
Strategy	Effect on Fund return	Strategy	Effect on Fund return
Equity	9.00%	Currency	(1.60%)
Fixed income	3.06%		

Performance over the period was primarily driven by relative value equity positioning, with post-Liberation Day long exposure in US equities versus short exposure in developed Europe, followed by long Asia exposure (Japan, Korea, Thailand) versus short Europe exposure in 2026. Directional long exposure to Japanese equities also added positively as Japan outperformed global peers. Relative value fixed income positioning, including long Australia and Korea exposure against short UK and Germany exposure, contributed in early 2026, while directional short exposure in long-dated global fixed income have benefitted from curve steepening since December 2026. Key detractors included short USD versus long JPY as the Yen weakened against the dollar despite strong fundamentals.

BLACKROCK FUNDS I ICAV

INVESTMENT MANAGER'S REPORT (continued)

Fund performance review and activity (continued)

BlackRock Tactical Opportunities Fund (continued)

The following table details the significant portfolio weightings at 30 April 2026 and 30 April 2025:

30 April 2026		30 April 2025	
Equity region	Net exposure	Equity region	Net exposure
US/Canada	13.53%	US/Canada	19.97%
Japan	7.71%	Japan	6.62%
Emerging Markets	(0.03)	Europe	2.32%
Europe	(0.09)	Asia (ex-Japan)	(0.01)
Asia (ex-Japan)	(0.14)	Emerging Markets	(0.11)
Fixed income region	Years duration	Fixed income region	Years duration
Emerging Markets	4.01	Europe	5.6
Asia (ex-Japan)	2.76	Asia (ex-Japan)	(0.03)
Japan	(0.81)	Emerging Markets	(0.74)
US/Canada	(4.78)	Japan	(1.60)
Europe	(7.59)	US/Canada	(7.21)

The Fund remains positioned for a regime of higher inflation volatility, fiscal expansion, and continued global rebalancing. We favour relative value opportunities across regions and asset classes, including long Asia and selective US equity exposure informed by earnings and capital flow dynamics. In fixed income, the portfolio maintains short duration exposure in developed markets, particularly Europe, where we believe fiscal and inflation risks remain underpriced, while holding longs in commodity-linked markets such as Australia, Mexico, and Brazil. In currencies, the Fund remains short the US dollar, reflecting expectations for ongoing dollar weakness and stronger terms-of-trade dynamics outside the US.

BlackRock Investment Management (UK) Limited
May 2026

BLACKROCK FUNDS I ICAV

DIRECTORS' REPORT

The Directors present their report and audited financial statements for the financial year ended 30 April 2026.

Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, and in compliance with the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

Under Irish law, the Directors shall not approve the audited financial statements unless they are satisfied that they give a true and fair view of the Entity's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Entity for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Entity will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the audited financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Entity;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Entity to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements and Directors' report comply with the ICAV Act and enable those financial statements to be audited.

In order to secure compliance with the Entity's obligation to keep adequate accounting records the Directors have appointed the Manager who in turn has appointed J.P. Morgan Administration Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address on behalf of the Administrator:

J.P. Morgan Administration Services (Ireland) Limited
200 Capital Dock
79 Sir John Rogerson's Quay
Dublin 2, D02 RK57
Ireland

The Directors are also responsible for safeguarding the assets of the Entity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors have entrusted the assets of the Entity to the Depositary for safekeeping in accordance with the Instrument of Incorporation of the Entity. In this regard the Directors have appointed J.P. Morgan SE - Dublin Branch as Depositary pursuant to the terms of the Depositary Agreement. The address at which this business is conducted is as follows:

J.P. Morgan SE - Dublin Branch
200 Capital Dock
79 Sir John Rogerson's Quay
Dublin 2, D02 RK57
Ireland

The audited financial statements are published on the BlackRock website. The Directors, together with the Manager and the Investment Manager are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Results and dividends

The results and dividends for the financial year of the Entity are set out in the income statement.

Review of business and future developments

The specific investment objectives and policies, as set out in the Investment Manager's report, of each Fund are formulated by Directors at the time of the creation of the Fund. Investors in a Fund are expected to be informed investors who have taken professional advice, are able to bear capital and income risk, and should view investment in a Fund as a medium to long term investment. A description of the Fund, its performance review and a market review can be found in the Background section and the Investment Manager's report.

Risk management objectives and policies

The risks facing the Entity relate to the financial instruments held by it and are set out in the financial risks section of the financial statements.

Subsequent events after the financial year end

The significant events which have occurred since the balance sheet date are set out in the notes to the audited financial statements.

Directors' and Company Secretary's interests

The Directors and Company Secretary had no interests in the shares of the Entity during or at the end of the financial year (2025: Nil).

BLACKROCK FUNDS I ICAV

DIRECTORS' REPORT (continued)

Directors' and Company Secretary's interests (continued)

Andrew Alabaster and Niall Ryan are non-executive Directors and also employees of the BlackRock Group. With effect from 7 October 2025, Francis Drought resigned as a non-executive Director.

No Director had at any time during the financial year, a material interest in any contract of significance, in relation to the business of the Entity (2025: Nil).

Going concern

The financial statements of the Entity have been prepared on a going concern basis with the exception of BlackRock Emerging Markets ESG Screened Fund and BlackRock Systematic ESG Equity Absolute Return Fund which have been prepared on a non-going concern basis as these Funds fully redeemed. The Entity is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Fund are reviewed on a regular basis throughout the financial year. Therefore, the Directors believe that the Entity will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Entity.

Independent auditor

The auditors, Ernst & Young, will be re-appointed in accordance with section 125 of the ICAV Act 2015.

Statement of relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Entity's auditors are unaware. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Entity's auditors are aware of that information.

Corporate governance statement

The Directors are committed to maintaining the highest standards of corporate governance and are accountable to the shareholders for the governance of the Entity's affairs. The Directors have put in place a framework for corporate governance which it believes is appropriate for a collective investment scheme and which will enable the Entity to comply with the relevant provisions of the Irish Funds Industry Association Corporate Governance Code for Collective Investment Schemes and Management Companies (the "Code") effective as of 1 January 2012 which is available at: <https://files.irishfunds.ie/1432820468-corporate-governance-code-for-collective-investment-schemes-and-management-companies.pdf>. The Entity has voluntarily adopted the Code and will apply the Code to the Entity for all accounting periods beginning on or after the Entity's date of registration.

On behalf of the Directors

Director

BLACKROCK FUNDS I ICAV

DEPOSITARY'S REPORT TO THE SHAREHOLDERS

We, J.P. Morgan SE - Dublin Branch, appointed Depositary to BlackRock Funds I ICAV (the "Entity") provide this report solely in favour of the investors of the Entity as a body for the year ended 30 April 2026 ("the Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended, ("the UCITS Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the Entity for the Accounting Period and we hereby report thereon to the investors of the Fund as follows;

We are of the opinion that the Entity has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Entity by the constitutional documents and by the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the UCITS Regulations.

For and on behalf of

J.P. Morgan SE - Dublin Branch
200 Capital Dock

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BLACKROCK FUNDS I ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of the Funds of BlackRock Funds I ICAV ("the ICAV") for the year ended 30 April 2026, which comprise the financial statements of BlackRock Advantage Asia ex Japan Equity Fund, BlackRock Advantage Emerging Markets Equity Fund, BlackRock Advantage Emerging Markets ex China Equity Fund, BlackRock Advantage Europe Equity Fund, BlackRock Advantage Europe ex UK Equity Fund, BlackRock Advantage Global Corporate Credit Screened Fund, BlackRock Advantage Global High Yield Credit Screened Fund, BlackRock Advantage US Equity Fund, BlackRock Advantage World Equity Fund, BlackRock Emerging Markets ESG Screened Fund, BlackRock Global Target Return: Conservative Fund, BlackRock Global Target Return: Growth Fund, BlackRock Global Target Return: Moderate Fund, BlackRock Global Unconstrained Equity Fund, BlackRock Systematic Equity Factor Plus Fund, BlackRock Systematic ESG Equity Absolute Return Fund, BlackRock Systematic Multi-Strategy Fund and BlackRock Tactical Opportunities Fund (each a "Fund" and collectively, the "Funds").

The financial statements of the Funds comprise the Income Statement, Statement of Changes in Net Assets Attributable to Redeemable Shareholders, Balance Sheet, Schedule of Investments and Notes to the Financial Statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion each Fund's financial statements:

- give a true and fair view of the assets, liabilities and financial position of each of the Funds as at 30 April 2026 and of its results for the year then ended;
- have been properly prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of each of the Funds in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BLACKROCK FUNDS I ICAV

Emphasis of matter – financial statements of certain funds prepared on a basis other than going concern

We draw attention to note 2.1 of the financial statements which explains that the Directors made the decision to close BlackRock Emerging Markets ESG Screened Fund and BlackRock Systematic ESG Equity Absolute Return Fund. Accordingly, the financial statements for these Funds have been prepared on a basis other than going concern as described in note 2.1. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

In auditing the financial statements of the Funds other than those noted in the preceding section, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Funds' ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Funds' ability to continue as a going concern.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Irish Collective Asset-management Vehicles Act 2015

In our opinion the information given in the directors' report is consistent with the financial statements.

Shape the future
with confidence

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BLACKROCK FUNDS I ICAV

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 21, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the ICAV's members, as a body, in accordance with section 120 of the Irish Collective Asset management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAV's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's members, as a body, for our audit work, for this report, or for the opinions we have formed.

The accompanying notes form an integral part of these financial statements.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is structured as an Irish collective asset-management vehicle and is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements are prepared in accordance with Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council.

The financial statements are prepared on a going concern basis under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. On 27 January 2022 and 30 January 2025, the Directors made the decision to close BlackRock Emerging Markets ESG Screened Fund and BlackRock Systematic ESG Equity Absolute Return Fund with effect from 30 March 2022 and 30 May 2025. Therefore, the financial statements of BlackRock Emerging Markets ESG Screened Fund and BlackRock Systematic ESG Equity Absolute Return Fund have been prepared on a non-going concern basis. For those Funds prepared on a non-going concern basis, assets are recorded at recoverable amounts and liabilities are recorded at contractual settlement amounts, in addition liquidation costs are included.

The Entity has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a statement of cash flows.

The principal accounting policies and notes are set out below, all of which are applied for the financial year ended 30 April 2026.

All amounts have been rounded to the nearest thousand, unless otherwise indicated. Amounts which are less than 500 have been rounded down to zero.

2.2 Financial instruments

The Entity has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102 as they relate to financial instruments.

2.2.1 Classification

The Entity classifies its investments in debt instruments, equity instruments and derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated at fair value through profit or loss at inception. All the derivative investments are held for trading purposes. All other financial assets and financial liabilities including cash, cash equivalents, receivables and payables are classified at amortised cost using the effective interest method.

2.2.2 Recognition and derecognition

The Entity recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognised on the day the trade takes place.

Realised gains and losses on disposals of financial instruments are calculated using the weighted average cost method. For instruments held long, they represent the difference between the initial carrying amount and disposal amount. For instruments held short, they represent the difference between the proceeds received and the opening value. For derivative contracts, they represent the cash payments or receipts made on derivative contracts (excluding those on collateral or margin accounts for such instruments).

Financial assets are derecognised when the rights to receive cash flows from the asset have expired or the risks and rewards of ownership have all been substantially transferred. Financial liabilities are derecognised when the obligation under the liability is discharged, cancelled or expired.

2.2.3 Measurement

All financial instruments are initially recognised at fair value.

Financial assets and financial liabilities at fair value through profit or loss are subsequently measured at fair value. Transaction costs on purchases or sales of investments and gains and losses arising from changes in the fair value of financial assets or financial liabilities at fair value through profit or loss are presented in the income statement within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Financial assets and financial liabilities, other than those classified as at fair value through profit or loss, are subsequently measured at amortised cost.

2.2.4 Fair value estimation

Fair value is the amount for which an asset could be exchanged, a liability settled or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. The estimation of fair value, after initial recognition, is determined as follows:

- Investments in debt instruments, equity instruments, exchange traded derivatives and To-Be-Announced ("TBA") contracts which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the Entity's prospectus. Depending on the nature of the underlying investment, the value taken could be either at the closing price, closing mid-market price or bid price on the relevant market.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.4 Fair value estimation (continued)

- Investments in exchange traded funds ("ETFs") which are quoted, listed, traded or dealt on a market or exchange are valued based on quoted market prices.
- Investments in centrally cleared and over-the-counter ("OTC") derivatives and investee collective investment schemes ("CIS") are valued using valuation techniques.

In the case of an investment which is not quoted, listed or dealt on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Directors in consultation with the Investment Manager and approved for the purpose by the Depositary), and such fair value shall be determined using valuation techniques. The Entity uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives include those detailed in the fair value hierarchy note, and those used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

2.2.5 Financial derivative and other specific instruments

2.2.5.1 Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price.

Initial margin deposits are made to relevant brokers upon entering into futures contracts and are included in margin cash.

2.2.5.2 Forward currency contracts

A forward currency contract is an agreement, in the OTC market, between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price.

2.2.5.3 Swaps

A swap is an individually negotiated agreement, in the OTC market, between two parties to swap one stream of payments for another. They may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps").

Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash of an amount that varies depending on the size and risk profile of the underlying swap contract.

2.2.5.4 TBA contracts

TBA securities are purchased and sold on a forward commitment basis with an approximate principal amount and maturity date. With TBA transactions, the specific securities to be delivered are not identified at trade date, however, delivered securities must meet specified terms. The actual principal amount and maturity date will be determined upon settlement when the specific mortgage pools are assigned. During the time a TBA sale commitment is outstanding, the Fund holds equivalent deliverable securities or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), as cover for the transaction. Realised and unrealised gains or losses are accounted for in the income statement. TBAs are accounted for as mortgage backed securities.

2.2.6 Cash and cash equivalents

Cash in the balance sheet includes cash deposits held on call with banks. Cash equivalents include short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

Bank overdrafts are classified as liabilities in the balance sheet.

2.2.7 Collateral and margin cash

Cash collateral provided by the Fund is identified as an asset on the balance sheet as 'Cash collateral' and is not included as a component of cash and cash equivalents. For collateral other than cash provided by the Fund, if the party to whom the collateral is provided has the right by contract to sell or re-pledge the collateral, the Fund classifies that asset on its balance sheet separately from other assets and identifies the asset as a pledged investment. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are identified on the balance sheet as 'Margin cash'.

Cash collateral provided to the Fund by counterparties is identified on the balance sheet as 'Cash collateral payable'. The Fund may reinvest this cash collateral and the assets purchased are included as 'Cash equivalents' on the balance sheet.

2.2.8 Redeemable shares

Each Fund classifies redeemable shares issued as financial liabilities or equity in accordance with the substance of the contractual terms of the instruments. Redeemable shares are measured at the present value of redemption amounts.

The redeemable shares are redeemable at the option of the holders and meet the conditions set out in Section 22.4 of FRS 102, to be classified as equity and as a result are classified as financial liabilities.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.2 Financial instruments (continued)

2.2.8 Redeemable shares (continued)

The redeemable shares are accounted for on the day the trade takes place. Subscriptions and redemptions of redeemable shares are accounted for on the day the trade transaction takes place. Shares are subscribed and redeemed based upon the NAV per share as of the latest valuation point.

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of the issue of redeemable shares or the redemption of redeemable shares in the statement of changes in net assets attributable to redeemable shareholders. Any potential duties and charges are at the discretion of the Directors.

2.3 Foreign currency

2.3.1 Functional and presentation currency

Foreign currency items included in each Fund's financial statements are measured in each Fund's functional currency which is shown for each Fund in the headings of the financial statements.

The Directors consider that these currencies most accurately represent the economic effects of the underlying transactions, events and conditions of each Fund. Each Fund's presentation currency is the same as the functional currency.

2.3.2 Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the reporting date.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in the income statement.

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the Entity's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The Directors believe that the underlying assumptions are appropriate and that the Entity's financial statements, therefore, present the Entity's financial position and its results fairly. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future years if the revision affects both current and future years. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below.

2.4.1 Assumptions and estimation uncertainties

2.4.1.1 Fair value of OTC derivative financial instruments

OTC financial derivative instruments ("FDIs") are valued using valuation techniques, as detailed in the fair value hierarchy note to the financial statements. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

2.4.1.2 Fair value of financial instruments not quoted in an active market

The fair value of such instruments not quoted in an active market may be determined by the Fund using reputable pricing sources or indicative prices from bond/debt market makers. The Fund exercises judgement and makes estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

2.4.1.3 Fair value of financial instruments with significant unobservable inputs

The fair value of such instruments is determined using valuation techniques including inputs not based on market data and where significant entity determined adjustments or assumptions are applied, as detailed in the fair value hierarchy note to the financial statements.

Details of the valuation technique used in the valuation of equities are set out in the fair value hierarchy note to the financial statements.

2.4.2 Judgements

2.4.2.1 Assessment as investment entities

The Directors are of the opinion that the Entity meets the definition of an investment entity. The following conditions exist:

- a. the Entity has obtained funds for the purpose of providing investors with investment management services; and
- b. the investments held by the Entity are measured and evaluated on a fair value basis. Information about those investments are provided to shareholders on a fair value basis through the Entity.

2.5 Dividend income

Dividend income is recognised in the income statement when the Fund's right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the income statement. CIS income is recognised when the distributions are declared by the underlying CIS. ETF income is recognised on the ex-dividend date.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. Significant accounting policies (continued)

2.6 Interest income and interest expense

Interest income and interest expense for all interest-bearing financial instruments are recognised in the income statement using the effective interest method.

2.7 Securities lending income

Securities lending income is earned from lending securities owned by the Fund to third party borrowers. All securities lending income net of the Securities Lending Agent's fee is recognised in the income statement on an accruals method basis.

2.8 Fees and expenses

Expenses are recognised in the income statement on an accruals basis except for transaction costs relating to the acquisition and realisation of investments which are charged for as incurred and presented within 'Net gains/(losses) on financial instruments', in the period in which they arise.

Expenses directly attributable to a specific class of shares are borne directly by such class solely.

2.9 Distributions

Distributions are recognised in the income statement as finance costs where shares in the Fund do not meet the conditions to be classified as equity and as a result are classified as financial liabilities.

The Directors may declare distributions on the shares of the class in respect of each financial period. Distributions may be paid out of the Fund's net income.

The Directors have implemented income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the financial year. As part of the distribution payment, the average amount of this equalisation is adjusted for shareholders who subscribed to or redeemed from the Fund during the financial year. The equalisation element of the distribution is treated as a repayment of capital.

Distributions will not be made to the shareholders of the accumulating share classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these shareholders.

2.10 Taxation

2.10.1 Current tax

Current tax is recognised for the amount of income tax payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.10.2 Deferred tax

A provision for deferred tax payable is recognised in respect of material timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Timing differences are differences between the Fund's overseas taxable profits and its results as stated in the financial statements that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in each Fund.

3.1 Risk management framework

The Directors have delegated certain duties to the Manager with regard to the day-to-day management of the Entity. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Committee of the Manager is responsible for monitoring the investment risk and performance of each Fund by reviewing periodic performance reports. The Investment Manager is also responsible for ensuring that the Entity is managed within the terms of its investment guidelines and limits set out in the prospectus. The Manager is responsible for the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Entity. The Manager has appointed a risk manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors investment risk including climate-related risk. The RQA Group tracks the actual risk management practices being deployed across each Fund. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place across each Fund. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

3.2 Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by currency, interest rate and price movements. It represents the potential loss each Fund may suffer through holding market positions in the face of market movements.

Each Fund is exposed to market risk by virtue of their investment in debt instruments, equity instruments, CIS, ETF and derivatives.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.2 Market risk (continued)

A key metric used by the RQA Group to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period each Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk. The one-day VaR has a multi-year year look back period which encompasses market volatility caused by political, social and economic events which feed into the model. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, or other events, may adversely affect the Fund's VaR.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that each Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaR based on 99% confidence level is outlined in the table below:

Fund name	2026 %	2025 %
BlackRock Advantage Asia ex Japan Equity Fund	5.06	3.50
BlackRock Advantage Emerging Markets Equity Fund	4.56	3.56
BlackRock Advantage Emerging Markets ex China Equity Fund	4.77	3.42
BlackRock Advantage Europe Equity Fund	2.83	3.78
BlackRock Advantage Europe ex UK Equity Fund	2.87	3.93
BlackRock Advantage Global Corporate Credit Screened Fund	0.57	1.72
BlackRock Advantage Global High Yield Credit Screened Fund	0.48	1.57
BlackRock Advantage US Equity Fund	5.34	4.54
BlackRock Advantage World Equity Fund	4.18	3.66
BlackRock Global Target Return: Conservative Fund	1.30	1.28
BlackRock Global Target Return: Growth Fund	1.89	2.03
BlackRock Global Target Return: Moderate Fund	2.39	1.60
BlackRock Global Unconstrained Equity Fund	3.90	4.80
BlackRock Systematic Equity Factor Plus Fund	2.40	3.96
BlackRock Systematic Multi-Strategy Fund	0.93	1.17
BlackRock Tactical Opportunities Fund	1.34	1.52

3.2.1 Market risk arising from foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Exposure to foreign currency risk

Each Fund may invest in financial instruments denominated in currencies other than its functional currency. Consequently, each Fund is exposed, directly and/or indirectly, to risks that the exchange rate of its functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of each Fund's assets which are denominated in currencies other than its own currency.

The details of the open forward currency contracts in place to hedge foreign currency risk at the financial year end date are disclosed in the schedules of investments.

In addition, each Fund issued share classes denominated in currencies other than the functional currency of each Fund.

Management of direct and indirect foreign currency risk

Each Fund may engage in foreign currency hedging to minimise the effect of currency movements between the currencies of the investments held by the Fund and the Fund's functional currency and the Fund's currency hedged share classes.

The Investment Manager monitors foreign currency risk exposure against pre-determined tolerances and determines when a currency hedge should be reset and the gain or loss arising from such hedge reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency hedge.

3.2.2 Market risk arising from interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to interest rate risk

Each Fund is exposed to interest rate risk through its cash and cash equivalent holdings including margin cash held with brokers, use of credit facilities, and through its investments in interest bearing financial instruments which are disclosed in the schedule of investments.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.2 Market risk (continued)

3.2.2 Market risk arising from interest rate risk (continued)

Each Fund also has indirect exposure to interest rate risk through its investments into CIS, ETF and interest rate financial derivative instruments ("FDIs") whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Management of direct and indirect interest rate risk

Interest rate risk exposure is managed at the underlying CIS level, by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

3.2.3 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, climate change or other events could have a significant impact on each Fund and market prices of its investments.

Exposure to price risk

Each Fund is exposed to price risk arising from its investments in financial instruments. The exposure of each Fund to price risk is the fair value of the investments held as shown in the schedule of investments of each Fund.

Each Fund also has indirect exposure to price risk through its investments into debt instruments, CIS, ETF and derivatives whereby the value of an underlying asset may fluctuate as a result of change to the fair value price.

Management of direct and indirect price risk

By diversifying the portfolio, where this is appropriate and consistent with each Fund's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of each Fund is minimised.

There is a risk that the valuation of each Fund may not fairly reflect the value of the investments held at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for each Fund. To mitigate this risk the Directors may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be determined.

The price risk inherent in the CIS/ETF holdings is monitored by the Investment Manager, at the CIS/ETF level, by understanding the investment objectives of the underlying funds as well as its internal control policies and regular risk and performance reporting. The investments into other CIS/ETF include investments into related party funds. Such CIS/ETF are subject to the same control procedures the Investment Manager employs for each Fund.

3.3 Liquidity risk

Liquidity risk is the risk that each Fund will encounter difficulties in meeting obligations associated with financial liabilities.

Exposure to liquidity risk

Each Fund's principal liquidity risks arise from the ability of investors to effect redemption requests and the liquidity of the underlying investments each Fund has invested in.

Each Fund's shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of each Fund's NAV, excluding any duties and charges where applicable. Each Fund is therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

Each Fund may invest in CIS which can impose notice periods or other restrictions on redemptions and this may increase the liquidity risk of each Fund. Each Fund is also exposed to liquidity risk associated with daily margin calls on FDIs.

All of the Fund's financial liabilities, based on contractual maturities, fall due within three months. The expected settlement dates can be more than three months based on the analysis of the remaining period at the reporting date to the maturity date and are outlined in the schedule of investments.

Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including trading volume and increased price volatility. As a result, each Fund may experience difficulties in disposing of assets to satisfy liquidity demands.

Each Fund's liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of shares in a Fund exceed more than 10% of the NAV of each Fund on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess numbers of shares in issue from each Fund. The shares which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter.

None of the assets of the Funds are subject to special liquidity arrangements.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.3 Liquidity risk (continued)

Management of liquidity risk (continued)

The Directors may at any time, with the approval of the Depositary, temporarily suspend the issue, valuation, sale, purchase or redemption of units during:

- (i) any period when any recognized market on which a substantial portion of the investment for the time being comprised in the relevant Fund are quoted, listed, traded or dealt in is closed otherwise than for ordinary holiday, or during which dealings in any such organised exchange are restricted or suspended;
- (ii) any period where, as a result of political, military, economic or monetary events, conditions of financial markets or other circumstances beyond the control, responsibility and power of the Directors, including the disposal or valuation of investments for the time being comprised in each Fund cannot, in the opinion of the Directors, be effected or completed normally or without prejudicing the interest of shareholders of that Fund;
- (iii) any breakdown in the means of communication normally employed in determining the value of any investments for the time being comprised in the relevant Fund or during any period when for any other reason the value of investments for the time being comprised in the Fund cannot, in the opinion of the Directors, be promptly or accurately ascertained;
- (iv) any period when the Directors are unable to repatriate funds for the purposes of making redemption payments or during which the realisation of investments for the time being comprised in the Fund, or the transfer or payment of the funds involved in connection therewith cannot, in the opinion of the Directors, be effected at normal prices;
- (v) any period when, as a result of adverse market conditions, the payment of redemption proceeds may, in the opinion of the Directors, have an adverse impact on the Fund or the remaining shareholders in the relevant Fund;
- (vi) any period (other than ordinary holiday or customary weekend closings) when any market or exchange which is the main market or exchange for a significant part of the instruments or positions is closed, or in which trading thereon is restricted or suspended;
- (vii) any period when proceeds of any sale or repurchase of the shares cannot be transmitted to or from the account of the relevant Fund;
- (viii) any period in which the repurchase of the shares would, in the opinion of the Directors, result in a violation of applicable laws;
- (ix) any period after a notice convening a meeting of shareholders for the purpose of dissolving the Fund or terminating a Fund has been issued, up to and including the date of such meeting of shareholders;
- (x) any period during which dealings in a CIS in which the Fund has invested a significant portion of its assets are suspended; or
- (xi) any period when the Directors determine that it is in the best interests of the shareholders of a Fund to do so.

3.4 Counterparty credit risk

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Exposure to counterparty credit risk

Each Fund is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default.

Each Fund has limited direct counterpart credit risk.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund. The carrying value of financial assets together with cash held with counterparties best represents each Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of any International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement, and netting, which would reduce the overall counterparty credit risk exposure. Each Fund only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. Cash held as security by the counterparty to FDI contracts is subject to the credit risk of the counterparty.

All transactions in listed securities are settled/paid for upon delivery of securities, using approved brokers. Risk relating to unsettled transactions is considered low due to the short settlement period involved and the high credit quality of the brokers used.

Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

The BlackRock RQA Counterparty Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

Management of counterparty credit risk (continued)

There were no past due or impaired balances in relation to transactions with counterparties as at 30 April 2026 or 30 April 2025.

3.4.1 FDIs

Each Fund's holdings in exchange traded and OTC FDIs expose the Fund to counterparty credit risk.

3.4.1.1 Exchange traded and centrally cleared FDIs

The exposure is limited by trading contracts through a clearing house. Each Fund's exposure to credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded contracts and centrally cleared swaps (variation margin). Each Fund's exposure to credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism.

A party to a cleared FDI transaction is subject to the credit risk of the clearing house through which it holds its cleared position, rather than the credit risk of its original counterparty to the FDI transaction. All funds received by a clearing broker are generally held in a clearing brokers' customer accounts. While clearing brokers are required to segregate customer margin from their own assets, in the event that a clearing broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the clearing broker for all its clients, typically the shortfall would be allocated on a pro-rata basis across all the clearing broker's customers, potentially resulting in losses to each Fund.

3.4.1.2 OTC FDIs

The risk in relation to OTC FDIs arises from the failure of the counterparty to perform according to the terms of the contract as these FDI transactions are traded bilaterally except those cleared centrally.

All OTC FDI transactions are entered into by each Fund under an ISDA Master Agreement or similar agreement. An ISDA Master Agreement is a bilateral agreement between each Fund and a counterparty that governs OTC FDI transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore, any collateral disclosures provided are in respect of all OTC FDI transactions entered into by each Fund under the ISDA Master Agreement. All cash collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, each Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment. When each Fund returns securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to each Fund. Trading in OTC FDIs which have not been collateralised give rise to counterparty exposure.

Each Fund's maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency contract and any net unrealised gains as disclosed in the relevant Fund's schedule of investments.

With the exception of non-deliverable forward currency contracts held on BlackRock Advantage Asia ex Japan Equity Fund, BlackRock Advantage Emerging Markets Equity Fund, BlackRock Advantage Emerging Markets ex China Equity Fund, BlackRock Systematic Multi-Strategy Fund and BlackRock Tactical Opportunities Fund, forward currency contracts do not require variation margins and the counterparty credit risk is monitored through the BlackRock RQA Counterparty Risk Team who monitor the creditworthiness of the counterparty. Margin is paid or received on non-deliverable forward currency contracts to cover any exposure by the counterparty or each Fund to each other. The margin cash account on the balance sheets consists of margin receivable from the Fund's clearing brokers and the forward currency contracts counterparty.

Each Fund has the right to reinvest cash collateral received. Cash collateral pledged by each Fund is separately identified on the balance sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by each Fund is reflected on the balance sheets as cash collateral payable. Each Fund is also exposed to counterparty risk of rehypothecation of pledged collateral. The value of inbound cash collateral and cash collateral pledged is reflected on the balance sheets of each Fund.

The following tables detail the total number of OTC FDI counterparties each Fund is exposed to, the lowest long-term credit rating of any one counterparty (or its ultimate parent, if it is unrated), the maximum exposure to any one counterparty (which is calculated on a net basis) and the related total cash and non-cash collateral received to this individual counterparty exposure, where applicable:

As at 30 April 2026	Currency	Total number of counterparties	Lowest credit rating of any one counterparty	Maximum exposure to any one counterparty '000	Total collateral received in relation to the maximum exposure '000

BlackRock Tactical Opportunities Fund	USD	16	BBB+	10,619	–

For total return swaps held by each Fund, the risk is further mitigated as cash movements take place on either a weekly or a monthly basis with the gain or loss being realised in the relevant Fund.

3.4.2 Depositary

The majority of the investments are held by the Depositary at the financial year end. Investments are segregated from the assets of the Depositary, with ownership rights remaining with each Fund. Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to its investments held by the Depositary to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedule of investments, plus any unsettled trades.

Substantially all of the cash of each Fund is held with the Depositary in its account together with its own cash balances and with those cash balances that are held on behalf of other clients. Each Fund's cash balances are separately identifiable within the records of the Sub-Custodian.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.2 Depository (continued)

In respect of the cash held by the Sub-Custodian or other depositaries it appoints, each Fund will be exposed to counterparty credit risk of the Sub-Custodian or those depositaries. In the event of the insolvency or bankruptcy of the Sub-Custodian or other depositaries, each Fund will be treated as a general creditor of the Sub-Custodian or the depositaries.

To mitigate each Fund's exposure to the Depository, the Investment Manager ensures that the Depository is a reputable institution as each Fund only transacts with Depository's that are regulated entities subject to prudential supervision.

The long-term credit rating of the parent company of the Depository as at 30 April 2026 is AA- (30 April 2025: AA-) (Standard & Poor's rating).

In order to further mitigate each Fund's counterparty credit risk exposure to the Sub-Custodian or depository banks, each Fund may enter into additional arrangements such as the placing of residual cash in a money market fund.

3.4.3 Securities lending

Each Fund's engagement in securities lending activities expose the Fund to counterparty credit risk. The maximum exposure of each Fund is equal to the value of the securities loaned.

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depository or the securities lending agent.

The collateral is registered and held in the name of Depository on behalf of each Fund in any or all of the following central securities depositories; J.P. Morgan SE – Dublin Branch, depending on the type of collateral the counterparty has to give in order to cover the required value of exposure. The collateral provided by these counterparties consists of shares admitted to dealing on a regulated market.

The Funds outlined below engaged in securities lending activities during the financial year. The value of securities on loan and collateral held at the financial year end are shown below:

Fund name	Currency	Value of securities on loan	Value of title transferred collateral received	Value of securities on loan	Value of title transferred collateral received
		30 April 2026 '000	'000	30 April 2025 '000	'000
BlackRock Advantage Asia ex Japan Equity Fund	USD	9,977	10,799	2,815	3,092
BlackRock Advantage Emerging Markets Equity Fund	USD	20,122	21,732	2,119	2,296
BlackRock Advantage Emerging Markets ex China Equity Fund	USD	–	–	346	381
BlackRock Advantage Europe Equity Fund	EUR	29,207	31,661	15,897	16,963
BlackRock Advantage Europe ex UK Equity Fund	EUR	14,777	15,850	893	952
BlackRock Advantage Global Corporate Credit Screened Fund	USD	1,550	1,625	3,826	4,119
BlackRock Advantage Global High Yield Credit Screened Fund	USD	64,145	68,815	39,650	44,916
BlackRock Advantage US Equity Fund	USD	35,212	38,325	56,581	63,798
BlackRock Advantage World Equity Fund	USD	48,633	52,862	16,420	18,606
BlackRock Global Unconstrained Equity Fund	USD	93,828	100,937	11,646	12,723
BlackRock Systematic Equity Factor Plus Fund	USD	12,917	13,956	2,280	2,534
BlackRock Tactical Opportunities Fund	USD	13,885	14,827	13,301	14,929

To mitigate this risk, each Fund receives either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned. The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary.

As at 30 April 2026, collateral received comprised of 99.99% (30 April 2025: 100.00%) in securities admitted to or dealt on a regulated market and 0.01% (30 April 2025: Nil) in cash.

Each Fund also benefits from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

3.4.4 Issuer credit risk relating to debt instruments

Issuer credit risk is the default risk of one of the issuers of any debt instruments held by each Fund. Debt instruments involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign debt and corporate debt which expose them to the default risk of the issuer with regards to interest or principal payments.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

3. Financial risks (continued)

3.4 Counterparty credit risk (continued)

3.4.4 Issuer credit risk relating to debt instruments (continued)

The following tables detail the credit rating profile of the debt instruments held by each Fund:

As at 30 April 2026	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments
BlackRock Advantage Global Corporate Credit Screened Fund	USD	99.71	0.29	–	100.00
BlackRock Advantage Global High Yield Credit Screened Fund	USD	1.72	98.01	0.27	100.00
BlackRock Systematic Multi-Strategy Fund	USD	74.68	15.49	9.83	100.00
BlackRock Tactical Opportunities Fund	USD	100.00	–	–	100.00

As at 30 April 2025	Currency	Investment grade % of debt instruments	Non-investment grade % of debt instruments	Not rated % of debt instruments	Total % of debt instruments
BlackRock Advantage Global Corporate Credit Screened Fund	USD	99.26	0.74	–	100.00
BlackRock Advantage Global High Yield Credit Screened Fund	USD	1.65	98.35	–	100.00
BlackRock Systematic ESG Equity Absolute Return Fund	EUR	100.00	–	–	100.00
BlackRock Systematic Multi-Strategy Fund	USD	75.09	13.70	11.21	100.00
BlackRock Tactical Opportunities Fund	USD	100.00	–	–	100.00

To manage this risk, the Investment Manager, where appropriate and consistent with each Fund's objectives, invests in a wide range of debt instruments. The ratings of debt instruments are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for non-rated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to each Fund.

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a share of participation in an investee CIS where the Fund typically trades the units held at the latest NAV, and where available the independently audited NAV, on the valuation date of such share of participation as calculated by the administrator of the investee CIS and in accordance with the requirements of the scheme of which the relevant investment is a share of participation. The unaudited NAV of the underlying investee CIS is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS. The unaudited NAV of the underlying investee CIS may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Fair value hierarchy (continued)

- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference asset or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable;
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date; and
- (ix) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that cannot be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis of each Fund's financial assets and financial liabilities measured at fair value as at 30 April 2026 and 30 April 2025:

30 April 2026	Level 1	Level 2	Level 3	Total

NOTES TO THE FINANCIAL STATEMENTS (continued)

6. Operating expenses

The Entity employs an “all in one” fee structure for the Funds (and share classes). Each Fund pays all of its fees, operating costs and expenses (and its due proportion of any costs and expenses of the Entity allocated to it) as a single flat fee (the “Ongoing Charge”). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Manager, Investment Manager, Depositary, Administrator and Transfer Agent from the amounts received by the Manager from the ongoing charge. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund's costs and expenses in connection with the operation of the Fund exceed the stated ongoing charge, the Manager will discharge an excess amount out of its own assets.

Management fees (inclusive of investment management, administrator and depositary fees):

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 30 April 2026:

Fund name	Unit class	Ongoing charge

Whilst it is anticipated that the ongoing charges borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

6. Operating expenses (continued)

Performance fees

The performance fees shall be calculated and shall accrue at each valuation point and the accrual will be reflected in the NAV of the relevant share class. The performance fees are paid annually in arrears as soon as practicable after the close of business on the business day following the end of the relevant performance period.

There are two methods of calculation of performance fees and they are classified as Type A and Type B Funds based on the method followed by the Funds.

Type A Funds:

The following Funds use Type A approach in calculating the performance fees:

1. BlackRock Systematic ESG Equity Absolute Return Fund
2. BlackRock Systematic Multi-Strategy Fund

The performance fee is equal to 20% of the amount if any, by which the NAV outperforms the "Reference NAV" on the last business day of the performance period. If there is a redemption from the Fund during a performance period, the performance fee crystallises with respect to those shares and will be deducted from the final redemption proceeds payable to the redeeming shareholder.

"Reference NAV", the Reference NAV will be the higher of (in each case as adjusted by the benchmark return):

- (a) the high watermark; or
- (b) the money weighted price -
 - (i) the launch NAV; or
 - (ii) on the first day of a subsequent performance period, the higher of:
 - (a) the previous day's money weighted price; and
 - (b) the previous day's NAV per share if a performance fee has been paid out; or
 - (iii) in respect of any other dealing day, the previous day's money weighted price adjusted by subscriptions or switches into the share class on that valuation day.

In each case as reduced by the rate of any distribution in respect of shares made during the relevant performance period.

Type B Funds:

The following Funds use Type B approach in calculating the performance fees:-

1. BlackRock Advantage Asia ex Japan Equity Fund
2. BlackRock Advantage Emerging Markets Equity Fund
3. BlackRock Advantage Emerging Markets ex China Equity Fund
4. BlackRock Advantage Europe Equity Fund
5. BlackRock Advantage Europe ex UK Equity Fund
6. BlackRock Advantage Global High Yield Credit Screened Fund
7. BlackRock Advantage US Equity Fund
8. BlackRock Advantage World Equity Fund
9. BlackRock Global Unconstrained Equity Fund
10. BlackRock Systematic Equity Factor Plus Fund

For Type B Funds a performance fee accrual is calculated where the NAV per share return of the relevant share class outperforms the relevant benchmark return.

NAV per share return is calculated on each dealing day as the difference between the current day NAV per share and that of the prior day NAV per share for that share class. Dividend distributions are added back in for the purposes of calculating the performance of that share class.

Benchmark return is the change in performance return of the performance fee benchmark, calculated on each dealing day as the percentage difference between the value of the performance fee benchmark on that day and that of the previous dealing day.

If the NAV per share return is above the benchmark return, then a performance fee accrual is calculated as the relevant percentage of the difference as multiplied by the outstanding number of shares on the valuation day for that share class. When the NAV per share return underperforms the relevant benchmark return no performance fee will be accrued until such underperformance has been made good. The underperformance that the Manager is required to make good, prior to any payment of a performance fee, is carried forward to the next performance period in proportion to the shareholders remaining, in case of redemption, within the Fund at each valuation point.

With respect to Type B Funds, investors should note that where the NAV of the Fund has declined the Fund may still accrue a performance fee in circumstances where the performance of the Fund has exceeded the performance of the benchmark return.

The performance fee is calculated by the Administrator and verified by the Depositary.

Any underperformance by the share class relative to the Reference NAV during a performance period must be clawed back by that share class before any subsequent performance fee becomes payable.

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

6. Operating expenses (continued)

Performance fees (continued)

The performance fee shall only be payable on the amount by which the share class outperforms the Reference NAV. In practical terms this will be achieved by introducing a high watermark principle or "Prior High NAV" (as defined below) for each share class. For each performance period, a performance fee will only be payable by a particular share class if the NAV of a share in that class at the end of a performance period is greater than the prevailing Prior High NAV for that class.

The "Prior High NAV" of each class is the NAV per share for that class at the end of the last performance period in respect of which a performance fee has been paid (or, if no performance fee has yet been paid with respect to any such performance period, the initial dealing price).

At the end of each performance period, where a performance fee has been paid, and only then, the Prior High NAV per share will be reset to the NAV per share of the relevant class at the end of such performance period. For the avoidance of doubt, where the relevant Share class has underperformed, (i.e. its NAV per Share at the end of a performance period is below the Prior High NAV per Share), no performance fee will be payable until the underperformance is clawed back.

Class A, Class D and Class DP share class has 20% fees payable out of the NAV of the Fund and Class Z share class use 10% fees payable out of the NAV of the Fund.

Investors should note that the Investment Manager may be paid a performance fee which will be based on realised and unrealised gains.

Therefore, it is an inherent risk in the Fund that performance fees may be paid on unrealised gains which may never ultimately be realised by the Fund.

Further details are set out in the Entity's prospectus.

The performance fee, as a percentage of the respective share class net asset value, is calculated by dividing the accrued performance fee during the financial year by the daily average NAV of the respective share class.

There were no performance fees during the financial years ended 30 April 2026 and 30 April 2025 for Type A and Type B Funds.

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. Taxation (continued)

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 102, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Organisation for Economic Co-operation and Development ("OECD") released Pillar Two Model Rules, which contemplate a global 15% minimum tax rate. The OECD continues to release additional guidance, including administrative guidance on interpretation and application of Pillar Two, and many countries are passing and updating legislation as well as local guidance to comply with Pillar Two.

Based on the available legislation and information, the Entity does not expect Pillar Two to have a material impact to its provision for income taxes for the year ended 30 April 2026. However, the rules are subject to negotiation and change. The Entity will continue to evaluate the potential future impacts of Pillar Two and will continue to review and monitor the issuance of additional guidance.

NOTES TO THE FINANCIAL STATEMENTS (continued)

13. Share capital

Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of \$1.00 each and 500,000,000,000 participating shares of no par value.

Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager and nominees of the Manager at 30 April 2026 and 30 April 2025. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

BlackRock Systematic Multi-Strategy Fund	BlackRock Financial Management, Inc.
BlackRock Tactical Opportunities Fund	BlackRock Financial Management, Inc.

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Manager to be paid out of the Investment Manager's own fees.

Fees paid to the Manager during the financial year, the nature of these transactions and balances outstanding at the financial year end are disclosed in note 6 and note 12 respectively.

The Directors as at 30 April 2026 are presented in the table below:

Directors	Employee of the BlackRock Group	Director of BlackRock affiliates and/or other funds managed by BlackRock
Barry O'Dwyer	No	Yes
Andrew Alabaster	Yes	Yes
Nicola Grenham	No	Yes
Niall Ryan	Yes	Yes
Davina Saint	No	Yes

The aggregate emolument of the Directors relates to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

Holdings in other funds managed by BlackRock

Investments in funds managed by BlackRock, Inc. are listed below and marked on the relevant Fund's schedule of investments. For underlying funds which are subject to investment management or performance fees, these have been rebated back to the Fund.

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income on the income statement. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

BlackRock Global Funds - US Dollar Reserve Fund - Class X2 USD	N/A ³

¹The underlying funds employ an "all in one" fee structure. Each fund pays all of its fees, operating costs and expenses as a single flat fee (TER).

²The Manager of these investments will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

³The Fund is not subject to management fee on this investment. However, the underlying funds pay an administration fee to the management company, BlackRock Luxembourg S.A. The administration fee paid shall not exceed 0.25% per annum for BlackRock Global Funds.

The terms and returns received by the related parties in making the investments were no more favourable than those received by other investors investing into the same share classes.

The following tables detail the transactions with entities considered to be related parties:

Securities lending

All revenue generated from securities lending activities during the financial year net of the securities lending agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated, the securities lending agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the securities lending agent, the securities lending agent will discharge any excess amounts out of its own assets.

No provisions have been recognised by the Funds against amounts due from related parties at the financial year end date (30 April 2025: Nil).

No amounts have been written off during the financial year in respect of amounts due to or from related parties (30 April 2025: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial year (30 April 2025: Nil).

BLACKROCK FUNDS I ICAV

NOTES TO THE FINANCIAL STATEMENTS (continued)

17. Credit facility

The Funds entered into a credit facility with JPMorgan whereby JPMorgan, together with other syndicated lenders, made a portion of the USD 550,000,000 credit facility available to the Funds. The portion of the USD 550,000,000 credit facility will be allocated to the Funds based on the credit facility agreement dated 16 April 2026. This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the Funds. Any new Fund will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this year, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged on a daily basis in relation to this credit facility which is included in the income statement under caption "Operating expenses". The loan commitment fee is charged at 0.10% on the outstanding balance.

The credit facility was not utilised during the financial year (30 April 2025: Nil).

18. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities as at 30 April 2026 and 30 April 2025.

19. Subsequent events

On 22 May 2026, an updated prospectus was issued for the Entity with updates to the investment policy for the BlackRock Advantage Asia ex Japan Equity Fund.

On 2 June 2026, BlackRock Islamic Multi-Asset Fund commenced trading with launch of the class A USD Accumulating, the class A USD Distributing, the class D USD Accumulating, the class D USD Distributing, the class S USD Accumulating, the class S USD Distributing and the class X USD Accumulating.

Other than the above, there have been no events subsequent to the financial year end, which, in the opinion of the Directors, may have had an impact on the financial statements for the financial year ended 30 April 2026.

20. Approval date

The financial statements were approved by the Directors on 30 July 2026.

¹ Security fully or partially on loan.

² These securities were valued in consultation with the Manager. These securities were fair valued, priced per corporate action terms or suspended at year end.

³ Forward currency contracts held with one counterparty that have the same buy currency, sell currency and maturity date are presented on an aggregate basis where applicable. There is no netting of asset and liability positions.

⁴ Investments which are less than USD 500 have been rounded down to zero.

	% of total asset value
Analysis of total assets	
Transferable securities admitted to an official stock exchange listing	97.27
Financial derivative instruments dealt in on a regulated market	0.02
Over-the-counter financial derivative instruments	0.20
Other assets	2.51
Total assets	100.00

Underlying exposure

The following table details the value on a gross absolute basis of the underlying exposure obtained through financial derivative instruments as at 30 April 2026.

	Underlying exposure USD '000
Financial derivative instruments	
Exchange traded futures contracts	10,797
Over-the-counter forward currency contracts	130,310

¹ Investment in related party.

² Rates are discount rates or a range of discount rates as of year end.

³ Security is perpetual without predetermined maturity date. The date shown, if applicable, is the next call date.

⁴ No maturity dates shown on TBA's. When the TBA settles that pool/security will have a legal, final maturity.

⁵ Investments which are less than USD 500 have been rounded down to zero.

⁶ Forward currency contracts held with one counterparty that have the same buy currency, sell currency and maturity date are presented on an aggregate basis where applicable. There is no netting of asset and liability positions.

	% of total asset value
Analysis of total assets	
Transferable securities admitted to an official stock exchange listing	45.11
Transferable securities dealt in on another regulated market	43.90
Collective investment schemes	0.17

BLACKROCK FUNDS I ICAV

SCHEDULE OF INVESTMENTS (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

As at 30 April 2026

¹ Investments which are less than USD 500 have been rounded down to zero.

² Security fully or partially on loan.

³ These securities were valued in consultation with the Manager. These securities were fair valued, priced per corporate action terms or suspended at year end.

⁴ Rates are discount rates or a range of discount rates as of year end.

⁵ Forward currency contracts held with one counterparty that have the same buy currency, sell currency and maturity date are presented on an aggregate basis where applicable. There is no netting of asset and liability positions.

	% of total asset value
Analysis of total assets	
Transferable securities admitted to an official stock exchange listing	68.37
Transferable securities dealt in on another regulated market	0.04
Financial derivative instruments dealt in on a regulated market	1.46
Over-the-counter financial derivative instruments	3.48
Other assets	26.65
Total assets	100.00

Underlying exposure

The following table details the value on a gross absolute basis of the underlying exposure obtained through financial derivative instruments as at 30 April 2026.

	Underlying exposure USD '000
Financial derivative instruments	
Exchange traded futures contracts	2,915,523
Over-the-counter total return swaps	526,476
Centrally cleared credit default swaps	312,087
Centrally cleared interest rate swaps	3,227,767
Over-the-counter forward currency contracts	1,650,604

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

TRANSACTIONS WITH CONNECTED PERSONS (UNAUDITED)

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Parties") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Parties and that transactions with Connected Parties entered into during the financial year complied with this obligation.

BLACKROCK FUNDS I ICAV

TRANSACTION COSTS (UNAUDITED)

Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the financial year ended 30 April 2026. These include all brokers' commission, settlement fees, stamp duties and broker fees charges on equities, exchange traded futures contracts and certain debt instruments.

Fund name	Currency	Value '000
BlackRock Advantage Asia ex Japan Equity Fund	USD	1,030
BlackRock Advantage Emerging Markets Equity Fund	USD	1,581
BlackRock Advantage Emerging Markets ex China Equity Fund	USD	472
BlackRock Advantage Europe Equity Fund	EUR	3,673
BlackRock Advantage Europe ex UK Equity Fund	EUR	612
BlackRock Advantage US Equity Fund	USD	362
BlackRock Advantage World Equity Fund	USD	1,290
BlackRock Global Target Return: Conservative Fund	USD	2
BlackRock Global Target Return: Growth Fund	USD	3
BlackRock Global Target Return: Moderate Fund	USD	2
BlackRock Global Unconstrained Equity Fund	USD	1,992
BlackRock Systematic Equity Factor Plus Fund	USD	69
BlackRock Systematic Multi-Strategy Fund	USD	1
BlackRock Tactical Opportunities Fund	USD	134

Not all transaction costs are separately identifiable. For certain debt instruments, transaction costs will be included in the purchase and sales price of the investment and are not separately disclosed.

SOFT COMMISSIONS (UNAUDITED)

There were no soft commission arrangements entered into by the Investment Manager on behalf of each Fund during the financial year ended 30 April 2026.

CROSS INVESTMENTS (UNAUDITED)

Each Fund below held the following cross umbrella investments as at 30 April 2026. These investments have not been eliminated for presentation purposes in the Entity's combined results.

Fund	Cross umbrella investment	Fair Value USD '000	% of aggregated umbrella net assets value
BlackRock Global Target Return: Conservative Fund	BlackRock Advantage US Equity Fund - Class X USD Accumulating	161	2.57

BlackRock Global Target Return: Moderate Fund	BlackRock Advantage World Equity Fund - Class X USD Accumulating	405	6.39

GLOBAL EXPOSURE (UNAUDITED)

The Directors are required by regulation to employ a risk management process, which enables it to monitor accurately and manage the global exposure from FDIs which each Fund gains as a result of its strategy ("global exposure").

The Management Company uses one of two methodologies, the "commitment approach" or the "value-at-risk approach" ("VaR"), in order to measure the global exposure of each Fund and manage the potential loss to them due to market risk.

Commitment approach

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of the Fund to FDI.

Pursuant to the relevant regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

VaR approach

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

Please refer to the financial risks note to the financial statements for further details on the measure of VaR.

BLACKROCK FUNDS I ICAV

GLOBAL EXPOSURE (UNAUDITED) (continued)

VaR approach (continued)

The Management Company uses Absolute VaR as set out below. For Absolute VaR, the monthly VaR will not exceed 20% of the Fund's NAV. Where a VaR calculation is performed using a horizon other than the one-month regulatory limit, this 20% limit shall be rescaled to reflect the appropriate risk horizon period as directed by the relevant regulatory guidelines. Utilisation refers to the level of risk taken in this context.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective Absolute VaR regulatory limit.

Fund name	Global exposure approach	Reference portfolio	Highest utilisation of the VaR limit %	Lowest utilisation of the VaR limit %	Average utilisation of the VaR limit %
BlackRock Global Target Return: Conservative Fund	Absolute VaR	ICE BofAML 3 Month Treasury Bill Index	22.60	7.38	15.31
BlackRock Global Target Return: Growth Fund	Absolute VaR	ICE BofAML 3 Month Treasury Bill Index	31.54	10.29	19.64
BlackRock Global Target Return: Moderate Fund	Absolute VaR	ICE BofAML 3 Month Treasury Bill Index	43.31	12.98	25.37
BlackRock Systematic Multi-Strategy Fund	Absolute VaR	Bank of America Merrill Lynch 3 Month US Treasury Bill Index	18.79	11.86	15.06
BlackRock Tactical Opportunities Fund	Absolute VaR	Bank of America Merrill Lynch 3 Month US Treasury Bill Index	28.19	11.63	19.98

LEVERAGE (UNAUDITED)

The use of FDIs may expose a Fund to a higher degree of risk. In particular, FDI contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on FDIs than on standard bonds or equities. Leveraged FDI positions can therefore increase a Fund's volatility.

Pursuant to its regulatory obligations, the Directors are required to express the level of leverage employed in a Fund where VaR is being used to measure global exposure. For the purposes of this disclosure, leverage is the investment exposure gained through the use of FDIs. It is calculated using the sum of the notional values of all the FDI held by the relevant Fund, without netting, and is expressed as a percentage of the NAV.

Disclosed in the table below is the level of leverage employed by each relevant Fund during the financial year ended 30 April 2026.

Fund name	% Average leverage employed
BlackRock Global Target Return: Conservative Fund	27.22
BlackRock Global Target Return: Growth Fund	24.70
BlackRock Global Target Return: Moderate Fund	24.01
BlackRock Systematic Multi-Strategy Fund	318.65
BlackRock Tactical Opportunities Fund	712.34

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "ManCo"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock group authorised by the FCA as a manager of a UK UCITS fund.

The ManCo has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and (b) the ManCo's board of directors (the "ManCo's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies which includes reviewing the remuneration policy on a regular basis and being responsible for its implementation.

The implementation of the remuneration policy is annually subject to central and independent review for compliance with policies and procedures for remuneration adopted by the MDCC and by the ManCo's Board. The most recent review found no material issues. The remuneration disclosure is produced and owned by the MDCC and the ManCo's Board.

No changes were made to the remuneration policy in 2025.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
 - BlackRock's executive compensation programmes;
 - BlackRock's employee benefit plans; and
 - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the 'BlackRock, Inc. Board') as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 9 meetings during 2025. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The ManCo's Board

The ManCo's Board in its supervisory function has the task of supervising, approving and providing oversight of the UCITS Remuneration Policy as it applies to the ManCo and its Identified Staff (as defined below).

The responsibilities of the supervisory function include:

- approve, maintain and oversee the implementation of the UCITS Remuneration Policy;
- determine and oversee the remuneration of the members of the management body, provided that insofar the relevant ManCo does not have a separate supervisory function, the remuneration of the member of the management body is determined by the MDCC;
- approve any subsequent material exemptions or changes to the UCITS Remuneration Policy and carefully consider and monitor their effects;
- take into account the inputs provided by all competent corporate functions (i.e., risk management, compliance, human resources, strategic planning, etc.) in the design and oversight of the UCITS Remuneration Policy.

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED) (continued)

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance (including, where relevant, good outcomes for retail customers). These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, Finance, Human Resources and Internal Audit) has its own organisational structure which is independent of the business units and therefore staff members in control functions are remunerated independently of the businesses they oversee. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the ManCo.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well-defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- promote sound and effective risk management across all risk categories, including sustainability risk;
- discourage excessive risk-taking (sustainability related or otherwise); and
- ensure that good outcomes are delivered for retail customers and that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED) (continued)

Link between pay and performance (continued)

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the ManCo, the funds managed by the ManCo and/or the relevant functional department;
- factors relevant to an employee individually (e.g., relevant working arrangements (including part-time status if applicable); relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence;
- criticality to business; and
- supporting the firm's approaches to environmental, social and governance factors and diversity, equity and inclusion.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin¹ and Organic Revenue Growth². Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

¹As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

²Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

BLACKROCK FUNDS I ICAV

REPORT ON REMUNERATION (UNAUDITED) (continued)

Identified Staff

"Identified Staff" comprises the following categories of staff whose professional activities have a material impact on the risk profiles of the ManCo or the funds it manages:

- Board members (Executive and Non-Executive Directors);
- Conducting officers;
- Members of Senior Management; and
- Individuals responsible for internal senior management, risk takers, control functions

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

BlackRock applies the proportionality principle in respect of staff identified as "Identified Staff". BlackRock bases its proportionality approach on a combination of factors that it is entitled to take into account based on relevant guidelines. The application of proportionality has been assessed based on the criteria set down in the ESMA Guidelines - i.e., criteria in terms of size, internal organisation and nature, scope and complexity of the activities; group of persons, who have only collectively a material impact on the risk profile of the ManCo; and structure of the remuneration of identified staff.

Quantitative Remuneration Disclosure

The ManCo is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Remuneration information at an individual Fund level is not readily available. Disclosures are provided in relation to (a) the staff of the ManCo; (b) staff who are senior management; (c) staff who have the ability to materially affect the risk profile of the Fund; and (d) staff of companies to which portfolio management and risk management has been formally delegated.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the ManCo is included in the aggregate figures disclosed.

Members of staff and senior management of the ManCo typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the ManCo and across the broader BlackRock group. Conversely, members of staff and senior management of the broader BlackRock group may provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the broader BlackRock group and of the ManCo. Therefore, the figures disclosed are a sum of individual's portion of remuneration attributable to the ManCo according to an objective apportionment methodology which acknowledges the multiple-service nature of the ManCo and the broader BlackRock group. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the ManCo's staff in respect of the ManCo's financial year ending 31 December 2025 is USD 322.57 million. This figure is comprised of fixed remuneration of USD 119.91 million and variable remuneration of USD 202.66 million. There were a total of 4,364 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the ManCo in respect of the ManCo's financial year ending 31 December 2025, to its senior management was USD 54.33 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the ManCo or its funds was USD 74.11 million.

BLACKROCK FUNDS I ICAV

EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED)

Efficient portfolio management techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI and the prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC FDIs provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial year end are disclosed on the relevant Fund's schedule of investments.

Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and as a proportion of the Fund's NAV as at 30 April 2026. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by each Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Fund name	% of lendable assets	% of NAV
BlackRock Advantage Asia ex Japan Equity Fund	7.23	3.57
BlackRock Advantage Emerging Markets Equity Fund	12.63	5.35
BlackRock Advantage Europe Equity Fund	1.90	1.82
BlackRock Advantage Europe ex UK Equity Fund	4.89	4.68
BlackRock Advantage Global Corporate Credit Screened Fund	1.70	1.63
BlackRock Advantage Global High Yield Credit Screened Fund	12.65	11.91
BlackRock Advantage US Equity Fund	1.08	1.05
BlackRock Advantage World Equity Fund	4.12	3.98
BlackRock Global Unconstrained Equity Fund	2.25	2.17
BlackRock Systematic Equity Factor Plus Fund	2.29	2.21
BlackRock Tactical Opportunities Fund	22.13	1.16

Income earned during the year by the Funds from securities lending transactions is disclosed in the Fund's notes to the financial statements.

All revenue generated from securities lending activities during the financial year net of the Securities Lending Agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated, the Securities Lending Agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the Securities Lending Agent, the Securities Lending Agent will discharge any excess amounts out of its own assets.

The following table details the value of securities on loan (individually identified in the relevant Fund's schedule of investments), analysed by counterparty as at 30 April 2026.

Counterparty	Counterparty's country of establishment	Value of securities on loan	Value of title transferred collateral received

Total		13,885	14,827

All securities on loan have an open maturity tenor as they are callable or terminable daily.

Total Return Swaps

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by each under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund's Depositary. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 30 April 2026 and the income/returns earned for the year ended 30 April 2026. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

	Currency	% of NAV	Total returns earned '000
BlackRock Advantage Emerging Markets Equity Fund	USD	7.27	7,323
BlackRock Advantage Emerging Markets ex China Equity Fund	USD	4.05	3,641
BlackRock Systematic Multi-Strategy Fund	USD	118.55	(34,047)
BlackRock Tactical Opportunities Fund	USD	44.09	(36,530)

The total returns earned from total return swaps is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from total return swaps will accrue to the Fund and are not subject to any returns or costs sharing arrangements with the Fund's Manager or any other third parties.

Total Return Swaps (continued)

The following table details the underlying exposure value for total return swaps, analysed by counterparty as at 30 April 2026.

Counterparty	Counterparty's country of establishment	Underlying exposure
BlackRock Advantage Emerging Markets Equity Fund		USD '000
HSBC Bank plc	United Kingdom	14,662
Goldman Sachs International	United Kingdom	7,111
Bank of America Merrill Lynch International Ltd.	United Kingdom	5,576
BlackRock Advantage Emerging Markets ex China Equity Fund		USD '000
BNP Paribas	France	3,565
HSBC Bank plc	United Kingdom	820
Bank of America Merrill Lynch International Ltd.	United Kingdom	525
Goldman Sachs International	United Kingdom	211
BlackRock Systematic Multi-Strategy Fund		USD '000
BNP Paribas	France	71,754
Citigroup Global Markets Ltd.	United Kingdom	56,356
Barclays Bank plc	United Kingdom	54,276
BlackRock Tactical Opportunities Fund		USD '000
Bank of America Merrill Lynch International Ltd.	United Kingdom	515,614
BNP Paribas	France	10,630
HSBC Bank plc	United Kingdom	232

The following table provides an analysis of the maturity tenor of total return swaps as at 30 April 2026.

Fund name	Currency	Maturity Tenor				Total '000
		8-30 days '000	31-90 days '000	91-365 days '000	More than 365 days '000	
BlackRock Advantage Emerging Markets Equity Fund	USD	–	–	7,111	20,238	27,349
BlackRock Advantage Emerging Markets ex China Equity Fund	USD	–	3,564	211	1,346	5,121
BlackRock Systematic Multi-Strategy Fund	USD	–	17,216	108,814	56,356	182,386
BlackRock Tactical Opportunities Fund	USD	52,648	100,953	372,875	–	526,476

The above maturity tenor analysis has been based on the respective transaction contractual maturity date. Open transactions are those transactions that are callable or terminable daily and included contracts for difference.

Analysis of collateral currency

The following table provides an analysis by currency of the cash and underlying non-cash collateral received/posted by each Fund by way of title transfer collateral arrangement, in respect of securities lending transactions and OTC FDIs (including total return swaps) as at 30 April 2026.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

BLACKROCK FUNDS I ICAV

EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (UNAUDITED) (continued)

Analysis of collateral type, quality and maturity tenor (continued)

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

As at 30 April 2026, all cash collateral received in respect of OTC derivative transactions by each Fund was re-invested in money market funds managed by the Management Company or its affiliates, as disclosed in the Fund's schedule of investments. Each Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default.

The following table summarises the returns earned by each Fund during the financial year ended 30 April 2026 from the re-investment in money market funds of cash collateral received in respect of OTC derivative transactions. These returns represent the accumulative total return of the representative money market fund for the twelve month period ended 30 April 2026. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Money market fund	Total return %

No securities collateral received from a single issuer, in relation to efficient portfolio management and OTC FDIs, has exceeded 20% of any of the respective Fund's NAV at the year end date.

None of the Funds have been fully collateralised in securities issued or guaranteed by an EU member state at the year end date.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED)

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Glossary and key definitions

The periodic report disclosures set out below are presented for the year ended 30 April 2026, the “reference period”. Comparative information is presented for the financial year ended 30 April 2025 and 30 April 2024, the “previous reference periods”.

All data presented for the Fund’s investments and other quantitative measures disclosed has been calculated based on an average of the value of investments traded and held for actively managed funds, at each quarter end date within the reference period for which the Fund met the criteria of an Article 8 or 9 fund. For metrics that are presented with sustainability indicators, the relevant metric calculation relates to the investments for which the underlying ESG data is available, rather than all investments held by the Fund.

All such data presented is unaudited and was not subject to an assurance provided by the Fund auditors or a review by a third party.

The term “Assets” shall be deemed to mean the total value of investments held by the Fund throughout the reference period. The total value of investments shall include net short positions (including net short positions achieved through derivatives). BlackRock has taken a proportionate approach to the calculation of taxonomy alignment of its funds, by excluding any exposures achieved through derivatives (including both long and short positions) from the calculation of the degree to which investments made by a fund is in economic activities that qualify as environmentally sustainable under the EU Taxonomy.

Investments shall include cash and cash equivalents as set out by Article 53 of the regulatory technical standards under the Delegated Regulation (EU) 2022/1288. However, FRS 102 requires cash and cash equivalents to be treated separately. Therefore, there will be a difference in presentation for the purposes of the overall annual report. Cash and cash equivalents are presented on a settlement date basis.

Sustainable Investments: BlackRock defines Sustainable Investments as investments in issuers or securities that contribute to an environmental or social objective, do not significantly harm any of those objectives and where investee companies follow good governance practices. BlackRock refers to relevant sustainability frameworks to identify the alignment of the investment to environmental or social objectives.

Do no significant harm (“DNSH”): The assessment undertaken by BlackRock to determine whether an investment does no significant harm to any environmental or social objective under SFDR. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an investment does significant harm, which considers both third party data points as well as fundamental insights. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments.

Sustainability Factors: Environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters.

Disclaimer

Certain information set out below (the “Information”) has been provided by vendors of market data to BlackRock (some of whom may be Registered Investment Advisors under the Investment Advisers Act of 1940), each, an “Information Provider”, and it may not be reproduced or disseminated in whole or in part without prior written permission of such Information Provider. The Information has not been submitted to, nor received approval from, the US SEC or any other regulatory body. The Information may not be used to create any derivative works, or in connection with, nor does it constitute, an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product or trading strategy, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. The Information is provided “as is” and the user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. The Information Providers make no representations or express or implied warranties (which are expressly disclaimed), nor shall they incur liability for any errors or omissions in the Information, or for any damages related thereto. The foregoing shall not exclude or limit any liability that may not be excluded or limited by applicable law. Information Providers shall be deemed to be third party beneficiaries with respect to the terms of this paragraph, entitled to enforce such terms against any third party.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage Asia ex Japan Equity Fund

Legal entity identifier:

549300VRPUH27Q9GNI80

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 45.37% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI AC Asia ex Japan Index (the 'Index')

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use

Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	30.25%	N/A ⁴	N/A ⁴	N/A ⁴
Maintain that the Fund holds at least 20% in Sustainable Investments	% of Sustainable Investments held by the Fund	45.37% ^{1 3}	N/A ²	N/A ²	N/A ²

¹Effective 30 January 2026, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 30 January to 30 April 2026.

²The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

³The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

⁴The indicator was added to the investment strategy during the 2026 reference period and therefore was not reported as part of the previous reference periods.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 45.37% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	100.00%	95.78%	98.41%	90.12%
#2 Other	0.00% ²	4.22%	1.59%	9.88%
#1A Sustainable	45.37% ³	N/A ¹	N/A ¹	N/A ¹
#1B Other E/S characteristics	54.64%	N/A ¹	N/A ¹	N/A ¹
Taxonomy-aligned	1.01%	N/A ¹	N/A ¹	N/A ¹
Other environmental	37.54%	N/A ¹	N/A ¹	N/A ¹
Social	7.82%	N/A ¹	N/A ¹	N/A ¹

¹The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

²The net exposure to "Other" assets was -11.74% due to derivative positions held by the Fund.

³The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	19.12%
Information Technology	Tech Hardware & Equipment	15.27%
Financials	Banks	11.08%
Communication	Media & Entertainment	7.11%
Industrials	Capital Goods	6.16%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.54%
Financials	Insurance	4.42%
Consumer Discretionary	Autos & Components	3.77%
Communication	Telecom	3.54%
Materials	Materials	3.01%
Financials	Financial Services	2.73%
Health Care	Pharma, Biotech & Life Sciences	2.41%
Information Technology	Software & Services	2.37%
Consumer Discretionary	Consumer Services	1.86%
Consumer Discretionary	Consumer Durables	1.80%
Consumer Staples	Food, Beverage, Tobacco	1.70%
Utilities	Utilities	1.60%
Energy	Oil & Gas Refining & Marketing	1.44%
Industrials	Transportation	1.18%
Energy	Integrated Oil & Gas	0.71%
Energy	Oil & Gas Storage & Transportation	0.25%
Energy	Oil & Gas Exploration & Production	0.13%
Energy	Oil & Gas Drilling	0.00%
Energy	Oil & Gas Equipment Services	0.00%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): coal and consumable fuels.

The Fund had exposure to the Energy sub-sector during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.01% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

X No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.18%	0.33%	0.19%
Non Taxonomy-aligned	98.82%	99.67%	99.81%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.18%	0.33%	0.19%
Non Taxonomy-aligned	98.82%	99.67%	99.81%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	1.17%
Climate change adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.21%
Enabling Activities	0.62%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	1.18%	1.16%	0.87%	0.00%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE ASIA EX JAPAN EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 37.54% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 7.82% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage Emerging Markets Equity Fund

Legal entity identifier:

549300WEROAHP5K06

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 36.00% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI Emerging Markets Index (the 'Index')

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use

Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	30.40%	N/A ⁴	N/A ⁴	N/A ⁴
Maintain that the Fund holds at least 20% in Sustainable Investments	% of Sustainable Investments held by the Fund	36.00% ^{1 3}	N/A ²	N/A ²	N/A ²

¹Effective 30 January 2026, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 30 January to 30 April 2026.

²The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

³The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

⁴The indicator was added to the investment strategy during the 2026 reference period and therefore was not reported as part of the previous reference periods.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 36.00% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	87.72%	100.00%	100.00%	100.00%
#2 Other	12.28%	0.00%	0.00%	0.00%
#1A Sustainable	36.00% ²	N/A ¹	N/A ¹	N/A ¹
#1B Other E/S characteristics	51.72%	N/A ¹	N/A ¹	N/A ¹
Taxonomy-aligned	0.70%	N/A ¹	N/A ¹	N/A ¹
Other environmental	28.80%	N/A ¹	N/A ¹	N/A ¹
Social	7.20%	N/A ¹	N/A ¹	N/A ¹

¹The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	17.04%
Financials	Banks	16.34%
Information Technology	Tech Hardware & Equipment	13.86%
Communication	Media & Entertainment	6.45%
Materials	Materials	5.95%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.26%
Industrials	Capital Goods	5.26%
Financials	Insurance	3.07%
Financials	Financial Services	2.96%
Communication	Telecom	2.91%
Consumer Discretionary	Autos & Components	2.80%
Health Care	Pharma, Biotech & Life Sciences	2.47%
Consumer Discretionary	Consumer Services	1.86%
Energy	Oil & Gas Refining & Marketing	1.82%
Energy	Integrated Oil & Gas	1.74%
Information Technology	Software & Services	1.71%
Consumer Staples	Food, Beverage, Tobacco	1.58%
Utilities	Utilities	1.38%
Consumer Discretionary	Consumer Durables	1.19%
Real Estate	Real Estate Management & Development	1.02%
Energy	Oil & Gas Exploration & Production	0.27%
Energy	Oil & Gas Storage & Transportation	0.20%
Energy	Coal & Consumable Fuels	0.05%
Energy	Oil & Gas Drilling	0.01%
Energy	Oil & Gas Equipment Services	0.00%

The Fund had exposure to the Energy sub-sector during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.70% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 99.75% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.83%	0.21%	0.16%
Non Taxonomy-aligned	99.17%	99.79%	99.84%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.83%	0.21%	0.16%
Non Taxonomy-aligned	99.17%	99.79%	99.84%

For the reference period, 0.25% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	0.83%
Climate change adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.20%
Enabling Activities	0.46%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	% of Investments			
	2026	2025	2024	2023
EU Taxonomy-aligned	0.83%	0.51%	0.66%	0.00%

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 28.80% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 7.20% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI EM ex China Index (the 'Index')

Improvement of the weighted average ESG rating of the Fund is higher than the ESG rating of the Index

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above "Environmental and social characteristics promoted by the Fund"	# of active breaches reported	No active breaches	No active breaches	N/A ¹	N/A ¹
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	36.06%	50.78%	N/A ¹	N/A ¹
Improvement of ESG adjusted score relative to the Index	ESG score % improvement relative to the Index	2.23%	15.97%	N/A ¹	N/A ¹
Maintain that the Fund holds at least 20% in Sustainable Investments.	% of Sustainable Investments held by the Fund	43.67% ²	45.43%	N/A ¹	N/A ¹

¹As 2025 was the first reference period presented for the Fund, 2024 and 2023 comparatives are not presented.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 43.67% of its holdings in Sustainable Investments in pursuit of its investment objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EX CHINA EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EX CHINA EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
GHG emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	97.99%	94.08%	N/A ¹	N/A ¹
#2 Other	2.01%	5.92%	N/A ¹	N/A ¹
#1A Sustainable	43.67% ²	45.43%	N/A ¹	N/A ¹
#1B Other E/S characteristics	54.32%	39.51%	N/A ¹	N/A ¹
Taxonomy-aligned	0.70%	0.68%	N/A ¹	N/A ¹
Other environmental	36.00%	36.28%	N/A ¹	N/A ¹
Social	7.67%	50.57%	N/A ¹	N/A ¹

¹As 2025 was the first reference period presented for the Fund, 2024 and 2023 comparatives are not presented.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	21.74%
Financials	Banks	19.41%
Information Technology	Tech Hardware & Equipment	16.93%
Materials	Materials	5.95%
Industrials	Capital Goods	5.44%
Communication	Telecom	4.50%
Financials	Financial Services	3.35%
Consumer Discretionary	Autos & Components	2.72%
Information Technology	Software & Services	2.51%
Energy	Oil & Gas Refining & Marketing	2.40%
Financials	Insurance	2.01%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	1.72%
Energy	Integrated Oil & Gas	1.69%
Health Care	Pharma, Biotech & Life Sciences	1.56%
Real Estate	Real Estate Management & Development	1.18%
Utilities	Utilities	1.10%
Energy	Oil & Gas Exploration & Production	0.29%
Energy	Oil & Gas Storage & Transportation	0.21%
Energy	Oil & Gas Drilling	0.00%
Energy	Oil & Gas Equipment Services	0.00%
Energy	Coal & Consumable Fuels	0.00%

The Fund had exposure to the Energy sub-sector during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EX CHINA EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.70% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 99.96% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EX CHINA EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.00%	0.36%	0.26%
Non Taxonomy-aligned	99.00%	99.64%	99.74%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.00%	0.36%	0.26%
Non Taxonomy-aligned	99.00%	99.64%	99.74%

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	0.99%
Climate change adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.31%
Enabling Activities	0.27%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	% of Investments			
	2026	2025	2024	2023
EU Taxonomy-aligned	1.00%	0.93%	N/A ¹	N/A ¹

¹As 2025 was the first reference period presented for the Fund, 2024 and 2023 comparatives are not presented.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EMERGING MARKETS EX CHINA EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 36.00% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 7.67% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

BLACKROCK ADVANTAGE EUROPE EQUITY FUND

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
BlackRock Advantage Europe Equity Fund

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI Europe Index (the 'Index')

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use

Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	10.48%	N/A ⁴	N/A ⁴	N/A ⁴
Maintain that the Fund holds at least 20% in Sustainable Investments	% of Sustainable Investments held by the Fund	57.24% ^{1 3}	N/A ²	N/A ²	N/A ²

¹Effective 30 January 2026, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 30 January to 30 April 2026.

²The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

³The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

⁴The indicator was added to the investment strategy during the 2026 reference period and therefore was not reported as part of the previous reference periods.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 57.24% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 May 2025 to 30 April 2026.

Largest investments	Sector	% Assets	Country
ASML Holding Nv	Information Technology	4.03%	Netherlands
Astrazeneca Plc	Health Care	2.44%	United Kingdom
Allianz	Financials	2.34%	Germany
ABB Ltd	Industrials	2.33%	Switzerland
Intesa Sanpaolo	Financials	2.14%	Italy
SAP	Information Technology	2.07%	Germany
Nestle Sa	Consumer Staples	1.98%	Switzerland
Iberdrola Sa	Utilities	1.85%	Spain
Siemens N Ag	Industrials	1.79%	Germany
Lair Liquide Societe Anonyme Pour	Materials	1.79%	France
Hsbc Holdings Plc	Financials	1.77%	United Kingdom
Shell Plc	Energy	1.72%	United Kingdom
Novartis Ag	Health Care	1.69%	Switzerland
Axa Sa	Financials	1.69%	France
Sanofi Sa	Health Care	1.47%	France

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	98.20%	98.12%	99.38%	99.32%
#2 Other	1.80%	1.88%	0.62%	0.68%
#1A Sustainable	57.24% ²	N/A ¹	N/A ¹	N/A ¹
#1B Other E/S characteristics	40.96%	N/A ¹	N/A ¹	N/A ¹
Taxonomy-aligned	4.10%	N/A ¹	N/A ¹	N/A ¹
Other environmental	42.00%	N/A ¹	N/A ¹	N/A ¹
Social	15.24%	N/A ¹	N/A ¹	N/A ¹

¹The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	16.04%
Financials	Banks	13.36%
Health Care	Pharma, Biotech & Life Sciences	11.87%
Financials	Insurance	6.86%
Materials	Materials	5.73%
Information Technology	Semiconductors & Semiconductor Equipment	4.66%
Utilities	Utilities	4.42%
Financials	Financial Services	4.07%
Energy	Integrated Oil & Gas	3.74%
Consumer Staples	Food, Beverage, Tobacco	3.53%
Consumer Discretionary	Consumer Durables	3.27%
Communication	Telecom	2.77%
Industrials	Commercial & Professional Services	2.50%
Information Technology	Software & Services	2.45%
Health Care	Health Care Equipment & Services	2.03%
Communication	Media & Entertainment	1.76%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	1.64%
Consumer Discretionary	Autos & Components	1.61%
Information Technology	Tech Hardware & Equipment	1.48%
Consumer Staples	Household & Personal Products	1.29%
Consumer Staples	Consumer Staples Distribution & Retail	1.24%
Consumer Discretionary	Consumer Services	1.02%
Energy	Oil & Gas Exploration & Production	0.55%
Energy	Oil & Gas Equipment Services	0.03%
Energy	Oil & Gas Refining & Marketing	0.02%
Energy	Oil & Gas Storage & Transportation	0.02%
Energy	Coal & Consumable Fuels	0.00%
Energy	Oil & Gas Drilling	0.00%

The Fund had exposure to the Energy sub-sector during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 4.10% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.01%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.01%
Taxonomy-aligned: No gas and nuclear	4.77%	8.35%	6.55%
Non Taxonomy-aligned	95.21%	91.64%	93.43%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.01%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.01%
Taxonomy-aligned: No gas and nuclear	4.77%	8.35%	6.55%
Non Taxonomy-aligned	95.21%	91.64%	93.43%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	4.44%
Climate change adaptation	0.08%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.15%
Enabling Activities	2.51%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	4.78%	3.38%	2.54%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 42.00% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 15.24% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage Europe ex UK Equity Fund

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI Europe ex UK Index (the 'Index')

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers that derive more than 5% of their revenue from the production of firearms intended for civilian use

Exclusion of issuers that derive more than 5% of their revenue from distribution of firearms intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	14.41%	N/A ⁴	N/A ⁴	N/A ⁴
Maintain that the Fund holds at least 20% in Sustainable Investments	% of Sustainable Investments held by the Fund	61.36% ^{1 3}	N/A ²	N/A ²	N/A ²

¹Effective 30 January 2026, the Fund committed to holding Sustainable Investments, therefore this percentage has been presented using data from 30 January to 30 April 2026.

²The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

³The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

⁴The indicator was added to the investment strategy during the 2026 reference period and therefore was not reported as part of the previous reference periods.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 61.36% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

- (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
- (ii) the issuer's business practices contributed to an environmental and/or social objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 May 2025 to 30 April 2026.

Largest investments	Sector	% Assets	Country
ASML Holding Nv	Information Technology	5.15%	Netherlands
ABB Ltd	Industrials	2.73%	Switzerland
Allianz	Financials	2.69%	Germany
SAP	Information Technology	2.68%	Germany
Siemens N Ag	Industrials	2.49%	Germany
Intesa Sanpaolo	Financials	2.43%	Italy
Iberdrola Sa	Utilities	2.36%	Spain
Novartis Ag	Health Care	2.20%	Switzerland
Nestle Sa	Consumer Staples	2.18%	Switzerland

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	99.38%	99.06%	99.36%	99.45%
#2 Other	0.62%	0.94%	0.64%	0.55%
#1A Sustainable	61.36% ²	N/A ¹	N/A ¹	N/A ¹
#1B Other E/S characteristics	38.02%	N/A ¹	N/A ¹	N/A ¹
Taxonomy-aligned	5.00%	N/A ¹	N/A ¹	N/A ¹
Other environmental	46.30%	N/A ¹	N/A ¹	N/A ¹
Social	15.06%	N/A ¹	N/A ¹	N/A ¹

¹The Fund committed to holding Sustainable Investments during the 2026 reference period, therefore comparatives are not presented.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. ● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	18.15%
Health Care	Pharma, Biotech & Life Sciences	11.54%
Financials	Banks	11.48%
Financials	Insurance	7.61%
Information Technology	Semiconductors & Semiconductor Equipment	6.09%
Materials	Materials	4.96%
Utilities	Utilities	4.69%
Financials	Financial Services	4.17%
Consumer Discretionary	Consumer Durables	4.10%
Consumer Staples	Food, Beverage, Tobacco	3.49%
Information Technology	Software & Services	3.28%
Communication	Telecom	2.67%
Health Care	Health Care Equipment & Services	2.41%
Communication	Media & Entertainment	2.17%
Consumer Discretionary	Autos & Components	2.12%
Energy	Integrated Oil & Gas	2.01%
Information Technology	Tech Hardware & Equipment	1.63%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	1.59%
Industrials	Commercial & Professional Services	1.44%
Industrials	Transportation	1.09%
Energy	Oil & Gas Exploration & Production	0.58%
Energy	Oil & Gas Refining & Marketing	0.02%
Energy	Oil & Gas Storage & Transportation	0.01%
Energy	Oil & Gas Equipment Services	0.01%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling or coal and consumable fuels.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 5.00% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.02%
Taxonomy-aligned: Nuclear	0.02%	0.01%	0.01%
Taxonomy-aligned: No gas and nuclear	5.78%	9.70%	7.60%
Non Taxonomy-aligned	94.20%	90.29%	92.37%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.02%
Taxonomy-aligned: Nuclear	0.02%	0.01%	0.01%
Taxonomy-aligned: No gas and nuclear	5.78%	9.70%	7.60%
Non Taxonomy-aligned	94.20%	90.29%	92.37%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	5.32%
Climate change adaptation	0.09%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.20%
Enabling Activities	3.07%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	5.80%	4.30%	2.93%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE EUROPE EX UK EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 46.30% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 15.06% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage Global Corporate Credit Screened Fund

Legal entity identifier:

549300XRR0YX7IECS551

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 43.92% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Maintain the Fund's weighted average ESG score will be greater than that of the Bloomberg Global Aggregate Corporate Index USD Hedged (the 'Index')

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Bloomberg Global Aggregate Corporate Index USD Hedged (the 'Index')

The Fund's holdings in Sustainable Investments

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	Carbon emissions intensity relative to the Index	37.04%	41.49%	39.71%	39.17%
Maintain the Fund's weighted average ESG score will be greater than that of the Index	ESG score relative to the Index	13.56%	14.12%	13.56%	12.55%
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	43.92% ¹	40.88%	35.98%	31.81%

¹The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 43.92% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

- (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
- (ii) the issuer's business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL CORPORATE CREDIT SCREENED FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL CORPORATE CREDIT SCREENED FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological- chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	97.70%	96.91%	98.33%	97.17%
#2 Other	2.30%	3.09%	1.67%	2.83%
#1A Sustainable	43.92% ²	40.88%	35.98%	31.81%
#1B Other E/S characteristics	53.78%	15.53%	62.35%	65.36%
Taxonomy-aligned	2.55%	1.76%	1.03%	N/A ¹
Other environmental	35.47%	34.05%	28.97%	N/A ¹
Social	8.45%	-32.71%	-28.33%	N/A ¹

¹Comparative information is not disclosed for 2023 as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL CORPORATE CREDIT SCREENED FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 2.55% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

X No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL CORPORATE CREDIT SCREENED FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	3.14%	3.66%	3.03%
Non Taxonomy-aligned	96.86%	96.34%	96.97%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	3.14%	3.66%	3.03%
Non Taxonomy-aligned	96.86%	96.34%	96.97%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	3.04%
Climate change adaptation	0.07%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.13%
Enabling Activities	1.62%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	3.14%	3.09%	1.03%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL CORPORATE CREDIT SCREENED FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 35.47% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 8.45% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, as well as securities without ESG ratings, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the issuers by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify issuers which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Issuers that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage Global High Yield Credit Screened Fund

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Maintain the Fund's weighted average ESG score will be greater than that of ICE BofAML Developed Markets High Yield Constrained 100% USD Hedged Index (the 'Index')

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index

The Fund's holdings in Sustainable Investments

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	Carbon emissions intensity relative to the Index	56.93%	52.77%	60.59%	51.85%
The Fund's holdings in Sustainable Investments	% of Sustainable Investments held by the Fund	27.78% ¹	26.51%	26.04%	26.99%
Maintain the Fund's weighted average ESG score will be greater than that of the Index	ESG score relative to the Index	5.54%	12.48%	14.33%	13.26%

¹The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 27.78% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

- (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
- (ii) the issuer's business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological- chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	99.20%	98.12%	100.00%	99.17%
#2 Other	0.80%	1.88%	0.00%	0.83%
#1A Sustainable	27.78% ²	26.51%	26.04%	26.99%
#1B Other E/S characteristics	71.42%	39.00%	73.96%	72.18%
Taxonomy-aligned	1.74%	1.20%	1.03%	N/A ¹
Other environmental	20.90%	20.72%	20.37%	N/A ¹
Social	6.88%	-20.04%	-21.39%	N/A ¹

¹Comparative information is not disclosed for 2023 as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Technology	Technology	7.30%
Communications	Cable and Satellite	5.56%
Consumer Cyclical	Retailers	5.26%
Finance Companies	Finance Companies	5.21%
Communications	Media and Entertainment	4.95%
Consumer Cyclical	Automotive	4.60%
Communications	Wirelines	4.55%
Banking	Banking	4.52%
Energy	Independent	4.47%
Basic Industry	Metals and Mining	4.28%
Energy	Midstream	4.27%
Communications	Wireless	4.18%
Energy	Oil Field Services	2.87%
Consumer Non-Cyclical	Food and Beverage	2.65%
Consumer Cyclical	Consumer Cyclical Services	2.64%
Consumer Non-Cyclical	Pharmaceuticals	2.48%
Industrial Other	Industrial Other	2.48%
Consumer Non-Cyclical	Healthcare	2.11%
Financial Other	Financial Other	2.11%
Transportation	Transportation Services	2.04%
REITs	Other REIT	2.04%
Consumer Cyclical	Gaming	1.87%
Electric	Electric	1.84%
Brokerage/Asset Managers/Exchanges	Brokerage/Asset Managers/Exchanges	1.77%
Capital Goods	Aerospace and Defense	1.29%
Government Related	Agency	1.25%
Basic Industry	Chemicals	1.25%
Capital Goods	Building Materials	1.23%
Capital Goods	Packaging	1.04%
REITs	Healthcare REIT	1.02%
Energy	Refining	0.70%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.74% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 99.96% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.13%	0.12%	0.15%
Taxonomy-aligned: No gas and nuclear	2.47%	2.28%	1.68%
Non Taxonomy-aligned	97.40%	97.60%	98.17%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.13%	0.12%	0.15%
Taxonomy-aligned: No gas and nuclear	2.47%	2.28%	1.68%
Non Taxonomy-aligned	97.40%	97.60%	98.17%

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	2.08%
Climate change adaptation	0.22%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.37%
Enabling Activities	1.14%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	% of Investments			
	2026	2025	2024	2023
EU Taxonomy-aligned	2.60%	1.88%	1.03%	0.00%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE GLOBAL HIGH YIELD CREDIT SCREENED FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 20.90% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 6.88% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, , as well as securities without ESG ratings, however such holdings did not exceed 25%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the issuers by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify issuers which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Issuers that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK ADVANTAGE US EQUITY FUND

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
BlackRock Advantage US Equity Fund

Legal entity identifier:
549300U5207F8G705S53

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 53.09% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI USA Index (the 'Index')

Improvement of ESG adjusted score relative to the Index

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Improvement of ESG adjusted score relative to the Index	ESG score relative to the Index	0.71%	11.69%	11.50%	10.98%
Maintain that the Fund holds at least 20% in Sustainable Investments.	% of Sustainable Investments held by the Fund	53.09% ¹	58.12%	55.71%	51.60%
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	Carbon emissions intensity relative to the Index	41.51%	36.23%	49.86%	50.17%

¹The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 53.09% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	98.44%	98.09%	98.53%	98.25%
#2 Other	1.56%	1.91%	1.47%	1.75%
#1A Sustainable	53.09% ²	58.12%	55.71%	51.60%
#1B Other E/S characteristics	45.35%	98.09%	42.82%	46.65%
Taxonomy-aligned	0.38%	1.43%	1.13%	N/A ¹
Other environmental	48.00%	47.33%	44.17%	N/A ¹
Social	5.09%	-45.90%	-43.04%	N/A ¹

¹Comparative information is not disclosed for 2023 as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	15.94%
Information Technology	Software & Services	10.09%
Communication	Media & Entertainment	9.80%
Information Technology	Tech Hardware & Equipment	9.73%
Financials	Financial Services	7.23%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	6.81%
Industrials	Capital Goods	6.79%
Health Care	Pharma, Biotech & Life Sciences	5.80%
Financials	Banks	3.89%
Health Care	Health Care Equipment & Services	3.63%
Consumer Staples	Consumer Staples Distribution & Retail	2.80%
Consumer Discretionary	Autos & Components	1.97%
Financials	Insurance	1.85%
Consumer Discretionary	Consumer Services	1.33%
Materials	Materials	1.32%
Industrials	Commercial & Professional Services	1.31%
Communication	Telecom	1.22%
Consumer Staples	Food, Beverage, Tobacco	1.13%
Energy	Integrated Oil & Gas	1.10%
Real Estate	Equity Real Estate Investment Trusts (REITs)	1.07%
Consumer Staples	Household & Personal Products	1.02%
Energy	Oil & Gas Exploration & Production	0.73%
Energy	Oil & Gas Storage & Transportation	0.69%
Energy	Oil & Gas Refining & Marketing	0.32%
Energy	Oil & Gas Equipment Services	0.08%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, or coal and consumable fuels.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.38% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes: ☐ In fossil gas ☐ In nuclear energy

No: ☒ ☐

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.40%	0.00%	0.00%
Non Taxonomy-aligned	99.60%	100.00%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.40%	0.00%	0.00%
Non Taxonomy-aligned	99.60%	100.00%	100.00%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	0.40%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.02%
Enabling Activities	0.21%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

		% of Investments			
	2026	2025	2024	2023	
EU Taxonomy-aligned	0.40%	1.43%	1.13%	0.00%	

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE US EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 48.00% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 5.09% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK ADVANTAGE WORLD EQUITY FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Advantage World Equity Fund

Legal entity identifier:

5493002MQ0TZR3NYON05

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 53.80% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund holds at least 20% in Sustainable Investments

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI World Index (the 'Index')

Improvement of ESG adjusted score relative to the Index

Exclusion of issuers deriving any revenue from tobacco production only

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads or nuclear missiles, or essential components for exclusive use in nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers that have any ties to automatic/semi-automatic firearms or ammunition production intended for civilian use

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Improvement of ESG adjusted score relative to the Index	ESG score relative to the Index	1.68%	12.55%	11.68%	10.09%
Maintain that the Fund holds at least 20% in Sustainable Investments.	% of Sustainable Investments held by the Fund	53.80% ¹	56.11%	54.92%	46.23%
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	Carbon emissions intensity relative to the Index	40.44%	54.20%	36.93%	37.77%

¹The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 53.80% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

BLACKROCK FUNDS I ICAV

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	98.46%	98.76%	99.09%	98.54%
#2 Other	1.54%	1.24%	0.91%	1.46%
#1A Sustainable	53.80% ²	56.11%	54.92%	46.23%
#1B Other E/S characteristics	44.66%	56.89%	44.17%	52.31%
Taxonomy-aligned	1.19%	1.60%	0.97%	N/A ¹
Other environmental	47.48%	45.34%	43.64%	N/A ¹
Social	6.32%	-45.70%	-43.70%	N/A ¹

¹Comparative information is not disclosed for 2023 as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	12.95%
Information Technology	Software & Services	8.79%
Information Technology	Tech Hardware & Equipment	8.41%
Industrials	Capital Goods	8.33%
Financials	Banks	8.09%
Communication	Media & Entertainment	7.08%
Financials	Financial Services	6.36%
Health Care	Pharma, Biotech & Life Sciences	5.46%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	4.21%
Financials	Insurance	3.35%
Communication	Telecom	3.00%
Materials	Materials	2.77%
Consumer Staples	Consumer Staples Distribution & Retail	2.49%
Consumer Discretionary	Autos & Components	2.19%
Energy	Integrated Oil & Gas	1.85%
Consumer Discretionary	Consumer Durables	1.75%
Health Care	Health Care Equipment & Services	1.61%
Utilities	Utilities	1.52%
Real Estate	Equity Real Estate Investment Trusts (REITs)	1.47%
Consumer Staples	Household & Personal Products	1.38%
Consumer Discretionary	Consumer Services	1.34%
Energy	Oil & Gas Exploration & Production	1.06%
Industrials	Transportation	1.04%
Energy	Oil & Gas Storage & Transportation	0.69%
Energy	Oil & Gas Refining & Marketing	0.37%
Energy	Oil & Gas Equipment Services	0.24%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, or coal and consumable fuels.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 1.19% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.45%	1.75%	1.29%
Non Taxonomy-aligned	98.55%	98.25%	98.70%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.45%	1.75%	1.29%
Non Taxonomy-aligned	98.55%	98.25%	98.70%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	1.39%
Climate change adaptation	0.03%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.07%
Enabling Activities	0.72%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	1.46%	1.60%	0.97%	0.00%

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 47.48% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 6.32% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK ADVANTAGE WORLD EQUITY FUND (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Global Unconstrained Equity Fund

Legal entity identifier:

549300JALMZKC24S0R89

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's proprietary Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms.

The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment.

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds, that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco-related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					

...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- How were the indicators for adverse impacts on sustainability factors taken into account?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological- chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 May 2025 to 30 April 2026.

Largest investments	Sector	% Assets	Country
Amazon.Com Inc	Consumer Discretionary	7.52%	United States

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	27.29%
Financials	Financial Services	15.56%
Information Technology	Semiconductors & Semiconductor Equipment	12.67%
Communication	Media & Entertainment	11.48%
Information Technology	Software & Services	10.91%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	7.58%
Health Care	Health Care Equipment & Services	4.56%
Financials	Insurance	2.88%
Consumer Discretionary	Consumer Durables	1.61%
Information Technology	Tech Hardware & Equipment	1.38%
Consumer Discretionary	Consumer Services	1.24%
Energy	Integrated Oil & Gas	0.06%
Energy	Oil & Gas Exploration & Production	0.02%
Energy	Oil & Gas Storage & Transportation	0.01%
Energy	Oil & Gas Refining & Marketing	0.01%
Energy	Oil & Gas Equipment Services	0.01%
Energy	Coal & Consumable Fuels	0.00%
Energy	Oil & Gas Drilling	0.00%

¹The energy exposure referenced above is derived from the Fund's use of index futures positions during the reference period. The Fund did not invest directly in any energy securities.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas

☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: (no gas and nuclear)
- Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: (no gas and nuclear)
- Non Taxonomy-aligned

This graph represents 99.88% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.07%	0.52%	0.00%
Non Taxonomy-aligned	99.93%	99.48%	100.00%

For the reference period, 0.12% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	0.07%	0.00%	0.00%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK GLOBAL UNCONSTRAINED EQUITY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Systematic Equity Factor Plus Fund

Legal entity identifier:

549300G5QIL0SFTHE856

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 54.78% of sustainable investments

- ☒ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Improvement of ESG adjusted score relative to the Index

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI World Index (the 'Index')

The Fund's holdings in Sustainable Investments

The Sustainable Investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

EU Taxonomy environmental objectives contributed to by the Fund

Climate change mitigation

Climate change adaptation

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					
Improvement of ESG adjusted score relative to the Index	ESG score relative to the Index	6.01%	23.36%	24.38%	24.62%
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	54.78% ¹	59.12%	56.46%	55.52%
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	64.31%	59.35%	55.78%	61.59%

¹The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 54.78% of its holdings in Sustainable Investments in pursuit of its investment objective.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

The Investment Manager assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment's business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which the Investment Manager has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date. Where no data is available, or it is substantially incomplete, fundamental analysis will be undertaken using reasonable efforts to identify impacts which the Investment Manager determines to be harmful to the sustainability indicators.

The description above reflects the updated DNSH methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the international Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
GHG intensity of investee companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological- chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	97.90%	98.42%	100.00%	98.53%
#2 Other	2.10%	1.58%	0.00%	1.47%
#1A Sustainable	54.78% ²	59.12%	56.46%	55.52%
#1B Other E/S characteristics	43.12%	-0.45%	43.54%	43.00%
Taxonomy-aligned	0.67%	0.99%	0.43%	N/A ¹
Other environmental	49.91%	50.57%	47.35%	N/A ¹
Social	4.87%	-49.98%	8.69%	N/A ¹

¹Comparative information is not disclosed for 2023 as these Sustainable Investments were disclosed as a mix of Sustainable Investments with an environmental objective that is not aligned with the EU Taxonomy or a social objective or a combination of both, and the exact composition may have fluctuated.

²The Good Governance and DNSH methodologies were updated in the Fund's prospectus effective from 1 April 2026. As this update occurred during the reference period, and the prior methodology applied for the majority of that period, the Sustainable Investment metric presented in this report has been calculated based on the earlier methodology. This approach has been applied to ensure that the reported metric is representative of the reference period.

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	12.31%
Industrials	Capital Goods	10.58%
Information Technology	Tech Hardware & Equipment	9.78%
Communication	Media & Entertainment	8.53%
Financials	Banks	8.51%
Information Technology	Software & Services	8.05%
Financials	Insurance	5.70%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.17%
Health Care	Pharma, Biotech & Life Sciences	4.87%
Financials	Financial Services	4.70%
Consumer Staples	Consumer Staples Distribution & Retail	2.88%
Materials	Materials	2.77%
Health Care	Health Care Equipment & Services	2.35%
Consumer Discretionary	Consumer Durables	2.00%
Communication	Telecom	1.98%
Industrials	Commercial & Professional Services	1.68%
Consumer Discretionary	Autos & Components	1.26%
Energy	Oil & Gas Exploration & Production	1.18%
Energy	Integrated Oil & Gas	0.92%
Energy	Oil & Gas Refining & Marketing	0.54%
Energy	Oil & Gas Storage & Transportation	0.39%
Energy	Oil & Gas Equipment Services	0.16%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling , or coal and consumable fuels.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.67% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

X No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 100.00% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.79%	1.09%	0.80%
Non Taxonomy-aligned	99.21%	98.91%	99.20%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.79%	1.09%	0.80%
Non Taxonomy-aligned	99.21%	98.91%	99.20%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	0.75%
Climate change adaptation	0.02%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.01%
Enabling Activities	0.38%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	2026	2025	2024	2023
EU Taxonomy-aligned	0.79%	1.14%	0.43%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 49.91% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 4.87% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 10%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

The Investment Manager is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Manager's activities under the SRD are available on BlackRock's website.

The description above reflects the updated Good Governance methodology effective 1 April 2026; however, metrics presented for this reference period have been calculated based on the methodology applicable for the majority of the period.

BLACKROCK SYSTEMATIC EQUITY FACTOR PLUS FUND (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

BlackRock Systematic Multi-Strategy Fund

Legal entity identifier:

549300PZ0HEI15WISL71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☒ ☐ ☒ No

☐ It made **sustainable investments with an environmental objective**: __%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**: __%

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use.

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)

Exclusion of issuers with an ESG rating of CCC or below according to MSCI

How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	Performance			
		2026	2025	2024	2023
Exclusion of issuers based on exclusionary criteria as defined within the table above	# of active breaches reported	No active breaches	No active breaches	No active breaches	No active breaches
"Environmental and social characteristics promoted by the Fund"					

¹The Fund is disclosing a negative sector exposure above due to short positions held by the Fund.

...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological- chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 May 2025 to 30 April 2026.

Largest investments	Sector	% Assets	Country
Ishs Broad \$ Hy Corp Bond Usd D	ETFs	6.89%	Ireland
Treasury Bill	Cash Securities	1.49%	United States
Treasury Bill	Cash Securities	1.26%	United States

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	100.00%	100.00%	63.64%	68.00%
#2 Other	0.00% ¹	0.00%	36.36%	32.00%

¹The net exposure to "Other" assets was -11.60% due to derivative positions held by the Fund.

BLACKROCK FUNDS I ICAV

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Financials	Financial Services	12.57%
Cash Securities	Cash Securities	9.57%
Financials	Banks	7.99%
Securitized	CMO	7.96%
Securitized	MBS Pass-Through	6.47%
Treasuries	Treasuries	6.36%
Real Estate	Equity Real Estate Investment Trusts (REITs)	6.02%
Health Care	Health Care Equipment & Services	5.48%
Materials	Materials	4.40%
Utilities	Utilities	4.36%
Industrials	Capital Goods	4.14%
Consumer Discretionary	Consumer Services	3.63%
Financials	Insurance	3.42%
Communication	Media & Entertainment	3.11%
Information Technology	Software & Services	2.94%
Energy	Oil & Gas Storage & Transportation	2.78%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	2.58%
Industrials	Transportation	2.40%
Communication	Telecom	2.38%
Industrials	Commercial & Professional Services	2.22%
Health Care	Pharma, Biotech & Life Sciences	2.08%
Consumer Staples	Food, Beverage, Tobacco	1.50%
Consumer Staples	Household & Personal Products	1.34%
Energy	Oil & Gas Exploration & Production	1.16%
Consumer Discretionary	Autos & Components	1.11%
Information Technology	Tech Hardware & Equipment	1.02%
Energy	Oil & Gas Refining & Marketing	0.78%
Energy	Oil & Gas Drilling	0.57%
Energy	Integrated Oil & Gas	0.43%
Energy	Coal & Consumable Fuels	0.01%
Energy	Oil & Gas Equipment Services	-0.13% ¹

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): coal and consumable fuels.

¹The energy exposure referenced above is derived from the Fund's use of index futures positions during the reference period. The Fund did not invest directly in any energy securities.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☐ In fossil gas

☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: (no gas and nuclear)
- Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned: (no gas and nuclear)
- Non Taxonomy-aligned

This graph represents 84.74% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.42%	0.06%	0.01%
Non Taxonomy-aligned	99.57%	99.94%	99.99%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.50%	0.07%	0.01%
Non Taxonomy-aligned	99.50%	99.93%	99.98%

For the reference period, 15.26% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	0.42%
Climate change adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.07%
Enabling Activities	0.07%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	% of Investments			
	2026	2025	2024	2023
EU Taxonomy-aligned	0.42%	0.50%	0.45%	0.00%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK SYSTEMATIC MULTI-STRATEGY FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, , as well as securities without ESG ratings, however such holdings did not exceed 50%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Manager has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to controversial weapons (anti personnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: From 1 May 2025 to 30 April 2026.

Largest investments	Sector	% Assets	Country
Nvidia Corp	Information Technology	3.99%	United States
Apple Inc	Information Technology	3.23%	United States
Microsoft Corp	Information Technology	2.86%	United States
Amazon.Com Inc	Consumer Discretionary	2.09%	United States
Alphabet Inc Class A	Communication	1.57%	United States
Broadcom Inc	Information Technology	1.49%	United States
Alphabet Inc Class C	Communication	1.27%	United States
Meta Platforms Inc Class A	Communication	1.19%	United States
Jpmorgan Chase & Co	Financials	0.89%	United States
Tesla Inc	Consumer Discretionary	0.82%	United States
Berkshire Hathaway Inc Class B	Financials	0.62%	United States
Walmart Inc	Consumer Staples	0.60%	United States
Bank Of America Corp	Financials	0.55%	United States
Costco Wholesale Corp	Consumer Staples	0.54%	United States
ASML Holding Nv	Information Technology	0.45%	Netherlands

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

Asset allocation

describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the diagram below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and previous reference periods.

Asset allocation	% of Investments			
	2026	2025	2024	2023
#1 Aligned with E/S characteristics	77.67%	81.38%	83.99%	78.07%
#2 Other	22.33%	18.62%	16.01%	21.93%

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Semiconductors & Semiconductor Equipment	5.24%
Communication	Media & Entertainment	3.49%
Information Technology	Tech Hardware & Equipment	3.13%
Information Technology	Software & Services	2.71%
Financials	Banks	1.94%
Financials	Insurance	1.73%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	1.54%
Consumer Staples	Consumer Staples Distribution & Retail	1.37%
Energy	Integrated Oil & Gas	1.34%
Industrials	Commercial & Professional Services	1.19%
Consumer Discretionary	Autos & Components	1.14%
Utilities	Utilities	1.09%
Consumer Discretionary	Consumer Durables	1.05%
Energy	Oil & Gas Storage & Transportation	0.34%
Energy	Oil & Gas Refining & Marketing	0.31%
Energy	Oil & Gas Equipment Services	0.16%
Energy	Oil & Gas Exploration & Production	0.12%
Energy	Oil & Gas Drilling	0.00%
Energy	Coal & Consumable Fuels	-0.05% ¹

The Fund had exposure to the Energy sub-sector during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

¹The energy exposure referenced above is derived from the Fund's use of index futures positions during the reference period. The Fund did not invest directly in any energy securities.

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Where the Fund had exposure to fossil gas and/or nuclear energy related activities that were aligned with the EU Taxonomy during the reference period, but the exposure was less than 0.005%, the response will be marked 'Yes' below. This exposure is presented as 0.00% in the graphs and tables due to rounding.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☒ Yes:

☒ In fossil gas

☒ In nuclear energy

☐ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

This graph represents 86.69% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

BLACKROCK FUNDS I ICAV

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.20%	1.15%	0.90%
Non Taxonomy-aligned	98.80%	98.84%	99.09%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.38%	1.33%	1.04%
Non Taxonomy-aligned	98.61%	98.66%	98.95%

For the reference period, 13.31% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate change mitigation	1.16%
Climate change adaptation	0.02%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.05%
Enabling Activities	0.63%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods:

	% of Investments			
	2026	2025	2024	2023
EU Taxonomy-aligned	1.20%	0.00%	0.00%	0.00%

SUSTAINABILITY-RELATED DISCLOSURES (UNAUDITED) (continued)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide, however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Manager regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

BlackRock assesses Good Governance practices of the investee companies by combining proprietary insights with data from external ESG research providers. BlackRock uses data from external ESG research providers to identify investee companies which may not have satisfactory governance practices in relation to key performance indicators related to sound management structure, employee relations, remuneration of staff and tax compliance. Investee companies that do not satisfy BlackRock's assessment of Good Governance are excluded from the investment universe.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

BLACKROCK TACTICAL OPPORTUNITIES FUND (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.
