This Fund does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. The Fund does not use a sustainability label because whilst the Fund applies environmental, social or governance ("ESG") commitments within its investment process (as described below), the Fund does not have a specific sustainability goal. This is primarily because the Fund follows a fund-of-funds strategy and the underlying funds in which the Fund invests may not meet the criteria of any sustainability label.

Sustainability Approach

BlackRock Investment Management (UK) Limited (the "IM") applies ESG commitments at a portfolio level to its selection of collective investment schemes in which the Fund invests, as summarised in the table below.

Portfolio breakdown		**Are ESG commitments applied?**
At least 70% of total assets in collective investment schemes, comprising (a) to (c) (see next column).	(a) Collective investment schemes that invest at least 50% in government bonds ("**Government Bond Funds**").	Yes, at least 50% of Government Bond Funds in which the Fund invests track benchmark indices comprised of at least 50% of government bond issuers with an ESG government rating of BB or higher (as defined by MSCI or the comparable rating of another third-party vendor). MSCI's ESG government ratings are intended to identify and assign weights to the environmental, social, or governance-related issues that could impact the long term sustainability of economies. Further information regarding the MSCI ESG government ratings methodology is available via https://www.msci.com/esg-and-climate-methodologies.
	(b) Collective investment schemes other than Government Bond Funds, commodity funds and collective investment schemes held for efficient portfolio management ("**EPM**") purposes ("**Other CIS**").	Yes, at least 50% of Other CIS in which the Fund invests themselves apply ESG criteria within their investment processes. These ESG criteria include: (i) the exclusion or underweighting of issuers or sectors which are involved in activities that are negative from an ESG investing perspective; and (ii) the inclusion or overweighting of issuers or sectors which are positive from an ESG investing perspective. Further detail on these ESG criteria is available in the Fund's prospectus.
	(c) Up to 10% total assets in commodity funds.	No
Up to 30% of total assets in other assets (including direct investments and collective investment schemes in which the Fund invests for EPM purposes).		No
