BlackRock Authorised Contractual Scheme I

BlackRock

October 2026

Unless otherwise stated, Performance, Portfolio Breakdowns and Net Asset information as at: 31-Oct-2026. All other data as at 13-Nov-2026.

This document is marketing material. For Investors in the UK. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme. As a consequence of this, the Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund's prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund.
- The Fund aims to provide a return on your investment, generated through an increase in the value of assets held by the Fund and/or income received from these assets, by tracking closely the performance of the STOXX World Equity Factor ESG Low Carbon Target Index, the Fund's benchmark index (the "Benchmark Index"). The Fund invests directly in the equity securities of companies that make up the Benchmark Index and, at times, indirectly in other equity-related investments giving exposure to such companies.
- The Benchmark Index aims to reflect the performance of a sub-set of equity securities within the STOXX Developed World Index (the "Parent Index") which remain after the index provider has: (a) excluded securities using pre-defined environmental, social and governance ("ESG") screens (as described in the Fund's prospectus); and (b) weighted securities using an optimization process, which: (1) maximises exposure to five target "style" factors (as described below), (2) has at least 50% lower carbon emissions intensity (measured by a company's annual emissions divided by its enterprise value in cash (EVIC) in millions (Euros) relative to the Parent Index, and (3) has an ISS ESG Performance Score not worse than that of the Parent Index.

RISK INDICATOR

Lower Risk
Potentially Lower Rewards

Higher Risk
Potentially Higher Rewards

1	2	3	4	**5**	6	7

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Index Methodology Risk: Although the Index was created to select securities within the Parent Index which have a relatively higher exposure to four investment style factors, there is no guarantee this objective will be achieved.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Multi-Factor Focus Risk: Indices with a multi-factor focus are less diversified than their parent index because they focus on selected investment style factors rather than a broader market exposure. Therefore, they will be more exposed to factor related market movements. Investors should consider this Fund as part of a broader investment strategy
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Tax treatment of Fund: The tax treatment of this fund structure is so far untested which could lead to adverse tax consequences for the investor. Changes to the tax status of the Fund could lead to taxation being due.

KEY FACTS

Target 1 : STOXX World EQ Factor ESG Low Carbon Target 12UK NET

Asset Class : Equity

Fund Launch Date : 11-Jul-2019

Share Class Launch Date : 19-Aug-2021

Fund Base Currency : GBP

Share Class Currency : GBP

Net Assets of Fund (M) : 3,491.77 GBP
