FUND OVERVIEW

- The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund's assets.
- The Fund invests at least 70% of its total assets in the equity securities (e.g. shares) of companies domiciled in, or the main business of which is in, Latin America.
- The term Latin America refers to Mexico, Central America, South America and the islands of the Caribbean, including Puerto Rico.

RISK INDICATOR

Lower Risk — Potentially Lower Rewards

Higher Risk — Potentially Higher Rewards

1	2	3	4	5	**6**	7

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

GLOSSARY

SFDR Classification: Article 8: Products that promote environmental or social characteristics and promote good governance practices. **Article 9:** Products that have sustainable investments as an objective and follow good governance practices. **Other:** Products that do not meet the criteria to be classified as Article 8 or 9.

Price to Earnings: A valuation ratio of a company's current share price compared to its per-share earnings in the current forecast year, calculated as current share price divided by current earnings per share.

Data Coverage %[ii] is available input data for rating calculation at the Pillar level

Price to Book Ratio: represents the ratio of the current closing price of the share to the latest quarter's book value per share.

Analyst Driven %[i] is the analyst input into the overall rating assignment, including direct analyst coverage and inheritance of an analyst-rated pillar

IMPORTANT INFORMATION:

*UK exposure is Antofagasta - a London-listed Chilean copper company.

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the country where the issuer of the securities carries out much of their business.

** The Morningstar Medalist RatingTM is the summary expression of Morningstar's forward-looking analysis of investment strategies using a rating scale of Gold, Silver, Bronze, Neutral, and Negative. The ratings indicate which investments Morningstar believes are likely to outperform a relevant index or peer group average on a risk-adjusted basis over time. Analysts assign three pillar ratings (People, Parent and Process) based on their qualitative assessment, subject to the oversight of the Analyst Rating Committee, and monitor and reevaluate them at least every 14 months. For more detailed information about these ratings and methodology, please go to global.morningstar.com/managerdisclosures. The ratings are not statements of fact, nor credit or risk ratings. The rating (i) should not be used as the sole basis in evaluating an investment product, (ii) involves unknown risks which may cause expectations not to occur or to differ from what was expected, (iii) are not guaranteed to be based on complete or accurate assumptions, (iv) involve the risk that the return target will not be met due to unforeseen changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange and tax rates, and/or changes in political and social conditions, and (v) should not be considered an offer or solicitation to buy or sell the investment product.
