**FUND OVERVIEW**

The Fund seeks to track the performance of an index composed of the 225 most actively traded Japanese companies on the first section of the Tokyo Stock Exchange.

As at 8th January 2018, the benchmark index converted from a price return series to a net of tax total return series. Historic performance of the benchmark index has been simulated to reflect this change and such data is used for the purposes of demonstrating historic performance in the "Past Performance" table.

**KEY BENEFITS**

1. Targeted exposure to the most liquid companies in the first section of the Tokyo Stock Exchange
2. Direct investment into Japanese companies
3. Single country exposure

**RISK INDICATOR**

**Lower Risk**

Potentially Lower Rewards

**Higher Risk**

Potentially Higher Rewards

**CAPITAL AT RISK:** The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

**KEY RISKS:**

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
