FUND OVERVIEW

The Fund aims to grow your investment through a combination of capital growth and income, reflecting the performance of the FTSE All World Index.

KEY BENEFITS

1. The Fund seeks to replicate the Index by directly holding the equity securities that make up the Index in similar proportions
2. The Index tracks the performance of large and mid sized companies in developed and emerging markets around the world. Companies are included based on how many of their shares can be bought by international investors.
3. The Index rebalances on a quarterly basis. Between these reviews, index weightings change as prices move.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
