FUND OVERVIEW

The Fund seeks to track the performance of an index composed of companies from developed countries which also hedges each currency exposure in the index back to Euro on a monthly basis.

KEY BENEFITS

- 1. Diversified exposure to developed companies
- 2. Direct investment in a broad range of developed world companies
- 3. International market exposure and non-EUR exposure hedged back to EUR monthly

RISK INDICATOR

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Currency hedging may not completely eliminate currency risk in the Fund, and may affect the performance of the Fund.
