FUND OVERVIEW

The Fund aims to achieve a total return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the MSCI ACWI Select Telecommunication Services Screened 35/20 Capped Index (the "Index").

KEY BENEFITS

1. Exposure to the GICS telecommunication services industry group which includes companies whose primary business involves the provision of fixed-line, cellular and/or wireless telecommunication services; providers of communications and/or high-density data transmission; producers of interactive gaming products and companies engaging in content and information creation or distribution.
2. "The Index" (MSCI ACWI Select Telecommunication Services Screened 35/20 Capped Index) excludes companies that are classified as violating the United Nations Global Compact principles and those identified by the index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score.
3. Exposure to large and mid capitalisation stocks across developed and emerging market countries.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
