

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

BlackRock for Formue Government Bond Index Fund (the "Fund"), **Class F Hedged Accu SEK** (the "Share Class"), ISIN: **IE000AUBXXX0**, is authorised in Ireland and manufactured by BlackRock Asset Management Ireland Limited (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Ireland and regulated by the Central Bank of Ireland (the "CBI") and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling + 353 1 900 4160. This document is dated 15 April 2026.

What is this product?

Type: The Fund is a sub-fund of BlackRock Solutions Funds ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund in Ireland, authorised by the Central Bank of Ireland as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to provide a total return, taking into account both capital and income returns, which reflects the total return of the Bloomberg Global Aggregate Government Bond ex Emerging Markets Index (the "Index").
- The Fund is passively managed and will invest in a portfolio of fixed income securities (i.e. bonds) that so far as possible and practicable consists a sub-set of fixed income securities within the Index. The Index measures the performance of fixed income securities issued by governments and government agencies and supranational bonds domiciled globally. All fixed income securities in which the Fund invests will be investment grade rated by Moody's, Standard & Poor's Corporation or Fitch Ratings at the time of purchase or are deemed by the Investment Manager (IM) to be of an equivalent rating.
- The Fund will also invest in accordance with the Exclusionary Policy as outlined in the Fund's prospectus and will seek to exclude certain issuers that are listed in the Exclusionary Policy
- The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index. The Fund may hold some securities which are not underlying constituents of the Index.
- The Fund may also invest in financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for direct investment purposes and efficient portfolio management (i.e. to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income).
- The Fund's investments will normally be listed or traded on the Regulated Markets as detailed in the prospectus.
- The Fund may also invest in unlisted securities and in other collective investment schemes, including exchange traded funds.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The price of fixed income securities fluctuates daily and may be influenced by factors affecting the performance of the issuers, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The price of a derivative changes on a daily basis depending on the value of the underlying reference asset(s) which in turn may affect the value of your investment. A change in the value of underlying reference assets can have a greater impact on the value of derivatives than if the assets were held directly since derivatives can be more sensitive to changes in the value of underlying reference assets.
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depositary of the Fund is Bank of New York, Dublin Branch.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Solutions Funds ICAV. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the BlackRock website at: www.blackrock.com or the iShares website at: www.ishares.com or by calling the International Investor Servicing team on + 353 1 900 4160.
- Your shares will be accumulating shares (i.e. dividend income will be included in their value).
- The Fund's base currency is Norwegian Kroner. Shares for this class are bought and sold in Swedish Krona. The performance of your shares may be affected by this currency difference.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- You can buy and sell your shares daily. The minimum initial investment for this share class is SEK 200,000,000.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
 The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 3 out of 7, which is a medium low risk class. This classification rates the potential losses from future performance at a medium low level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 3 years		Example Investment : SEK 100,000	
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	79,380 SEK	67,840 SEK
	Average return each year	-20.6%	-12.1%
Unfavourable**	What you might get back after costs	79,380 SEK	84,930 SEK
	Average return each year	-20.6%	-5.3%
Moderate**	What you might get back after costs	102,080 SEK	109,920 SEK
	Average return each year	2.1%	3.2%
Favourable**	What you might get back after costs	131,600 SEK	138,510 SEK
	Average return each year	31.6%	11.5%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between :

Scenarios	1 year	3 years
Unfavourable	April 2020 - April 2021	March 2020 - March 2023
Moderate	November 2017 - November 2018	January 2022 - January 2025
Favourable	March 2019 - March 2020	March 2017 - March 2020

What happens if BlackRock Asset Management Ireland Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- SEK 100,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	105 SEK	347 SEK
Annual cost Impact (*)	0.1%	0.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.3% before costs and 3.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
----------------------------------	--	--------------------------

Entry costs	We do not charge an entry fee.	-
Exit costs	We do not charge an exit fee.	-

Ongoing costs taken each year

Management fees and other administrative or operating costs	0.06% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	64 SEK
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	41 SEK

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	-
------------------	---	---

How long should I hold it and can I take money out early? Recommended Holding Period: 3 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Please see the "What are the costs?" section for details of any exit fees.

How can I complain?

If you are not entirely satisfied with any aspect of the service you have received and you wish to complain, details of our complaints handling process are available at www.blackrock.com/uk/individual/about-blackrock/contact-us. Additionally, you can also write to the Investor Services Team, at BlackRock's UK Registered Office, 12 Throgmorton Avenue, London, EC2N 2DL or e-mail them at enquiry.irl@clientservices.blackrock.com.
