

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

BlackRock Systematic US Equity Absolute Return Fund (the "Fund"), **Class I2 Hedged JPY** (the "Share Class"), ISIN: **LU1791183780**, is authorised in Luxembourg and manufactured by BlackRock (Luxembourg) S.A. (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (the "CSSF") and the CSSF is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling **+352 46268 5111**. This document is dated 15 April 2026.

What is this product?

Type: The Fund is a sub-fund of BlackRock Strategic Funds, an umbrella company incorporated in Luxembourg, authorised by the Commission de Surveillance du Secteur Financier as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Fund aims to achieve a positive absolute return through a combination of capital growth and income on your investment regardless of market conditions in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- The Fund seeks to gain at least 70% of any investment exposure to equity securities (e.g. shares) of companies incorporated or listed in the United States. This is achieved by investing at least 70% of its assets in equity securities, other equity-related securities and, when determined appropriate fixed income (FI) securities (such as bonds), money market instruments (MMIs) (i.e. debt securities with short-term maturities), deposits and cash.
- The Fund will take into account ESG criteria when selecting investments as disclosed in the prospectus. For further details please refer to the ESG Policy section of the Fund as set out in the prospectus and at the BlackRock website at www.blackrock.com/baselinescreens
- The equity-related securities include financial derivative instruments (FDIs) (i.e. investments whose prices are based on one or more underlying assets). A significant portion of the Fund's assets may be invested in contracts for difference.
- The FI securities and MMIs may be issued by governments, government agencies, companies and supnationals and may be investment grade (i.e. meet a specified level of credit worthiness), non-investment grade or unrated at the time of purchase.
- The IA intends to generate market leverage via FDIs (i.e. where the Fund gains market exposure in excess of the value of its assets). The amount of leverage may vary.
- The Fund is actively managed and the IA has discretion to select the Fund's investments. The 3 Month Secured Overnight Financing Rate (SOFR) compounded in arrears plus 26.1 basis point spread should be used by shareholders to compare the performance of the Fund. Compounding in arrears is a methodology that compounds daily values of the overnight rate throughout the relevant term period (i.e. 3 Months).
- The price of equity securities fluctuates daily and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The price of an FDI changes on a daily basis depending on the value of the underlying reference asset(s) which in turn may affect the value of your investment. A change in the value of underlying reference assets can have a greater impact on the value of FDIs than if the assets were held directly since FDIs can be more sensitive to such changes.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depository of the Fund is State Street Bank International GmbH, Luxembourg Branch.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Strategic Funds. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the BlackRock website at: www.blackrock.com or by calling the International Investor Servicing team on +352 46268 5111.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- The Fund's base currency is US Dollar. Shares for this class are bought and sold in Japanese Yen. The performance of your shares may be affected by this currency difference.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US\$10,000,000 or other currency equivalent.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

| | | | | | | |
|--|----------|----------|----------|----------|----------|----------|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. | | | | | | |

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 3 out of 7, which is a medium low risk class. This classification rates the potential losses from future performance at a medium low level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

| Recommended holding period : 5 years | | Example Investment : JPY 1,000,000 | |
|--------------------------------------|--|------------------------------------|---------------------------|
| Scenarios | | If you exit after 1 year | If you exit after 5 years |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress* | What you might get back after costs | 803,920 JPY | 752,050 JPY |
| | Average return each year | -19.6% | -5.5% |
| Unfavourable** | What you might get back after costs | 940,730 JPY | 966,180 JPY |
| | Average return each year | -5.9% | -0.7% |
| Moderate** | What you might get back after costs | 1,020,870 JPY | 1,088,470 JPY |
| | Average return each year | 2.1% | 1.7% |
| Favourable** | What you might get back after costs | 1,127,280 JPY | 1,222,070 JPY |
| | Average return each year | 12.7% | 4.1% |

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product and/or benchmark(s) or proxy between :

| Scenarios | 1 year | 5 years |

| Moderate | August 2021 - August 2022 | October 2016 - October 2021 |
| Favourable | August 2023 - August 2024 | December 2020 - December 2025 |

What happens if BlackRock (Luxembourg) S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Bank International GmbH, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.
