1895 Wereld Bedrijfsobligaties Fonds

A sub-fund of 1895 Fonds FGR

Class D Distributing EUR

ISIN: NL0015436049

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- The Fund aims to achieve a return on your investment over a period of at least 5 years, through a combination of capital growth and income on the Fund's assets, whilst also seeking to outperform Bloomberg Global Aggregate Corporate Index (EUR Hedged) (the "Index"). The Fund also seeks to invest in a manner consistent with the principles of environmental, social and governance ("ESG") investing.
- The Fund will seek to invest 80% of its assets in fixed income (FI) securities (e.g. bonds) and FI related securities of issuers worldwide.
- The Fund's investments will normally be listed or traded on Regulated Markets. The Fund may also invest in other FI securities (such as bonds issued by Economic and Monetary Union ("EMU") and non-EMU governments and government agencies and supranational bonds domiciled in and outside the European Union) in order to achieve a similar return to the Index in a cost efficient manner. All FI securities in which the Fund invests will be investment grade rated by Moody's, Standard & Poor's Corporation or Fitch Ratings at the time of purchase or are deemed by the Investment Manager ("IM") to be of an equivalent rating.
- The Fund may also invest in collective investment schemes (i.e. other investment funds which may be associated with the IM), derivatives, cash and money market instruments (i.e. debt securities with short-term maturities). Through these asset classes, the Fund may obtain indirect exposure to issuers that are inconsistent with its ESG Policy.
- The Fund may use of financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) for direct investment purposes and for efficient portfolio management.
- The IM may invest the Funds' assets in accordance with its ESG Policy as disclosed in the prospectus and the BlackRock website at: https://www.blackrock.com/nl/particuliere-beleggers/literature/prospectus/1895-fonds-fgr-esg-policy.pdf.
- The Fund is actively managed, and the IM has discretion to select the Fund's investments.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your units will be distributing units (i.e. dividend income will be paid semi-annually).
- Your units will be denominated in Euro, the Fund's base currency.
- You can buy and sell your units daily. The minimum initial investment for this unit class is €50,000,000.

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
  - Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
