ACS World ESG Insights Protective Strategies Fund

A sub-fund of BlackRock Authorised Contractual Scheme I

Class X1RB GBP Accu

ISIN: GB00BVBPVX01

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme. As a consequence of this, the Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund's prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund.
- The Fund seeks to outperform a composite benchmark composed of 70% FTSE Developed World Index (the "Index") and 30% 3 month SONIA (together the "Benchmark") (after fees have been deducted) over the long term (on a rolling 5 year basis) whilst seeking to incorporate a set of environmental, social and governance ("ESG") commitments (as described below). The Fund will seek to achieve its investment objective by investing, directly and indirectly, in the equities (i.e. shares) of selected companies within the Index and may invest in other equities that are proxies (providing similar performance and risk profiles) to the equities of companies within the Index.
- The Fund applies ESG criteria to the proportion of its portfolio invested directly in equity securities (which is expected to be at least 70% of the Fund's NAV) and comprises of (i) applying the BlackRock EMEA Baseline Screens; (ii) seeking to reduce the carbon emission intensity score of the direct equity investments relative to the Index; (iii) seeking to increase the proportion of the Fund's direct equity investments with 'green revenues' relative to the Index; and (iv) improving the BSI Intel Score profile of the Fund's direct equity investments. Further details on the Fund's ESG criteria are set out in the Fund's prospectus.
- The Fund may also use derivative based protective strategies whereby it will seek to mitigate against downturns in the equity markets and participate in equity market upside, however, investors should not expect full downside protection of full upside participation from such strategies. Further details of the derivative based protective strategies employed and associated risks are set out in the Fund's prospectus.
- Derivatives may also be used for efficient portfolio management purposes (i.e. to reduce risk or costs within the Fund's portfolio, or generate additional income). The Fund may engage in short-term secured lending of its investments to certain eligible third parties to generate additional income and off-set costs.
- The Fund is actively managed, and the IM has the discretion to select the Fund's investments.
- The Fund may also invest in other asset classes for liquidity purposes including: money market instruments; cash or cash equivalents; investments in other funds up to a maximum of 10% of the Fund's portfolio; or other assets that can be turned into cash quickly, such as short-term bonds.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your units will be accumulating units (i.e. dividend income will be included in their value).
- Your units will be denominated in Sterling, the Fund's base currency.
- You can buy and sell your units daily. The minimum initial investment for this unit class is £10,000,000.

Risk and Reward Profile

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Tax treatment of Fund: The tax treatment of this fund structure is so far untested which could lead to adverse tax consequences for the investor. Changes to the tax status of the Fund could lead to taxation being due.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or unit class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made.

** (i) To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges. (ii) Holders in this unit class may be subject to additional periodic charges outside of the Fund by way of separate agreement with BlackRock.
