BlackRock

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

BGF Global Securitised Fund

A sub-fund of BlackRock Global Funds

Class I2 USD Accu

ISIN: LU3170944345

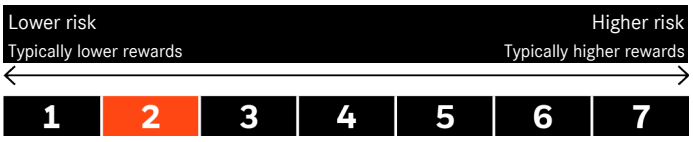

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- The Fund seeks to maximise total return and invest in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- The Fund invests in tranches of global securitised assets that are rated investment grade at the time of purchase. Securitised assets are debt securities where the payment of interest and principal depends on the cash flows generated or unsecured debt obligations such as residential mortgages, commercial real estate mortgages, auto loans, credit card receivables, corporate loans, and other types of debt (Securitised Assets).
- The Fund's total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus.
- The Fund will invest at least 80% of its total assets in fixed income transferable securities, mainly in Securitised Assets. This 80% ratio may include, on a temporary basis and for liquidity management purposes, the holding of cash and near cash instruments. The types of Securitised Assets in which the Fund may invest include, but are not limited to, asset-backed securities (ABS), residential mortgage-backed securities (RMBS), agency mortgage-backed securities (Agency MBS), commercial mortgage-backed securities (CMBS) and Collateralised debt obligations (CLOs). The Fund may invest up to 30% of its total assets in CLOs.
- Securitised Assets are normally issued with multiple classes of differing seniority (tranches) such that credit risk and weighted average life (or term) of the most senior class is typically less than the most junior tranche. Securitised Assets can include embedded derivatives, such as interest rate and foreign exchange swaps to hedge any mismatch between the underlying assets and the debt securities. Should a Securitised Asset be subsequently downgraded it may, in the Investment Adviser's (IA) discretion, continue to be held by the Fund for a period to avoid a distressed sale.
- The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- The Fund is actively managed, and the IA has discretion to select the Fund's investments without reference to any benchmark. Investors may use the ICE BofA Fixed Rate ABS Master Index to compare the performance of the Fund.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- Your shares will be denominated in US Dollar, the Fund's base currency.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US$10,000,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated two due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Asset backed securities and mortgage backed securities are subject to the same risks described for fixed income securities. These instruments may be subject to 'Liquidity Risk', have high levels of borrowing and may not fully reflect the value of underlying assets.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
  - Collateralised Loan Obligations are subject to the same risks described for fixed income securities. These instruments may be subject to 'Liquidity Risk', have high levels of borrowing and may not fully reflect the value of underlying assets.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. "bail-in") by relevant authorities to rescue the institution.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or share class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made.

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	0.39%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The Fund was launched in 2025. The share class was launched in 2025.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†[1]ICE BofA Fixed Rate ABS Master Index (R0A0)

This chart has been left intentionally blank as there is less than one year's performance data.

Practical Information

- The depositary of the Fund is The Bank of New York Mellon SA / NV, Luxembourg Branch.
- Further information about the Fund can be obtained from the latest annual and half-yearly reports of the BlackRock Global Funds (BGF). These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as share prices, on the BlackRock website at www.blackrock.com or by calling the International Investor Servicing team on +352 46268 5111.
- Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- The Fund is a sub-fund of BGF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- BGF may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- Under Luxembourg law, BGF has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within BGF). In addition, the Fund's assets are held separately from the assets of other sub-funds.
- Investors may switch their shares in the Fund for shares in another sub-fund within BGF, subject to meeting certain conditions as set out in the prospectus.
- The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.
