Sustainable Global Allocation Fund

A sub-fund of BlackRock Global Funds

Class I2 EUR Hedged

ISIN: LU2488122222

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- The Fund aims to maximise the return on your investment, in through a combination of capital growth and income on the Fund's assets and invest in a manner consistent with the principles of environmental, social and governance ("ESG") focused investing.
- The Fund invests globally at least 70% of its total assets in equity securities (e.g. shares) and fixed income (FI) securities in normal market conditions. FI securities include bonds and money market instruments (i.e. debt securities with short term maturities). It may also hold deposits and cash. The asset classes and the extent to which the Fund is invested in these may vary without limit depending on market conditions.
- The Fund's total assets will be invested in accordance with its ESG Policy and it will apply the EU Paris-Aligned Benchmark Exclusions as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast -and-africa.pdf
- The FI securities may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) and may include securities with a relatively low credit rating or which are unrated.
- The Fund is actively managed, and the Investment Adviser (IA) has discretion to select the Fund's investments. In doing so, the IA will take into consideration a composite benchmark comprising the MSCI All Country World Index (60%) and Bloomberg Global Aggregate Index (40%) (the "Index") when constructing the Fund's portfolio, and also for risk management purposes. The components of the Index can be quoted separately in marketing material related to the Fund. The ESG policy reduces the investment universe of the Fund by 25%. For the purposes of measuring this reduction only, MSCI All Country World Index and Bloomberg Global Aggregate Index are used to define the investment universe and are reduced separately.
- The Fund may invest up to 20% of its total assets in asset -backed securities and mortgage -backed securities whether investment grade or not. The Fund's exposure to contingent convertible bonds is limited to 20% of its total assets and its exposure to distressed securities is limited to 10% of its assets. The Fund may use financial derivative instruments for investment purposes and for the purposes of efficient portfolio management.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- The Fund's base currency is US Dollar. Shares for this class are bought and sold in Euro. The performance of your shares may be affected by this currency difference.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US$10,000,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Changes to interest rates, credit risk and/or issuer defaults will have a significant impact on the performance of fixed income securities. Non-investment grade fixed income securities can be more sensitive to changes in these risks than higher rated fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - The value of equities and equity-related securities can be affected by daily stock market movements, political factors, economic news, company earnings and significant corporate events.
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 July 2026. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
