BlackRock ESG Euro Corporate Bond Fund

A sub-fund of BlackRock Strategic Funds

Class I2 SEK Hedged

ISIN: LU2384697673

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- The Fund aims to maximise the return on your investment through a combination of capital growth and income on the Fund's assets and in a manner consistent with the principles of environmental, social and governance "ESG" focused investing.
- The Fund invests at least 80% of its total assets in fixed income (FI) securities, FI related securities (in each case which are investment grade (i.e. meet a specified level of credit worthiness) and, when determined appropriate, deposits and cash. FI securities include bonds and money market instruments (MMIs) (i.e. debt securities with short term maturities). FI-related securities include financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets). The Fund will focus on non-government FI securities and will also have exposure to FI securities of governments and government agencies inside or outside of the Eurozone.
- The Fund will take into account ESG criteria when selecting investments as disclosed in the prospectus and will apply the EU Paris-Aligned Benchmark Exclusions. For further details please refer to the Fund's ESG policy section of the prospectus and the BlackRock website at: https://www.blackrock.com/baselinescreens
- The Fund adopts a "best in class" approach to sustainable investing meaning that the Fund selects the best issuers (from an ESG perspective) for each relevant sector of activities (without excluding any sector of activities). More than 90% of the issuers of securities in which the Fund invests shall be ESG rated or have been analysed for ESG purposes. FDIs may be used to help achieve the Fund's investment objective.
- The Fund is actively managed and the Investment Adviser (IA) has discretion to select the Fund's investments. In doing so, the IA will refer to the Bloomberg MSCI Euro Corporate Sustainable SRI Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes as further described in the prospectus. The Index should be used by shareholders to compare the performance of the Fund. The Bloomberg Barclays Euro Corporate Index (80%) and Bloomberg US Corporate Index (20%) should be used by shareholders to assess the impact of ESG screening on the Fund's investment universe.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- The Fund's base currency is Euro. Shares for this class are bought and sold in Swedish Krona. The performance of your shares may be affected by this currency difference.
- Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US$10,000,000 or other currency equivalent.

Risk and Reward Profile

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated three due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2025. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
