BlackRock MyMap Plus Defensive Fund

A sub-fund of BlackRock Strategic Funds

Class D2 GBP Hedged

ISIN: LU1191062733

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- The Fund seeks to provide a return on your investment taking into account both capital and income returns, through an actively managed, multi-asset portfolio, integrating strategic and tactical asset allocation, whilst maintaining a defensive level of risk and invests in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- The Fund will seek to obtain indirect exposure to a broad range of asset classes, which may include equity securities (e.g. shares), equity-related (ER) securities, fixed income (FI) securities (such as bonds), FI-related securities, alternative assets, cash and near-cash instruments. FI securities include money market instruments (MMIs) (i.e. debt securities with short- term maturities). ER securities and FI-related securities include financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). Exposure to these asset classes will be achieved through investments in shares or units of a concentrated portfolio of collective investment schemes (CIS) which invest in a diversified portfolio of assets. These may include, but are not limited to, active and passive exchanged traded funds and other Index funds managed by an affiliate of the BlackRock group.
- The Fund's total assets will be invested according to its ESG policy as described in the prospectus.
- Given the defensive risk profile of the Fund, it will seek a lower exposure to equity securities compared to a fund with a higher risk profile, which would normally seek to have a lower exposure to fixed income securities. The fixed income exposure of the Fund will comprise mainly investment grade-rated (but may also comprise non-investment grade or unrated) fixed and floating rate global government and corporate fixed income securities/bonds.
- The Fund's direct and indirect exposure to non-investment grade FI securities will not exceed 20% of its Net Asset Value (NAV).The equity exposure will comprise mainly large and mid-capitalization companies globally. The Fund's direct and indirect exposure to equities will vary over time but will not exceed 30% of its NAV.
- The Fund may have direct and indirect exposure of up to 20% of its NAV in asset-backed securities and mortgage -backed securities and the Fund's indirect exposure to distressed securities may not exceed 10% of the NAV.
- The Fund is actively managed, and the investment adviser (IA) has discretion to select the Fund's investments and is not constrained by any benchmark in this process. Shareholders may use the MSCI All Country World Index and Bloomberg Multiverse Index to measure the Fund's performance against its ESG commitments. The Fund's asset allocation and the weight of each asset class index in the investable universe may change over time.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be non-distributing (i.e. dividend income will be included in their value).
- The Fund's base currency is Euro. Shares for this class are bought and sold in Sterling. The performance of your shares may be affected by this currency difference.
- Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- You can buy and sell your shares daily. The minimum initial investment for this share class is US$100,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 March 2026. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.
