iShares Europe ex-UK Index Fund (IE)

A sub-fund of BlackRock Index Selection Fund

Class D Hedged GBP Accu

ISIN: IE000SG9CMM7

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the equity market in Europe, apart from the United Kingdom.
- The Fund is passively managed and invests in equity securities (e.g. shares) listed and traded on regulated markets in Europe excluding the United Kingdom.
- The return of the Fund will be compared with the return on an index which will initially be the MSCI Europe ex-UK Index (with net dividends), the Fund's benchmark index.
- The benchmark index measures the performance of equity securities of leading companies listed in continental Europe and in Ireland. The components of the benchmark index are weighted by market capitalisation. Market capitalisation, in this case, is the share price of the company multiplied by the number of shares readily available in the market.
- The Fund intends to replicate the benchmark index by holding the equity securities, which make up the benchmark index, in similar proportions to it.
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your units will be accumulating units (i.e. dividend income will be included in their value).
- The Fund's base currency is Euro. Units for this class are bought and sold in Sterling. The performance of your units may be affected by this currency difference.
- Your units will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the units and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your units. Please see the prospectus for further details.
- You can buy and sell your units daily. The minimum initial investment for this unit class is £100,000.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or unit class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made.

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
