iShares GiltTrak Index Fund (IE)

A sub-fund of BlackRock Fixed Income Dublin Funds plc

Class S GBP Accu

ISIN: IE000HUGXBE0

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- The Fund aims to achieve a total return on your investment, through a combination of capital growth and income, which reflects the return of the FTSE Government All Stocks Gilt Index, the Fund's benchmark index. A gilt is a fixed income (FI) security such as a bond issued by the British Government.
- The Fund will invest in the FI securities that predominantly make up the benchmark index (which comprises gilts).
- The benchmark index measures the performance of all conventional (i.e. excluding index-linked) gilts with varying redemption dates (i.e. the date on which some, or all, of the principal amount and interest is repaid during the life of the bond) and maturities (i.e. the time until the bond becomes due for repayment).
- The Fund is passively managed and intends to replicate the Index by holding the FI securities in substantially similar proportions to that of the benchmark constituents.
- The Fund uses techniques for efficient portfolio management purposes or to protect against exchange rate risk. These techniques may include the strategic selection of certain securities that make up the benchmark index or other FI securities which provide similar performance to certain constituent securities. They may also include the use of financial derivative instruments (i.e. investments the prices of which are based on one or more underlying assets).
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Your shares will be accumulating shares (i.e. dividend income will be included in their value).
- Your shares will be denominated in Sterling, the Fund's base currency.
- You can buy and sell your shares daily. The minimum initial investment for this share class is £200,000,000.

Risk and Reward Profile

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
  - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects arbitrage by an investor on the yield of the Fund.

The ongoing charges figure is based on the fixed annualised fees charged to the Fund as set out in the Fund's prospectus. This figure excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest

Past Performance

Past performance is not a guide to future performance.
The Fund was launched in 2000. The share class was launched in 2025.
Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

This chart has been left intentionally blank as there is less than one year's performance data.
