

Investment Stewardship Global Engagement Summary Report

Q1 2026

724

Total engagements

683

Individual companies engaged

34

Companies engaged multiple times

Engagements by region

Americas: **274**

Europe, Middle East, and Africa: **164**

Asia-Pacific: **286**

BlackRock Investment Stewardship (BIS) is a dedicated function within BlackRock, which is responsible for stewardship activities in relation to clients' assets invested in index equity strategies.^{1,2}

BIS engages with the boards and management of companies in which clients are invested to deepen our understanding of a company's business model, including how they are overseeing material business risks and opportunities over time, and to help inform our voting on behalf of clients.³ Engagements provide companies with the opportunity to share their perspectives on topics that, in BIS' experience, impact the long-term financial returns BlackRock's clients depend on to meet their financial goals. BIS counts only direct interaction as an engagement. BIS does not count letters as engagement.

This report summarizes our global company engagement activity from January 1, 2026, to March 31, 2026. The data is broken down by region and sector, and includes the specific topics discussed with each company engaged, organized by BIS' five Engagement Priorities, each represented by a specific color for ease of reference.⁴

BIS updates this report quarterly, reflecting year-to-date activity and providing transparency into the range of topics we discuss with the companies in which we invest on behalf of our clients.

BIS does not view engagements as a mechanism to effect change. Setting, executing, and overseeing strategy are the responsibility of management and the board. As one of many minority shareholders in public companies, BlackRock does not direct a company's strategy or its implementation, nor how they should manage material business risks. Our role, on behalf of clients as long-term investors, is to better understand how corporate leadership is managing material risks and capitalizing on opportunities to help protect and enhance the company's ability to deliver long-term financial returns.

Engagement Priorities

Strategy, purpose, and financial resilience

Board quality and effectiveness

Incentives aligned with financial value creation

Climate and natural capital

Company impacts on people

¹ As of January 1, 2025, BlackRock's stewardship policies are developed and implemented separately by BIS and BlackRock Active Investment Stewardship (BAIS). BAIS partners with BlackRock's active investment teams in relation to their holdings. While the two teams operate independently, their general approach is grounded in widely recognized norms of corporate governance and shareholder rights and responsibilities. ² On February 11, 2025, the U.S. Securities and Exchange Commission (SEC) staff issued updated guidance for shareholders to maintain their eligibility to report their beneficial ownership under Schedule 13G of the Exchange Act. We comply fully with these requirements and do not engage with portfolio companies for the purpose, or with the effect, of changing or influencing control of any company. ³ Company engagements may cover multiple topics within a single interaction and are focused on our Engagement Priorities. ⁴ Sectors are defined by the Global Industry Classification Standard (GICS) sector level one breakdown. GICS is a standardized classification system used to sort business entities by sector and industry groups.
