(b) Fair value of securities not quoted in an active market

The fair value of such securities not quoted in an active market may be determined by Management using reputable pricing sources (such as pricing agencies). Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Management would exercise judgment and estimates on the quantity and quality of pricing sources used. Where no market data is available, Management may value positions using their own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The inputs into these models are primarily earning multiples and discounted cash flows. The models used to determine fair values are validated and periodically reviewed by experienced personnel at the Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require Management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The determination of what constitutes “observable” requires significant judgment by Management. Management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

(c) Taxation

In preparing these condensed financial statements, Management has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

4. Income Purification

To remain Shariah compliant, Systematic Islamic ESG Equity Fund may be required to purify its portfolio of amounts that are considered “impure” by Islamic investment standards. Such amounts, if any, are likely to result from interest income earned by the Sub-Fund on the cash portion of its portfolio or from dividend that comes from business activities prohibited under Shariah. The Manager will deduct at least annually from the Sub-Fund, amounts under principles established, determined, or evaluated by the Shariah Compliance Adviser that may have derived from activities not in accordance with the Shariah Compliant Investment Strategy. Any such amounts will be deducted only upon their actual determination and no accrual on the projected amount shall be made.
