

**FDP SERIES, INC.**  
 FDP BlackRock International Fund  
 FDP BlackRock Capital Appreciation Fund  
 FDP BlackRock Equity Dividend Fund

(each, a “Fund” and collectively, the “Funds”)

**Supplement dated May 16, 2019 to the Summary Prospectus, Prospectus and Statement of Additional Information of the Funds, dated September 28, 2018, as supplemented to date**

The Board of Directors of FDP Series, Inc. (the “Corporation”) has approved an Agreement and Plan of Reorganization with respect to each Fund (each, an “Agreement and Plan”), by and among the parties set forth in the table below, wherein each Fund will be reorganized (each, a “Reorganization” and collectively, the “Reorganizations”) into a corresponding mutual fund (each, an “Acquiring Fund” and collectively, the “Acquiring Funds”) as set out in the table below.

Funds	Acquiring Funds
FDP BlackRock International Fund, a series of the Corporation	BlackRock International Fund, a series of BlackRock Series, Inc.
FDP BlackRock Capital Appreciation Fund, a series of the Corporation	BlackRock Capital Appreciation Fund, Inc.
FDP BlackRock Equity Dividend Fund, a series of the Corporation	BlackRock Equity Dividend Fund

In each Reorganization, each Fund will transfer substantially all of its assets to its corresponding Acquiring Fund in exchange for the assumption by such Acquiring Fund of certain stated liabilities of such Fund and shares of such Acquiring Fund (the “Acquiring Fund Shares”).

Each Agreement and Plan provides that shareholders of the applicable Fund will receive shares (including fractional shares, if any) of the class of shares in its corresponding Acquiring Fund set out in the table below with the same aggregate net asset value as the shares of such Fund held immediately prior to the Reorganization:

<i>If a shareholder owns the following Fund Shares</i>	<i>The shareholder will receive the following Acquiring Fund Shares</i>
Investor A	Investor A
Investor C	Investor C
Institutional	Institutional

Shareholders of the Funds are not required to approve the Reorganizations. It is expected that in July 2019 shareholders of each Fund will be sent a Combined Prospectus/Information Statement containing important information about the applicable Acquiring Fund, outlining the differences between each Fund and its corresponding Acquiring Fund and containing information about the terms and conditions of each Reorganization.

Each Reorganization is expected to occur during the third quarter of 2019. Until the Reorganizations are completed, each Fund will continue redemptions of its shares as described in its Prospectus.

**Shareholders should retain this Supplement for future reference.**

## Key Facts About FDP BlackRock Equity Dividend Fund

### Investment Objective

The investment objective of the FDP BlackRock Equity Dividend Fund (formerly known as FDP BlackRock Invesco Value Fund) (the “Equity Dividend Fund” or the “Fund”) is to seek long-term total return and current income.

### Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$25,000 in the fund complex advised by BlackRock Advisors, LLC (“BlackRock”) or its affiliates. More information about these and other discounts is available from your financial professional or your selected securities dealer, broker, investment adviser, service provider or industry professional (including BlackRock, The PNC Financial Services Group, Inc. (“PNC”) and their respective affiliates) (each a “Financial Intermediary”) and in the “Details About the Share Classes” and the “Intermediary-Defined Sales Charge Waiver Policies” sections on pages 42 and A-1, respectively, of the Fund’s prospectus and in the “Purchase of Shares” section on page II-79 of Part II of the Fund’s Statement of Additional Information.

<sup>1</sup> A contingent deferred sales charge (“CDSC”) of 1.00% is assessed on certain redemptions of Investor A Shares made within 18 months after purchase where no initial sales charge was paid at the time of purchase as part of an investment of \$1,000,000 or more.

<sup>2</sup> There is no CDSC on Investor C Shares after one year.

<sup>3</sup> As described in the “Management of the Funds” section of the Fund’s prospectus beginning on page 53, BlackRock has contractually agreed to waive a portion of the management fee so that the annual management fee rate for the Fund is 0.60% of the average daily net assets of the Fund through September 30, 2019. BlackRock has also contractually agreed to waive the management fee with respect to any portion of the Fund’s assets estimated to be attributable to investments in other equity and fixed-income mutual funds and exchange-traded funds managed by BlackRock or its affiliates that have a contractual management fee, through September 30, 2019. Each contractual agreement may be terminated upon 90 days’ notice by a majority of the non-interested directors of FDP Series, Inc. (the “Corporation”) or by a vote of a majority of the outstanding voting securities of the Fund.

<sup>4</sup> As described in the “Management of the Funds” section of the Fund’s prospectus beginning on page 53, BlackRock has contractually agreed to waive and/or reimburse fees or expenses in order to limit Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements (excluding Dividend Expense, Interest Expense, Acquired Fund Fees and Expenses and certain other Fund expenses) to 2.20% (for Investor A Shares), 2.95% (for Investor C Shares) and 1.95% (for Institutional Shares) of average daily net assets through September 30, 2019. The contractual agreement may be terminated upon 90 days’ notice by a majority of the non-interested trustees of the Corporation or by a vote of a majority of the outstanding voting securities of the Fund.

### Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5%

return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
Investor A Shares	\$642	\$909	\$1,196	\$2,013
Investor C Shares	\$299	\$636	\$1,099	\$2,382
Institutional Shares	\$ 98	\$327	\$ 575	\$1,285

You would pay the following expenses if you did not redeem your shares:

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
Investor C Shares	\$199	\$636	\$1,099	\$2,382

### **Portfolio Turnover:**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 81% of the average value of its portfolio.

### ***Principal Investment Strategies of the Fund***

The Fund seeks to achieve its objective by investing primarily in a diversified portfolio of equity securities. Under normal circumstances, the Fund will invest at least 80% of its assets in equity securities and at least 80% of its assets in dividend paying securities. Equity securities include common stock, preferred stock, depositary receipts, securities convertible into common stock, or securities or other instruments whose price is linked to the value of common stock. The Fund will focus on issuers that have good prospects for capital appreciation and current income. Although the Fund invests primarily in dividend paying securities, portions of the distributions paid by the Fund may not be subject to the lower income tax rates applicable to dividends.

The Fund may invest in securities of companies with any market capitalization, but will generally focus on large cap securities. The Fund's portfolio, in the aggregate, will be structured in a manner designed to seek long-term capital appreciation as well as net portfolio yield in excess of the average yield of mutual funds invested primarily in U.S. equities.

The Fund may also invest in securities convertible into common stock and non-convertible preferred stock. Convertible securities are generally debt securities or preferred stock that may be converted into common stock. Convertible securities typically pay current income as either interest (debt security convertibles) or dividends (preferred stock). A convertible's value usually reflects both the stream of current income payments and the market value of the underlying common stock. Preferred stock is a class of stock that often pays dividends at a specified rate and has preference over common stock in dividend payments and liquidation of assets. Preferred stock may also be convertible into common stock.

The Fund may invest up to 25% of its total assets in securities of foreign issuers, including issuers located in emerging markets. The Fund may invest in securities from any country. The Fund may invest in securities denominated in both U.S. dollars and non-U.S. dollar currencies.

BlackRock and the Fund have obtained an exemptive order from the Securities and Exchange Commission (the "SEC") that permits BlackRock, with respect to the Fund, to appoint and replace sub-advisers, and enter into, amend and terminate sub-advisory agreements with sub-advisers, subject to Board approval but without shareholder approval (the "Manager of Managers Structure"). The use of the Manager of Managers Structure with respect to the Fund is subject to certain conditions set forth in the SEC exemptive order.

### ***Principal Risks of Investing in the Fund***

Risk is inherent in all investing. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The following is a summary description of principal risks of investing in the Fund.

- **Convertible Securities Risk** — The market value of a convertible security performs like that of a regular debt security; that is, if market interest rates rise, the value of a convertible security usually falls. In addition, convertible securities are subject to the risk that the issuer will not be able to pay interest or dividends when due, and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Since it derives a portion of its value from the common stock into which it may be converted, a convertible security is also subject to the same types of market and issuer risks that apply to the underlying common stock.
- **Depository Receipts Risk** — Depository receipts are generally subject to the same risks as the foreign securities that they evidence or into which they may be converted. In addition to investment risks associated with the underlying issuer, depository receipts expose the Fund to additional risks associated with the non-uniform terms that apply to depository receipt programs, credit exposure to the depository bank and to the sponsors and other parties with whom the depository bank establishes the programs, currency risk and liquidity risk. The issuers of unsponsored depository receipts are not obligated to disclose information that is, in the United States, considered material. Therefore, there may be less information available regarding these issuers and there may not be a correlation between such information and the market value of the depository receipts.
- **Emerging Markets Risk** — Emerging markets are riskier than more developed markets because they tend to develop unevenly and may never fully develop. Investments in emerging markets may be considered speculative. Emerging markets are more likely to experience hyperinflation and currency devaluations, which adversely affect returns to U.S. investors. In addition, many emerging securities markets have far lower trading volumes and less liquidity than developed markets.
- **Equity Securities Risk** — Stock markets are volatile. The price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions.
- **Foreign Securities Risk** — Foreign investments often involve special risks not present in U.S. investments that can increase the chances that the Fund will lose money. These risks include:
  - The Fund generally holds its foreign securities and cash in foreign banks and securities depositories, which may be recently organized or new to the foreign custody business and may be subject to only limited or no regulatory oversight.
  - Changes in foreign currency exchange rates can affect the value of the Fund's portfolio.
  - The economies of certain foreign markets may not compare favorably with the economy of the United States with respect to such issues as growth of gross national product, reinvestment of capital, resources and balance of payments position.
  - The governments of certain countries may prohibit or impose substantial restrictions on foreign investments in their capital markets or in certain industries.
  - Many foreign governments do not supervise and regulate stock exchanges, brokers and the sale of securities to the same extent as does the United States and may not have laws to protect investors that are comparable to U.S. securities laws.
  - Settlement and clearance procedures in certain foreign markets may result in delays in payment for or delivery of securities not typically associated with settlement and clearance of U.S. investments.
- **Income Producing Stock Availability Risk** — Depending upon market conditions, income producing common stock that meets the Fund's investment criteria may not be widely available and/or may be highly concentrated in only a few market sectors. This may limit the ability of the Fund to produce current income while remaining fully diversified.
- **Market Risk and Selection Risk** — Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Selection risk is the risk that the securities selected by Fund management will underperform the markets, the relevant indices or the securities selected by other funds with similar investment objectives and investment strategies. This means you may lose money.
- **Preferred Securities Risk** — Preferred securities may pay fixed or adjustable rates of return. Preferred securities are subject to issuer-specific and market risks applicable generally to equity securities. In addition, a company's preferred securities generally pay dividends only after the company makes required payments to holders of its bonds and other debt. For this reason, the value of preferred securities will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects. Preferred securities of smaller companies may be more vulnerable to adverse developments than preferred securities of larger companies.

## Performance Information

The information shows you how the Fund's performance has varied year by year and provides some indication of the risks of investing in the Fund. The Fund's returns prior to November 28, 2017 as reflected in the bar chart and the table are the returns of the Fund when it followed different investment strategies under the name "FDP BlackRock Invesco Value Fund." The table compares the Fund's performance to that of the Russell 1000® Value Index. To the extent that dividends and distributions have been paid by the Fund, the performance information for the Fund in the chart and table assumes reinvestment of the dividends and distributions. As with all such investments, past performance (before and after taxes) is not an indication of future results. Sales charges are not reflected in the bar chart. If they were, returns would be less than those shown. However, the table includes all applicable fees and sales charges. If the Fund's investment manager and its affiliates had not waived or reimbursed certain Fund expenses during these periods, the Fund's returns would have been lower. Updated information on the Fund's performance, including its current net asset value, can be obtained by visiting <http://www.blackrock.com> or can be obtained by phone at 800-882-0052.

## ***Tax Information***

---

The Fund's dividends and distributions may be subject to U.S. federal income taxes and may be taxed as ordinary income or capital gains, unless you are a tax-exempt investor or are investing through a qualified tax-exempt plan described in section 401(a) of the Internal Revenue Code, in which case you may be subject to U.S. federal income tax when distributions are received from such tax-deferred arrangements.

## ***Payments to Broker/Dealers and Other Financial Intermediaries***

---

If you purchase shares of the Fund through a Financial Intermediary, the Fund and BlackRock Investments, LLC, the Fund's distributor, or its affiliates may pay the Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the Financial Intermediary and your individual financial professional to recommend the Fund over another investment. Ask your individual financial professional or visit your Financial Intermediary's website for more information.
