
Product

BlackRock Private Equity Opportunities ELTIF (the "Fund"), Class C EUR (the "Share Class"), ISIN: LU1916394486, is manufactured by BlackRock France SAS (the "Manager"). The Manager is incorporated in France and supervised by the Autorité des Marchés Financiers in relation to this KID. More information is available at www.blackrock.com/kiid. This document is dated 01 April 2019.

Caution: You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

The Fund is a sub-fund of BlackRock Alternative Funds SCA SICAV-RAIF, an investment company with variable share capital (SICAV) organised as an umbrella fund in the form of a corporate partnership limited by shares (SCA), qualifying as a reserved alternative investment fund (RAIF) and governed by Luxembourg law. The Fund qualifies as a European long-term investment fund (ELTIF) and is classified as an alternative investment fund for regulatory purposes.

Objectives

- The Fund aims to achieve long-term capital growth on its investments.
- The Fund aims to achieve its objective by investing in a portfolio of private equity assets through co-investments ("Co-Investments") alongside financial, strategic or other third-party investors ("Sponsors"). At least 60% of the Fund's total assets will be invested in Co-Investments relating to companies whose principal business operations are located in Europe.
- The Fund will invest in Co-Investments via interests (including equity securities (e.g. shares) and debt instruments (e.g. shareholder loans)) in subsidiary holding companies, partnerships and other co-investment vehicles (excluding collective investment undertakings). Co-Investments may include investments in securities, whether or not the Sponsor is also purchasing such securities, and the Fund may also invest in Co-Investments on a secondary basis (i.e. purchase interests from existing investors rather than from the issuer).
- The Fund does not seek to take control positions (i.e. acting as lead investor) in its investments. Instead, the Fund intends to make investments on a co-investment basis alongside Sponsors who are well known to, or have previously made investments with, the Fund's investment manager.
- The Fund may, through Co-Investments, obtain exposure to the full spectrum of private equity asset classes and strategies globally, including, without limitation: buyouts, recapitalisations, restructurings, growth equity, venture capital, privately-placed debt and equity securities, structured equity, distressed equity and debt securities, loans and mezzanine financing. The Fund may also, on an ancillary basis, invest in liquid investments such as cash, deposits or money market instruments. The Fund may use financial derivative instruments (i.e. investments the prices of which are based on one or more underlying assets) for hedging purposes only. Fixed income securities held by the Fund may be investment grade, below investment grade or unrated.
- The investment manager has discretion to select the Fund's investments subject to the investment restrictions applicable to ELTIFs, as described in the Fund's offering document.
- The price of equity securities fluctuates and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below). The period for which you hold your investment is considered below under "How long should I hold it and can I take my money out early?"

Intended retail investor

The Fund is intended for retail investors (i) with knowledge and experience of these types of products, (ii) that have obtained appropriate investment advice and (iii) that have the ability to bear losses up to the amount they have invested in the Fund. The Fund will not be suitable for retail investors that are unable to sustain such a long-term and illiquid investment. The minimum investment for this Share Class is EUR 125,000.

Insurance benefits

The Fund does not offer any insurance benefits.

Term

The Fund will terminate ten years after the earlier of (i) the date which is 18 months following the date on which third party investors are first admitted to the Fund and (ii) a date determined by the General Partner in its sole discretion. However, the General Partner may extend the Fund's term for up to two additional, consecutive one-year periods. The Fund may also, at any time, be dissolved by the shareholders in the Fund by a vote of at least 75% of the shareholders in the Fund.

What are the risks and what could I get in return?

Risk Indicator

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 6 out of 7, which is the second highest risk class. This classification rates the potential losses from future performance at a high level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and is not a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.

- **Be aware of currency risk.** The currency of this share class may be different from that of your country. As you may receive payments in the currency of this share class and not that of your country, the final return will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.
- The insolvency of certain institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Performance Scenarios

Investment EUR10,000

| Scenarios | | n/a year | n/a years | 10 years (Recommended Holding Period) |
|---------------------|--|----------|-----------|--|
| | | EUR | EUR | EUR |
| | What you might get back after costs | - | - | - |
| | Average return each year | - | - | - |
| Unfavourable | What you might get back after costs | - | - | 9,960 |
| | Average return each year | - | - | -0.1% |
| Moderate | What you might get back after costs | - | - | 16,595 |
| | Average return each year | - | - | 10.3% |
| Favourable | What you might get back after costs | - | - | 29,053 |
| | Average return each year | - | - | 21.9% |

- This table shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest EUR 10,000. The average return represents an estimate of the annual internal rate of return (IRR) on the invested capital that you could realize.
- The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.
- The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.
- The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
- This product cannot be cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

What happens if BlackRock France SAS is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Bank Luxembourg SCA (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

What are the costs?

Costs over time

| Investment EUR10,000 | | | |
|---------------------------------|-------------------------------|--------------------------------|-------------------------------|
| Scenarios | If you cash in after n/a year | If you cash in after n/a years | If you cash in after 10 years |
| Total costs | - | - | 1,762 |
| Impact on return (RIY) per year | - | - | 1.76% |

Presentation of cost

- The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.
- The amounts shown here are the cumulative costs of the product itself, for one or more different scenarios. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future. Please check with your broker, financial adviser or distributor, who may charge you additional costs, for further information regarding their costs and the potential impact on your investment over time.

Composition of costs

| This table shows the impact on return per year | | | |
|--|-----------------------------|-------|--|
| One-off costs | Entry costs | 0.05% | The impact of the costs you pay when entering your investment.* |
| | Exit costs | 0.00% | The impact of the costs of exiting your investment when it matures.* |
| Ongoing costs | Portfolio transaction costs | 0.03% | The impact of the costs of us buying and selling underlying investments for the product.** |
| | Insurance costs | None | The impact of the amount you are paying to buy insurance protection. |
| | Other ongoing costs | 1.11% | The impact of the costs that we take each year for managing your investments. |
| Incidental costs | Performance fees | 0.00% | The impact of the performance fee. |
| | Carried interests | 0.57% | The impact of the carried interests. |

This table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. Costs include the Fund's cost of borrowing and derivatives. Further details on gearing deployed in the year and the costs associated with this are set out in the Fund's annual report.

* Please refer to your broker, financial adviser or distributor for the actual charges (including any taxes).

** This figure is based on estimated costs, often referencing historic data, and therefore the actual costs paid by an investor may differ.

How long should I hold it and can I take my money out early?

Recommended holding period: at least 10 years

You are required to stay invested in the Fund from the date of your subscription until the final liquidation of the Fund, provided that if you are a retail investor you may within two weeks from the date of your subscription cancel your subscription and have your money returned without penalty. Investors should therefore expect their money to be invested in the Fund for at least 10 years (see "Term" above). BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should contact your placement agent or financial adviser and seek appropriate professional advice. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

How can I complain?

If you are not entirely satisfied with any aspect of the service you have received and you wish to complain, you should write to your placement agent or financial adviser, with a copy to the Fund's administrator at: **State Street Services (Luxembourg) S.A., 47, avenue J.F. Kennedy, L-1855, Luxembourg, Grand Duchy of Luxembourg**. Investors may also, in certain circumstances, have a right to complain to the AMF Ombudsman's Office at: **AMF Ombudsman's Office, 17, Place de la Bourse, 75082 Paris Cedex 02, France** (website: www.amf-france.org/en_US/Formulaires-et-declarations/Contact?lst_select_form_theme_id=mediation, front desk: (+33) 1 5345 6000, consumer helpline: (+33) 1 5345 6200).
