This interim report and unaudited financial statements (the "Report and Financial Statements") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Financial Statements. To the extent that there is any inconsistency between the English language Report and Financial Statements and the Report and Financial Statements in another language, the English language Report and Financial Statements will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Financial Statements in a language other than English, the language of the Report and Financial Statements on which such action is based shall prevail. Any disputes as to the terms of the Report and Financial Statements, regardless of the language of the Report and Financial Statements, shall be governed by and construed in accordance with the laws of Ireland.

# iSHARES VII PLC

## BACKGROUND

iShares VII public limited company (the "Entity") is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 9 April 2009 with limited liability and segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Entity is structured as an umbrella fund and comprises of separate funds ("Fund") of the Entity. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term "Fund" or "Financial Product" shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term "BlackRock" and "Investment Manager" are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to "redeemable shares" shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term "Directors" means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity's prospectus.

### Fund details

The Entity had 36 Funds in operation as at 31 January 2026.

The following Funds terminated operations in a prior year and are pending revocation by the CBI. Financial statements continue to be prepared for the Funds as the Fund still holds financial assets at the balance sheet date.

- iShares FTSE Italia Mid-Small Cap UCITS ETF
- iShares MSCI Russia ADR/GDR UCITS ETF

These Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

### Changes to the Entity during the financial period

On 14 August 2025, iShares MSCI UK IMI ESG Leaders UCITS ETF ceased operations.

On 1 September 2025, an updated prospectus was issued by the Entity to include the newly launched iShares S&P 500 3% Capped UCITS ETF Fund.

On 7 November 2025, an updated prospectus was issued by the Entity to reflect the change in address of the registered office of the Manager and benchmark index name.

On 25 November 2025, an updated prospectus was issued by the Entity to reflect the Fund name change of iShares MSCI USA Small Cap ESG Enhanced UCITS ETF to iShares MSCI USA Small Cap CTB Enhanced ESG UCITS ETF .

On 28 November 2025, an updated prospectus was issued by the Entity to reflect a change in investment technique around total return swaps for the umbrella.

# iSHARES VII PLC

## BACKGROUND (continued)

### Changes to the Entity during the financial period (continued)

On 3 December 2025, an updated prospectus was issued by the Entity to reflect changes in the SFDR disclosure and benchmark index name change.

Effective 31 December 2025, the Secretary of the Manager, Apex Group Corporate Administration Services Ireland Limited, merged into Apex IFS Limited as part of an intra-group restructuring and was subsequently renamed Apex IFS Limited.

On 1 January 2026, the legal advisors as to Irish Law changed from William Fry LLP to Maples and Calder (Ireland) LLP.

During the financial period, supplements were issued for new Funds.

The Fund name and benchmark index name has changed for the following Funds during the financial period:

Previous Fund name	New Fund name	Previous benchmark Index name	Updated benchmark Index name	Date of update
iShares S&P 500 Paris-Aligned Climate UCITS ETF	No change	S&P 500 Net Zero 2050 Paris-Aligned Sustainability Screened Index	S&P 500 Net Zero 2050 PAB Sustainability Screened Index	7 November 2025
iShares MSCI EMU Paris-Aligned Climate UCITS ETF	No change	MSCI EMU Climate Paris Aligned Benchmark Select Index	MSCI EMU Climate Paris Aligned Benchmark Select PAB Index	3 December 2025
iShares MSCI USA Small Cap ESG Enhanced UCITS ETF	iShares MSCI USA Small Cap CTB Enhanced ESG UCITS ETF	MSCI USA Small Cap ESG Enhanced Focus CTB Index	MSCI USA Small Cap ESG Enhanced CTB Index	3 December 2025

The following share classes were launched during the financial period:

Fund name	Share class	Launch date
iShares S&P 500 Top 20 UCITS ETF	USD (Dist)	29 October 2025
iShares Core S&P 500 UCITS ETF	CHF Hedged (Acc)	12 December 2025

### Stock exchange listings

The shares of each Fund will be listed and admitted for trading on a number of stock exchanges. For details of where shares are listed or admitted for trading, please refer to the official iShares website ([www.ishares.com](http://www.ishares.com)).

iShares S&P 500 3% Capped UCITS ETF	S&P 500 3% Capped Index	Index tracking - replicating

<sup>1</sup>The Fund ceased operations on 14 August 2025.

Further information on the index investment strategies used is detailed below:

- For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.
- For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other costs.

### Performance summary and tracking error

The following table compares the realised Fund performance against the relevant benchmark index for the six month period ended 31 January 2026. It also discloses the anticipated tracking error of the index tracking Funds (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Funds as at 31 January 2026.

Further information on these performance measures and calculation methodologies used is detailed below:

- The Fund's returns disclosed are the performance returns for the primary share class for each Fund, net of fees and expenses charged directly within the relevant share class, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. The return of the primary share classes disclosed may differ to the aggregate Fund performance of all share classes as reported in the financial statements primarily due to the impact of foreign currency translation and share class specific expenses. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial period, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and the total expense ratio ("TER") is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- The returns are based on the net asset value ("NAV") calculated in accordance with the prospectus for the financial period under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure's, a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.

# iSHARES VII PLC

## INVESTMENT MANAGER'S REPORT (continued)

### Performance summary and tracking error (continued)

- Each Fund's TER is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking difference in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period of the Fund and can be greater than the headline TER in a positive market and lower than the TER in a negative market. The TER expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs, charged to each Fund's assets as a percentage of the average Fund assets based on a twelve-month period ended 31 January 2026.
- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Net income difference and tax may also impact tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

Fund name	Fund return %	Benchmark index return %	TER %	Anticipated tracking error %	Realised tracking error %	Other tracking error drivers

<sup>1</sup> The Fund ceased operations during the financial period. Returns are shown from the first date of the financial period to the termination date.

<sup>a</sup> The realised tracking error was driven by differences in the tax rate applied to dividends received in the Fund versus those assumed in the total return calculation of the benchmark index.

<sup>b</sup> The realised tracking error was driven by valuation differences between the Fund and the benchmark index, caused by differing holiday treatment.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements as well as PRIIP KIDs form an integral part, copies of which are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or the Distributor.

#### Global economic overview

Global equities, as represented by the MSCI All Country World Index, returned 12.93% (in USD terms) during the six months ended 31 January 2026. Equities made significant gains amid declining inflation (the rate of increase in the prices of goods and services), easing monetary policy from the world's largest central banks and strong corporate performance, especially in the technology sector. However, investor sentiment was increasingly affected by geopolitical tensions, including conflict in Europe and the Middle East, and the continuation of protectionist trade policies in the US that raised the prospect of disruption to the global economy.

Although economic growth in the US recovered from a disappointing start to 2025, with economic data for the third quarter of 2025 showing stronger growth than had been expected. In Japan, however, gross domestic product ("GDP") contracted in the third quarter of 2025, while growth in the UK and Eurozone economies slowed in the second half of the year.

Most emerging markets continued to grow, although geopolitical conflicts and US trade policy created economic challenges. China's GDP increased by 5% over the course of 2025 as a rise in exports offset a slowdown in domestic economic activity. Meanwhile, India's GDP rose strongly over the first nine months of 2025.

# iSHARES VII PLC

## INVESTMENT MANAGER'S REPORT (continued)

### Global economic overview (continued)

The US Federal Reserve ("the Fed") resumed its programme of interest rate cuts in the second half of 2025 as inflationary pressures eased and signs of weakness in the labour market emerged. The Bank of England ("BoE") continued to cut interest rates over the six months but officials at the European Central Bank ("ECB") left rates unchanged as inflation in the Eurozone remained near the official 2% target. The Bank of Japan ("BoJ") cut rates for the second time in December 2025 in response to elevated domestic inflation.

The performance of global equity markets was positive but somewhat volatile over the period. Following sharp declines in spring 2025 due to concerns that tariffs introduced by the US government could lead to higher inflation and lower growth, markets recovered on signs that the Trump administration was willing to enter into trade negotiations. Positive corporate performance, particularly among firms involved in artificial intelligence and cloud computing, continued to drive broad increases in share prices.

Equity markets in China continued to rise in the wake of new stimulus measures, and the Japanese market climbed as investors reacted positively to the appointment of a new prime minister. Performance among European stocks was largely positive as investors welcomed the news that European governments planned to significantly increase infrastructure and defence spending.

Globally, investments that factor in companies' environmental, social and governance ("ESG") characteristics faced regulatory concerns and shifting investor sentiment. ESG funds experienced significant outflows in the second half of 2025.

US government bond yields (which move inversely to bond prices) ended the six-month period lower following the Fed's rate cuts.

Yields on UK gilts rose at the start of 2025 due to concerns about higher levels of government borrowing but fell back on the hopes of further interest rate reductions. European government bond yields ticked higher on fears the ECB could raise rates in 2026, while Japanese government bond yields rose to record highs at the start of 2026 in response to December 2025 interest rate increase and the possibility of higher government spending. Global corporate bond performance was broadly positive, continued resilience in the global economy alleviated credit concerns.

In commodities markets, Brent crude oil prices declined over the period due to concerns about oversupply. Gold prices rose to record highs amid geopolitical tensions and signs that American trade and foreign policy could lead to prolonged turbulence in equity and bond markets. Having crashed at the start of the period on US tariff fears, copper prices recovered after reports indicated the metal would be exempt from import levies.

In foreign exchange markets, the US dollar weakened against other major global currencies. It fell against the euro, sterling and the Chinese yuan, but rose against the Japanese yen.

## NOTES TO THE FINANCIAL STATEMENTS

### 1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

### 2. Material accounting policies

#### 2.1 Basis of preparation

The financial statements of the Entity are prepared in accordance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the United Kingdom and Republic of Ireland. The principal accounting policies and estimation techniques are consistent with those applied to the previous annual financial statements. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

All amounts have been rounded to the nearest thousand, unless otherwise indicated. Amounts which are less than 500 in each Fund's base currency, have been rounded down to zero.

### 3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The risks are substantially consistent with those disclosed in the previous annual financial statements.

#### 3.1 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

### 4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the Entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 4. Fair value hierarchy (continued)

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a share/unit of participation in an investee CIS and investments in ETFs where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such share/unit of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a share/unit of participation. The unaudited NAV of the underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;
- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and/or defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference assets or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable.
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the condensed balance sheet date;
- (ix) for foreign currency options, option pricing models; and
- (x) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

# iSHARES VII PLC

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 5. Operating expenses

The Entity employs an “all in one” fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the CESR/10-674 Committee of European Securities Regulators (“CESR”) (European Securities and Markets Authority’s (“ESMA”) precursor) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at [www.ishares.com](http://www.ishares.com).

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund’s costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

### Management fees (inclusive of investment management fees)

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 January 2026:

Fund name <sup>1</sup>	Share class	TER (%) Currency hedged share classes	TER (%) Unhedged share classes

<sup>1</sup>Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

<sup>2</sup>This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 5. Operating expenses (continued)

#### **Management fees (inclusive of investment management fees) (continued)**

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 6. Distributions to redeemable shareholders

The Entity may declare and pay dividends on any distributing class of shares in the Entity. In accordance with the prospectus, any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Entity to investors and become the property of the relevant Fund.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 7. Taxation (continued)

#### Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

#### Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 104, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

The Organisation for Economic Co-operation and Development ("OECD") released Pillar Two Model Rules, which contemplate a global 15% minimum tax rate. The OECD continues to release additional guidance, including administrative guidance on interpretation and application of Pillar Two, and many countries are passing and updating legislation as well as local guidance to comply with Pillar Two.

Based on the available legislation and information, the Entity does not expect Pillar Two to have a material impact to its provision for income taxes for the six months ended 31 January 2026. However, the rules are subject to negotiation and change. The Entity will continue to evaluate the potential future impacts of Pillar Two and will continue to review and monitor the issuance of additional guidance.

### 8. Share capital

#### Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of EUR1.00 each and 1,000,000,000,000 participating shares of no par value.

#### Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager or nominees of the Manager at 31 January 2026 and 31 July 2025. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

#### Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

### 11. Related party transactions

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions.

The following entities were related parties to the Entity during the financial period ended 31 January 2026:

Board of Directors of the Entity	
Manager:	<i>BlackRock Asset Management Ireland Limited</i>
Investment Manager, Promoter and Securities Lending Agent:	<i>BlackRock Advisors (UK) Limited</i>
Sub-Investment Managers:	<i>BlackRock Financial Management, Inc.</i> <i>BlackRock (Singapore) Limited</i> <i>BlackRock Asset Management North Asia Limited</i> <i>BlackRock Asset Management Deutschland AG</i>
Representative in Switzerland:	<i>BlackRock Asset Management Schweiz AG</i>

The ultimate holding company of the Manager, Investment Manager, Promoter, Sub-Investment Managers, Securities Lending Agent and Representative in Switzerland is BlackRock, Inc., a company incorporated in Delaware USA.

The Investment Manager has sub-delegated certain portfolio management functions to the Sub-Investment Managers presented in table below:

Fund name	Sub-Investment Manager
iShares \$ Treasury Bond 1-3yr UCITS ETF USD (Acc) B	BlackRock Financial Management Inc. and BlackRock (Singapore) Limited

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Managers to be paid out of the Investment Manager's own fees.

Fees paid to the Manager and Investment Manager during the financial period, the nature of these transactions and balances outstanding at the financial period end are disclosed in note 5.

The Directors as at 31 January 2026 are presented in the table below:

Director	Employee of the BlackRock Group	Director of BlackRock affiliates and/or other funds managed by BlackRock
William McKechnie	No	Yes
Padraig Kenny	No	Yes
Ros O'Shea	No	Yes
Deirdre Somers	No	Yes
Manuela Sperandeo	Yes	Yes

The aggregate emolument of the Directors relates to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

#### Holdings in other funds managed by BlackRock/BlackRock affiliates

Investments in funds managed by BlackRock, Inc. and investments that are BlackRock affiliates are listed below and marked on the relevant Funds' schedules of investments. For underlying funds which are subject to investment management fees, these have been rebated back to the Fund.

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 11. Related party transactions (continued)

#### Holdings in other funds managed by BlackRock/BlackRock affiliates (continued)

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income on the income statement. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

Investments	Fee paid by Fund
<b>Investment Company – UCITS authorised in Ireland by CBI</b>	
<i>BlackRock ICS Euro Liquid Environmentally Aware Fund</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<i>BlackRock ICS Euro Liquidity Fund</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<i>BlackRock ICS Sterling Liquidity Fund</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<i>BlackRock ICS US Dollar Liquid Environmentally Aware Fund</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<i>BlackRock ICS US Dollar Liquidity Fund</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<b>Investment Company – UCITS authorised in Germany by Federal Agency for Financial Services Supervision (BaFin)</b>	
<i>iShares MSCI China A UCITS ETF</i>	<i>Annual expense capped at 0.03% of NAV<sup>1</sup></i>
<b>Blackrock Affiliates</b>	
<i>BlackRock, Inc</i>	<i>N/A</i>

<sup>1</sup>The Manager of these will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

The previous table details the maximum fee charges capped as per the prospectus of the underlying funds. The table below discloses the amount of the management fee rebate received during the period on the Funds in the Entity that have invested into funds which are also managed by the Manager or an affiliate of the Manager:

Fund name	Currency	Management fee rebate for the period ended 31 January 2026 '000	Management fee rebate for the period ended 31 January 2025 '000
iShares MSCI EM Asia UCITS ETF	USD	472	298

#### Significant investors

As at 31 January 2026 and 31 July 2025, each Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositories ("ICSDs") in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depository to the ICSDs and onwards to the participants of the ICSDs.

#### Other reimbursements

During the financial period, no Funds within the Entity received reimbursements from a BlackRock Group affiliated entity for penalties charged to the Funds by Central Securities Depositories for delays in security settlements.

No provisions have been recognised by the Funds against amounts due from related parties at the financial period end date (31 July 2025: Nil).

No amounts have been written off in the financial period in respect of amounts due to or from related parties (31 July 2025: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the financial period (31 July 2025: Nil).

# iSHARES VII PLC

## NOTES TO THE FINANCIAL STATEMENTS (continued)

### 12. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities as at 31 January 2026 and 31 July 2025.

### 13. Subsequent events

On 2 March 2026, an updated prospectus was issued for the Entity to facilitate the following changes:

Fund name	Previous Anticipated tracking error %	Updated Anticipated tracking error %
iShares Core EURO STOXX 50 UCITS ETF	0.35	0.30
iShares FTSE MIB UCITS ETF EUR (Acc)	0.30	0.45
iShares MSCI EMU Small Cap UCITS ETF	0.90	0.30

There have been no other events subsequent to the financial period end, which, in the opinion of the Directors, may have had an impact on the financial statements for the financial period ended 31 January 2026.

### 14. Approval date

The financial statements were approved by the Directors on 31 March 2026.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

## INFORMATION FOR INVESTORS IN FRANCE

The PEA (Plan d'Épargne en Actions) is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. Each PEA eligible Fund must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

As at 31 January 2026, each Fund below had the following percentage of its assets invested in eligible PEA securities:

Fund	% Invested in European PEA eligible shares
iShares Core EURO STOXX 50 UCITS ETF	98.99
iShares Core MSCI EMU UCITS ETF	94.25
iShares MSCI EMU Paris-Aligned Climate UCITS ETF	90.68

## TRANSACTIONS WITH CONNECTED PERSONS

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial period complied with this obligation.

## SOFT COMMISSIONS

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Funds during the financial period ended 31 January 2026.

## CROSS INVESTMENTS

As at 31 January 2026, there were no cross-umbrella investments held by any Fund within the Entity.

# iSHARES VII PLC

## EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS

### Efficient portfolio management techniques

The Entity may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Entity and the Entity (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the CBI.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund's schedule of investments.

### Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depository or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and NAV, as at 31 January 2026. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Fund	% of lendable assets	% of NAV
iShares \$ Treasury Bond 1-3yr UCITS ETF USD (Acc) B	68.37	65.48

Income earned during the period by the Funds from securities lending transactions is disclosed in the related parties section.

All revenue generated from securities lending activities during the financial period net of the Securities Lending Agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated the Securities Lending Agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the Securities Lending Agent, the Securities Lending Agent will discharge any excess amounts out of its own assets.

The following tables detail the value of securities on loan (individually identified in the relevant Fund's Schedule of Investments), analysed by counterparty as at 31 January 2026.

HSBC Bank Plc	United Kingdom	846	936
BNP Paribas SA	France	2	2
<b>Total</b>		<b>848</b>	<b>938</b>

All securities on loan have an open maturity tenor as they are callable or terminable daily.

### Total return swaps

All total return swaps are entered into by each Fund under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund and a counterparty that governs OTC FDIs (including total return swaps) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by a Fund under the ISDA Master Agreement, not just total return swaps.

All collateral received/posted by each Fund under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by iShares Global Clean Energy Transition UCITS ETF under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by each Fund in respect of variation margin is held in an account in the name of the Depository on behalf of each Fund. Collateral received is segregated from the assets belonging to the Fund's Depository. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 31 January 2026 and the income/returns earned for the period ended 31 January 2026. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

Fund Name		% of NAV	Total returns earned '000
iShares MSCI EMU Paris-Aligned Climate UCITS ETF	EUR	0.00	23

# iSHARES VII PLC

## EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (continued)

### Total return swaps (continued)

The total returns earned from total return swaps is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from total return swaps will accrue to each Fund's and are not subject to any returns or costs sharing arrangements with the Fund's Manager or any other third parties.

The following table details the underlying exposure value for total return swaps, analysed by counterparty as at 31 January 2026.

Counterparty	Counterparty's country of establishment	Underlying exposure
<b>iShares MSCI EMU Paris-Aligned Climate UCITS ETF</b>		<b>USD'000</b>
HSBC Bank Plc	United Kingdom	547
JP Morgan	United States	922
Merril Lynch International	United States	236
<b>Total</b>		<b>1,705</b>

The following table provides an analysis of the maturity tenor of total return swaps as at 31 January 2026.

	Currency	Maturity Tenor						Open	Total
		1 day	2 - 7	8 - 30	31 - 90	91 - 365	More than		
		USD'000	USD'000	USD'000	USD'000	USD'000	USD'000	USD'000	USD'000
iShares MSCI EMU Paris-Aligned Climate UCITS ETF	EUR	-	-	-	-	-	(88)	-	(88)

The above maturity tenor analysis has been based on the respective transaction contractual maturity date. Open transactions are those transactions that are callable or terminable daily.

### Analysis of collateral currency

The following table provides an analysis by currency of the cash and underlying non-cash collateral received by each Fund by way of title transfer collateral arrangement by the Funds, in respect of securities lending transactions, as at 31 January 2026.

## EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS (continued)

### Analysis of collateral type, quality and maturity tenor (continued)

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

### Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.

### Concentration of collateral received

The following table lists the ten largest issuers by value of non-cash collateral received by each Fund by way of title transfer collateral arrangement across securities lending transactions as at 31 January 2026.
