FUND OVERVIEW

The Fund seeks to track the performance of an index composed of Chinese large- and mid-cap equities.

KEY BENEFITS

1. Exposure to approximately 85% of the Chinese stock market
2. Direct investment into large- and mid-cap Chinese stocks
3. May be used as part of a broader equity portfolio to seek growth.

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Investments in onshore Chinese securities via Stock Connect or RQFII are subject to quotas. Should the Fund's demand exceed the quota, buy orders will be rejected. This may result in subscriptions being suspended and the Shares of the Fund trading at a significant premium or discount to Net Asset Value on any stock exchange on which they are admitted to trading.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
- The PRC/Ireland tax treaty provides for exemption from Chinese capital gains tax on sales of the Fund's investment in China A Shares. Although the Fund is expected to be exempt, there is a risk that the PRC tax authorities could consider the Fund not to be eligible for the PRC/Ireland tax treaty and seek to collect such tax on a retrospective basis, which would affect the value of the investment.
