### FUND OVERVIEW

The Fund seeks to track the performance of an index composed of US companies which manufacture and distribute medical devices such as magnetic resonance imaging (MRI) scanners, prosthetics, pacemakers, x-ray machines, and other non-disposable medical devices.

### KEY BENEFITS

1. Exposure to a broad range of US companies involved in the manufacturing and distribution of medical devices.
2. Targeted investment in US medical devices.
3. Use as a tactical investment to seek growth.

### RISK INDICATOR

#### Lower Risk

Potentially Lower Rewards

#### Higher Risk

Potentially Higher Rewards

**CAPITAL AT RISK:** The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

### KEY RISKS:

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
