Current Prospectus

The Company's Prospectus and the relevant KIID along with copies of the Application Form may be obtained from the Investor Service Centre, the Management Company or any of the Representatives or Distributors. Copies of the Company's Articles of Incorporation, the Annual report and audited financial statements and Interim report and unaudited financial statements may also be obtained free of charge from any of these offices and from the Paying Agents. All these documents are also available from www.blackrockinternational.com.

Representatives

The representative in Denmark is BlackRock Copenhagen Branch, subsidiary of BlackRock Investment Management (UK) Limited, United Kingdom, Harbour House, Sundkrogsgade 21, Copenhagen, DK 2100, Denmark.

The representative in Israel is Altshuler Shaham Group, 19A Habarzel St, Ramat Hahayal, Tel Aviv, Israel.

The representative in Poland is Dubinski Fabrycki Jelenski, ul. Zielna 37, 00-108 Warsaw, Poland.

The representative in Switzerland is BlackRock Asset Management Switzerland Limited, Bahnhofstrasse 39, 8001 Zurich, Switzerland.

Portfolio of Investments

Equities are primarily classified by the country of incorporation of the entity in which the Funds (each a "Fund", together the "Funds") holds shares.

Corporate and government fixed and variable income securities are primarily classified by the country of incorporation of the issuer.

Liquidity instruments are primarily classified by the country of incorporation of the issuer.

Collective Investment Schemes ("CIS") and Exchange Traded Funds ("ETF") are primarily classified by the country of domicile of the CIS or ETF.

Purchases and Sales

A detailed list of investments purchased and sold for any Fund during the year is available upon request, free of charge, from the Registered Office, or the offices of the Representatives as mentioned above.

Authorised Status

The Company is an undertaking for collective investment in transferable securities ("UCITS") under the Part I of the Luxembourg Law of 17 December 2010 relating to undertakings for collective investment in transferable securities, as amended ("the 2010 Law"). Regulatory consents have been obtained or appropriate notifications have been made for the distribution of shares of the Company's Funds in the following countries: Austria, Belgium, Chile, China, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Singapore, Slovakia Republic, South Korea, Spain, Sweden, Switzerland, United Arab Emirates and the United Kingdom.

Shares of certain of the Company's Funds may also be offered in Singapore by private placement.

The Company is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 626.

Chairwoman's Letter to Shareholders

November 2021

Dear Shareholder,

I am writing to update you on the activities of BlackRock Strategic Funds (the "Company" or "BSF") over the six months to 30 November 2021. The Company offered shares in 32 Funds (each a "Fund" and together the "Funds") at 30 November 2021.

The infectious respiratory illness caused by a novel coronavirus known as COVID-19 has given rise to an extended global pandemic, and its impact continued to be felt during the period under review. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. While developments are being made with a view to ameliorating the effects of the pandemic, including the adoption in many countries of widescale vaccination programmes, the impact of COVID-19 continues to adversely affect the economies of many nations across the entire global economy, individual issuers and capital markets. It is not yet possible to predict with any accuracy how long this impact will continue to be felt. In addition, the effect of infectious illnesses in emerging market countries may be greater in impact, and more prolonged in duration, due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

COVID-19 continues to dominate headlines. The emergence of the Delta variant slowed economic recovery, particularly in Asia, with many countries forced to take further preventative measures. However, the vaccine rollout continued at pace and by the start of December, over 8 billion doses had been administered globally and over half of the world's population had received at least one dose.

However, emerging markets continued to lag developed markets. This left the world vulnerable to new variants, as shown by the emergence of the COVID-19 Omicron variant from South Africa in November. It was a reminder that the pandemic is far from over, even if the world is building better defenses.

For most of the six month period, the global economy was in recovery mode, albeit at a slower pace than in the early part of the year. The International Monetary Fund ("IMF") now forecasts gross domestic product ("GDP") growth of 5.9% for 2021, marginally lower than its April forecast. The US is likely to expand at a brisk 6% pace and the Eurozone at 5%. The surprising weak spot has been Asia. China's economy has been slowing as it attempts to tackle its debt problem and improve the quality of its growth.

Strong economic growth has brought inflation. The US Consumer Price Index has been consistently above 5% since May 2021. It is a similar picture across many of the world's major economies. In Brazil, for example, inflation topped 10% in September. The inflation shock has been felt in bond markets, which have started to price in higher interest rates.

The Federal Reserve ("Fed") has dropped its use of 'transitory' when describing the trajectory of inflation from here. However, the consensus is that inflation will moderate by the second half of 2022 as the immediate economic bounce-back fades. In the meantime, businesses are increasingly reporting supply bottlenecks, rising prices for commodities and labour shortages.

The surge in inflation has prompted central banks to reconsider their current view on interest rates. The Fed has accelerated the withdrawal of its bond buying programme and now forecasts three interest rate rises in 2022. However, fiscal policy remains in place with much of the EU and US stimulus still unspent. The US infrastructure bill, for example, has now passed Congress, and should add to economic growth in the year ahead.

Markets continued to make progress over this period, though with greater volatility and periods of retrenchment. Investors moved away from a narrow focus on value versus growth and appeared to look instead to the fundamentals of individual companies. While the US market and technology continued to perform well, other areas, such as healthcare, also rose.

Government bond yields (which move inversely to prices) ended the six month period approximately where they started it. The 10 year Treasury yield shifted from around 1.5% in August to as high as 1.7% in October and back to its current level of 1.5% by the end of November. Higher quality corporate bonds have generally performed well, while it has been a tougher time for lower-rated high yield bonds.

The performance of the Funds is covered in more detail in the Investment Advisers' Report, which also sets out some views regarding the investment outlook. Overall, the Company's assets under management ("AUM") fell 4.2% from USD 27,314 million to USD 26,175 million, with particular weakness in emerging markets, Asia Pacific and some fixed income funds.

The strongest percentage growth was seen in the BlackRock Global Real Asset Securities Fund, whose AUM climbed 55.1% to USD 489 million. The BlackRock European Unconstrained Equity Fund was also strong, rising 41.6% to EUR 66.3 million. A number of the absolute return funds also saw good growth.

Chairwoman's Letter to Shareholders

November 2021 continued

The weak spots included the BlackRock Emerging Markets Equity Strategies Fund, which lost 51.9% of its assets, with AUM falling to USD 435.4 million. A number of the fixed income funds were also weak: the BlackRock Fixed Income Strategies Fund, for example, dropped 11.8% to an AUM of EUR 5,009.4 million. The BlackRock Style Advantage Screened Fund fell 11.3% to USD 24.0 million AUM.

Regulatory change continued throughout Europe which could have implications for investors. Key developments during the period included:

- ▶ The European Supervisory Authorities ("ESAs") submitted draft Regulatory Technical Standards to the European Commission on the content of PRIIPs Key Information Documents ("KIDs"), with a particular focus on performance scenarios and costs. The Company will benefit from the transitional period available for a UCITS fund until 1 July 2022.
- ▶ The European Union's Sustainable Finance Disclosure Regulation ("SFDR") came into effect in March 2021. It imposes new transparency and reporting obligations on investment management firms, both at a firm-wide level and at a product level. Certain parts of the framework are still under consultation and are likely to be finalised later this year. At the same time, the EU is working on an EU-wide classification system or 'framework'. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. There are also moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") currently in discussions. The Luxembourg government recently took further steps to encourage investment in environmentally sustainable funds, reducing the 'taxe d'abonnement' (subscription tax) for funds that meet certain environmental criteria.

Should you have any questions on any of this letter, please contact us via our website: www.blackrockinternational.com or via email: investor.services@blackrock.com

Yours faithfully,

Denise Voss
Chairwoman
January 2022

Investment Advisers' Report Performance Overview

1 June 2021 to 30 November 2021

Market Review

After a strong start to the year, the second half of 2021 was characterised by slower growth and greater dispersion in the types of companies and regions that did well. In 2020, investors were focused on high growth companies, often in the technology area; in early 2021, that focus switched to economically-sensitive areas such as mining and energy; but by the latter part of the year, investors had become more nuanced, looking for companies that were growing earnings and were reasonably priced.

Markets were still sensitive to potential changes in monetary policy. Markets saw a short sell-off when it became clear that the Federal Reserve (the "Fed") would be true to its word and start to withdraw quantitative easing (when central banks buy bonds to lower interest rates on savings and loans) in November. However, they had started to recover again by the end of the period under review.

There were some notable regional differences over the six months. In developed markets, the US continued its strength, led by the technology companies. While valuations looked expensive, the technology groups continued to deliver robust earnings and garner investor support. Japan staged a recovery as new Prime Minister, Fumio Kishida, ushered in a more stable political environment.

In emerging markets, the regional differences were even more stark. Latin America and China were both weak. Chinese equities were hit by growing intervention from the government, which raised fears on the growth outlook for certain sectors. Latin American equities sold off as central banks across the region were forced to raise rates to curb inflation.

Inflation pushed certain sectors higher. Index-linked government bonds performed well over the period, as inflation outpaced expectations. Commodity and natural resources, which have historically provided some protection against inflation, were another area of strength. Healthcare and infrastructure were also strong.

Environmental, Social and Governance ("ESG") analysis continued to be an important consideration for many investors. ESG-aware funds continue to see significant inflow. While many 'green' companies were beneficiaries of the drive from governments to 'build back better', which supported share prices, it was also a stronger period for conventional energy – such as oil and gas.

It was a better period for income seekers. Having been hit hard in 2020, particularly in the US and UK, dividends returned rapidly as companies grew in confidence. The restrictions on bank dividends were lifted and the mining sector raised payouts on the back of higher commodity prices.

Government bond yields, which move inversely to prices, were largely flat over the period, starting and ending at around 1.5%, albeit with some volatility in between. Expectations for an interest rate rise from the Fed rose towards the end of 2021, with the consensus now predicting three interest rate rises in the year ahead.

Fund Performance

Equity Fund Performance

A table setting out the performance returns for the primary share class for each Fund versus any applicable benchmark may be found on page 9 and 10. A brief summary of fund performance follows.

The BlackRock European Absolute Return Strategies Fund rose 9.0% – outperforming its benchmark, the 3 month LIBOR Index (EUR), which fell 0.3%. BlackRock UK Equity Absolute Return Fund rose 0.9% against a flat benchmark (the 3 month LIBOR Index (GBP)). BlackRock Asia Pacific Diversified Equity Absolute Return Fund fell 4.3% over the period, behind its benchmark, which was flat.

The BlackRock Emerging Markets Absolute Return Fund fell 2.8% over the period, behind its benchmark, the 3 Month LIBOR Index (USD), which was flat. BlackRock Americas Diversified Equity Absolute Return Fund rose 3.7%, ahead of the 3 Month LIBOR Index (USD), which was flat.

The BlackRock Emerging Markets Equity Strategies Fund dropped 13.8%, behind its benchmark, the MSCI Emerging Markets Index, which fell 10.8%. The BlackRock Systematic Global Long/Short Equity Fund fell 3.5%, behind its benchmark, the BofA Merrill Lynch 3 Month US Treasury Bill, which was flat.

BlackRock European Opportunities Extension Fund rose 19.9% significantly outperforming its benchmark, the S&P Europe BMI Index (Developed Markets Only), which rose 4.3%. The BlackRock European Select Strategies Fund rose 1.2%, just behind of its benchmark, which rose 1.8%. BlackRock Global Event Driven Fund dropped 2.1%, compared to flat performance from the benchmark, the BofA Merrill Lynch 3 Month US Treasury Bill.

BlackRock Systematic ESG World Equity Fund rose 6.2%, ahead of its benchmark, which rose 4.9%. BlackRock Style Advantage Fund rose 4.4%, against a flat benchmark return. BlackRock Systematic Global Equity Fund rose 2.9%, in line with its benchmark. The Global Real Assets Securities fund rose 1.3%, against a fall in its benchmark of 1.5%.

Bond Fund Performance

BlackRock Emerging Markets Flexi Dynamic Bond Fund, which does not measure its performance relative to a benchmark, dropped by 8.3% over the period. BlackRock Fixed Income Strategies Fund dropped 2.5% over the period, behind its

Investment Advisers' Report Performance Overview

1 June 2021 to 30 November 2021 continued

benchmark, the Euro Overnight Index Average, which fell by 0.2%. BlackRock Global Absolute Return Bond Fund dropped 3.7%, behind its benchmark, the 3 Month Euribor Index, which was down 0.3%.

BlackRock ESG Euro Bond Fund rose 0.3%, behind its benchmark, which rose 1.1%. The ESG Euro Corporate Bond Fund fell 0.6%, behind its benchmark, the Bloomberg Barclays MSCI Euro Corporate Sustainable SRI Index, which fell 0.1%.

Mixed Asset Fund Performance

BlackRock Dynamic Diversified Growth Fund rose 0.6% over the six month period, outperforming its benchmark, the Euro Overnight Index Average, which fell by 0.2%. The BlackRock Managed Index Portfolio – Conservative – was up 3.5%. The Defensive, Growth and Moderate portfolios rose 2.6%, 8.0% and 5.4% respectively. None of the Managed Index Portfolio funds have a benchmark.

Outlook

2021 has been characterised by economic recovery. Fiscal stimulus, low interest rates and quantitative easing have provided support through the COVID-19 pandemic. Gradually, that support is being withdrawn, and it is not yet clear the impact this will have on growth rates. There are already signs that growth is normalising.

The recovery has not been straightforward. There have been significant supply chain problems, with parts and labour shortages creating real challenges for companies. This has also contributed to growing inflationary pressures. The US Consumer Price Index has now been above 5% since May, and prices are also rising in the UK, Europe and other major economies across the world.

The Fed has revised its early verdict that inflation would be transitory and now believes it could persist well into 2022. The US central bank started withdrawing its bond purchases in late

2021, even though an interest rate rise is not scheduled until 2022. Some central banks have already raised rates, while others plan to reverse direction on monetary policy in the year ahead.

If rate rises remain moderate and well-flagged, it may not disrupt stock markets significantly. However, if rising inflation necessitates faster rate rises, it may prompt significant volatility in the year ahead. This is likely to be a major preoccupation for investment managers over the next year.

It is clear that the world emerging from the COVID-19 pandemic is not the same. It has accelerated profound shifts in how economies and societies operate, from digitisation, to sustainability to geopolitics. The repercussions from COVID-19 are likely to be felt for years to come. Perhaps the most pressing shift has been the increased focus on climate change and sustainability risks. There are now net zero commitments in place from most of the world's major economies. COP-26, the climate change meeting in Glasgow bringing together world leaders, brought further commitments on methane, coal and biodiversity. It has also become a significant priority for the corporate sector with over 1,100 companies considering or already implementing net zero commitments. Climate considerations are now an important part of capital market assumptions for investors.

There are considerable challenges in the year ahead and valuations leave little margin for error. However, for the time being economic growth remains strong and corporate earnings are robust. There are still plenty of pockets of value in global equity and bond markets.

January 2022

Investment Advisers' Report Performance Overview

1 June 2021 to 30 November 2021 continued

Disclosed in the table below are the performance returns for the primary share class for each Fund, which has been selected as a representative share class. In accordance with the respective investment objective detailed in the prospectus, the Funds do not aim to track the performance of a specific benchmark index. The benchmark index returns included in the below table are provided for reference only for the purpose of this Interim report and unaudited financial statements. The primary share class for the BlackRock Asia Pacific Absolute Return Fund, BlackRock Emerging Markets Absolute Return Fund and BlackRock Emerging Companies Absolute Return Fund is the D class non-distributing share, for the BlackRock European Credit Strategies Fund is the H class non-distributing share, for the BlackRock Managed Index Portfolios – Defensive, BlackRock Managed Index Portfolios – Growth and BlackRock Managed Index Portfolios – Moderate is the D class distributing share. For all other Funds the primary share class is the A class non-distributing share. Performance returns for any other share class can be made available on request.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The Funds invest a large portion of assets which are denominated in multiple currencies; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions can only be made on the basis of the current Prospectus, the KIID, supplemented by the most recent Annual report and audited financial statements and Interim report and unaudited financial statements, if published after such Annual report and audited financial statements. Copies are available from the Local Investor Servicing team (Local BlackRock Group companies or branches of their administrators), the Transfer Agent, the Management Company or any of the Representatives or Distributors and at the registered office of the Company. BSF is only available for investment by non-US citizens who are not residents of the US. The Funds are not offered for sale or sold in the US, its territories or possessions.

Notes to the Financial Statements

1. Organisation

BlackRock Strategic Funds (the “Company”) is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d’investissement à capital variable*). The Company has been authorised by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as a UCITS pursuant to the provisions of Part I of the 2010 Law and is regulated pursuant to such law.

The Company has appointed BlackRock (Luxembourg) S.A. as its Management Company.

As at 30 November 2021, the Company offered shares in 32 Funds (each a “Fund”, together the “Funds”). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company’s Prospectus.

Share Classes Launched

Share Classes launched during the period are disclosed in Appendix I.

Significant events during the period

- ▶ Effective 24 August 2021, BlackRock Total Advantage Fund, denominated in EUR was terminated.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

(a) Valuation of Investments, Other Assets and Other Liabilities

The Company’s investments, other assets and other liabilities are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market, the Board may in its

discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;

- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board on the basis of their expected disposal or acquisition price;
- ▶ if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or other asset will be such as the Board in their absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in an adjustment to the value of these securities to their fair value by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges;
- ▶ as at 30 November 2021, the adjusted fair value applied to certain securities and/or derivatives are disclosed in the table below:

Fund	Currency	Fair value	% of Net Assets
BlackRock Americas Diversified Equity Absolute Return Fund	USD	(1,576,159)	(0.19)
BlackRock Asia Pacific Absolute Return Fund	USD	142,641	0.39
BlackRock Asia Pacific Diversified Equity Absolute Return Fund	USD	168,987	0.50
BlackRock European Absolute Return Fund	EUR	11,615	0.00
BlackRock Global Event Driven Fund	USD	5,916,242	0.09
BlackRock Style Advantage Screened Fund	USD	0	0.00
BlackRock Systematic Global Long/Short Equity Fund	USD	0	0.00

Notes to the Financial Statements continued

Fund	Currency	Fair value	% of Net Assets
BlackRock UK Equity Absolute Return Fund	GBP	(16,894)	(0.01)

- ▶ for certain Funds which have terminated operations and held illiquid securities at the termination dates, the market value of the illiquid securities were provided for against the net asset value of each respective Fund. This effectively wrote down the value of the securities to zero, and recognised the loss in the Statement of Operations and Changes in Net Assets within "Net realised gain/(loss) on investments" during the financial year in which the termination occurred. As at 30 November 2021, BlackRock Latin American Opportunities Fund (terminated on 8 March 2019), BlackRock Multi-Manager Alternative Strategies Fund (terminated on 13 May 2019) and BlackRock Asia Extension Fund (terminated on 17 June 2020) held open illiquid positions, which together accounted for less than 1.00% of the net asset value of the Funds as at the last Valuation Point prior to each Fund's date of termination. If the illiquid securities are subsequently disposed of, or a value is realised, this will be distributed to the shareholders of the respective Funds proportionate to each shareholder's holding in the Fund as at the date of termination;
- ▶ investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;
- ▶ certain Funds may decide to issue Share Classes which have different valuation points, termed "Snap" and "Close". The "Snap" valuation point takes a value at a time other than at market close, and the "Close" valuation point takes the value based on market closing prices. Consequently, the net asset values and performance per Share of such Share Classes are expected to differ from each other as a result of the application of different valuation points. During the period ended 30 November 2021, X Class non-distributing AUD hedged of BlackRock Style Advantage Fund adopted a dual valuation point. This has resulted in a variation between this Fund's NAVs as calculated under Snap and Close valuation points. The NAV of this Fund presented in the Statement of Net Assets is calculated using the Snap valuation point. As at 30 November 2021, the percentage variation between the Fund's Snap and Close NAVs is 1.39%. As at 30 November 2021, the NAV and NAV per share of X Class non-distributing AUD hedged at the Snap valuation point is AUD 60,686,745 and AUD 89.03. As at 30 November 2021, the NAV and NAV per share of X Class non-distributing AUD hedged at the Close valuation point is AUD 64,149,495 and AUD 94.11;
- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;
- ▶ liquid assets such as time deposits and money market instruments are valued at amortised cost which approximates their fair value;
- ▶ cash at bank and other assets are valued at their nominal amount;

▶ assets which include, in particular, cash owned to bank, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;

▶ liabilities which include, in particular, interest and dividends payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed are valued at their nominal value.

▶ The financial statements have been prepared on a going concern basis of accounting, except for BlackRock Total Advantage Fund, which was put into liquidation on 24 August 2021. The application of the non-going concern basis of accounting has not led to material adjustments to the Portfolio's published NAV.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments, Cash Accounts and financial derivatives instruments

The Company takes credit for income from its investments on the following basis:

- ▶ interest income/expense is accrued daily and includes the amortisation on a straight line basis of premiums and accretion on a straight line basis of discounts;
- ▶ bank interest, fixed deposit and money market deposit interest income are recognised on an accrual basis;
- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- ▶ securities lending income is recognised on an accrual basis;
- ▶ negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;
- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;
- ▶ the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the period end and is for information only as these are bonds with a variable interest rate.

(d) Financial Derivative Instruments

During the period, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from these and unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the

Notes to the Financial Statements continued

net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

The Funds can write covered call and put options or swaptions and purchase call and put options or swaptions. When the Funds write and/or purchase an option or a swaption, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option or swaption and the asset for a purchased option or swaption is subsequently marked to market to reflect the current value of the option or the swaption. When a security is sold or bought through an exercise of an option or a swaption, the premium received (or paid) is deducted from (or added to) the basis of the security sold or bought. When an option or a swaption expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option or the swaption to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transactions exceeds premium paid or received). For futures-style options, the Funds do not prepay the premium. The Funds post margin as in a futures contract, and the option premium is marked to market daily. The purchased options/swaptions at market value and written options/swaptions at market value are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on expiration or closing transactions of options or swaptions are presented in the Statement of Operations and Changes in Net Assets.

During the period, the Funds have entered into Contracts for difference ("CFDs"). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more than the amount they paid on margin.

CFDs positions are entered into subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related interest income or expense is accrued daily and disclosed as Contracts for difference interest in a net position in the Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

CFDs positions are subject to dividend receipts or payments in such cases where a position is held on the day a dividend has been declared. The related dividend income or expense is accrued on the ex-dividend date and disclosed net of withholding tax as Contracts for difference dividends, net of withholding taxes in the Statement of Operations and Changes in Net Assets. Dividend income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

The fair market value of the CFDs is determined by the traded price on the exchange on which the underlying securities or other assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

The net unrealised appreciation and net unrealised depreciation on Contracts for difference is included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The change in market value, if any, is recorded as net change in unrealised appreciation or depreciation in the Statement of Operations and Changes in Net Assets. Net realised gains or losses on reset or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of CFDs have been determined on the basis of the First In First Out ("FIFO") cost method.

The Funds had unsettled CFD transactions as of 30 November 2021, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. CFDs are separately disclosed in the Portfolio of Investments.

The Funds may enter into Swap transactions ("swaps"), in which the Funds and a counterparty agree to make periodic net payments on a specified notional amount. Swap transactions are privately negotiated in the OTC market and may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps"). These periodic payments received or made are recorded in the Statement of Operations and Changes in Net Assets as net realised gains or losses, respectively. Swaps are valued utilising quotes received daily by the Funds' pricing service, central clearing houses or brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a clearing counterparty and the Fund faces the clearing counterparty through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or certain eligible securities in an amount that varies depending on the size and risk profile of the particular swap. Any upfront payments made or received upon entering a swap contract are treated as part of the swap's net realised gain or loss. The daily change in valuation of centrally cleared swaps is recorded as a receivable or payable for variation margin in "Cash at bank" or "Cash owed to bank" position of the Statement of Net Assets until the centrally cleared swap is terminated at which time a net realised gain or loss is recorded. The net change in unrealised appreciation or depreciation and the net realised gains or losses on Swap transactions are disclosed in Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable on swaps is accrued on a daily basis and disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets. The Funds had unsettled swap transactions as of 30 November 2021, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. Swaps are separately disclosed in the Portfolio of Investments.

Net realised gains and losses on sales of swaps have been determined on the basis of the First In First Out ("FIFO") cost method.

Funds may purchase "To Be Announced" securities contracts ("TBAs"). This refers to the common trading practice in the mortgage-backed securities market whereby a contract is

Notes to the Financial Statements continued

purchased which entitles the buyer to a security from a mortgage pool for a fixed price at a future date. At the time of purchase the exact security is not known, but its main characteristics are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. As a TBA is not settled at the time of purchase, this may lead to leveraged positions within a Fund. Purchasing a TBA involves a risk of loss if the value of the security to be purchased declines prior to the settlement date. Risks may also arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts. TBAs are separately disclosed at the end of the Portfolio of Investments.

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBA transactions as of 30 November 2021, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of TBA have been determined on the basis of the First In First Out ("FIFO") cost method.

Special Purpose Acquisition Companies (SPACs) are companies with no commercial operations which go public with the intention of merging with or acquiring a company using the proceeds of the SPAC's initial public offering. The Fund may enter into a commitment with a SPAC for a private investment in a public equity ("PIPE") transaction and will satisfy the commitment if and when the SPAC completes its merger or acquisition. Securities purchased through PIPE transactions will be restricted from trading and considered illiquid until a registration statement for the shares is filed and declared effective.

Unfunded SPAC PIPE commitments are marked-to-market and any gains/ losses arising from these commitments are taken to "Unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Net Assets and within "Net change in unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Operations and Changes in Net Assets.

(e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Fund has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Fund have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 30 November 2021. The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Fund are presented in the Statement of Operations and Changes in Net Assets.

Income and expenses in currencies other than the currency of denomination of the respective Fund have been translated at the rates of exchange prevailing on transaction date.

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies for all Funds other than the base currency of the Fund at the respective Fund valuation point at 30 November 2021:

(f) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency. The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the exchange rate prevailing at the Funds' valuation point in Luxembourg as at 30 November 2021 for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund is:

EUR	
USD	0.8788

For the BlackRock Dynamic Diversified Growth Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 30 November 2021 is:

EUR	
USD	0.8884

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 30 November 2021 is:

GBP	
USD	0.7485

For the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the period for all Funds expressed in Euros excluding BlackRock Dynamic Diversified Growth Fund:

EUR	
USD	0.8517

For the BlackRock Dynamic Diversified Growth Fund, the following exchange rate is the average rate calculated over the period:

EUR	
USD	0.8519

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the following exchange rate is the average rate calculated over the period:

GBP	
USD	0.7269

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (1,133,297,851) represents the movement in exchange rates between 1 June 2021 and 30 November 2021. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting period.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

(h) Dilution

The Directors may adjust the NAV per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund deviates from the carrying value of these assets in the Fund's valuation, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Share Classes of that Fund results in a net increase or decrease which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of that NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be

Notes to the Financial Statements continued

different for net inflows than for net outflows. In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment. In accordance with the Prospectus, such dilution adjustment was applied as at 30 November 2021 to BlackRock Emerging Companies Absolute Return Fund and BlackRock Emerging Markets Short Duration Bond Fund.

During the financial period from 1 June 2021 to 30 November 2021 dilution adjustments were applied to all Funds except BlackRock Asia Pacific Absolute Return Fund, BlackRock Macro Opportunities Fund, BlackRock Managed Index Portfolios – Growth and BlackRock Total Advantage Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in Depositary fees in the Statement of Operations and Changes in Net Assets of the Fund. Refer to Note 6 for further information.

(j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

3. Management Company

BlackRock (Luxembourg) S.A. (the “Management Company”) has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company’s investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

The Management Company is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management and Distribution Fees

During the period, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix F of the Prospectus. The level of management fee varies from 0.37% to 1.80% of the NAV, with the exception of Class X shares, which do not pay a management fee but rather a fee to the Investment Advisers or affiliates under an agreement. The level of management fee varies according to which Fund and Share Class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund and are paid monthly. Certain costs and fees are paid out of the management fees, including the fees of the Investment Advisers.

Where a Fund invests a substantial proportion of its net assets in other UCITS and other Undertakings for Collective Investment (“UCIs”), the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 3.75% of the NAV of the Fund.

During the period, the following Funds were subject to management fee rebate linked to investments into target funds managed by BlackRock disclosed in the Statement of Operations and Changes in Net Assets under the caption “Management fee rebate”:

BlackRock Dynamic Diversified Growth Fund, BlackRock Emerging Markets Flexi Dynamic Bond Fund, BlackRock European Select Strategies Fund, BlackRock Fixed Income Credit Strategies Fund, BlackRock Fixed Income Strategies Fund, BlackRock Global Absolute Return Bond Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index Portfolios – Defensive, BlackRock Managed Index Portfolios – Growth and BlackRock Managed Index Portfolios – Moderate.

During the period, all Funds disclosed below were subject to fee reimbursement from the Management Company, as disclosed in the Statement of Operations and Changes in Net Assets under the caption “Reimbursement of expenses”:

BlackRock Asia Pacific Diversified Equity Absolute Return Fund, BlackRock Emerging Markets Absolute Return Fund, BlackRock Emerging Markets Equity Strategies Fund, BlackRock ESG Euro Corporate Bond Fund, BlackRock ESG Euro Short Duration Bond Fund, BlackRock Fixed Income Credit Strategies Fund, BlackRock Global Absolute Return Bond Fund, BlackRock Global Equity Absolute Return Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index Portfolios – Defensive, BlackRock Managed Index Portfolios – Growth, BlackRock Style Advantage Screened Fund and BlackRock Systematic Global Long/Short Equity Fund.

During the period, the Company paid distribution fees to BlackRock Investment Management (UK) Limited who acted as Principal Distributor.

Notes to the Financial Statements continued

The Company pays annual distribution fees between 1.25% and 1.00% of the NAV for Class C Shares and 0.50% of the NAV for Class E Shares. These fees accrue daily, are based on the NAV of the relevant Fund reflecting, when applicable, any adjustment to the NAV of the relevant Fund, and are paid monthly.

The management and distribution fees per Share Class per Fund are disclosed in detail in the Prospectus of the Company and the relevant KIID. Management and distribution fees payable at 30 November 2021 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

5. Annual Service Charge

The Company pays an Annual Service Charge to the Management Company.

The level of Annual Service Charge may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Board and the Management Company that the Annual Service Charge currently paid shall not exceed 0.30% per annum. It is accrued daily, based on the NAV of the relevant Share Class and paid monthly.

The Board and the Management Company set the level of the Annual Service Charge at a rate which aims to ensure that the total expense ratio of each Fund remains competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The Annual Service Charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the depositary fees, distribution fees, securities lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any professional services costs relating to withholding tax reclaims (plus any taxes or interest thereon), and any taxes at an investment or Company level. Any commitment fees arising from borrowings or professional services costs relating to withholding tax reclaims will be allocated between the relevant Funds on a fair and equitable basis.

These operating and administrative costs and expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees, travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Funds' total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the Annual Service Charge paid to it which is in

excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any year which exceed the amount of Annual Service Charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Annual Service Charge payable at 30 November 2021 is included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group received a fee of EUR 33,500 per annum gross of taxation in return for their duties performed during the period ended 30 November 2021. Directors who are employees of the BlackRock Group are not entitled to receive a Directors fee.

6. Depositary Fees

The Depositary receives a fee in respect of each Fund. These fees are to remunerate the Depositary for safekeeping and transaction costs applicable to each Fund.

Safekeeping fees vary based on the value of assets under management and the country in which the assets are held. Transaction fees vary based on the type of transaction and the country in which the transaction occurs.

Trading volumes and asset allocations for each Fund vary according to the investment strategy of each Fund. The combined Depositary fee to each Fund depends on its asset allocations and trading activity at any time.

Depositary fees payable at 30 November 2021 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

7. Performance Fees

A performance fee may be payable out of each Share Class of each Fund with the exception of Class X shares which do not pay a performance fee, in addition to other fees and expenses mentioned in the Prospectus. The performance fee accrues on each Valuation Day and is equal to 8%, 20% or 30% (as applicable to the relevant Fund, as stated in Appendix E of the Prospectus) of the amount by which the NAV per share return exceeds the appropriate benchmark return described in further detail in Appendix E of the Prospectus. Two methods of calculation are used and are referred to as Type A and Type B – the method applicable to each Fund is indicated in Appendix E of the Prospectus. Further details may be obtained from the Local Investor Servicing team and the registered office of the Company.

Crystallisation of the performance fee occurs on the last day of each Performance Period or where a shareholder redeems or converts all or part of his shares before the end of a Performance Period.

Performance fees payable at 30 November 2021 are included in the Statement of Operations and Changes in Net Assets under the caption "Performance fees".

During the financial period ended 30 November 2021, performance fees charged to the BlackRock Emerging Companies Absolute Return Fund, for the newly launched share class D2 (AUD), amounted to 5.67% (annualised) and actual performance fee of 0.23%.

Notes to the Financial Statements continued

8. Taxes

Luxembourg subscription tax, Belgian tax, realised and unrealised Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the period ended 30 Nov 2021, USD 8,457,384 was charged in relation to Taxes.

Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. However, it is subject to an annual subscription tax ("*taxe d'abonnement*") calculated at an annual rate of 0.05% of the NAV of each Fund at the end of each quarter, and in the case of all Class I, Class I A, Class J, Class T and Class X Shares, of 0.01% of the NAV of each Fund at the end of each quarter. For the period ended 30 November 2021, USD 3,900,558 was charged in relation to Luxembourg subscription tax.

Belgium

The Company is registered with the financial services and markets authorities in Belgium in accordance with Article 154 of the amended Law of 3 August 2012 relating to financial transactions and the financial markets.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at: <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Dividends, net of withholding taxes".

Dividends received by the Company on CFDs may be subject to withholding tax: in particular, withholding tax for CFDs on US equity instruments is regulated pursuant to Section 871(m) of the Internal Revenue Code ("IRC"). Such withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Contracts for difference dividends, net of withholding taxes".

9. Investment Advisers and Sub-Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated the management and provision of investment advice to the Investment Advisers: BlackRock Financial Management, Inc. (BFM Inc.), BlackRock Institutional Trust Company N.A. (BTC), BlackRock Investment Management LLC (BIMLLC), BlackRock Investment Management (UK) Limited (BIM UK) and BlackRock (Singapore) Limited (BLKSin) as described in the Prospectus.

The Investment Advisers provide advice and management in the areas of stock and sector selection and strategic allocation. BIM UK has sub-delegated some of its functions to BlackRock Japan Co., Ltd. (BLKJap), BlackRock Investment Management (Australia) Limited (BIMAL) and BlackRock Asset Management North Asia Limited (BAMNA). Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

⁽¹⁾ Fund terminated, see Note 1 for further details.

10. Transactions with related parties

The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA.

During the period, there have been no significant transactions which were outside the ordinary course of business or which were not on normal commercial terms. There were no transactions of the Company effected through BlackRock companies.

The Company has appointed BlackRock Advisors (UK) Limited (the “Securities Lending Agent”), a related party to the Company, as securities lending agent. The Securities Lending Agent bears all operational costs directly related to securities lending transactions. The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds within the Company’s umbrella structure. The combined Statement of Net Asset and the Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments. The commissions on subscriptions and redemptions, as well as management fees, were not applied to the assets of the fund that has cross-invested into other funds.

The table below provides the value of those cross-investments in the relevant Fund’s Portfolio of Investments as at 30 November 2021:

Fund	Cross Investment Fund	Currency	Market Value	% of Net Asset
BlackRock Dynamic Diversified Growth Fund	BlackRock Strategic Funds - BlackRock Systematic ESG World Equity Fund X2 (GBP)	EUR	57,699,302	4.73

11. Dividends

For the Non-Distributing Share Classes, the Directors’ current policy is to retain and reinvest all net income.

For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the year after deduction of expenses (or gross income in the case of Distributing (G) Shares). The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

The Company may operate income equalisation arrangements with a view to ensuring that the level of net income accrued within a Fund (or gross income in the case of Distributing (G) Shares) and attributable to each Share is not affected by the issue, conversion or redemption of those Shares during an accounting period.

12. Securities Lending

The table below provides the value of securities on loan and the related collateral received as at 30 November 2021:

Fund	CCY	Value of securities on loan	Value of collateral received
BlackRock Asia Pacific Absolute Return Fund	USD	2,261,202	2,402,002
BlackRock Dynamic Diversified Growth Fund	EUR	22,558,338	24,640,202
BlackRock Emerging Companies Absolute Return Fund	GBP	2,620,643	2,930,100
BlackRock Emerging Markets Absolute Return Fund	USD	176,963	195,437
BlackRock Emerging Markets Equity Strategies Fund	USD	20,508,206	22,505,544
BlackRock Emerging Markets Flexi Dynamic Bond Fund	USD	57,533,400	62,555,462
BlackRock Emerging Markets Short Duration Bond Fund	USD	5,430,550	5,819,877
BlackRock ESG Euro Bond Fund	EUR	29,477,475	31,450,107
BlackRock ESG Euro Corporate Bond Fund	EUR	19,771,520	20,937,453
BlackRock European Absolute Return Fund	EUR	49,629,970	53,821,275
BlackRock European Opportunities Extension Fund	EUR	10,385,669	11,418,291
BlackRock European Select Strategies Fund	EUR	24,805,995	26,535,251
BlackRock European Unconstrained Equity Fund	EUR	1,275,709	1,681,113
BlackRock Fixed Income Credit Strategies Fund	EUR	24,265,152	26,735,180
BlackRock Fixed Income Strategies Fund	EUR	286,722,264	307,364,723
BlackRock Global Absolute Return Bond Fund	EUR	8,909,648	9,853,914
BlackRock Global Event Driven Fund	USD	110,434,067	121,576,347
BlackRock Global Real Asset Securities Fund	USD	51,779,299	57,177,543

Notes to the Financial Statements continued

Fund	CCY	Value of securities on loan	Value of collateral received
BlackRock Managed Index Portfolios – Conservative	EUR	2,485,439	2,772,183
BlackRock Managed Index Portfolios – Defensive	EUR	8,119,522	9,041,262
BlackRock Managed Index Portfolios – Growth	EUR	22,177,121	23,674,349
BlackRock Managed Index Portfolios – Moderate	EUR	4,255,810	4,496,912
BlackRock Systematic ESG World Equity Fund	USD	15,180,420	16,601,454
BlackRock Systematic Global Equity Fund	USD	6,527,216	7,256,306

Income earned during the period by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under caption "Securities lending". Securities on loan are respectively flagged on Portfolio on Investments.

13. Credit Facility

USD 2 billion credit facility arranged by JPMorgan Chase Bank N.A. (JPMorgan) will allow the Company to avail of a committed USD 1.23 billion tranche. The portion of the USD 1.23 billion credit facility will be allocated to the Funds based on the Allocation Notice dated 23 April 2021.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new

Funds. During this for the year ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the outstanding balance.

No portion of the credit facility was used during the period ended 30 November 2021.

14. Amounts due from/to broker

Due from/to broker on the Statement of Net Assets consists of cash collateral and margin paid/received to/from Funds' clearing brokers and various counterparties.

15. Total Expense Ratio

Total Expense Ratio ("TER") is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets and expense reimbursements), divided by the average net assets of the share classes, expressed as a percentage. All data is annualised.

The Management fees may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs for the period from 1 June 2021 to 30 November 2021 are as follows:

⁽¹⁾ All figures are annualised.

⁽²⁾ New Share Class launched, see Appendix I for further details.

The TERs were calculated in accordance with the Swiss Funds and Asset Management Association (“SFAMA”) guidelines on the calculation and disclosure of the TER for collective investment schemes. The SFAMA guidelines were last amended on 20 April 2015.

Certain Funds, as indicated above, invest a significant portion of their net assets in underlying target funds which do not publish a TER in accordance with the SFAMA guidelines. Therefore, the prorated TER of the underlying target funds has not been included in the TER of the Funds disclosed above. This waiver provision complies with the SFAMA guidelines.

Notes to the Financial Statements continued

16. Subsequent Events

A new Prospectus was issued on 15 December 2021.

There have been no other events subsequent to the financial period end, and up to the date of the approval of the financial statements, which in the opinion of the Board may have had a material impact on the financial statements for the financial period ended 30 November 2021.

17. Approval date

The financial statements were approved by the Board on 26 January 2022.

Supplementary Information

Efficient Portfolio Management Techniques

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments ("FDIs") provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

Securities Lending and Total Return Swaps (including CFDs)

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depository or the Securities Lending Agent.

All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties' exposures under the ISDA Master agreement are netted and collateralised together, therefore any collateral disclosures provided in this report are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs. All non-cash collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV and the value of TRS (including CFDs) as a proportion of the Funds' NAV, as at 30 November 2021 and the income/returns earned for the period ended 30 November 2021. Total lendable assets represent the aggregate value of assets forming part of the Funds' securities lending programme. The value of TRS (including CFDs) is based on the underlying exposure value on a gross absolute basis.

Fund	Currency	Securities on loan		TRS (including CFDs)	
		% of lendable assets	% of NAV	% of NAV 30 November 2021	Net returns earned
BlackRock Americas Diversified Equity Absolute Return Fund	USD	N/A	N/A	723.71%	26,736,928

BlackRock UK Equity Absolute Return Fund	GBP	N/A	N/A	106.89%	2,239,163

⁽¹⁾ Fund terminated, see Note 1 for further details.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds receives at least 62.5% while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share. Income earned during the period ended by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under caption "Securities lending". The total returns earned from total return swaps (including CFDs) is presented on a total return basis, including related interest and dividend income or expense and net gains/losses from fair value price movements. All returns and costs from TRS (including CFDs) will accrue to the Funds and are not subject to any returns or cost sharing arrangements with the Fund's Management Company or any other third parties.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received and the underlying exposure value on a gross absolute basis for TRS (including CFDs), analysed by counterparty, as at 30 November 2021.

Counterparty	Counterparty's country of establishment	Securities Lending		TRS (including CFDs)

⁽¹⁾ Fund terminated, see Note 1 for further details.

As at 30 November 2021, part of cash collateral received by the Funds was re-invested in money market funds managed by the affiliates of the Management Company, as disclosed in the Funds' Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the period ended 30 November 2021 is summarised below. These returns represent the accumulative total return of the respective money market fund for the 6 months period ended 30 November 2021. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Money market fund	Total returns
Institutional Cash Series plc	
- Institutional Euro Liquidity Fund	(0.75)%
- Institutional GBP Liquidity Fund	(0.01)%
- Institutional US Dollar Liquidity Fund	0.01%

Supplementary Information continued

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

Supplementary Information continued

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

The following table provides an analysis of the amounts of non-cash collateral received by the Fund in respect of securities lending transactions and held by the Funds' Depository (or through its delegates) or through a securities settlement system, as at 30 November 2021.
