Manager’s Investment Report

iShares MSCI India Climate Transition ETF (a Sub-Fund of iShares Southeast Asia Trust)

Introduction

iShares MSCI India Climate Transition ETF (“MSCI India Climate Transition ETF”), a sub-fund of the iShares Southeast Asia Trust (the “Trust”), was launched and commenced trading on 15 June 2006 on the Singapore Exchange Securities Trading Limited (“SGX-ST”) under the trading name of “IS INDIA CLIMATE US\$” and Exchange ticker of “I98”. Effective on 15 June 2012, other than the US dollars, the MSCI India Climate Transition ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollars trading line of MSCI India Climate Transition ETF is under the trading name of “IS INDIA CLIMATE S\$D” and Exchange ticker of “QK9”.

The MSCI India Climate Transition ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund (“ETF”) from the SGX-ST. With effect from 30 November 2022, the MSCI India Climate Transition ETF is benchmarked against the MSCI India ESG Enhanced Focus CTB Select Index (“Underlying Index”). The Manager of MSCI India Climate Transition ETF is BlackRock (Singapore) Limited (the “Manager”). The Manager has appointed the Hong Kong domiciled BlackRock Asset Management North Asia Limited (the “Sub-Manager”) as the sub-manager of the MSCI India Climate Transition ETF under a sub-management agreement entered into between the Manager and the Sub-Manager (the “Sub-Management Agreement”). Under the Sub-Management Agreement, the Manager has discretion to delegate its investment management functions of MSCI India Climate Transition ETF to the Sub-Manager.

The MSCI India Climate Transition ETF invests substantially all of its assets directly in India-listed securities as a Foreign Portfolio Investor registered with the Securities and Exchange Board of India. The MSCI India Climate Transition ETF includes environmental, social and governance (“ESG”) factors as its key investment strategy, with a focus on climate transition, by tracking the Underlying Index, which is designed to exceed the minimum technical requirements of European Union (“EU”) Climate Transition Benchmarks (“CTBs”), while maximizing exposure to positive ESG factors while maintaining risk and return characteristics similar to those of its MSCI India Index (the “Parent Index”).

As of 31 December 2025, 99.91% of the Sub-Fund’s total assets invested in investments are aligned with the Sub-Fund’s ESG focus¹.

The Underlying Index measure the performance of a sub-set of Indian equity securities within the Parent Index which excludes issuers from the Parent Index based on the MSCI Inc.’s (Index Provider) ESG exclusionary criteria. The remaining constituents of the Parent Index are then weighted by the Index Provider, for inclusion in the Underlying Index using an optimisation process. The optimisation process aims to exceed decarbonisation and other minimum standards for an EU CTB and maximise exposure to issuers with higher ESG ratings, while targeting a similar risk profile and limiting the tracking error of the Underlying Index, each in relation to the Parent Index.

A. Sub-Fund Performance²

The MSCI India Climate Transition ETF seeks to provide investment results that closely correspond to the performance of the MSCI India ESG Enhanced Focus CTB Select Index before fees and expenses. As at 31 December 2025, the Sub-Fund invests substantially all of its assets directly in India-listed securities as a Foreign Portfolio Investor registered with the Securities and Exchange Board of India.

At the close of 31 December 2025, the NAV per unit (based on the last traded prices of the investments) of the MSCI India Climate Transition ETF was US\$14.17 and 4,930,000 units were outstanding. The total size of the MSCI India Climate Transition ETF was approximately US\$69.9 million.

A summary of the performance of MSCI India Climate Transition ETF is given below:

Total Return ³ in US\$ as of 31 December 2025	1-Month	3-Month	6-Month	1-Year
Net DIV MSCI India ESG Enhanced Focus CTB				
Select Index in US\$ ⁵	(0.46)	5.27	(2.55)	3.42
Sub-Fund NAV Return in US\$ ⁶	(0.54)	4.31	(2.34)	2.55
Sub-Fund Price Return (MKT) in US\$ ⁷	(1.47)	3.60	(2.89)	2.92

Total Return ³ in US\$ as of 31 December 2025	3-Year (Annualised)	5-Year (Annualised)	Since Inception ⁴ (Annualised)
Net DIV MSCI India ESG Enhanced Focus CTB			
Select Index in US\$ ⁵	10.15	9.17	8.58
Sub-Fund NAV Return in US\$ ⁶	8.26	7.00	6.95
Sub-Fund Price Return (MKT) in US\$ ⁷	7.84	6.94	6.94

Source: BlackRock and MSCI

As of 31 December 2025, MSCI India ESG Enhanced Focus CTB Select Index consists of 147 constituents and all of them are large and mid-cap India companies in MSCI universe. The difference in performance between the MSCI India ESG Enhanced Focus CTB Select Index and MSCI India Climate Transition ETF can be largely explained by the MSCI India Climate Transition ETF’s expenses.

¹ Aligned ESG focus investment means an investment in an economic activity that aligns with the ESG focus prescribed by the benchmark index.
² Past performance figures shown are not indicative of the future performance of the Sub-Fund.
³ Total returns represent the rate that an investor would have earned (or lost) on an investment, assuming reinvestment of all dividends and distributions.
⁴ This is annualised return since fund inception and fund inception date is 15 June 2006.
⁵ An investor cannot invest directly in an index and the index performance returns do not reflect management fees, transaction costs or other expenses, which would reduce performance returns.
⁶ Units in the Sub-Fund are issued and redeemed at their NAV in exchange for a basket of securities representing the MSCI India ESG Enhanced Focus CTB Select Index. Therefore, the Sub-Fund does not publish a bid price and the Sub-Fund’s returns have been calculated from NAVs; and assuming reinvestment of all dividends.
⁷ Market returns are calculated using historical market closing prices (when NAV is normally determined for the Sub-Fund), and do not represent the returns you would receive if you traded shares at other times.

Manager's Investment Report (continued)

iShares J.P. Morgan USD Asia Credit Bond ETF (a Sub-Fund of iShares Southeast Asia Trust)

Introduction

iShares J.P. Morgan USD Asia Credit Bond ETF (the "USD Asia Credit Bond ETF"), a sub-fund of the iShares Southeast Asia Trust (the "Trust"), was launched and commenced trading on 2 June 2011 on the Singapore Exchange Securities Trading Limited ("SGX-ST") under the trading name of "IS ASIA BND US\$" and Exchange ticker of "N6M". Effective on 15 June 2012, other than the US dollars, the USD Asia Credit Bond ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollar trading line of the USD Asia Credit Bond ETF is under the trading name of "IS ASIA BND S\$D" and Exchange ticker of "QL2".

The USD Asia Credit Bond ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund ("ETF") from the SGX-ST. The USD Asia Credit Bond ETF is benchmarked against the J.P. Morgan Asia Credit Index – Core (the "JACI Core"). The JACI Core consists of liquid US dollar denominated debt instruments issued out of Asia ex-Japan by Asia-domiciled sovereigns, quasi-sovereigns and corporates. The Manager of the USD Asia Credit Bond ETF is BlackRock (Singapore) Limited.

A. Sub-Fund Performance¹

The USD Asia Credit Bond ETF seeks to provide investment results that, before fees and expenses, closely correspond to the performance of the JACI Core in US dollar terms.

At the close of 31 December 2025, the NAV per unit (based on the bid prices of the investments) of the USD Asia Credit Bond ETF was US\$9.93 and 4,455,132 units were outstanding. The total size of the USD Asia Credit Bond ETF was approximately US\$44.2 million.

A summary of the performance of the USD Asia Credit Bond ETF is given below:

Total Return ² in US\$ as of 31 December 2025	1-Month	3-Month	6-Month	1-Year
JACI Core Total Return Index in US\$ ⁴	0.36	1.37	4.80	9.07
Sub-Fund NAV Return in US\$ ⁵	0.37	1.31	4.73	8.83
Sub-Fund Price Return (MKT) in US\$ ⁶	0.40	1.21	4.56	8.86

Total Return ² in US\$ as of 31 December 2025	3-Year (Annualised)	5-Year (Annualised)	Since Inception ³ (Annualised)
JACI Core Total Return Index in US\$ ⁴	8.33	1.99	4.38
Sub-Fund NAV Return in US\$ ⁵	8.15	1.68	4.17
Sub-Fund Price Return (MKT) in US\$ ⁶	7.96	1.58	4.14

Source: BlackRock and J.P.Morgan

As of 31 December 2025, the JACI Core consists of 1,022 bonds denominated in US dollars which are issued by Asia-domiciled sovereigns, quasi-sovereigns and corporates. The difference in performance between the USD Asia Credit Bond ETF and the JACI Core can be largely explained by the fees and expenses of the USD Asia Credit Bond ETF and security misweights due to the use of representative sampling.

Sector Weights

As of 31 December 2025, the index sector weights are listed below.

Sector	Index Weights %	Portfolio Weights %
Consumer	7.18	7.51
Financial	24.32	24.63
Government Related	42.65	38.92
Industrial	12.50	13.22
Media & Telecom	3.94	4.16

Manager's Investment Report (continued)

iShares USD Asia High Yield Bond ETF (a Sub-Fund of iShares Southeast Asia Trust)

Introduction

iShares USD Asia High Yield Bond ETF (the "USD Asia High Yield Bond ETF"), a sub-fund of the iShares Southeast Asia Trust (the "Trust"), was launched and commenced trading on 8 December 2011 on the Singapore Exchange Securities Trading Limited ("SGX-ST") under the trading name of "IS ASIA HYG US\$" and Exchange ticker of "O9P". Effective on 15 June 2012, other than the US dollars, the USD Asia High Yield Bond ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollar trading line of the USD Asia High Yield Bond ETF is under the trading name of "IS ASIA HYG S\$D" and Exchange ticker of "QL3".

The USD Asia High Yield Bond ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund ("ETF") from the SGX-ST. The USD Asia High Yield Bond ETF is benchmarked against the Bloomberg Asia USD High Yield Diversified Credit Index (the "BAHY Index"). The BAHY Index consists of fixed-rate US dollar-denominated government-related and corporate high yield debt of the Asia ex-Japan region. Issuer exposures are capped at 4% of the overall index market value for diversification. The Manager of the USD Asia High Yield Bond ETF is BlackRock (Singapore) Limited.

A. Sub-Fund Performance¹

The USD Asia High Yield Bond ETF seeks to provide investment results that, before fees and expenses, closely correspond to the performance of the BAHY Index in US dollar terms.

At the close of 31 December 2025, the NAV per unit (based on the bid prices of the investments) of the USD Asia High Yield Bond ETF was US\$6.71 and 115,595,603 units were outstanding. The total size of the USD Asia High Yield Bond ETF was approximately US\$775.6 million.

A summary of the performance of the USD Asia High Yield Bond ETF is given below:

Total Return ² in US\$ as of 31 December 2025	1-Month	3-Month	6-Month	1-Year
BAHY Total Return Index in US\$ ⁴	0.86	1.28	5.36	9.58
Sub-Fund NAV Return in US\$ ⁵	0.87	1.21	5.20	8.98
Sub-Fund Price Return (MKT) in US\$ ⁶	0.75	1.35	5.05	9.05

Total Return ² in US\$ as of 31 December 2025	3-Year (Annualised)	5-Year (Annualised)	Since Inception ³ (Annualised)
BAHY Total Return Index in US\$ ⁴	9.79	(0.87)	4.40
Sub-Fund NAV Return in US\$ ⁵	9.32	(1.45)	3.94
Sub-Fund Price Return (MKT) in US\$ ⁶	9.29	(1.65)	3.86

Source: BlackRock and Barclays

As of 31 December 2025, the BAHY Index consists of 199 bonds denominated in US dollar which are issued by Asia-domiciled sovereigns, quasi-sovereigns and corporates. The difference in performance between the USD Asia High Yield Bond ETF and the BAHY Index can be largely explained by the fees and expenses of the USD Asia High Yield Bond ETF and security misweights due to the use of representative sampling.

Manager’s Investment Report (continued)

iShares MSCI Asia ex Japan Climate Action ETF (a Sub-Fund of iShares Southeast Asia Trust)

Introduction

iShares MSCI Asia ex Japan Climate Action ETF (the “MSCI Asia Ex Japan Climate Action ETF”), a sub-fund of the iShares Southeast Asia Trust (the “Trust”), was launched and commenced trading on 14 September 2023 on the Singapore Exchange Securities Trading Limited (“SGX-ST”) under the trading name of “ISHARES AXJCLIMATE US\$” and Exchange ticker of “ICU”. Other than the US dollars, the MSCI Asia Ex Japan Climate Action ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollar trading line of the MSCI Asia Ex Japan Climate Action ETF is under the trading name of “ISHARES AXJCLIMATE S\$” and Exchange ticker of “ICM”.

The MSCI Asia Ex Japan Climate Action ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund (“ETF”) from the SGX-ST. The MSCI Asia Ex Japan Climate Action ETF is benchmarked against the MSCI AC Asia ex Japan Climate Action Index (“Underlying Index”). The Manager of MSCI Asia Ex Japan Climate Action ETF is BlackRock (Singapore) Limited (the “Manager”). The Manager has appointed the Hong Kong domiciled BlackRock Asset Management North Asia Limited (the “Sub-Manager”) as the sub-manager of the MSCI Asia Ex Japan Climate Action ETF under a sub-management agreement entered into between the Manager and the Sub-Manager (the “Sub-Management Agreement”). Under the Sub-Management Agreement, the Manager has discretion to delegate its investment management functions of MSCI Asia Ex Japan Climate Action ETF to the Sub-Manager.

The MSCI Asia Ex Japan Climate Action ETF includes environmental, social and governance (“ESG”) factors as its key investment strategy, with a focus on climate transition, by tracking the Underlying Index, which is designed to represent the performance of companies that have been assessed to lead their sector peers in terms of their positioning and actions relative to a climate transition.

The Underlying Index measure the performance of a sub-set of companies within the MSCI AC Asia ex Japan Index (“Parent Index”) which excludes issuers from the Parent Index based on the MSCI Inc’s ESG exclusionary criteria. MSCI Climate Action Indexes use MSCI ESG Business Involvement Screening Research and MSCI Climate Change Metrics to identify companies that are involved in the following business activities such as controversial weapons, tobacco, thermal coal, mining, oil sands and nuclear weapons. The remaining constituents of the Parent Index are then assessed relative to their sector peers based on their emissions intensity, emissions reduction commitments, climate risk management and revenue from greener businesses. The Underlying Index uses this assessment to select 50% of the companies from each GICS® sector in the Parent Index. Overall, the Underlying Index targets a coverage of 50% of the companies per sector from the Parent Index. The Parent Index weights of the remaining selected securities are renormalised to 100%. Sector weights are limited to +/- 5% the weight of that sector in the Parent Index, and individual issuer weights are capped at 5% of the Underlying Index.

As of 31 December 2025, 99.55% of the Sub-Fund’s total assets invested in investments that are aligned with the scheme’s ESG focus¹.

The Parent Index captures large and mid-cap representation across 2 of 3 developed markets countries (which includes Hong Kong and Singapore) (excluding Japan) and 8 emerging markets countries (which includes China, India, Korea, Malaysia, the Philippines, Taiwan and Thailand) in Asia. The Parent Index covers approximately 85% of the free float-adjusted market capitalisation in each country.

A. Sub-Fund Performance²

The MSCI Asia Ex Japan Climate Action ETF seeks to provide investment results that closely correspond to the performance of the MSCI AC Asia ex Japan Climate Action Index in US dollar terms before fees and expenses.

As at close of 31 December 2025, the NAV per unit (based on the last traded prices of the investments) of the MSCI Asia Ex Japan Climate Action ETF was US\$1.40 and 1,221,000,000 units were outstanding. The total size of the MSCI Asia Ex Japan Climate Action ETF was approximately US\$1.71 billion.

A summary of the performance of the MSCI Asia Ex Japan Climate Action ETF is given below:

Total Return ³ in US\$ as of 31 December 2025	1-Month	3-Month	6-Month	1-Year	Since Inception ⁴
MSCI AC Asia ex Japan Climate Action Index in US\$ ⁵	0.66	0.58	9.18	22.02	16.29
Sub-Fund NAV Return in US\$ ⁶	0.61	0.16	9.24	21.73	15.67
Sub-Fund Price Return (MKT) in US\$ ⁷	0.22	-0.07	8.80	23.19	15.44

Source: BlackRock and MSCI

As of 31 December 2025, MSCI AC Asia ex Japan Climate Action Index consists of 498 constituents and all of them are large and mid-cap companies in MSCI universe. The difference in performance between the MSCI AC Asia ex Japan Climate Action Index and MSCI Asia Ex Japan Climate Action ETF can be largely explained by the MSCI Asia Ex Japan Climate Action ETF’s expenses.

¹ Aligned ESG focus investment means an investment in an economic activity that aligns with the ESG focus prescribed by the benchmark index.

² Past performance figures shown are not indicative of the future performance of the Sub-Fund.

³ Total returns represent the rate that an investor would have earned (or lost) on an investment, assuming reinvestment of all dividends and distributions.

⁴ This is annualised return since fund inception and fund inception date is 12 September 2023.

⁵ An investor cannot invest directly in an index and the index performance returns do not reflect management fees, transaction costs or other expenses, which would reduce performance returns.

⁶ Units in the Sub-Fund are issued and redeemed at their NAV in exchange for a basket of securities representing the MSCI AC Asia ex Japan Climate Action Index. Therefore, the Sub-Fund does not publish a bid price and the Sub-Fund’s returns have been calculated from NAVs; and assuming reinvestment of all dividends.

⁷ Market returns are calculated using historical market closing prices (when NAV is normally determined for the Sub-Fund), and do not represent the returns you would receive if you traded shares at other times.

iShares Southeast Asia Trust

Report of the Trustee

For the financial year ended 31 December 2025

The Trustee is under a duty to take into custody and to hold the assets of the sub-funds of iShares Southeast Asia Trust, comprising iShares MSCI India Climate Transition ETF, iShares J.P. Morgan USD Asia Credit Bond ETF, iShares USD Asia High Yield Bond ETF and iShares MSCI Asia ex Japan Climate Action ETF (collectively referred to as the "Sub-Funds") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Funds during the year covered by these financial statements, set out on pages 19 to 62, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

iShares Southeast Asia Trust

Statement by the Manager

For the financial year ended 31 December 2025

In the opinion of BlackRock (Singapore) Limited, the accompanying financial statements set out on pages 19 to 62, comprising the Statements of Total Return, Statements of Financial Position, Statements of Movements of Unitholders' Funds, Statements of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial positions and the portfolio holdings of the sub-funds of iShares Southeast Asia Trust, comprising iShares MSCI India Climate Transition ETF, iShares J.P. Morgan USD Asia Credit Bond ETF, iShares USD Asia High Yield Bond ETF and iShares MSCI Asia ex Japan Climate Action ETF (collectively referred to as the "Sub-Funds") as at 31 December 2025 and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"). At the date of this statement, there are reasonable grounds to believe that the Sub-Funds will be able to meet their financial obligations as and when they materialise.

18th March 2026

iShares Southeast Asia Trust

Independent Auditor’s Report to the Unitholders of iShares Southeast Asia Trust (Constituted under a Trust Deed in the Republic of Singapore)

Our Opinion

In our opinion, the accompanying financial statements of the sub-funds of iShares Southeast Asia Trust, namely iShares MSCI India Climate Transition ETF, iShares J.P. Morgan USD Asia Credit Bond ETF, iShares USD Asia High Yield Bond ETF and iShares MSCI Asia ex Japan Climate Action ETF (collectively referred to as the “Sub-Funds”) are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 “Reporting Framework for Investment Funds” issued by the Institute of Singapore Chartered Accountants (“RAP 7”), so as to present fairly, in all material respects, the financial positions and portfolio holdings of the Sub-Funds as at 31 December 2025, and the financial performance and movements of unitholders’ funds for the financial year ended on that date.

What we have audited

The financial statements of the Sub-Funds comprise:

- the Statements of Total Return for the financial year ended 31 December 2025;
- the Statements of Financial Position as at 31 December 2025;
- the Statements of Movements of Unitholders’ Funds for the financial year then ended;
- the Statements of Portfolio as at 31 December 2025; and
- the Notes to the Financial Statements, including material accounting policy information.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (“SSAs”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Funds in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (“ACRA Code”), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 December 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is related to existence and valuation of investments.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Valuation and existence of investments</p> <p>The value of the Sub-Funds’ investments is presented on the Statements of Financial Position.</p> <p>The valuation and existence of investments were areas of focus because investments represent the principal element of the net asset value as disclosed on the Statements of Financial Position in the financial statements.</p>	<p>We tested the valuation of the Sub-Funds’ investment portfolio by comparing the prices used in valuation to independent third party sources. We tested the valuation of the Sub Funds’ investment portfolios by comparing the prices used by the Fund’s administrator to third party sources. No significant discrepancies were noted from our testing.</p> <p>We tested the existence of investments by obtaining confirmations directly from independent custodians regarding the quantity of investment holdings. Based on the procedures we performed, we found the Sub-Funds’ holdings of investments to be in agreement with the confirmations received.</p>

iShares Southeast Asia Trust

Independent Auditor's Report to the Unitholders of iShares Southeast Asia Trust (Constituted under a Trust Deed in the Republic of Singapore)

Other Information

The Sub-Funds' Manager (the "Manager") is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Funds' abilities to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Funds or to cease the Sub-Funds' operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Funds' financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Funds' abilities to continue as going concerns. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Funds to cease to continue as going concerns.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

iShares Southeast Asia Trust

Independent Auditor's Report to the Unitholders of iShares Southeast Asia Trust
(Constituted under a Trust Deed in the Republic of Singapore)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yeo Hian Chong.

Notes to the Financial Statements

For the financial year ended 31 December 2025

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. The Trust

iShares Southeast Asia Trust (the "Trust") is a Singapore-constituted umbrella unit trust created by a trust deed dated 31 May 2006 made under Singapore law between BlackRock (Singapore) Limited as Manager and HSBC Institutional Trust Services (Singapore) Limited as Trustee (the "Principal Deed"). The Principal Deed has been amended by a supplemental deed dated 15 June 2006, an amending and restating deed dated 24 June 2010, a second amending and restating deed dated 6 May 2011, a third amending and restating deed dated 11 November 2011, a fourth amending and restating deed dated 30 March 2012, a second supplemental deed dated 15 November 2012, a fifth amending and restating deed dated 1 July 2013, a third supplemental deed dated 27 April 2015, a sixth amending and restating deed dated 28 June 2019, a seventh amending and restating deed dated 28 December 2020, a fourth supplemental deed dated 24 August 2021, an eighth amending and restating deed dated 11 November 2022, and a ninth amending and restating deed dated 14 June 2023, each made between the Manager and the Trustee (as amended, the "Trust Deed"). The Trust is authorised under Section 286 of the Securities and Futures Act 2001 of Singapore.

As at 31 December 2025, there are four sub-funds (the "Sub-Funds") established under the Trust:

Name of Sub-Fund	Listing Date on the Singapore Exchange Securities Trading Limited ("SGX-ST")
iShares MSCI India Climate Transition ETF	15 June 2006
iShares J.P. Morgan USD Asia Credit Bond ETF	2 June 2011
iShares USD Asia High Yield Bond ETF	8 December 2011
iShares MSCI Asia ex Japan Climate Action ETF	14 September 2023

These financial statements relate to the four Sub-Funds.

iShares MSCI India Climate Transition ETF ("MSCI India Climate Transition ETF")

MSCI India Climate Transition ETF is the first sub-fund of the Trust and seeks to provide investment results that, before fees and expenses, closely correspond to the performance of a diversified portfolio of Indian stocks as measured by the MSCI India ESG Enhanced Focus CTB Select Index in US Dollar terms.

iShares J.P. Morgan USD Asia Credit Bond ETF ("USD Asia Credit Bond ETF")

The investment objective of USD Asia Credit Bond ETF is to provide investment results that, before fees and expenses, closely correspond to the performance of the J.P. Morgan Asia Credit Index – Core in US Dollar terms.

iShares USD Asia High Yield Bond ETF ("USD Asia High Yield Bond ETF")

The investment objective of USD Asia High Yield Bond ETF is to provide investment results that, before fees and expenses, closely correspond to the performance of the Bloomberg Asia USD High Yield Diversified Credit Index in US Dollar terms.

iShares MSCI Asia ex Japan Climate Action ETF ("MSCI Asia Ex Japan Climate Action ETF")

The investment objective of MSCI Asia Ex Japan Climate Action ETF is to provide investment results that, before fees and expenses, closely correspond to the performance of the MSCI AC Asia ex Japan Climate Action Index in US Dollar terms.

2. Material Accounting Policy Information

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, in accordance with the Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7").

(b) Recognition of income

Dividend income is recognised when the right to receive payment is established.

Interest income is recognised on a time proportion basis using the effective interest method.

(c) Financial assets at fair value through profit or loss

(i) Initial recognition

Purchase of investments is recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net changes in the fair value of investments are included in the Statements of Total Return in the year in which they arise.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

(iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statements of Total Return.

(iv) Investment valuation

MSCI India Climate Transition ETF and MSCI Asia Ex Japan Climate Action ETF

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price for the investments held by MSCI India Climate Transition ETF and MSCI Asia Ex Japan Climate Action ETF is the last traded market price for both the financial assets and liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price for the investments held by USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF is the current market quoted bid price, consistent with the inputs prescribed in the respective Sub-Fund's prospectus for the calculation of its per share trading value for creations and redemptions. The fair value of investments in underlying funds is based on the quoted net asset value of the underlying fund on the reporting date.

(d) Due from and due to brokers

Due from and due to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statements of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value. These also include bank overdrafts that form an integral part of the Sub-Funds' cash management. Bank overdrafts are shown as current liabilities in the Statements of Financial Position.

(f) Receivables

Receivables, including amount due from unitholders are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These amounts are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Margin accounts

The margin accounts comprise cash held with the financial derivative counterparties for the purpose of transferring cash and fund futures margin maintained with the clearing house. These amounts are initially recognised at their fair value and subsequently carried at amortised cost.

(h) Payables

Payables, including amount due to unitholders and accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(i) Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Funds operate (the "functional currency"). The financial statements are presented in United States dollars ("USD"), which is the Sub-Funds' functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in the Statements of Total Return within the net foreign exchange losses or gains. Translation differences on non-monetary financial assets and liabilities such as equities are also recognised in the Statements of Total Return within the fair value net gain or loss.

(j) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account, to be paid out on the distribution date. This amount shall not be treated as part of the property of the Sub-Funds. Distributions are accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statements of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Funds or the counterparty.

(l) Financial derivatives

Financial derivatives are entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provisions of the Trust Deed.

Financial derivatives outstanding at the end of the financial year are measured at their fair values using the marked-to-market method, and the resultant gains and losses are taken up in the Statements of Total Return.

When a financial derivative expires, or is sold or terminated, the gains or losses are taken up in the Statements of Total Return.

(m) Expenses

Expenses including transaction costs on purchases or sales of investments are recognised in the Statements of Total Return as the related services are performed, in the period in which they arise.

(n) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided. The management fee charged on any investment in other unit trusts managed by the Manager is rebated back to the Sub-Fund, where applicable.

(o) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption for each respective class. The Sub-Fund's net asset value per unit is calculated by dividing the net asset attributable to the holders of each class of units with the total number of outstanding units for each respective class.

(p) Cash Collateral

Cash collateral provided by the Sub-Funds are identified in the Statements of Financial Position as margin accounts and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Funds classify that asset in its Statements of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party

to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements

(q) Net assets attributable to unitholders

Net assets attributable to unitholders are classified as equity.

3. Taxation

MSCI India Climate Transit ETF, USD Asia Credit Bond ETF, USD Asia High Yield Bond ETF and MSCI Asia Ex Japan Climate Action ETF

Enhanced-Tier Fund Tax Incentive Scheme

MSCI India Climate Transition ETF, USD Asia Credit Bond ETF, USD Asia High Yield Bond ETF and MSCI Asia Ex Japan Climate Action ETF have been approved by the Monetary Authority of Singapore ("MAS") under the Enhanced-Tier Fund ("ETF") Scheme (Section 13U of the Income Tax Act 1947 and the relevant Regulations). Subject to certain conditions being met on an annual basis, the Sub-Funds may enjoy Singapore corporate tax exemption on "specified income" derived from "designated investments" for the lives of the Sub-Funds. Losses from "designated investments" are correspondingly disregarded. The terms "specified income" and "designated investments" are defined in the relevant income tax Regulations. The Trustee of the Sub-Funds has assessed and is satisfied that the Sub-Funds have met the requisite conditions under the ETF Scheme for the current financial year. The Trustee of the Sub-Funds will also ensure that the Sub-Funds fulfill their reporting obligations under the ETF Scheme.

India Capital Gains Tax

Effective 1 April 2018, long term capital gains (exceeding INR 100,000) realised from the sale of direct investments in India listed securities which were held for a period of more than 12 months are subject to long term capital gains tax ("CGT") of 10% under new provisions included in the Income Tax Act. For India listed securities held on or before 31 January 2018, any notional long term capital gains up to that date are grandfathered and sheltered from tax via a cost base step up to fair market value as at 31 January 2018 (where applicable). Further, effective 23 July 2024, the long term CGT rate has been revised to 12.5% with the revised threshold exceeding INR 125,000. As for the short term capital gains realised from the sale of direct investments in India listed securities which were held for a period of less than 12 months, the tax rate has been revised from 15% to 20% effective 23 July 2024.

Gains on disposal of shares acquired after 1 April 2017 will be subject to tax according to the relevant local laws. The Manager established a provisioning policy which requires the Sub-Funds investing directly into Indian securities to provide for the unrealised capital gains tax. The Manager will continue to monitor and review the impact of India tax law changes.

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

MSCI India Climate Transition ETF	2025 US\$	2024 US\$
Overseas income tax	1,072,546	2,183,820
Charge for the Year	1,072,546	2,183,820

USD Asia Credit Bond ETF	2025 US\$	2024 US\$
Overseas income tax	(2,288)	2,288
(Credit)/Charge for the Year	(2,288)	2,288

USD Asia High Yield Bond ETF	2025 US\$	2024 US\$
Overseas income tax	(75,498)	79,855
(Credit)/Charge for the Year	(75,498)	79,855

MSCI Asia Ex Japan Climate Action ETF	2025 US\$	2024 US\$
Singapore income tax	39,144	20,374
Overseas income tax	10,233,864	3,459,529
	10,273,008	3,479,903
Charge for the Year	10,273,008	3,479,903

The Singapore income tax represents tax deducted at source for Singapore sourced REIT distributions. The overseas income tax represents tax deducted at source on dividends derived from outside Singapore and received in Singapore and tax deducted at source on interest derived from outside Singapore.

As at 31 December 2025, MSCI India Climate Transition ETF and MSCI Asia Ex Japan Climate Action ETF have uncertain tax exposure with respect to gains on investment of which the tax liabilities are estimated to be US\$2,593,637 (2024: US\$2,187,376) and US\$7,934,954 (2024: US\$2,266,586), respectively. While this represents the Manager's best estimate, the estimated value could differ significantly from the amount ultimately payable.

4. Cash and bank balances

The amounts in cash and bank balances are placed with a financial institution which is a related company of the Trustee.

The carrying amounts of bank balances approximate their fair values.

The Sub-Funds have credit facilities with The Hongkong and Shanghai Banking Corporation Limited ("HSBC"), which is the related company of the Trustee. As at 31 December 2025 and 2024, the banking overdraft facility lines available to the following Sub-Funds were as follows:

Overdraft facility	2025 US\$	2024 US\$
USD Asia Credit Bond ETF	1,500,000	1,500,000
USD Asia High Yield Bond ETF	2,000,000	2,000,000
MSCI Asia Ex Japan Climate Action ETF	3,500,000	3,500,000

The Sub-Funds have not utilised any of the above overdraft facility as at 31 December 2025 and 31 December 2024.

There is no difference between the net assets attributable to unitholders per unit per the financial statements and the net assets attributable to unitholders per unit for issuing/redeeming units at the reporting date.

10. Financial Risk Management

The Sub-Funds' activities may expose them to a variety of financial risks including but not limited to market risk (including price, currency and interest rate risk), liquidity risk and credit risk, which are associated with the financial statements and markets in which the Sub-Funds invest.

The following is a summary of the main risks and risk management policies.

(a) Market risk

Market risk is the risk of potential adverse changes to the value of financial investments because of changes in market conditions like interest and currency rate movements and volatility in security prices. The Sub-Funds' objective are to track the performance of their respective indexes, therefore, the exposure to market risk in the Sub-Funds will be substantially the same as that of the indexes. As index-tracking exchange-traded funds, the Manager manages the Sub-Funds' exposure to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, is closely aligned to their respective index characteristics.

(i) Price risk

The Sub-Funds are exposed to price risk. This arises from investments held by the Sub-Funds for which prices in the future are uncertain. They are classified on the Statements of Financial Position as Portfolio of Investments. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

Price risk is managed and monitored by the Manager on a portfolio basis, with risks managed through ensuring that investment activities are undertaken in accordance with the Sub-Funds' investment model which is reviewed and updated regularly. The Manager continuously monitors the Sub-Funds' holdings relative to the recommended portfolio, and the exposure of the Sub-Funds is monitored to ensure that they remain within designated ranges or asset allocation constraints.

The summarised VaR Analysis in Note 10 (a)(ii) explains how the market price risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

(ii) Summarised VaR Analysis

Value at Risk (VaR) is a risk model used to estimate the potential losses that could occur on the Sub-Fund's net asset value position due to movements in interest rates, currency and market prices over a given period and for a specified degree of confidence.

The Manager uses VaR analysis and/or tracking error estimates to measure and manage risk as these are commonly used and understood models and are consistent across different types, asset classes and types of sub-funds. For the purpose of these accounts VaR analysis has been presented. The objective in all cases is to estimate potential losses and manage the downside risk.

The following table summarises the outputs of the VaR model in relation to interest rate, currency and price risk exposures. The total VaR figures are not the sum of individual risk components as VaR takes into account the correlations between different risk factors.

The Manager calculates the VaR relative to the respective Sub-Fund's total value. The analysis implies that the Manager can be 99% confident that the value of the portfolio will not decrease by any more than the figures in the table below over the 20 day period from 31 December.

	2025		2024	
	Amount	%	Amount	%
MSCI India Climate Transition ETF	8,997,414	12.88	10,864,139	12.50
USD Asia Credit Bond ETF	592,639	1.34	1,507,154	2.40
USD Asia High Yield Bond ETF	10,082,557	1.30	19,519,509	1.76
MSCI Asia Ex Japan Climate Action ETF	173,298,329	10.15	133,736,512	10.86

Detailed information about the models

There are a number of different VaR models used within the funds management industry. The Manager uses one or more of ex-ante and ex-post estimates of portfolio risk and the Monte Carlo simulation model depending on the fund type.

Models are calculated using historical data and a covariance matrix where applicable.

There is no abnormal period for financial year ended 31 December 2025 and 2024.

The models used by the Manager have the following features:

- VaR is calculated to a 99 per cent confidence level;
- VaR at a confidence level identifies the maximum expected loss under that confidence level;
- VaR is calculated for a 20 day holding period. The time horizon of twenty days is selected to coincide with the period used to analyse the portfolio positions. The risk data is examined in various daily, weekly and monthly forums; and
- The portfolio VaR is not the simple sum of individual asset stand alone VaRs; the correlations among assets in the portfolio are considered.

Although VaR is a valuable risk management tool it should be interpreted, as with all predictive models, with consideration to its assumptions and limitations. The main assumptions and limitations are listed below:

- Some models assume certain financial variables are normally distributed: The normality assumption allows the Manager to scale portfolio risk estimates to the appropriate confidence levels. The normality assumption is derived from statistical analysis for examining sample populations of observations and the implications of not assuming normality would preclude the use of most statistical tools including mainstream commercial models for risk measurement.
- The use of historical returns and correlations between assets would not take into account future potential events: It is a commonly stated and well recognised limitation that past performance is not a reliable indicator of future performance.
- Model risk, in general terms, is a known limitation that includes: the quality or accuracy of the underlying data, where significant events occur within the data, the changing sensitivity of the Sub-Fund's assets to external market factors over time, and appreciating that using only one model may be limiting in itself to obtaining the best understanding of a Sub-Fund's risk position.
- The Manager acknowledges these limitations and thus compares ex-ante and ex-post risk estimates to review expectations versus actual outcomes. Should ex-post values differ significantly from ex-ante returns, an assessment of the reasons for this will be made.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

The Sub-Fund's risk is managed with constant review of both performance and risk numbers by the investment professionals within the business. These reviews consist of:

- Weekly meetings between the global members of Risk & Quantitative Analysis (RQA). These meetings include RQA Hong Kong and RQA Singapore;
- Monthly meetings between RQA and the Fund Managers;
- Monthly meetings between RQA and the Chief Investment Officer;
- Regular review of performance figures along with a comparison of ex-ante versus ex-post returns; and
- RQA professionals sitting and working closely with the Fund Managers every day.

(iii) Currency risk

MSCI India Climate Transition ETF

The MSCI India Climate Transition ETF is exposed to currency risk related to the US Dollar against Indian Rupee ("INR") through direct investment in India-listed securities.

MSCI Asia Ex Japan Climate Action ETF

The MSCI Asia Ex Japan Climate Action ETF is exposed to currency risk related to the US Dollar against currencies primarily Chinese Yuan Renminbi (Offshore) ("CNH"), Hong Kong Dollar ("HKD"), Indonesian Rupiah ("IDR"), Indian Rupee ("INR"), South Korean Won ("KRW"), Malaysian Ringgit ("MYR"), Singapore Dollar ("SGD"), Thai Baht ("THB"), New Taiwan Dollar ("TWD") and others through direct investment in listed securities. The table below summarises the Sub-Fund's exposure to foreign currencies from its monetary and non-monetary assets and liabilities.

	4,010,531	1,689,613,109	5,965,772	1,206,242,034

The table below summarises the sensitivity of the MSCI India Climate Transition ETF's and MSCI Asia Ex Japan Climate Action ETF's net exposure, both monetary and non-monetary, to changes in foreign exchange movements at 31 December. The analysis is based on the assumptions that the relevant foreign exchange rates increased/ decreased by 2% with respect to the US dollar (2024: 2%), with all other variables held constant. This represents the Management's best estimate of a reasonable possible shift in the foreign exchange rates.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF

The majority of the financial assets and liabilities of USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF are held in USD denominated instruments. As a result, they are not subject to significant currency risk.

(iv) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Interest rate movements affect the value of fixed income securities more directly than equities, and is a major risk to USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF.

The majority of the financial assets and liabilities of MSCI India Climate Transition ETF and MSCI Asia Ex Japan Climate Action ETF are non-interest bearing. As a result, they are not subject to significant amount of risk due to fluctuations in the prevailing levels of market interest rates.

USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF invest primarily in debt securities which are subjected to interest rate fluctuations. As interest rates rise, prices of fixed income securities may fall and vice versa. The rationale is that as interest rates increase, the opportunity cost of holding a fixed income security increases since investors are able to realise greater yields by switching to other investments that reflect the higher interest rate. The Manager regularly assess the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly and discuss with the index provider.

The summarised VaR Analysis in Note 10(a)(ii) explains how the interest rate risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

The following tables summarise the Sub-Funds' exposure to interest rate risk. They include the Sub-Funds' assets and liabilities at fair value, categorised by the interest rate types.

(b) Liquidity risk

Liquidity risk is the risk that the Sub-Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Funds are exposed to daily cash redemptions and disbursements for the settlement of purchases. The liquidity risks associated with the need to satisfy unitholders' requests for redemptions are mitigated by maintaining adequate liquidity to satisfy usual redemption volumes and investing predominantly in securities that the Manager expects to be able to liquidate in a relatively short period of time. The Sub-Funds also maintain continuous monitoring of forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Manager considers and maintains the liquidity of the Sub-Funds, in the context of the investment objectives and liquidity requirements per the issued Prospectuses.

The Sub-Funds' financial liabilities are repayable within 12 months. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(c) Credit risk

The Sub-Funds take on exposure to credit risk, which is the risk that the counterparty will be unable to pay amounts in full when due, including transactions with counterparties such as participating dealers, issuers, brokers, custodians and banks.

The Manager has in place procedures for proper credit screening and monitoring of credit risk. The Sub-Funds invest mostly in financial assets, which have credit ratings assigned by Standard and Poor's or Moody's or Fitch's. The credit ratings are reviewed regularly.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

The following tables analyse the Sub-Funds' investments by credit ratings.

* Credit rating refers to the long-term default issuer rating of the financial institution.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

The Sub-Funds measure credit risk and expected credit loss using probability of default exposure at default and loss given default. The Manager consider both historical analysis and forward looking information in determining any expected credit loss. As at 31 December 2025 and 2024, dividend receivables, other receivables and bank balances are held with counterparties with a sound credit rating and are due to be settled within 3 months. The Manager considers the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowances has been recognised based on 12 month expected credit loss as any such impairment would be wholly insignificant to the Sub-Funds.

(d) Capital Management

The Sub-Funds' capital are represented by the net assets attributable to unitholders. The Sub-Funds strive to invest the subscriptions of redeemable participating units in investments that meet the Sub-Funds' investment objectives while maintaining sufficient liquidity for the on-going management of the Sub-Funds.

(e) Fair value estimation

The Sub-Funds classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Sub-Funds' financial assets and liabilities (by class) measured at fair value at 31 December 2025 and 2024:

Investments in open-ended investment funds whose net asset value is struck daily, price information is published and readily available and units are subscribed and redeemable on demand at the published price, are classified within level 1.

Investments whose values are based on quoted market prices in active markets and therefore classified within level 1, comprise active listed equities and listed futures. The Sub-Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and over-the-counter derivatives.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. There was no investment classified as level 3 as at 31 December 2025 and 2024.

There were no transfers between the levels of investments held by the Sub-Funds during the year ended 31 December 2025 and 2024.

The assets and liabilities included in the Statements of Financial Position except Portfolio of Investments and Financial Derivatives are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

11. Related Party Transactions

The Manager and the Trustee of the Sub-Funds are BlackRock (Singapore) Limited and HSBC Institutional Trust Services (Singapore) Limited, respectively.

HSBC Institutional Trust Services (Singapore) Limited is a subsidiary of the HSBC Holdings PLC.

Management fees are paid to the Manager. Trustee fees, registrar fees and custody fees are paid to the Trustee or its related company (as applicable) from the management fees based on terms set out in the Trust Deed.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

12. Auditors' Remuneration

The audit and non-audit fees paid/payable to the auditor of the (Sub-Funds) and the auditor's network firms are also borne by the Manager and paid from the management fees.

13. Financial Ratios

MSCI India Climate Transition ETF

	2025	2024
Expense Ratio ¹	0.66%	0.66%
Turnover Ratio ²	31.50%	30.23%

USD Asia Credit Bond ETF

	2025	2024
Expense Ratio ¹	0.20%	0.20%
Turnover Ratio ²	57.37%	41.19%

USD Asia High Yield Bond ETF

	2025	2024
Expense Ratio ¹	0.50%	0.50%
Turnover Ratio ²	67.42%	58.38%

MSCI Asia Ex Japan Climate Action ETF

	2025	2024
Expense Ratio ¹	0.18%	0.17%
Turnover Ratio ²	25.61%	44.60%

¹ The expense ratios have been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS").

The calculation of the Sub-Funds' expense ratios at 31 December 2025 and 2024 was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transaction costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of the other funds and tax deducted at source or arising out of income received. The Sub-Funds do not pay any performance fee. The average net asset value is based on the daily balances.

The following table presents the total operating expenses and average daily net asset values of the Sub-Funds for the year ended 31 December 2025 and 2024:

MSCI India Climate Transition ETF

	2025 US\$	2024 US\$
Total Operating Expenses	469,183	573,190
Average Daily Net Asset Value	71,523,939	87,149,117

USD Asia Credit Bond ETF

	2025 US\$	2024 US\$
Total Operating Expenses	104,618	136,431
Average Daily Net Asset Value	51,243,788	67,362,155
Weighted Average Expense Ratio of the Underlying Fund	#	#

USD Asia High Yield Bond ETF

	2025 US\$	2024 US\$
Total Operating Expenses	4,946,703	5,487,908
Average Daily Net Asset Value	982,336,820	1,088,210,841
Weighted Average Expense Ratio of the Underlying Fund	#	#

MSCI Asia Ex Japan Climate Action ETF

	2025 US\$	2024 US\$
Total Operating Expenses	2,607,283	840,070
Average Daily Net Asset Value	1,432,117,383	502,322,108

Less than 0.01

² The portfolio turnover ratios are calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net asset value as below:

Additional Information (unaudited)

iShares MSCI India Climate Transition ETF

The Sub-Fund includes environmental, social and governance (“ESG”) factors as its key investment strategy, with a focus on climate transition, by tracking the MSCI India ESG Enhanced Focus CTB Select Index (the “Underlying Index”), which is designed to exceed the minimum technical requirements of European Union (“EU”) Climate Transition Benchmarks (“CTBs”), while maximizing exposure to positive ESG factors while maintaining risk and return characteristics similar to those of MSCI India Index (the “Parent Index”).

As of 31 December 2025, 99.91% of the Sub-Fund’s total assets invested in investments that are aligned with the scheme’s ESG focus¹.

A. To what extent were the environmental and/or social characteristics promoted by the Sub-Fund met?

The following outlines the environmental and social (“E&S”) characteristics promoted by the Sub-Fund, according to the index construction methodology² determined by MSCI Inc. (the “Index Provider”). All environmental and social characteristics are derived from, and constrained by, the Underlying Index methodology, and the Manager does not exercise discretion over ESG screening thresholds or targets. Please refer to section B below which provides information about the extent that the Sub-Fund met such E&S characteristics throughout the year.

E&S characteristics promoted by the Sub-Fund

Improvement in the weighted average green revenue to fossil fuels-based revenue relative to the Parent Index

Exposure to investments aligned with the scheme’s ESG focus

Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, nuclear weapons, civilian firearms, tobacco, thermal, coal, conventional weapons, unconventional oil and gas

Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score

Exclusion of companies classified as violating United Nations Global Compact principles

Improvement (10%) in exposure to companies with credible carbon reduction targets higher allocation of companies that set corporate targets relating to climate change, publish their emissions and also have reduced their carbon intensity by 7% over the last 3 years, compared to the Parent Index

Exclusion of issuers with an MSCI Environmental controversy score of zero or one

Improvement of the market value exposure to high impact climate change sectors relative to the Parent Index

Reduction (30%) in carbon emission intensity relative to the Parent Index

Reduction (30%) in portfolio weighted average potential carbon emissions (Scope 1+2+3) per \$m of Enterprise Value including Cash (EVIC)

Annual 7% decarbonisation pathway

Improvement of weighted average ESG score versus the Parent Index

¹ Aligned ESG focus investment means an investment in an economic activity that aligns with the ESG focus prescribed by the benchmark index

(Constituted under a Trust Deed in the Republic of Singapore)

Additional Information (unaudited) (continued)

iShares MSCI India Climate Transition ETF (continued)

B. How did the sustainability indicators perform and compare to previous periods?

The Sub-Fund promotes environmental and/or social characteristics by tracking an index whose methodology is designed to incorporate those characteristics, as described above. The table below presents sustainability indicators derived from the index methodology and outcomes, which provide information on how the environmental and/or social characteristics promoted by the Sub-Fund were reflected over the reference period and, where applicable, compared to the prior period.

Sustainability Indicator	Metric	2025 (%)	2024(%)
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%
Improvement of weighted average ESG score versus the MSCI India Index (the "Parent Index").	% improvement of weighted average ESG score versus the Parent Index	18.95%	20.26%
Exclusion of issuers with a zero MSCI controversy score or no MSCI controversy score	% market value exposure to issuers with a zero MSCI controversy score or no MSCI controversy score	0.22%	0.00%
Reduction (30%) in carbon emission intensity relative to the Parent Index	Portfolio weighted average Scope1,2,3 GHG emissions per \$m of EVIC	49.32%	57.96%
Exclusion of companies classified as violating United Nations Global Compact principles	% market value exposure to companies classified as violating United Nations Global Compact principles	0.00%	0.00%
Reduction (30%) in portfolio weighted % reduction in portfolio weighted average potential carbon emissions (Scope 1+2+3) per \$m of EVIC	% reduction in portfolio weighted average potential carbon emissions per \$m of EVIC	92.41%	94.56%
Improvement (10%) in exposure to companies with credible carbon reduction targets – higher allocation of companies that set corporate targets relating to climate change, publish their emissions and also have reduced their carbon intensity by 7% over the last 3 years, compared to the Parent Index	% increase in exposure to companies that have set corporate targets relating to climate change, published their emissions and also had reduced their carbon intensity by 7% over the last 3 years, relative to the Parent Index	6.94%	32.74%
Annual 7% decarbonisation pathway	Annualised decarbonisation since base date	51.84%	36.45%
Exclusion of issuers with an MSCI Environmental controversy score of zero or one	% market value exposure to issuers with an MSCI Environmental controversy score of zero or one	0.00%	0.00%
Improvement of the market value exposure to high impact climate change sectors relative to the Parent Index	% market value exposure to high impact climate change sectors	0.01%	-0.14%
Improvement in the weighted average green revenue to fossil fuels-based revenue relative to the Parent Index	Weighted average green revenue to fossil fuels-based revenue	592.13%	990.88%
Exposure to investments aligned with the scheme's ESG focus	% market value exposure to investments aligned with the scheme's ESG focus	99.91%	99.96%

While the Sub-Fund is designed to reflect the relevant ESG characteristics through tracking the Underlying Index, alignment with those characteristics may not be maintained at all times due to index rebalancing and limitations in the availability, quality, coverage, or timeliness of third-party ESG data. Accordingly, some sustainability indicators reported may show minor fluctuations in certain metrics.

C. How did the scheme take any actions in attaining the scheme's ESG focus?

The Sub-Fund tracks the Underlying Index, which is designed to exceed the minimum technical requirements of European Union ("EU") Climate Transition Benchmarks ("CTBs"), while maximizing exposure to positive ESG factors while maintaining risk and return characteristics similar to those of its Parent Index.

For further details on BlackRock's commitment to constructive, long-term-focused engagement with the companies our clients are invested in, please refer to the information featured on BlackRock Investment Stewardship website at <https://www.blackrock.com/corporate/insights/investment-stewardship>.

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Additional Information (unaudited) (continued)

iShares MSCI Asia ex Japan Climate Action ETF

The Sub-Fund includes Environment, Social and Government (“ESG”) factors as its key investment strategy, with a focus on climate transition, by tracking the MSCI AC Asia ex Japan Climate Action Index (the “Underlying Index”), which is designed to represent the performance of companies that have been assessed to lead their sector peers in terms of their positioning and actions relative to a climate transition. Issuers from the underlying MSCI AC Asia ex Japan Index (the “Parent Index”) are excluded based on MSCI (the “Index Provider”) exclusionary criteria.

As of 31 December 2025, 99.95% of the Sub-Fund’s total assets invested in investments that are aligned with the scheme’s ESG focus³.

A. To what extent were the environmental and/or social characteristics promoted by the Sub-Fund met?

The following outlines the environmental and social (“E&S”) characteristics promoted by the Sub-Fund according to the index construction methodology⁴ determined by the Index Provider. All environmental and social characteristics are derived from, and constrained by, the Underlying Index methodology, and that the Manager does not exercise discretion over ESG screening thresholds or targets. Please refer to section B below which provides information about the extent that the Sub-Fund met such E&S characteristics throughout the year.

E&S characteristics promoted by the Sub-Fund

Exclusion of issuers with a zero MSCI ESG controversy score or no MSCI ESG controversy score

Exclusion of issuers with MSCI environmental controversy score of 0 or 1, or no MSCI environmental controversy score

Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes such as: controversial weapons, tobacco, thermal coal mining, oil stands, nuclear weapons

Exposure to investments aligned with the scheme’s ESG focus

Reduction in carbon emission intensity relative to the Parent Index

Improvement in exposure to companies with science-based target (“SBTi”) approved emission target compared to the Parent Index

Improvement in exposure to companies with Credible Track Record compared to the Parent Index

Improvement of weighted average overall ESG environmental score versus the Parent Index

Issuers from the Parent Index are excluded based on the Index Provider’s exclusionary criteria (which involves screening on ESG controversies, ESG business involvement, emission intensity, and climate risk management)

³ Aligned ESG focus investment means an investment in an economic activity that aligns with the ESG focus prescribed by the benchmark index

⁴ Details of the Underlying Index and its methodology are available online at www.msci.com

iShares Southeast Asia Trust

(Constituted under a Trust Deed in the Republic of Singapore)

Additional Information (unaudited) (continued)

iShares MSCI Asia ex Japan Climate Action ETF (continued)

B. How did the sustainability indicators perform and compare to previous periods?

The Sub-Fund promotes environmental and/or social characteristics by tracking an index whose methodology is designed to incorporate those characteristics, as described above. The table below presents sustainability indicators derived from the index methodology and outcomes, which provide information on how the environmental and/or social characteristics promoted by the Sub-Fund were reflected over the reference period and, where applicable, compared to the prior period.

Sustainability Indicator	Metric	2025 (%)	2024(%)
Exclusion of issuers with a zero MSCI ESG controversy score or no MSCI ESG controversy score	% market value exposure to issuers involved in very severe ESG controversies with MSCI ESG Controversy Score of 0 and issuers without an MSCI ESG Controversy Score	0.26%	0.00%
Exclusion of issuers with MSCI environmental controversy score of 0 or 1, or no MSCI environmental controversy score.	% market value exposure to issuers involved in very severe or severe environmental controversies with an MSCI Environmental Controversy Score of 0 or 1	0.39%	0.25%
Exclusion of issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	% market value exposure to issuers involved in certain activities deemed to have negative environmental and/or social outcomes (listed above)	0.00%	0.00%
Exposure to investments aligned with the scheme's ESG focus	% market value exposure to investments aligned with the scheme's ESG focus	99.55%	99.06%
Reduction in carbon emission intensity relative to the Parent Index	% reduction in portfolio weighted average potential carbon emissions per €m of EVIC versus the Parent Index	47.09%	44.50%
Improvement in exposure to companies with SBTI approved emission target compared to the Parent Index	% market value weighted average exposure to companies with SBTI target	59.96%	40.97%
Improvement in exposure to companies with Credible Track Record compared to the Parent Index	% market value weighted average exposure to companies with Credible Track Record	16.75%	4.28%
Improvement of weighted average overall ESG environmental score versus the parent index	% improvement of weighted average overall ESG environmental score versus the parent index	5.65%	7.14%
Issuers from the Parent Index are excluded based on the Index Provider's exclusionary criteria (which involves screening on ESG controversies, ESG business involvement, emission intensity, and climate risk management)	% of the Parent Index excluded following the application of the Index Provider's exclusionary criteria.	30.60%	34.67%

While the Sub-Fund is designed to reflect the relevant ESG characteristics through tracking the Underlying Index, alignment with those characteristics may not be maintained at all times due to index rebalancing and limitations in the availability, quality, coverage, or timeliness of third-party ESG data. Accordingly, some sustainability indicators reported may show minor fluctuations in certain metrics.

C. How did the scheme take any actions in attaining the scheme's ESG focus?

The Sub-Fund tracks the Underlying Index, which is designed to represent the performance of companies that have been assessed to lead their sector peers in terms of their positioning and actions relative to a climate transition.
