Dear Shareholder

**BlackRock Funds I ICAV (the "ICAV")
BlackRock Advantage Asia ex Japan Equity Fund
(the "Fund")**

We are writing to you as a Shareholder in the Fund, being a sub-fund of the ICAV.

We continually review our fund range to ensure that the investment characteristics and positioning of our funds remain both relevant to and consistent with the current investment environment and expectations of our clients.

We have recently completed a review of the Fund and are writing to notify you of our intention to update the prospectus to reflect the following changes to the Fund.

The proposed updates set out in this letter will take effect from on or around 22 May 2026 (the "**Effective Date**"). Terms used in this Letter will have the meanings assigned to them in the prospectus for the ICAV dated 1 April 2026 (the "**Prospectus**") unless the context indicates otherwise.

If you would like more information or to view the current Prospectus, you can visit www.blackrock.com

The ISINs for the Fund are set out in the appendix attached hereto.

Prospectus Updates

The supplement of the Fund will be updated to include details of a new benchmark index which will be used for risk management purposes, which will be the corresponding MSCI 10/40 index of the existing benchmark index used by the Fund. The Fund will retain its existing benchmark index as a performance comparator benchmark.

There will be no change in how the above Fund is managed arising from this update. The Fund will continue to be actively managed and the Investment Manager has discretion to select the Fund's investments and is not constrained by any benchmark in this process, as described in the Prospectus.

Rationale for the changes

The Directors are of the view that the changes described in this letter are in the best interests of Shareholders, as the Fund will continue to reference the MSCI parent benchmark index for performance measurement, while also incorporating the 10/40 version for risk management purposes to accurately reflect UCITS concentration limits.
