iShares MSCI EMU Paris-Aligned Climate

UCITS ETF

A sub-fund of iShares VII plc

EUR (Acc) Share Class

ISIN: IE00BL6K8D99

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund’s assets, which reflects the return of the MSCI EMU Climate Paris Aligned Benchmark Select Index, the Fund’s benchmark index (Index).
 - ▶ The Share Class, via the Fund, is passively managed and aims to invest so far as possible and practicable in the equity securities (e.g. shares) that make up the Index.
 - ▶ The Index aims to reflect the performance characteristics of a subset of equity securities within the MSCI EMU Index (Parent Index), which are selected and weighted to reduce exposure to transition and physical climate risks, and to pursue opportunities arising from the transition to a lower carbon economy whilst seeking to align with the objectives of the Paris Agreement as described further in the Fund’s prospectus. The Index excludes companies which are identified by the index provider as being involved in certain environmental, social and governance (“ESG”) controversies. The remaining constituents are selected and weighted based on specific thresholds and other criteria with the aim of collectively meeting certain decarbonization targets, reducing exposure to transition and physical climate risks and taking advantage of opportunities arising from the transition to a lower carbon economy.
 - ▶ The Fund may obtain limited exposure to securities considered not to satisfy the ESG criteria.
 - ▶ The Parent Index measures the performance of large and mid capitalisation stocks across developed market countries in the European Economic and Monetary Union (EMU) which comply with MSCI’s size, liquidity, and free-float criteria. Companies are included in the Parent Index based on the proportion of their shares in issue that are available for purchase by international investors.
 - ▶ The Fund intends to replicate the Index by holding the equity securities, which make up the Index, in similar proportions to it.
 - ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund’s investment objective. FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
 - ▶ The Fund adopts a best-in-class approach to sustainable investing, meaning it is expected to invest in the best issuers from an ESG perspective (based on the ESG criteria of the Index) within each relevant sector of activities covered by the Index. The portfolio of the Fund is reduced by at least 20% compared to the Parent Index. More than 90% of the issuers of securities the Fund invests in, excluding cash and money market funds, are ESG rated or have been analysed for ESG purposes.
 - ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
 - ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
 - ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
 - ▶ Your shares will be denominated in Euro, the Fund’s base currency.
 - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index’s ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund’s investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
