BlackRock World Mining Trust plc

Annual Report and Financial Statements 31 December 2024

Keeping in touch

We know how important it is to receive up-to-date information about the Company.

To ensure that you are kept abreast, please scan the QR code to the right of this page to visit our website. If you have a smartphone, you can activate the QR code by opening the camera on your device and pointing it at the QR code. This will then open a link to the relevant section on the Company's website. By visiting our website, you will have the opportunity to sign up to our monthly newsletter which includes our latest factsheets and market commentary, as well as upcoming events and webinars. Information about how we process personal data is contained in our privacy policy available on our website.

Further information about the Company can be found on our website at www.blackrock.com/uk/brwm.

General enquiries about the Company should be directed to the Company Secretary at: cosac@blackrock.com.

Register here to watch this year's Annual General Meeting (AGM)

For the benefit of shareholders who are unable to attend this year's AGM in person, we have arranged for the proceedings to be viewed via a webinar. You can register to watch the AGM by scanning the QR Code inside the cover of this Annual Report or by visiting our website at www.blackrock.com/uk/brwm and clicking on the registration banner.

Please note that it is not possible to speak or vote at the AGM via this medium and joining the webinar does not constitute attendance at the AGM. Shareholders wishing to exercise their right to attend, speak and vote at the AGM should either attend in person or exercise their right to appoint a proxy to do so on their behalf. For further details please see page 7 of the Annual Report.

Use this QR code to take you to the Company's website where you can sign up to monthly insights and factsheets.

³ NAV per ordinary share, mid-market share price and reference indices performance are calculated in Sterling terms with dividends reinvested.

⁴ Consumer Price Index.

The technology and infrastructure crucial to the energy transition is reliant on a core set of metals that includes copper, aluminium, nickel, cobalt, lithium, manganese, zinc and iron. We actively seek opportunities in companies producing these materials. Just under a quarter of the portfolio was exposed to copper at the year end.

Why BlackRock World Mining Trust plc?

Investment policy

The Company's investment policy is to provide a diversified investment in mining and metal assets worldwide, actively managed with the objective of maximising total returns. While the policy is to invest principally in quoted securities, the Company's investment policy includes investing in unquoted investments, royalties derived from the production of metals and minerals as well as physical metals. Up to 10% of gross assets may be held in physical metals and up to 20% may be invested in unquoted investments.

Reasons to invest

Importance of mined materials

Mined materials play a crucial role in modern society by supporting economic growth, improving living standards and driving technological change. As part of its portfolio, the Company seeks opportunities in mining companies that produce materials required for the low carbon transition.

Opportunities

Unconstrained by market cap, sub-sector or region, the portfolio managers' expertise and analysis can identify unique opportunities including in unlisted companies, which are hard to access by the majority of investors.

"Virtual" mining company

The Company provides diversified exposure to the mining sector, with a total return approach. The portfolio managers seek to create the optimal synthetic mining company, with the ability to dynamically allocate investments in different companies and commodity exposures without the constraints of an operating company that develops and manages fixed assets.

Yield

The Company offered an attractive yield of 4.8% for the year ended 31 December 2024. Whilst mainly invested in equities, the Company makes use of fixed income and unquoted instruments as well as option writing to enhance income. The Company's global remit means that its holdings generate earnings from around the world.

Expertise

The Company is managed by BlackRock's Thematics and Sectors team, one of the largest investors in natural resources in terms of assets under management. The team has the ability to undertake extensive, proprietary, on-the-ground research and is well placed to assess capability and quality of management of the companies in which they invest.

Closed-end structure

Shareholders' interests are protected by an independent Board of Directors with specialist and diverse experience. The closed-end structure means the Company does not have to sell assets to meet redemptions, making it more suitable for holding less liquid assets and over longer investment periods. It can also use gearing.

- Share price **-12.7%¹ (with dividends reinvested)**
- Total dividends of **23.00p per share**

Charles Goodyear
Chairman

Overview

2024 proved to be a challenging year for the commodity market. Negative sentiment regarding China, particularly in the country's domestic property market, and geopolitical turmoil across the globe, including the war between Russia and Ukraine, and the conflict in the Middle East, continued to destabilise markets.

Approximately half of the world's population went to the polls in 2024, fostering a volatile economic climate. The results of the US election increased uncertainty around global trade and stimulus measures announced by China had an underwhelming effect on domestic demand expectations. All of these items generated continued concern for global growth causing commodity prices to come under pressure.

Performance

Over the twelve months to 31 December 2024, the Company's net asset value per share (NAV) returned -10.7%¹ and the share price returned -12.7%¹. Over the same period, the Company's reference index, the MSCI ACWI Metals & Mining 30% Buffer 10/40 Index (net total return), returned -9.9%, the FTSE All-Share Index returned +9.5% and the UK Consumer Price Index (CPI) increased by 3.5%.

Our portfolio managers provide a more detailed explanation of the Company's performance during the year in their report on pages 9 to 22. They also provide more insight into the positioning of the portfolio and their views on the outlook for the coming year.

Revenue return and dividends

The Company's revenue per share for the year to 31 December 2024 was 23.09p, a 32.0% decrease compared to the prior year revenue per share of 33.95p. The decrease was driven by lower dividend payments from a number of key mining companies as they chose to invest in future growth opportunities.

During the year, three quarterly interim dividends of 5.50p per share were paid. The Board is proposing a final dividend payment of 6.50p per share for the year ended 31 December 2024. This, together with the quarterly interim dividends, makes a total of 23.00p per share (2023: 33.50p per share) representing a decrease of 31.3% on payments in 2023.

¹ Alternative Performance Measures. All percentages calculated in Sterling terms with dividends reinvested. Further details of the calculation of performance with dividends reinvested are given in the Glossary on page 149.

As in past years, all dividends are fully covered by income. In accordance with the Board's stated policy, the total dividends represent substantially all of the year's available income.

Subject to approval at the Annual General Meeting, the final dividend will be paid on 27 May 2025 to shareholders on the Company's register on 21 March 2025, the ex-dividend date being 20 March 2025.

Gearing

The Company operates a flexible gearing policy which depends on prevailing market conditions. It may borrow up to 25% of the Group's net assets. The maximum level of gearing used during the year was 14.7% and the level of gearing at 31 December 2024 was 12.0%. Average gearing over the year to 31 December 2024 was 11.6%.

Management of premium/discount

The Directors recognise the importance to investors of the market price of the Company's shares relative to the underlying NAV. Accordingly, in normal market conditions, the Company may repurchase shares or reissue shares from treasury or issue new shares (at a premium to NAV) to manage the premium or discount at which the Company's shares trade, where it is deemed to be in shareholders' interests.

Over the Company's financial year ending in December, the Company's shares have traded at an average discount of 5.2%. During the year, the Company purchased 165,000 shares at an average price of 529.70p per share at an average discount of 10.0% for a total cost of £874,000. Since the year end and up to 28 February 2025, a further 150,000 shares have been bought back at an average price of 490.00p per share for a total cost of £735,000. All shares have been placed in treasury. No shares were issued in 2024 or in 2025 up to the date of this report.

Resolutions to renew the authorities to issue and buy back shares will be put to shareholders at the forthcoming Annual General Meeting.

Board composition

Having served nearly nine years, Jane Lewis will not be seeking re-election at the forthcoming Annual General Meeting (AGM) and will retire from the Board with effect from the conclusion of the meeting. The Board wishes to thank Ms Lewis for her wise counsel and valuable contribution to the Company over her tenure as a Director.

The Board has appointed an external recruitment firm, Cornforth Consulting, to undertake a search process to identify a new Director with the skills the Board has identified it requires. We will announce the appointment of a new Director following the AGM.

In order to manage succession planning for the remainder of the Board and to ensure an element of continuity, Judith Mosely, the Company's Senior Independent Director, will retire following the AGM to be held in 2026.

Agreement with Saba

On 22 January 2025, the Board entered into an agreement with Saba Capital Management L.P. (Saba) pursuant to which Saba has provided a number of undertakings which has the effect of limiting certain actions by Saba. The press release can be found at the following link: www.londonstockexchange.com/news-article/BRWM/agreement-with-saba/16863479. The agreement lasts until the earlier of the day following the completion of the Company's 2027 AGM or 31 August 2027. The agreement does not limit Saba's ability to acquire or dispose of shares in the Company.

Shareholder communication and engagement

We appreciate how important access to regular information is to our shareholders. To supplement our Company website, we offer shareholders the ability to sign up to the Trust Matters newsletter which includes information on the Company as well as news, views and insights on the investment trust market. Information on how to sign up is included on the inside front cover of this Annual Report.

The Board encourages all shareholders to either attend the AGM or exercise your right to vote by proxy. The Board has sought to engage with shareholders who hold their shares through an intermediary or platform via the provisions of Section 793 of the Companies Act 2006. In addition, the Board is aware that certain execution only investment platforms are now providing shareholders with the ability to vote electronically. The Board encourages shareholders to take advantage of this functionality where it is available to you. For those of you who hold shares via platforms, information on how to vote can be found here: <https://www.theaic.co.uk/availability-on-platforms>.

Annual General Meeting arrangements

The Company's AGM will be held at the offices of BlackRock at 12 Throgmorton Avenue, London EC2N 2DL on Wednesday, 21 May 2025 at 11.30 a.m. Details of the business of the meeting are set out in the Notice of Meeting on pages 156 to 159 of this Annual Report.

The Board very much looks forward to meeting shareholders and we encourage you to attend this year's AGM. In the meantime, if shareholders would like to contact me, please write to BlackRock World Mining Trust plc, 12 Throgmorton Avenue, London EC2N 2DL, marked for the attention of the Chairman.

Outlook

As we enter 2025, we continue to be excited by the continued enthusiasm for the energy transition minerals, the emerging demand for the minerals and energy resources necessary to support the emerging artificial intelligence space, the continued efforts by China to find the right economic support to foster domestic demand and the positive outlook in the United States. All of these opportunities will require significant natural resources against a backdrop of continued declining grades and increasing project development timelines. We continue to identify companies with dedicated management teams that are focused on cost management, innovative project opportunities and solid financial structures. While the generalist investors are focused on other areas of the market, we are finding the opportunity to put your funds to work in attractive long-term opportunities.

Of course, the geopolitical challenges we have seen in 2024 will continue to impact the near-term economic environment but the fundamental need for commodities to support our modern economy will remain. It is in these environments that the foundations for long-term outperformance are established.

Charles Goodyear

Chairman

4 March 2025

Investment Manager's Report

Evy Hambro

Olivia Markham

Market overview

2024 was disappointing with the Company's net asset value (NAV) total return being negative despite several themes playing out as expected during the year. The NAV total return in the first half was lacklustre with the relative performance of the NAV behind that of the reference index (MSCI ACWI Metals and Mining 30% Buffer 10/40 Index (net total return)) due to factors which were covered in the 2024 Half Yearly Financial Report. During the second half of the year, relative performance was much improved despite economic weakness in China, Europe and other parts of the world adding downward pressure on commodity prices. The overall move lower was significant and, despite a brief China induced rally in September 2024, the year finished in negative territory. The final quarter of the year was particularly poor with share prices of many companies declining.

In addition to the economic headwinds, demand for exposure to the mining sector declined as investor focus remained on the influential US large cap technology stocks, known as "the Magnificent 7", and the artificial intelligence (AI) theme. This led to share prices failing to capture the performance of the underlying commodity price moves which were generally positive. Despite the disappointing year, and probably to the surprise of many people, the sector has done well versus the performance of world markets over the last five years apart from when it underperformed in Q4 of 2024.

Filo Mining, a key holding of the Company, was jointly acquired at a premium by BHP and Lundin Mining. A joint venture established by both companies will develop a potential tier-1 copper asset in the Vicuña district of Argentina.

PHOTO COURTESY OF FILO MINING

Mining equities, broader equity markets and commodities – performance rebased to 100

Source: BlackRock.

Within the commodity space, the key performers during the year were the gold and silver prices which enjoyed strong returns, up by 27.2% and 21.5%, respectively. Yet the gold mining companies were unable to convert this into meaningful returns. The FT Gold Mines Index was only up by 7% in 2024. However, there was significant dispersion in returns between the companies, as we discuss below. The industrial metals suite was generally positive but volatile. Copper, a key exposure within the Company, was up approximately 8% when looking at year-on-year average price levels. The battle for control of future production resulted in a number of merger & acquisitions (M&A) events which delivered solid gains for the portfolio.

For the year ended 31 December 2024, the NAV total return of the Company was -10.7% and the share price total return was -12.7% as the discount widened over the year. This compares to the FTSE 100 Index returning +9.7%, Consumer Price Index (CPI) up by 3.5% and the reference index returning -9.9% (all numbers in Sterling terms with dividends reinvested).

Dispersion frustrations

As highlighted above, the huge frustration during the year has been a breakdown in the relationship between commodity prices and the share prices of the companies that produce them. Historically, mining equities have been a very efficient way to capture returns from commodity markets. The combination of option like leverage at the earnings level, combined with exploration, volume growth, dividends and M&A has delivered superior share price returns to the underlying commodity price moves. In the last few years this relationship has been tested.

The key areas where this was felt in the portfolio were in large mining companies that simply did not perform as they have historically. In the copper sector the “go to” company, **Freeport-McMoRan**, generated a -9.4% total return during the year whilst the average price of copper was up by approximately 8%. Across the gold sector, the two largest producers, **Newmont Corporation** and **Barrick Gold**, generated -7.9% and -12.3% returns respectively, compared to the average gold price which was up by 23.0%. Examples like this can be found across the mining sector.

There are, of course, numerous exceptions but these seem to have been driven by specific events. In copper, M&A delivered returns of 38% in USD terms for investors in **Filo Mining**, a holding of the Company, when this was bought by **BHP** and **Lundin Mining**. In gold, Centamin was acquired by **AngloGold Ashanti** resulting in a 44% return for investors.

The reduced correlation between mining company share prices and underlying commodity prices remains prevalent and it is the result of the mining companies’ inability to convert the higher commodity prices into increased free cash flow, earnings and dividends. Much of the beta has been consumed by cost inflation, rising maintenance expenditure and a recent pick-up in growth capital. Management teams that can unlock the conversion of higher revenues into free cash flow, earnings and dividends are likely to be the winners in the years to come.

ESG (Environmental, Social and Governance) and the social license to operate

ESG issues are highly relevant to the mining sector and we seek to understand the ESG risks and possible opportunities facing holdings in the portfolio. As an extractive industry, the mining sector naturally faces a number of ESG challenges given its dependence on water, carbon emissions and the geographical location of assets. However, the sector provides critical infrastructure, taxes and employment to local communities, as well as materials essential for the energy transition.

As part of our investment process, we consider ESG insights and data, including ESG risks. ESG insights are not the sole consideration when making investment decisions but, in most cases, the Company will not invest in companies which have high ESG risks (risks that affect a company's financial position or operating performance) unless there are plans to address the deficiencies.

- We take a long-term approach, focused on engaging with company boards and executive leadership to understand the drivers of risk and financial value creation in business models, including material ESG-related risks and opportunities.
- Where a serious event has occurred we will assess whether the relevant portfolio company is taking appropriate action to resolve matters before deciding whether or not to retain our investment.
- There will be companies which have derated (the downward adjustment of multiples) as a result of an adverse ESG event or due to poor ESG practices. This may present opportunities to invest at a discounted price. However, the Company will only invest in these value-based opportunities if we are satisfied that there is real evidence that the company's culture has changed and that better operating practices have been implemented.

Once again, an important focus of engagement this year related to how companies are reducing carbon emissions. By and large, most companies are making reasonable progress. For example, BHP announced that emissions reduction versus the 2020 baseline was already 32% lower, ahead of the stated 2030 goal.

Governance is also an area of focus. There have been examples where companies have acted contrary to best practices. Examples include CEOs moving to the position of Chairman, CEO option awards having exercise prices reset to lower levels and compensation awards not matching company performance. The worst example related to a gold mining company where a poorly executed equity raise resulted in a substantial share price fall. Shareholders were then invited to vote on the award of options to the CEO at exercise prices set at much lower levels than the price during the disastrous equity raise. Despite huge opposition, the proposal narrowly passed and the CEO accepted the award. This is a governance issue that we raised, although the Company did not own shares in the gold mining company.

Site visits in 2024 focused on seeing growth projects, receiving updates on existing assets, evaluating country risk, reviewing ESG work and meeting with new leadership teams.

Positive commodity returns

The year was generally positive for the main commodities within the Company's portfolio. Average prices for the year, which are key to corporate profitability, were materially better than 2023. This is in contrast to the past two years where prices were weaker across the board.

In 2024 nickel, lithium and palladium suffered from oversupply at a time of weakness in the automobile industry (palladium for exhaust systems and nickel/lithium for batteries). These lower prices are now well below the cost curve which has triggered a supply side response, but not yet sufficient to move the market back into balance.

Iron ore prices have been resilient with average pricing for the past three years remaining around US\$100/tonne, a level at which the industry enjoys significant profitability. New supply is coming online between now and the end of the decade and steel demand growth will be needed to absorb these additional supplies.

Commodity price moves

Commodity	31 December 2024	% Change in 2024	% Change average prices 2024 vs 2023
Gold US\$/ounce (oz)	2,624.5	+27.2	+22.9
Silver US\$/oz	28.9	+21.5	+20.7
Platinum US\$/oz	907.6	-8.5	-1.2

Lithium carbonate US\$/lb	10,343.0	-23.4	-63.2

Sources: LSEG Datastream and Bloomberg, December 2024.

Look through commodity exposure

With a large proportion of the Company's NAV invested in the diversified mining companies, we have provided a more detailed understanding of the portfolio's underlying commodity exposure at 31 December 2024 looking through the commodity exposure of the underlying holdings:

Look through commodity exposure of the Company based on portfolio holdings as at 31 December 2024

Others include coking coal, lithium, nickel, thermal coal, zinc, mineral sands, rare earths, diamonds and platinum group metals
Source: BlackRock

Our methodology takes our existing sub-sector breakdowns but breaks out the diversified miners sub-sector based on their H1 2024 percentage contribution to EBITDA by commodity and then multiplied them by the respective position size as at end of December 2024 and added these on to the existing sub-sector exposures. Please note, for **BHP**, we have used 12 months to the end of June 2024, given its specific reporting period. We have also made an adjustment for **Glencore** acquiring **Teck Resources'** coking coal assets.

Income

The Company was again able to generate a competitive income return from the portfolio. Although the absolute level of income was down, the yield remains comparable to alternatives available to investors from other sectors.

Mining sector dividend yield versus yield on FTSE 100 and S&P500 Index

Revenue from ordinary dividends fell once again as companies were unable to match payments in the prior year due to lower levels of profitability and higher reinvestment to build their assets base. Yet historic dividend policies mostly remain in place with companies maintaining the commitment to shareholder returns.

In aggregate, other sources of income for the Company were comparable to prior years, highlighting the benefits of diversification. Royalty income was 10%, option income increased to 20%, while income from fixed income securities declined to 1% given the compression in yields we have seen across the sector.

Source of dividends and quantum/share for last ten years (£)

Source: BlackRock.

Income levels in 2025 are expected to be similar to those in 2024 given current commodity prices. We believe there is room for an upside in some areas such as gold.

Base metals

Copper, aluminium and zinc all finished the year higher. Copper benefited from improved demand, declining interest rates and stimulus measures in China. This resulted in a new all-time high for the copper price and the strong copper-producer performance during the first half the year. However, the second half of the year was more challenging as demand conditions in China, particularly linked to property, worsened and the Federal Reserve dampened expectations for the pace of interest rate cuts. While prices softened, we have seen good downside cost support given supply tightness in copper and zinc and rising costs for aluminium.

Copper is supported by China’s focus on green spending, with spending on the electric grid up 21% year-on-year and investments in the renewable energy sector remaining strong. In 2024, China’s overall copper demand was up 6%. When we look at the growth in new demand from the energy transition sector, it matches the amount of new supply expected to reach the market. If we see traditional demand stabilise and even improve, we expect to see the copper market tighten quickly.

In November we visited Chile to see a series of copper assets, including Escondida, the world’s largest copper mine. **BHP** has outlined a plan to spend up to US\$15 billion across its Chilean copper assets as it looks to offset 400 kilotons of production decline. This is a significant investment, yet it adds limited new copper tonnes to the market and highlights the difficulty in growing supply. We believe we need higher copper prices to generate an appropriate return on new investments and to offset operating cost inflation.

In November we visited a number of assets in Chile, including Escondida, the world's largest copper mine.

PHOTO COURTESY OF BHP

At 31 December 2024 the Company had 24.8% of the portfolio exposed to copper producers, boosting performance. Pure play copper producers **Ivanhoe Mines**, **Sociedad Minera Cerro Verde** and **Capstone Mining** were the standout names, up between 20-30% for the year. Ivanhoe Mines has done an excellent job increasing production at its Democratic Republic of the Congo based asset, Kamo-a-Kakula. As we look into 2025, the focus for Ivanhoe Mines is to commission the smelter, gaining greater access to the Lobito rail corridor and improving power availability, which should see costs decline by more than 20%. Ivanhoe Mines has exciting exploration potential via its Western Forelands deposit which is adjacent to Kamo-a-Kakula. Among our other copper positions, Filo Mining was acquired at a premium by BHP and Lundin Mining. We expect it to become a tier-1 copper asset in the next decade. Given our expectation for copper demand growth and increasing M&A appetite for quality copper assets, we continue to add to our copper exploration and development exposure via names such as **Foran Mining**, **MCC Mining** and **NGEx Minerals**.

In the aluminium market, alumina prices more than doubled due to bauxite issues in the Republic of Guinea and tightness in refinery capacity. We expect the tightness in alumina prices to moderate as more refining capacity is built in China and Indonesia over the next 12 months. The Company took advantage of this tightness by increasing its investment in **Alcoa**. Aluminium demand has been supported by strong solar and grid investment in China where it is likely to reach its peak production cap of 45 million tonnes per annum in 2025 and, given the lack of new aluminium capacity being added ex-China, we see the potential for this to put upwards pressure on aluminium premiums.

Zinc was the best performing base metal during the year, up 13%. While the demand outlook for zinc has been muted, action taken from the industry to curtail higher cost production a few years back has tightened the market balance and in turn supported prices. This tightness has been most acute for the smelters where we saw negative spot treatment charges for zinc as they aggressively bid to access material. Zinc exposed holdings in the portfolio include **Glencore**, **Teck Resources** and **Develop Global**. Nickel was the underperformer among the base metals. Indonesia continues to increase supply, resulting in an oversupply in the nickel market. A key question for 2025 is how this evolves given the Indonesian government is reducing available production quotas by 9% year-on-year.

Bulks and steel

Iron ore prices fell 30% year-on-year and the average price dropped 9% versus 2023. Supply growth from the major producers during 2023 and the first half of 2024 has seen greater port inventories in China, which combined with a contraction in steel demand, put downward pressure on the iron ore price.

A key feature of the iron ore market in recent years has been its resilience to lower prices. High-cost supply from India and China is price sensitive and acts to balance the market quickly. This has maintained the price above its cost curve price support of US\$80-90/tonne. We expect this relationship to be maintained near term. However, there are risks as new supply from Guinea emerges over the next couple of years.

Iron ore price resilience

Source: BlackRock.

Given the importance of the iron ore price to the free cash flow of the diversified miners, an important question is how the major producers manage volumes with extra supply expected to come online. Iron ore assets face depletion and there is a constant need to replace reserves. **Vale** estimates annual depletion rates of 3% across the major seaborne iron ore producers. This requires the iron ore producers to constantly reinvest to maintain current production levels.

The Company's exposure to iron ore is primarily in **Rio Tinto**, **BHP** and **Vale**, which have all had a challenging year with share prices declining by 19%, 27% and 44%, respectively. The Company has reduced its exposure to these companies over the year, in particular to Vale. The Company also has exposure to two pure-play high-grade iron ore producers, **Champion Iron** and **Labrador Iron** whose share prices declined by 31% and 17%, respectively. We have also taken a position in **Fortescue** following the 37% fall in its share price.

In the metallurgical coal market, prices for top quality hard coking coal dropped by 39.3%. China has reduced its imports of Australian and Canadian metallurgical coal, instead increasing its imports of Russian and Mongolian coal, and India's steel production softened in the second half of 2024 decreasing the demand for metallurgical coal. We have seen increased M&A activity, with **Glencore** acquiring a 77% interest in Teck Resources' Canadian Elk Valley Resource (EVR) coking coal business for US\$6.9 billion. **Anglo American** announced the sale of its Australian coking coal assets for up to US\$4.9 billion.

The thermal coal market has returned to a more balanced position this year. China remains a significant importer of thermal coal and, as we have seen in recent years, many western world thermal coal producers have committed to reduce production over time. This has left the market tight and vulnerable to price spikes. The Company's thermal coal exposure is primarily via our 6.7% position in **Glencore** which has used elevated prices in recent years to deleverage. Glencore announced in August that they will retain both their thermal and metallurgical coal businesses and remain committed to the responsible rundown of the thermal coal operations. We expect higher cash generation from Glencore with the inclusion of EVR and the proceeds from the Viterro asset sale.

Precious metals

Gold surged 27.2% in US Dollar terms to US\$2,625/oz, supported by central bank demand, physical demand in Asia and, in the final quarter, inflows into physically backed gold exchange traded funds. Geopolitical tensions remained elevated through 2024, which contributed to demand.

The increase in the gold price has occurred in the face of what would historically have been major headwinds: rising real interest rates and a stronger US Dollar. We believe these relationships remain important but prices have reset at new levels.

It was disappointing to see gold mining shares fail to turn improved prices into profits. Production costs rose significantly from 2021 to 2024 and we have also seen a number of production downgrades. We believe we are past peak cost inflation and are positive about the direction for margins at these prices.

FTSE Gold Mines Index versus the gold price (rebased to 100)

Source: BlackRock.

The figures shown relate to past performance. Past performance is not a reliable indicator of current or future results.
Sources: Morgan Stanley and LSEG Datastream, 31 December 2024.

The portfolio's largest gold miner, Agnico Eagle Mines, delivered a total return of 48% in sterling terms.

PHOTO COURTESY OF AGNICO EAGLE MINES

Gold equities still look attractively valued versus their history. M&A activity has increased and we expect further consolidation given the issues the sector faces around declining reserve lives. We think gold producers delivering on free cash flow and capital discipline could be a catalyst to re-rate the space over the next 12 months. The Company finished the year with circa 21% of its portfolio exposed to gold miners, with its largest holding **Agnico Eagle Mines** (5.2% of the portfolio) delivering a total return of 48% in Sterling terms, versus a 27.2% move in spot gold prices in US Dollar terms.

Demand for the Platinum Group Metals (PGMs) continues to be impacted by the weakness in global automobile production and the continued growth in electric vehicles (EV) which do not use PGMs. Research from Morgan Stanley estimates a 1 million oz negative impact on PGM demand over the past four years from increasing EV market share and a reduction in PGM loadings for internal combustion engines/hybrid vehicles. A key question going forward is PGM use in hybrid EVs. We see this as providing some upside to PGM demand relative to current expectations.

The Company's exposure to PGM producers was 1.7% for the portfolio at the year end. **Bravo Mining** (0.8% of the portfolio) is a PGM and nickel exploration company in Brazil. During the year the company announced some exciting exploration results with the discovery of copper-gold mineralisation east of its Luanga deposit and we look forward to receiving additional drill results in 2025. The Company invested in Bravo Mining pre-initial public offering (IPO) in April 2022 at US\$0.50/share based on our belief in the assets and the strong management team. At 31 December 2024, Bravo Mining was trading at circa CAD 1.76/share, even after a share price fall in 2024.

Recognition of the key role nuclear energy can play in reaching Net Zero helped uranium producer Cameco rise 21.8%. The company is a western supplier of nuclear fuel and engineering through its ownership interest in Westinghouse.

PHOTO COURTESY OF WESTINGHOUSE ELECTRIC COMPANY

The energy transition

In 2024 global battery electric vehicle (BEV) sales were expected to reach around 17 million units, up from approximately 14 million in 2023. This growth is driven by several factors, including rapidly falling battery prices, advancements in next-generation battery technology and improving economics of BEVs. However, an oversupply of raw materials for batteries, such as lithium and cobalt, continued to weigh on pricing. The lithium carbonate price fell by 23% in 2024, ending the year at US\$10,050 per tonne, far from the record prices above US\$70,000 per tonne in 2022.

Despite this, the strategic importance of lithium in the global transition to renewable energy was underscored by Rio Tinto's bid for Arcadium Lithium in October 2024, which had a ripple effect on the entire lithium market. The Company's position in **Sigma Lithium** had a negative impact on performance in 2024 after Sigma's review process failed to result in a sale. The company is now focusing on its near-term expansion plans which include doubling production in 2025. Sigma Lithium's stock price fell 64% in 2024.

A critical component of EVs is the e-motor, which most commonly uses a Praseodymium-Neodymium (NdPr) magnet, an alloy of two rare earth elements (REE). The supply of REE is majority controlled by China but has been deemed of strategic importance by both Europe and the US. The Company has exposure to REEs through **Lynas Rare Earths** (Lynas), a REE miner and processor based in Malaysia and Australia. Lynas' stock price fell 10.0% in 2024 after a period of weaker REE pricing. Lynas is in the process of completing several initiatives to benefit from the demand for non-Chinese supply of REE, including heavy rare earth separation and expanding its mining and processing throughput in Australia.

In 2024 there was increased recognition of the key role of nuclear energy in the energy transition. The strategic importance of uranium was highlighted by Microsoft's agreement with Constellation Energy to restart the Three Mile Island nuclear plant in Pennsylvania. This is part of Microsoft's efforts to secure carbon-free electricity for its AI data centres. The Company's holding in uranium producer **Cameco** rose 21.8% in 2024, as the market continued to reward its position as a western supplier of nuclear fuel and engineering.

Royalty and unquoted investments

As at the end of 2024, the unquoted investments in the portfolio amounted to 8.4% of the portfolio and consist of the **BHP Brazil Royalty**, the **Vale Debentures**, **Jetti Resources** and **MCC Mining**. These, and any future investments, will be managed in line with the guidelines set by the Board as outlined to the shareholders in the Strategic Report.

BHP Brazil Royalty Contract

In 2014 the Company invested US\$12 million in return for a royalty (net revenue after deductions for freight, smelter and refining charges) comprising 2% on copper, 25% on gold and 2% on all other metals produced from mines built on Avanco's Antas North and Pedra Branca licences. In addition, there is a flat 2% royalty over all metals produced from any other discoveries within Avanco's licence area.

BHP Brazil Royalty payments

Since our investment, Avanco was acquired by OZ Minerals, with BHP acquiring OZ Minerals. BHP is currently the operator of the mine. The Company has received US\$32 million in royalty payments with the royalty achieving full payback on the initial investment in 3½ years. At the end of December 2024, the royalty was valued at £22.2 million (2.0% of the portfolio) which equates to a 419.4% return on the initial US\$12 million invested.

We are pleased to report that production at Pedra Branca has normalised following a geotechnical event in the second half of 2023. Recent results show an improvement in production during 2024. During the year the valuation of the royalty was increased, primarily driven by an increase in the long-term price assumption for gold.

Vale Debentures

At the beginning of 2019 the Company completed a significant transaction to increase its holding in Vale debentures. The debentures consist of a 1.8% net revenue royalty over Vale's Northern System and Southeastern System iron ore assets in Brazil, as well as a 1.25% royalty over the Sossego copper mine. The iron ore assets are world class given their grade, cost position, infrastructure and resource life.

Distribution payments are expected to grow once royalty payments commence on the Southeastern system which Vale currently expects to occur in 2025. During 2024 we have seen an improvement in Vale's iron ore volumes and we expect to see further volume improvement over the medium term.

Since our investment in 2019 when we acquired the debentures for R\$23 million, we have received R\$22 million in distributions which represents a payback on the initial investment in six years versus the underlying asset resource life in excess of 50 years. As at the end of December 2024, the Company's exposure to the Vale Debentures was 2.7%.

Distribution on Vale Shareholders' debenture payments

Source: BlackRock.

Whilst the Vale Debentures are a royalty, they are also a listed security on the Brazilian National Debentures System. As we have highlighted in previous reports, shareholders should be aware that historically there has been a low level of liquidity in the debentures and price volatility is to be expected.

Jetti Resources (2.0% of the portfolio)

In early 2022 the Company made an investment into a mining technology company, Jetti Resources (Jetti), which has developed a new catalyst that improves copper recovery from primary copper sulphides (specifically copper contained in chalcopyrite) which is often uneconomic under conventional leach conditions. Jetti is currently trialling its technology across a number of mines where it will look to integrate their catalyst into existing heap leach SX-EW mines to improve recoveries at a low capital cost. The technology is currently being used at Capstone Mining's Pinto Valley copper mine and trialled at a series of other copper operations, most notable Escondida the world's largest copper mine, where we expect an investment decision to be made during 2025 to approve its use at scale.

During the year the Company has chosen to reduce the holding value in Jetti by 19.2% from 2023 to reflect the longer contract negotiation process and slower roll-out of its leaching technology across targeted assets which has delayed revenue projections for the company. This remains 75% above the valuation where the Company initially acquired its holding in 2022.

MCC Mining (1.3% of the portfolio)

MCC Mining is a private company exploring for copper in Colombia. It is undertaking early-stage greenfield exploration and its asset base has strong geological potential to host multiple world class porphyry deposits. Shareholders include other mid- to large-cap copper miners, which is an indication of the strategic value of the company. Following new regulations in Colombia which allowed for the exploration drilling in the forestry reserve, the company commenced drilling at its Comita and Pantanos deposits in 2023. Drilling to date has been very encouraging with two porphyry deposits confirmed at Comita and Pantanos. The company successfully completed a US\$50 million funding round at a 50% premium to our initial investment and in the second half of the year the Company modestly increased its exposure to MCC Mining.

Derivatives activity

The Company from time to time enters into derivatives contracts, mostly involving the sale of “puts” and “calls”. These are taken to revenue and are subject to strict Board guidelines which limit their magnitude to an aggregate 10% of the portfolio. All derivatives are appropriately covered at all times. In 2024 income generated from options was £10.2 million which was considerably above prior years. The increase was driven by a range of specific opportunities such as M&A, short-term spikes in volatility and greater breadth in the opportunity set. At the end of the year the Company had 0.1% of the net assets exposed to derivatives and the average exposure to derivatives during the year was less than 5% of net assets.

Gearing

At 31 December 2024 the Company had £135.7 million of net debt, with a gearing level of 12.0%. The debt is held principally in US Dollar rolling short-term loans and managed against the value of the debt securities and the high yielding royalty positions in the Company. This year debt was generally held against the breadth of the portfolio and for use in derivative transactions. In addition, a small number of new holdings were made in debt like securities that have higher yields than both the cost of the debt and the underlying equities. In summary, debt came with a higher cost and this meant absolute gearing was kept below that of prior years to minimise the interest cost.

Outlook

We remain confident that supportive demand trends, strong balance sheets, limited supply growth and low valuations are likely to underpin a recovery to positive returns, especially after such a negative final quarter to the year. Yet we are also realistic that this upside requires a catalyst.

In the near term there are several factors that are likely to hold back the sector, including uncertainty around China. It is clear that the Chinese government has recognised the issues needed to support the economy and drive change, but has not delivered the significant stimulus program the markets have been looking for to catalyse material improvement in economic activity. Uncertainty is also high regarding the scope, scale and timing of tariffs that President Trump is willing to use, which could lead to a slowdown in global trade.

The sector remains highly exposed to key trends driving global markets such as the energy transition and AI. On AI, the staggering scale of investment in data centres requires enormous amounts of materials to build the infrastructure: copper for the energy intensive connections and the metals needed for nuclear rejuvenation.

In summary, 2024 failed to meet expectations in terms of share price performance. But with fundamentals intact, low valuations, competitive shareholder returns and a positive outlook currently ignored by the broader market, it feels as though we are well positioned to capture returns when near-term issues fade.

Evyn Hambro and Olivia Markham

BlackRock Investment Management (UK) Limited

Portfolio

Diversified mining giant BHP was the portfolio's largest holding at the end of the year.

PHOTO COURTESY OF BHP

PHOTOS COURTESY OF BHP, RIO TINTO, GLENCORE, ANGLO AMERICAN, AGNICO EAGLE MINES, VALE, FEEPORT MCMORAN, WHEATON PRECIOUS METALS, CAMERO.

Ten largest investments

Together, the Company's ten largest investments represented 52.7% of the Company's portfolio as at 31 December 2024 (2023: 54.8%).

1 ▶ BHP^{1,2} (2023: 1st)

Diversified mining group

Market value: £99,586,000

Share of investments: 9.1% comprising equity of 7.1% and mining royalty of 2.0% (2023: 10.1%)

The world's largest diversified mining group by market capitalisation. The group is an important global player in a number of commodities including iron ore, copper, nickel, metallurgical coal and potash.

2 ▲ Rio Tinto (2023: 4th)

Diversified mining group

Market value: £78,643,000

Share of investments: 7.2% (2023: 7.3%)

One of the world's leading mining groups. The British-Australian group's primary product is iron ore, but it also produces aluminium, copper, diamonds and industrial minerals.

3 ▶ Glencore (2023: 3rd)

Diversified mining group

Market value: £65,792,000

Share of investments: 6.0% (2023: 8.3%)

One of the world's largest globally diversified natural resources groups. The group produces copper, nickel, alumina/aluminium, zinc and thermal and metallurgical coal and also has a commodity marketing/distribution business.

4 ▲ Anglo American (2023: 17th)

Diversified mining group

Market value: £64,013,000

Share of investments: 5.9% (2023: 1.9%)

A globally diversified group with exposure to copper, premium iron ore, crop nutrients and other commodities. The company is currently undertaking a restructuring to simplify the business.

5 ▲ Agnico Eagle Mines (2023: 19th)

Gold producer

Market value: £56,737,000

Share of investments: 5.2% (2023: 1.6%)

A senior gold producer and the second-largest in the world by market capitalisation. The company has operations in Canada, Finland, Australia and Mexico.

Ten largest investments

continued

6 ▼ **Vale**^{2,3} (2023: 2nd)

Diversified mining group

Market value: £49,055,000

Share of investments: 4.5% comprising equity of 1.8% and debentures of 2.7% (2023: 9.6%)

Vale is the world's largest producer of iron ore and iron ore pellets and the world's largest producer of nickel. The group also produces nickel, copper and cobalt as part of its base metals division.

7 ▼ **Freeport-McMoRan**⁴ (2023: 5th)

Copper producer

Market value: £47,842,000

Share of investments: 4.4% (2023: 5.0%)

A global mining group producing copper, gold and molybdenum. The company has operations in Indonesia, North America and South America.

8 ► **Wheaton Precious Metals** (2023: 8th)

Gold producer

Market value: £42,312,000

Share of investments: 3.9% (2023: 3.0%)

One of the world's largest precious metals streaming companies. The company provides financing to traditional mining companies in exchange for a percentage of the metals produced by one or more of the companies' mines.

9 ▲ **Cameco** (2023: 11th)

Uranium producer

Market value: £36,909,000

Share of investments: 3.4% (2023: 2.3%)

One of the largest global providers of uranium fuel for nuclear power. The company has uranium assets in Canada, the US and Kazakhstan.

10 ▼ **Barrick Gold** (2023: 7th)

Gold producer

Market value: £33,626,000

Share of investments: 3.1% (2023: 3.2%)

A senior gold producer and the third-largest in the world by market capitalisation. The company has operations and projects in North America, South America and Africa.

Governance

Diversified miner Anglo American announced the sale of its Australian coking coal assets during the year, as it looks to simplify its portfolio.

PHOTO COURTESY OF ANGLO AMERICAN

Governance structure

Responsibility for good governance lies with the Board. The governance framework of the Company reflects the fact that as an externally managed investment company the Company has no employees, the Directors are all non-executive and investment management and administration functions are outsourced to the Manager and other external service providers.

<p>The Board 5 scheduled meetings per annum</p>	<p>Five non-executive Directors (NEDs), all independent of the Manager</p> <p>Chairman: Charles Goodyear (since 9 May 2024)</p> <p>Objectives:</p> <ul style="list-style-type: none"> • To determine the Company's investment policy, strategy, and parameters; • To provide leadership within a framework of prudent and effective controls which enable risk to be assessed and managed and the Company's assets to be safeguarded; • To challenge constructively and scrutinise performance of all outsourced activities; and • To determine the Company's remuneration policy. <p>Other functions:</p> <ul style="list-style-type: none"> • To carry out the duties of a Nomination Committee, including a regular review of the Board's structure and composition, making recommendations for any new Board appointments.
<p>Audit Committee 2 scheduled meetings per annum</p>	<p>Membership: All NEDs excluding the Chairman of the Board</p> <p>Chairman: Srinivasan Venkatakrishnan (since 19 April 2023)</p> <p>Key objectives:</p> <ul style="list-style-type: none"> • To oversee financial reporting; • To consider the adequacy of the control environment and review the Company's risk registers; • To review and form an opinion on the effectiveness of the external audit process; and • To review the provisions relating to whistleblowing and fraud.
<p>Management Engagement Committee 1 scheduled meeting per annum</p>	<p>Membership: All NEDs</p> <p>Chair: Jane Lewis (since 19 April 2023)</p> <p>Key objectives:</p> <ul style="list-style-type: none"> • To ensure that the provisions of the investment management agreement follow industry practice, remain competitive and are in the best interests of shareholders; • To review the performance of the Manager and Investment Manager; and • To review the performance of other service providers.

Charles (Chip) Goodyear
Chairman
Appointed 24 August 2023

Chip Goodyear brings a wealth of relevant industry knowledge and experience having retired in October 2007 as the chief executive officer of BHP, the world's largest diversified resources company. He is also a former executive vice president and chief financial officer of Freeport-McMoRan and began his career at Kidder, Peabody & Co. where he participated in merger and acquisition and financing activities for natural resources companies. He is currently president of Goodyear Capital Corporation and Goodyear Investment Company and a trustee of the National World War II Museum.

Attendance record:

Board: 5/5
Audit Committee: 1/1
Management Engagement Committee: 1/1

Srinivasan Venkatakrishnan
Chairman of the Audit Committee
Appointed 1 August 2021

Srinivasan Venkatakrishnan is the Chairman of Endeavour Mining Plc and a non-executive director of Wheaton Precious Metals Corp. He brings a wealth of mining and financial experience to the Board gained through his vast experience of leading global mining businesses, in a career that spans across six continents and several metals, notably gold. He served as CEO of Vedanta Resources plc from 2018 to 2020 and was CEO of AngloGold Ashanti Limited from 2013 to 2018, having previously been chief financial officer of the business from 2005, and of Ashanti Goldfields Limited from 2000. His earlier career was as an accountant and restructuring specialist with Deloitte & Touche in India and the UK.

Attendance record:

Board: 5/5
Audit Committee: 2/2
Management Engagement Committee: 1/1

Judith Mosely
Senior Independent Director
Appointed 19 August 2014

Judith Mosely is a non-executive director of Galiano Gold Inc. and Eldorado Gold Corp. and is Chair of sustainability and member of the audit committee of both companies. She has over 20 years of experience in the mining and metals sector and most recently held the position of Business Development Director for Rand Merchant Bank in London with responsibility for developing the bank's African business with international mining and metals companies. She previously headed the mining finance team at Société Générale in London.

Attendance record:

Board: 5/5
Audit Committee: 2/2
Management Engagement Committee: 1/1

Jane Lewis

Chair of the Management
Engagement Committee
Appointed 28 April 2016

Jane Lewis is an investment trust specialist who, until August 2013, was a director of corporate finance and broking at Winterflood Investment Trusts. Prior to this she worked at Henderson Global Investors and Gartmore Investment Management Limited in investment trust business development and at West LB Panmure as an investment trust broker. She is chairman of CT UK Capital and Income Investment Trust PLC and a non-executive director of JPMorgan Global Growth & Income plc and Majedie Investments PLC.

Attendance record:

Board: 5/5
Audit Committee: 2/2
Management Engagement
Committee: 1/1

Elisabeth Scott

Appointed 9 May 2024

Elisabeth Scott has over 35 years' experience in the asset management industry. She began her career as an investment manager with the British Investment Trust and worked in the Hong Kong asset management industry from 1992 until 2008, latterly as managing director and country head of Schroder Investment Management (Hong Kong) Ltd. She also chaired the Hong Kong Investment Funds Association between 2005 and 2007. She is currently the chair of JPMorgan Global Emerging Markets Income Trust plc and India Capital Growth Fund Ltd and a non-executive director of Capital Group UK Management Company and Allianz Technology Trust PLC. She chaired the Association of Investment Companies from January 2021 until January 2024.

Attendance record:

Board: 3/3
Audit Committee: 1/1
Management Engagement
Committee: 0/0

None of the Directors has a service contract with the Company. The terms of their appointment are detailed in a letter sent to them when they joined the Board. These letters are available for inspection at the registered office of the Company and will be available at the Annual General Meeting.

Strategic Report

The Directors present the Strategic Report of BlackRock World Mining Trust plc for the year ended 31 December 2024. The aim of the Strategic Report is to provide shareholders with the information to assess how the Directors have performed their duty to promote the success of the Company for the collective benefit of shareholders.

The Chairman's Statement together with the Investment Manager's Report form part of this Strategic Report. The Strategic Report was approved by the Board at its meeting on 4 March 2025.

Principal activities

The Company carries on business as an investment trust with a listing on the London Stock Exchange. Its principal activity is portfolio investment and that of its subsidiary, BlackRock World Mining Investment Company Limited (together the Group), is investment dealing. The Company was incorporated in England on 28 October 1993 and this is the thirty-first Annual Report.

Investment trusts are pooled investment vehicles which allow exposure to a diversified range of assets through a single investment, thus spreading investment risk.

Objective

The Company's objective is to maximise total returns to shareholders through the cycle using a worldwide portfolio of mining and metal investments.

The Board recognises the importance of dividends to shareholders in achieving that objective, in addition to capital returns.

Strategy, business model and investment policy

Strategy

The Company invests in accordance with the objective given above. The Board is collectively responsible to shareholders for the long-term success of the Company and is its governing body. There is a clear division of responsibility between the Board and BlackRock Fund Managers Limited (the Manager). Matters reserved for the Board include setting the Company's strategy, including its investment objective and policy, setting limits on gearing (both bank borrowings and the effect of derivatives), capital structure, governance and appointing and monitoring of the performance of service providers, including the Manager.

Business model

The Company's business model follows that of an externally managed investment trust. Therefore, the Company does not have any employees and outsources its activities to third-party service providers including the Manager who is the principal service provider. In accordance with the Alternative Investment Fund Managers' Directive (AIFMD), as implemented, retained and onshored in the UK, the Company is an Alternative Investment Fund (AIF). BlackRock Fund Managers Limited is the Company's Alternative Investment Fund Manager.

The management of the investment portfolio and the administration of the Company have been contractually delegated to the Manager who in turn (with the permission of the Company) has delegated certain investment management and other ancillary services to BlackRock Investment Management (UK) Limited (the Investment Manager). The Manager, operating under guidelines determined by the Board, has direct responsibility for the decisions relating to the day-to-day running of the Company and is accountable to the Board for the investment, financial and operating performance of the Company.

The Company delegates fund accounting services to the Manager, which in turn sub-delegates these services to The Bank of New York Mellon (International) Limited (BNY). Other service providers include the Depositary (also BNY) and the Registrar, Computershare Investor Services PLC. Details of the contractual terms with the Manager and the Depositary and more details of the arrangements in place governing custody services are set out in the Directors' Report.

Investment policy

The Company's investment policy is to provide a diversified investment in mining and metal securities worldwide actively managed with the objective of maximising total returns. While the policy is to invest principally in quoted securities, the Company's investment policy includes investing in royalties derived from the production of metals and minerals as well as physical metals. Up to 10% of gross assets may be held in physical metals.

In order to achieve its objective, it is intended that the Group will normally be fully invested, which means at least 90% of the gross assets of the Company and its subsidiary will be invested in stocks, shares, debt securities, royalties and physical metals. However, if such investments are deemed to be overvalued, or if the Manager finds it difficult to identify attractively priced opportunities for investment, then up to 25% of the Group's assets may be held in cash or cash equivalents. Risk is spread by investing in a number of holdings, many of which themselves are diversified businesses.

Strategic Report

continued

The Group may occasionally utilise derivative instruments such as options, futures and contracts for difference, if it is deemed that these will, at a particular time or for a particular period, enhance the performance of the Group in the pursuit of its objectives. The Company is also permitted to enter into stock lending arrangements.

The Group may invest in any single holding of quoted or unquoted investments that would represent up to 20% of gross assets at the time of acquisition. Although investments are principally in companies listed on recognised stock exchanges, the Company may invest up to 20% of the Group's gross assets in investments other than quoted securities. Such investments include unquoted royalties, equities or bonds. In order to afford the Company the flexibility of obtaining exposure to metal and mining related royalties, it is possible that, in order to diversify risk, all or part of such exposure may be obtained directly or indirectly through a holding company, a fund or another investment or special purpose vehicle, which may be quoted or unquoted. The Board will seek the prior approval of shareholders to any unquoted investment in a single company, fund or special purpose vehicle or any single royalty which represents more than 10% of the Group's assets at the time of acquisition.

The Company's royalty strategy permits a 20% maximum exposure to royalties but the royalty/unquoted portfolio should itself deliver diversification across operator, country and commodity. To this end, new investments into individual royalties/unquoted investments will not exceed circa 3% of gross assets at the time of investment. Total exposure to any single operator, including other issued securities such as debt and/or equity, where greater than 30% of that operator's revenues come from the mine over which the royalty lies, must also not be greater than 3% at the time of investment. In addition, the guidelines require that the Investment Manager must, at the time of investment, manage total exposure to a single operator, via reducing exposure to listed securities if they are also held in the portfolio, in a timely manner where royalties/unquoted investments are revalued upwards. In the jurisdictions where statutory royalties are possible (in countries where mineral rights are privately owned) these will be preferred and in respect of contractual royalties (a contractual obligation entered into by the operator and typically unsecured) the valuation must take into account the higher credit risk involved. Board approval will continue to be required for all royalty/unquoted investments.

While the Company may hold shares in other listed investment companies (including investment trusts), the Board has agreed that the Company will not invest more than 15% of the Group's gross assets in other UK listed investment companies. In order to comply with the current Listing Rules, the Company will also not invest more than 10% of its gross asset value in other listed closed-ended investment funds which themselves may invest more than 15% of their gross assets in other listed closed-ended investment funds. This restriction does not form part of the Company's investment policy.

The Group's financial statements are maintained in Sterling. Although many investments are denominated and quoted in currencies other than Sterling, the Board does not intend to employ a hedging strategy against fluctuations in exchange rates.

No material change will be made to the investment policy without shareholder approval.

Gearing

The Investment Manager believes that tactical use of gearing can add value from time to time. This gearing is typically in the form of an overdraft or short-term loan facility, which can be repaid at any time or matched by cash. The level and benefit of gearing is discussed and agreed with the Board regularly. The Company may borrow up to 25% of the Group's net assets. The maximum level of gearing used during the year was 14.7% and, at the financial reporting date, net gearing (calculated as borrowings less cash and cash equivalents as a percentage of net assets) stood at 12.0% of shareholders' funds (2023: 11.9%). For further details on borrowings refer to note 14 in the Financial Statements and the Alternative Performance Measure in the Glossary.

Portfolio analysis

Information regarding the Company's investment exposures is contained within Section 2 (Portfolio), with information on the ten largest investments on pages 27 and 28, the investments listed on pages 29 to 31 and portfolio analysis on pages 32 and 33. Further information regarding investment risk and activity throughout the year can be found in the Investment Manager's Report.

At 31 December 2024, the Level 3 unquoted investments (see note 17 in the Financial Statements) in the BHP Brazil Royalty Contract and preferred shares and equity shares of Jetti Resources and MCC Mining were held at Directors' valuation, representing a total of £58,267,000 (2023: £51,011,000). Unquoted investments can prove to be more risky than listed investments.

Continuation vote

As agreed by shareholders in 1998, an ordinary resolution for the continuation of the Company is proposed at each Annual General Meeting. The Directors remain confident on the value available in the mining sector and therefore recommend that shareholders vote in support of the Company's continuation.

Performance

Details of the Company's performance for the year are given in the Chairman's Statement. The Investment Manager's Report includes a review of the main developments during the year, together with information on investment activity within the Company's portfolio.

Results and dividends

The results for the Company are set out in the Consolidated Statement of Comprehensive Income. The total loss for the year, after taxation, was £119,941,000 (2023: £78,985,000) of which £44,127,000 (2023: £64,691,000) is revenue profit.

It is the Board's intention to distribute substantially all of the Company's available income. The Directors recommend the payment of a final dividend as set out in the Chairman's Statement. Dividend payments/payable for the year ended 31 December 2024 amounted to £43,942,000 (2023: £64,016,000).

Future prospects

The Board's main focus is to maximise total returns over the longer term through investment in mining and metal assets. The outlook for the Company is discussed in both the Chairman's Statement and the Investment Manager's Report.

Social, community and human rights issues

As an investment trust, the Company has no direct social or community responsibilities or impact on the environment and the Company has not adopted an ESG investment strategy or exclusionary screens. However, the Directors believe that it is important and in shareholders' interests to consider human rights issues and environmental, social and governance factors when selecting and retaining investments. Details of the Company's approach to ESG are set out on page 52 and details of the Manager's approach to ESG integration are also set out on page 52.

Modern Slavery Act

As an investment vehicle, the Company does not provide goods or services in the normal course of business and does not have customers. The Investment Manager considers modern slavery as part of supply chains and labour management within the investment process. Accordingly, the Directors consider that the Company is not required to make any slavery or human trafficking statement under the Modern Slavery Act 2015. In any event, the Board considers the Company's supply chains, dealing predominantly with professional advisers and service providers in the financial services industry, to be low risk in relation to this matter.

Directors, gender representation and employees

The Directors of the Company on 31 December 2024 are set out in the Directors' Biographies on pages 37 and 38. The Board consists of two male Directors and three female Directors. The Company's policy on diversity is set out on pages 70 and 71. The Company does not have any executive employees.

Key performance indicators

At each Board meeting, the Directors consider a number of performance measures to assess the Company's success in achieving its objectives. The key performance indicators (KPIs) used to measure the progress and performance of the Company over time and which are comparable to other investment trusts are set out overleaf. As indicated in the footnote to the table, some of these KPIs fall within the definition of 'Alternative Performance Measures' under guidance issued by the European Securities and Markets Authority (ESMA) and additional information explaining how these are calculated is set out in the Glossary on pages 148 to 152. Additionally, the Board regularly reviews the performance of the portfolio, as well as the net asset value and share price of the Company and compares this against various companies and indices. Information on the Company's performance is given in the Chairman's Statement.

Strategic Report

continued

	Year ended 31 December 2024	Year ended 31 December 2023
Net asset value total return ^{1,2}	-10.7%	-6.2%
Share price total return ^{1,2}	-12.7%	-10.4%
Discount to net asset value ²	5.8%	3.3%
Revenue earnings per share	23.09p	33.95p
Total dividends per share	23.00p	33.50p
Ongoing charges ^{2,3}	0.95%	0.91%
Ongoing charges on gross assets ^{2,4}	0.84%	0.81%

¹ This measures the Company's NAV and share price total return, which assumes dividends paid by the Company have been reinvested.

² Alternative Performance Measures, see Glossary on pages 148 to 152.

³ Ongoing charges represent the management fee and all other operating expenses, excluding finance costs, direct transaction costs, custody transaction charges, VAT recovered, taxation, prior year expenses written back and certain non-recurring items, as a % of average daily net assets.

⁴ Ongoing charges based on gross assets represent the management fee and all other operating expenses, excluding finance costs, direct transaction costs, custody transaction charges, VAT recovered, taxation, prior year expenses written back and certain non-recurring items, as a % of average daily gross assets. Gross assets are calculated based on net assets during the year before the deduction of the bank overdraft and loans. Ongoing charges based on gross assets are considered to be an appropriate performance measure as management fees are payable on gross assets (subject to certain adjustments and deductions).

Principal risks

The Company is exposed to a variety of risks and uncertainties. As required by the 2018 UK Corporate Governance Code (the UK Code), the Board has put in place a robust ongoing process to identify, assess and monitor the principal risks and emerging risks facing the Company including those that would threaten its business model. A core element of this process is the Company's risk register which identifies the risks facing the Company and assesses the likelihood and potential impact of each risk and the quality of controls operating to mitigate it. A residual risk rating is then calculated for each risk based on the outcome of the assessment.

The risk register, its method of preparation and the operation of key controls in BlackRock's and third-party service providers' systems of internal control, are reviewed on a regular basis by the Audit Committee. In order to gain a more comprehensive understanding of BlackRock's and other third-party service providers' risk management processes and how these apply to the Company's business, BlackRock's internal audit department provides an annual presentation to the Audit Committee chairs of the BlackRock investment trusts setting out the results of testing performed in relation to BlackRock's internal control processes. The Audit Committee also periodically receives and reviews internal control reports from BlackRock and the Company's service providers.

The Board has undertaken a robust assessment of both the principal and emerging risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity. For instance, the risk that unforeseen or unprecedented events including (but not limited to) heightened geopolitical tensions such as the war in Ukraine and the conflict in the Middle East, inflation and the current cost of living crisis has had a significant impact on global markets. The Board has taken into consideration the risks posed to the Company by these events and incorporated these into the Company's risk register. The threat of climate change has also reinforced the importance of more sustainable practices and environmental responsibility for investee companies.

Emerging risks are considered by the Board as they come into view and are incorporated into the existing review of the Company's risk register. They were also considered as part of the annual evaluation process. Additionally, the Manager considers emerging risks in numerous forums and the BlackRock Risk and Quantitative Analysis team produces an annual risk survey. Any material risks of relevance to the Company through the annual risk survey will be communicated to the Board.

Emerging risks that have been considered by the Board over the year include the impact of climate change, escalating geopolitical conflict and technological advances. The key emerging risks identified are as follows:

Climate change: Investors can no longer ignore the impact that the world's changing climate will have on their portfolios, with the impact of climate change on returns, including climate related natural disasters, now potentially significant and with the potential to escalate more swiftly than one is able to predict. The Board receives ESG reports from the Manager on the portfolio

and the way ESG considerations are integrated into the investment decision making, so as to mitigate risk at the level of stock selection and portfolio construction.

Geopolitical risk: Escalating geopolitical tensions (including, but not limited to tensions in the Middle East and the ongoing war in Ukraine, or deteriorating relations between China and the US/other countries) have a significant negative impact on global markets, with an increasing use of tariffs and domestic regulations making global trade more complex and driving economic fragmentation. Within this category the continuing rise of resource nationalism is presented and assessed.

Artificial Intelligence (AI): Advances in computing power means that AI has become a powerful tool that will impact a huge range of areas and with a wide range of applications that have the potential to dislocate established business models and disrupt labour markets, creating uncertainty in corporate valuations. The significant energy required to power this technological revolution will create further pressure on environmental resources and carbon emissions.

The Board will continue to assess these risks on an ongoing basis. In relation to the UK Code, the Board is confident that the procedures that the Company has put in place are sufficient to ensure that the necessary monitoring of risks and controls has been carried out throughout the reporting period.

The principal risks and uncertainties faced by the Company during the financial year, together with the potential effects, controls and mitigating factors, are set out in the following table.

Market

Principal risk

Market risk arises from volatility in the prices of the Company's investments. The price of shares in the mining sector can be volatile and this may be reflected in the NAV and market price of the Company's shares.

Changes in general economic and market conditions, such as currency exchange rates, interest rates, rates of inflation, industry conditions, tax laws, political events and trends, can also substantially and adversely affect the securities and, as a consequence, the Company's prospects and share price.

Market risk includes the potential impact of events which are outside the Company's control, including (but not limited to) heightened geopolitical tensions and military conflict, a global pandemic and high inflation.

Companies operating in the sectors in which the Company invests may be impacted by new legislation governing climate change and environmental issues, which may have a negative impact on their valuation and share price.

Mitigation/Control

The Board considers the diversification of the portfolio, asset allocation, stock selection and levels of gearing on a regular basis and has set investment restrictions and guidelines which are monitored and reported on by the Investment Manager.

The Board monitors the implementation and results of the investment process with the Investment Manager.

The Board also recognises the benefits of a closed-end fund structure in extremely volatile markets such as those experienced as a consequence of the COVID-19 pandemic, the war in Ukraine and the conflict in the Middle East. Unlike open-ended counterparts, closed-end funds are not obliged to sell-down portfolio holdings at low valuations to meet liquidity requirements for redemptions. During times of elevated volatility and market stress, the ability of a closed-end fund structure to remain invested for the long term enables the Investment Manager to adhere to disciplined fundamental analysis from a bottom-up perspective and be ready to respond to dislocations in the market as opportunities present themselves.

The Investment Manager seeks to understand the ESG risks and opportunities facing companies and industries in the portfolio. The Company has not adopted an ESG focused investment strategy and does not exclude investment in stocks based on ESG criteria, but the Investment Manager considers ESG information when conducting research and due diligence on new investments and again when monitoring investments in the portfolio. Further information on BlackRock's approach to ESG integration can be found on page 52.

Strategic Report

continued

Investment performance

Principal risk

The returns achieved are reliant primarily upon the performance of the portfolio.

The Board is responsible for:

- deciding the investment strategy to fulfil the Company's objective; and
- monitoring the performance of the Investment Manager and the implementation of the investment strategy.

An inappropriate investment strategy may lead to:

- underperformance compared to the reference index;
- a reduction or permanent loss of capital; and
- dissatisfied shareholders and reputational damage.

The Board is also cognisant of the long-term risk to performance from inadequate attention to ESG issues and in particular the impact of climate change.

Mitigation/Control

To manage this risk the Board:

- regularly reviews the Company's investment mandate and long-term strategy;
- has set investment restrictions and guidelines which the Investment Manager monitors and regularly reports on;
- receives from the Investment Manager a regular explanation of stock selection decisions, portfolio exposure, gearing and any changes in gearing, and the rationale for the composition of the investment portfolio;
- oversees the maintenance of an adequate spread of investments in order to minimise the risks associated with particular countries or factors specific to particular sectors, based on the diversification requirements inherent in the investment policy; and
- receives and reviews regular reports showing an analysis of the Company's performance against other indices, including the performance of major companies in the sector.

ESG analysis is integrated into the Investment Manager's investment process as set out on page 52. This is monitored by the Board. As the world works toward a transition to a low-carbon economy, the Investment Manager is interested in hearing from companies about their strategies and plans for responding to the challenges and capturing the opportunities that this transition creates. When companies consider climate-related risks, it is likely they will also assess their impact and dependence on natural capital.

Operational

Principal risk

In common with most other investment trust companies, the Company has no employees. The Company therefore relies on the services provided by third parties and is dependent on the control systems of the Manager, the Depositary and Fund Accountant which maintain the Company's assets, dealing procedures and accounting records.

The security of the Company's assets, dealing procedures, accounting records and adherence to regulatory and legal requirements depend on the effective operation of the systems of these third-party service providers. There is a risk that a major disaster, such as floods, fire, a global pandemic, or terrorist activity, renders the Company's service providers unable to conduct business at normal operating effectiveness.

Failure by any service provider to carry out its obligations to the Company could have a material adverse effect on the Company's performance. Disruption to the accounting, payment systems or custody records (including cyber security risk) could prevent the accurate reporting and monitoring of the Company's financial position.

Mitigation/Control

Due diligence is undertaken before contracts are entered into with third-party service providers. Thereafter, the performance of the provider is subject to regular review and reported to the Board.

The Board reviews on a regular basis an assessment of the fraud risks that the Company could potentially be exposed to and also a summary of the controls put in place by the Manager, Depositary, Custodian, Fund Accountant and Registrar specifically to mitigate these risks.

Most third-party service providers produce Service Organisation Control (SOC 1) reports to provide assurance regarding the effective operation of internal controls as reported on by their reporting accountants. These reports are provided to the Audit Committee for review. The Committee would seek further representations from service providers if not satisfied with the effectiveness of their control environment.

The Company's financial instruments held in custody are subject to a strict liability regime and, in the event of a loss of such financial instruments, the Depositary must return financial assets of an identical type or the corresponding amount, unless able to demonstrate the loss was a result of an event beyond its reasonable control.

The Board reviews the overall performance of the Manager, Investment Manager and all other third-party service providers on a regular basis and compliance with the Investment Management Agreement annually.

The Board also considers the business continuity arrangements of the Company's key service providers on an ongoing basis and reviews these as part of its review of the Company's risk register.

Legal and regulatory compliance

Principal risk

The Company has been approved by HM Revenue & Customs as an investment trust, subject to continuing to meet the relevant eligibility conditions, and operates as an investment trust in accordance with Chapter 4 of Part 24 of the Corporation Tax Act 2010. As such, the Company is exempt from corporation tax on capital gains tax on the profits realised from the sale of its investments.

Any breach of the relevant eligibility conditions could lead to the Company losing investment trust status and being subject to corporation tax on capital gains realised within the Company's portfolio. In such event, the investment returns of the Company may be adversely affected.

A serious breach could result in the Company and/or the Directors being fined or the subject of criminal proceedings or the suspension of the Company's shares which would in turn lead to a breach of the Corporation Tax Act 2010.

Amongst other relevant laws, the Company is required to comply with the provisions of the Companies Act 2006, the Alternative Investment Fund Managers' Directive as implemented, retained and onshored in the UK (AIFMD), the UK Listing Rules, Disclosure Guidance and Transparency Rules and the Market Abuse Regulation (as retained and onshored in the UK).

Mitigation/Control

The Investment Manager monitors investment movements, the level and type of forecast income and expenditure and the amount of proposed dividends to ensure that the provisions of Chapter 4 of Part 24 of the Corporation Tax Act 2010 are not breached. The results are reported to the Board at each meeting.

Compliance with the accounting rules affecting investment trusts is also carefully and regularly monitored.

The Company Secretary, Manager and the Company's professional advisers provide regular reports to the Board in respect of compliance with all applicable rules and regulations. The Board and the Manager also monitor changes in government policy and legislation which may have an impact on the Company.

The Company's Investment Manager at all times complies with the sanctions administered by the UK Office of Financial Sanctions Implementation, the United States Treasury's Office of Foreign Assets Control, the United Nations, European Union member states and any other applicable regimes.

Strategic Report

continued

Financial

Principal risk

The Company's investment activities expose it to a variety of financial risks which include market risk, counterparty credit risk, liquidity risk and the valuation of financial instruments.

Mitigation/Control

Details of these risks are disclosed in note 17 to the Financial Statements, together with a summary of the policies for managing these risks.

In the view of the Board, there have not been any changes to the fundamental nature of these risks and these principal risks and uncertainties are equally applicable for the current financial year.

Viability statement

In accordance with provision 31 of the 2018 UK Corporate Governance Code, the Directors have assessed the prospects of the Company over a longer period than the twelve months referred to by the 'Going Concern' guidelines. The Company is an investment trust with the objective of providing an attractive level of income return together with capital appreciation over the long term.

The Directors expect the Company to continue for the foreseeable future and have therefore conducted this review for a period up to the Annual General Meeting in 2028. The Directors assess viability over a rolling three-year period as they believe it best balances the Company's long-term objective, its financial flexibility and scope, with the difficulty in forecasting economic conditions which could affect both the Company and its shareholders. The Company also undertakes a continuation vote every year with the next one taking place at the forthcoming Annual General Meeting.

In making an assessment on the viability of the Company, the Board has considered the following:

- the impact of a significant fall in commodity markets on the value of the Company's investment portfolio;
- the ongoing relevance of the Company's investment objective, business model and investment policy in the prevailing market;
- the principal and emerging risks and uncertainties, as set out above, and their potential impact;
- the level of ongoing demand for the Company's shares;
- the Company's share price discount/premium to NAV;
- the liquidity of the Company's portfolio; and
- the level of income generated by the Company and future income and expenditure forecasts.

The Directors have concluded that there is a reasonable expectation that the Company will continue in operation and meet its liabilities as they fall due over the period of their assessment based on the following considerations:

- the Investment Manager's compliance with the investment objective and policy, its investment strategy and asset allocation;
- the portfolio is liquid and mainly comprises readily realisable assets which continue to offer a range of investment opportunities for shareholders as part of a balanced investment portfolio;
- the operational resilience of the Company and its key service providers and their ability to continue to provide a good level of service for the foreseeable future;
- the effectiveness of business continuity plans in place for the Company and its key service providers;
- the ongoing processes for monitoring operating costs and income which are considered to be reasonable in comparison to the Company's total assets;
- the Board's discount management policy; and
- the Company is a closed-end investment company and therefore does not suffer from the liquidity issues arising from unexpected redemptions.

In addition, the Board's assessment of the Company's ability to operate in the foreseeable future is included in the Going Concern Statement which can be found on page 58 in the Directors' Report.

the success of the Company

The Companies (Miscellaneous Reporting) Regulations 2018 require directors of large companies to explain more fully how they have discharged their duties under Section 172(1) of the Companies Act 2006 in promoting the success of their companies for the benefit of members as a whole. This includes the likely consequences of their decisions in the longer term and how they have taken wider stakeholders' needs into account.

The disclosure that follows covers how the Board has engaged with and understands the views of stakeholders and how stakeholders' needs have been taken into account, the outcome of this engagement and the impact that it has had on the Board's decisions. The Board considers the main stakeholders in the Company to be the Manager, Investment Manager and the shareholders. In addition to this, the Board considers investee companies and key service providers of the Company to be stakeholders; the latter comprise the Company's Depositary, Registrar, Fund Accountants and Brokers.

Stakeholders

Shareholders

Continued shareholder support and engagement are critical to the continued existence of the Company and the successful delivery of its long-term strategy. The Board is focused on fostering good working relationships with shareholders and on understanding the views of shareholders in order to incorporate them into the Board's strategy and objective in maximising total returns to shareholders through a worldwide portfolio of mining and metal securities.

Manager and Investment Manager

The Board's main working relationship is with the Manager, who is responsible for the Company's portfolio management (including asset allocation, stock and sector selection) and risk management, as well as ancillary functions such as administration, secretarial, accounting and marketing services. The Manager has sub-delegated portfolio management to the Investment Manager. Successful management of shareholders' assets by the Investment Manager is critical for the Company to deliver successfully its investment strategy and meet its objective. The Company is also reliant on the Manager as AIFM to provide support in meeting relevant regulatory obligations under the AIFMD and other relevant legislation.

Other key service providers

In order for the Company to function as an investment trust on the London Stock Exchange's (LSE) main market for listed securities and generally function as an investment trust with a listing on the official list of the FCA, the Board relies on a diverse range of advisers for support in meeting relevant obligations and safeguarding the Company's assets. For this reason, the Board considers the Company's Depositary, Registrar, Fund Accountant and Brokers to be stakeholders. The Board maintains regular contact with its key external service providers and receives regular reporting from them through the Board and Committee meetings, as well as outside of the regular meeting cycle.

Investee companies

Portfolio holdings are ultimately shareholders' assets and the Board recognises the importance of good stewardship and communication with investee companies in meeting the Company's investment objective and strategy. The Board monitors the Manager's stewardship activities and receives regular feedback from the Manager in respect of meetings with the management of investee companies.

Strategic Report

continued

A summary of the key areas of engagement undertaken by the Board with its key stakeholders in the year under review and how Directors have acted upon this to promote the long-term success of the Company are set out in the table below.

Area of Engagement

Investment mandate and objective

Issue

The Board is committed to promoting the role and success of the Company in delivering on its investment mandate to shareholders over the long term.

The Board also has responsibility to shareholders to ensure that the Company's portfolio of assets is invested in line with the stated investment objective and in a way that ensures an appropriate balance between spread of risk and portfolio returns.

Engagement

The Board worked closely with the Investment Manager throughout the year in further developing investment strategy and underlying policies, not simply for the purpose of achieving the Company's investment objective but in the interests of shareholders and future investors. In addition, the Company continues to seek out new unquoted investments which could add long-term value.

Impact

The portfolio activities undertaken by the Investment Manager can be found in their Report. The Investment Manager continues to actively look for opportunities to grow royalty exposure given it is a key differentiator of the Company and an effective mechanism to lock-in long-term income which further diversifies the Company's revenues.

Details regarding the Company's NAV and share price performance can be found in the Chairman's Statement and in this Strategic Report.

Responsible investing

Issue

The governance and consideration of ESG risks are key factors in making investment decisions. Climate change is becoming a defining factor in companies' long-term prospects across the investment spectrum with significant and lasting implications for economic growth and prosperity. The mining industries in which the Company's investment universe operate are facing ethical and ESG issues that cannot be ignored by asset managers and investment companies alike.

Engagement

The Board works closely with the Investment Manager to review regularly and challenge the Company's performance, investment policy and strategy to seek to ensure that the Company's investment objective continues to be met in an effective and responsible way in the interests of shareholders and future investors. The Company has not adopted an ESG focused investment strategy and does not exclude investment in stocks based on ESG criteria, but the Board believes that responsible investment is integral to the longer-term delivery of the Company's success.

The Investment Manager's approach to the consideration of ESG factors in respect of the Company's portfolio, as well as the Investment Manager's engagement with investee companies to encourage sound corporate governance practices, are kept under review by the Board. The Board also expects to be informed by the Investment Manager of any sensitive voting issues involving the Company's investments.

The Investment Manager reports to the Board in respect of its approach to ESG integration; a summary of BlackRock's approach to ESG integration is set out on page 52. The Investment Manager's approach to engagement with investee companies and voting guidelines is summarised on page 53 and further detail is available on the BlackRock website.

Impact

The Board and the Investment Manager believe there is likely to be a positive correlation between strong ESG practices and investment performance over time. This is especially important in mining given the long investment cycle and the impact of ESG practices on the ability of a mining company to maintain its social license to operate. ESG is one of the many factors that we look at and site visits to companies' operations provide valuable insights into their ESG practices. The Investment Manager has continued to engage with investee companies.

Within the parameters of the Company's existing investment policy, the Investment Manager is continuing to look for opportunities to deploy capital in growth investments that should benefit from the energy transition. It is likely that this area will become a more significant part of the portfolio.

Shareholders

Issue

Continued shareholder support and engagement are critical to the continued existence of the Company and the successful delivery of its long-term strategy.

Engagement

The Board is committed to maintaining open channels of communication and to engage with shareholders. The Company welcomes and encourages attendance and participation from shareholders at its Annual General Meetings. Shareholders will have the opportunity to meet the Directors and Investment Manager and to address questions to them directly. The Investment Manager will also provide a presentation on the Company's performance and the outlook for the mining sector. The Chairman and Senior Independent Director offer meetings to all major shareholders and also meet directly with shareholders providing a forum for canvassing their views and enabling the Board to be aware of any issues of concern.

The Annual Report and Half Yearly Financial Report are available on the BlackRock website and are also circulated to shareholders either in printed copy or via electronic communications. In addition, regular updates on performance, monthly factsheets, the daily NAV and other information are also published on the website at www.blackrock.com/uk/brwm. The Company's website and marketing initiatives are geared to providing a breadth and depth of informative and engaging content.

The Board also works closely with the Manager to develop the Company's marketing strategy with the aim of ensuring effective communication with shareholders.

Unlike trading companies, one-to-one shareholder meetings normally take the form of a meeting with the Investment Manager as opposed to members of the Board. The Company's willingness to enter into discussions with institutional shareholders is also demonstrated by the programmes of institutional presentations by the Investment Manager. Additionally, the Investment Manager regularly presents at professional and private investor events to help explain and promote the Company's strategy.

If shareholders wish to raise issues or concerns with the Board, they are welcome to do so at any time. The Chairman is available to meet directly with shareholders periodically to understand their views on governance and the Company's performance where they wish to do so. He may be contacted via the Company Secretary whose details are given on page 144.

Impact

The Board values any feedback and questions from shareholders ahead of and during Annual General Meetings in order to gain an understanding of their views and will take action when and as appropriate. Feedback and questions will also help the Company evolve its reporting, aiming to make reports more transparent and understandable.

During the year the Chairman and Senior Independent Director offered meetings to major shareholders and met with some of them, without any members of the management group present. Feedback from all substantive meetings between the Investment Manager and shareholders is also shared with the Board. The Directors also receive updates from the Company's Brokers and Kepler, marketing consultants, on any feedback from shareholders, as well as share trading activity, share price performance and an update from the Investment Manager.

The portfolio management team attended a number of professional investor meetings (many by video conference) and held discussions with a number of wealth management desks and offices in respect of the Company during the year under review.

Portfolio holdings are ultimately shareholders' assets and the Board recognises the importance of good stewardship and communication with investee companies in meeting the Company's investment objective and strategy. The Board monitors the Manager's stewardship activities and receives regular feedback from the Investment Manager in respect of meetings with the management of portfolio companies.

Strategic Report

continued

Management of share rating

Issue

The Board recognises the importance to shareholders that the market price of the Company's shares should not trade at either a significant discount or premium to their prevailing NAV. The Board believes this may be achieved by the use of share buyback powers and the issuance of shares.

Engagement

The Board monitors the Company's share rating on an ongoing basis and receives regular updates from the Manager and the Company's Brokers regarding the level of discount/premium. The Board believes that the best way of maintaining the share rating at an optimal level over the long term is to create demand for the shares in the secondary market. To this end, the Investment Manager is devoting considerable effort to broadening the awareness of the Company, particularly to wealth managers and to the wider retail market.

In addition, the Board has worked closely with the Manager to develop the Company's marketing strategy, with the aim of ensuring effective communication with existing shareholders and to attract new shareholders to the Company in order to improve liquidity in the Company's shares and to sustain the share rating of the Company.

Impact

The Board continues to monitor the Company's premium/discount to NAV and will look to issue or buy back shares if it is deemed to be in the interests of shareholders as a whole. The Company participates in a focused investment trust sales and marketing initiative operated by the Manager on behalf of the investment trusts under its management. Further details are set out on page 56.

During the financial year and up to the date of this report the Company repurchased 315,000 shares which were placed in treasury. The Company did not reissue any shares. As at 28 February 2025, the Company's shares were trading at a discount of 8.9% to the cum income NAV.

Service levels of third-party providers

Issue

The Board acknowledges the importance of ensuring that the Company's principal suppliers are providing a suitable level of service, including the Investment Manager in respect of investment performance and delivering on the Company's investment mandate; the Custodian and Depositary in respect of their duties towards safeguarding the Company's assets; the Registrar in its maintenance of the Company's share register and dealing with investor queries; and the Company's Brokers in respect of the provision of advice and acting as a market maker for the Company's shares.

Engagement

The Manager reports to the Board on the Company's performance on a regular basis. The Board carries out a robust annual evaluation of the Manager's performance, their commitment and available resources.

The Board performs an annual review of the service levels of all third-party service providers and concludes on their suitability to continue in their role. The Board receives regular updates from the AIFM, Depositary, Registrar and Brokers on an ongoing basis.

The Board has also worked closely with the Manager to gain comfort that relevant business continuity plans are operating effectively for all of the Company's key service providers.

Impact

All performance evaluations were performed on a timely basis and the Board concluded that all third-party service providers, including the Manager and Investment Manager, were operating effectively and providing a good level of service.

The Board has received updates in respect of business continuity planning from the Company's Manager, Custodian, Depositary, Fund Accountant, Registrar and Printer and is confident that arrangements are in place to ensure a good level of service will continue to be provided.

Board composition

Issue

The Board is committed to ensuring that its own composition brings an appropriate balance of knowledge, experience and skills, and that it is compliant with best corporate governance practice under the UK Code, including guidance on tenure and the composition of the Board's committees.

Engagement

The Board has engaged the services of an external search consultant, Cornforth Consulting Ltd, to identify potential candidates to replace Ms Lewis who retires as a Director following the forthcoming Annual General Meeting. The Nomination Committee has agreed the selection criteria and the method of selection, recruitment and appointment.

All Directors are subject to a formal evaluation process on an annual basis (more details and the conclusions of the 2024 evaluation process are given on page 72). All Directors stand for re-election by shareholders annually.

Shareholders may attend the Annual General Meeting and raise any queries in respect of Board composition or individual Directors in person or may contact the Company Secretary or the Chairman using the details provided on page 144 with any issues.

Impact

As at the date of this report, the Board was comprised of two men and three women. As mentioned in the Half Yearly Financial Report, Mr Cheyne retired as Chairman and Mrs Scott was appointed as a Director on 9 May 2024. Following the current recruitment process, the successful candidate will be appointed as a Director following the Annual General Meeting being held on 21 May 2025. Details of each Director's contribution to the success and promotion of the Company are set out in the Directors' Report on pages 60 and 61 and details of the Directors' biographies can be found on pages 37 and 38.

The Directors are not aware of any issues that have been raised directly by shareholders in respect of Board composition in the year under review. Details of the proxy voting results in favour and against individual Directors' election/re-election at the 2024 Annual General Meeting are given on the Manager's website at www.blackrock.com/uk/brwm.

By order of the Board

CAROLINE DRISCOLL

For and on behalf of
BlackRock Investment Management (UK) Limited
Company Secretary
4 March 2025

Environmental, Social and Governance issues and approach

The Company's approach to ESG

Environmental, Social and Governance (ESG) issues can present both opportunities and threats to long-term investment performance. The Company's investment universe comprises sectors that are undergoing significant structural change and are likely to be highly impacted by increasing regulation as a result of climate change and other social and governance factors. Your Board is committed to ensuring that we have appointed an Investment Manager that integrates ESG considerations into its investment process and has the skill to navigate the structural transition that the Company's investment universe is undergoing. The Board believes effective engagement with company management is, in most cases, the most effective way of driving meaningful change in the behaviour of investee company management. While the Company does not have an ESG or impact focused investment strategy or apply exclusionary screens, in most cases the Company will not invest in companies which have high ESG risks and no plans to address existing deficiencies. Where the Board is not satisfied that an investee company is taking steps to address matters of an ESG nature, it may discuss with the Investment Manager how this situation might be resolved, including potentially by a full disposal of shares.

ESG integration does not change the Company's investment objective or constrain the Investment Manager's investable universe, and does not mean that an ESG or impact focused investment strategy or any exclusionary screens have been or will be adopted by the Company. More information on BlackRock's global approach to ESG integration, as well as activity specific to the BlackRock World Mining Trust plc portfolio, is set out below.

The Company does not meet the criteria for Article 8 or 9 products under the EU Sustainable Finance Disclosure Regulation (SFDR) and the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. The Investment Manager has access to a range of data sources, including principal adverse indicator (PAI) data, when making decisions on the selection of investments. However, whilst BlackRock considers ESG risks for all portfolios and these risks may coincide with environmental or social themes associated with the PAIs, the Company does not commit to considering PAIs in driving the selection of its investments. Additional information on ESG integration and SFDR is set out in the AIFMD Fund Disclosures available on the Company's website.

BlackRock's approach to material ESG integration

BlackRock's clients have a wide range of perspectives on a variety of issues and investment themes. Given the wide range of unique and varied investment objectives sought by BlackRock's clients, BlackRock's investment teams have a range of approaches to considering financially material E, S, and/or G factors. As with other investment risks and opportunities, the relevance of E, S and/or G considerations may vary by issuer, sector, product, mandate, and time horizon. Depending on the investment approach, this financially material E, S and/or G data or information may help inform due diligence, portfolio or index construction, and/or monitoring processes of BlackRock's portfolios, as well as BlackRock's approach to risk management.

BlackRock's ESG integration framework is built upon its history as a firm founded on the principle of thorough and thoughtful risk management. Aladdin, BlackRock's core risk management and investment technology platform, allows investors to leverage financially material E, S and/or G data or information as well as the combined experience of BlackRock's investment teams to effectively identify investment opportunities and investment risks. BlackRock's heritage in risk management combined with the strength of the Aladdin platform enables BlackRock's approach to ESG integration.

BlackRock's ESG Integration Statement can be found at www.blackrock.com/corporate/literature/publication/blk-esg-investment-statement-web.pdf.

BlackRock's reporting and disclosures

In terms of its own reporting, BlackRock believes that the Sustainability Accounting Standards Board provides a clear set of standards for reporting ESG information across a wide range of issues, from labour practices to data privacy to business ethics. For evaluating and reporting climate-related risks, as well as the related governance issues that are essential to managing them, the Task Force on Climate-related Financial Disclosures (TCFD) provides a valuable framework. BlackRock recognises that reporting to these standards requires significant time, analysis and effort. BlackRock's 2023 TCFD report can be found at www.blackrock.com/corporate/literature/continuous-disclosure-and-important-information/tcf-d-report-2023-blkinc.pdf.

BlackRock Investment Stewardship

BlackRock World Mining Trust plc – BlackRock Investment Stewardship engagement with portfolio companies for the year ended 31 December 2024

Given the Board's belief in the importance of engagement and communication with portfolio companies, they receive regular updates from the Investment Manager in respect of activity undertaken for the year under review. The Investment Manager engages with company management teams and undertakes company meetings to identify the best management teams with the ability to create value for shareholders over the long term. In addition, BlackRock also has a separate BlackRock Investment Stewardship (BIS) team that is responsible for engaging with investee companies, proxy voting on the behalf of clients when authorised, contributing to industry dialogue on stewardship and reporting on its activities[#]. Additional information is set out in the table and charts that follow, as well as the key engagement themes for the meetings held in respect of the Company's portfolio holdings.

	Year ended 31 December 2024
Number of engagements held	62
Number of companies met	24
% of equity investments covered	37
Shareholder meetings voted at	62
Number of proposals voted on	649
Number of votes against management	29
% of total items voted represented by votes against management	4.5

Source: BlackRock, Institutional Shareholder Services (ISS) as at 31 December 2024.

¹ Engagements include multiple company meetings during the year with the same company. Most engagement conversations cover multiple topics and are based on our vote guidelines and our engagement priorities found here: www.blackrock.com/corporate/literature/publication/blk-stewardship-priorities-final.pdf.

Sources: ISS Proxy Exchange and BlackRock Investment Stewardship.

[#] Starting in 2025, BlackRock's stewardship policies are developed and implemented by two independent, specialist teams, BlackRock Investment Stewardship (BIS) and BlackRock Active Investment Stewardship (BAIS). While the two teams operate independently, their general approach is grounded in widely recognised norms of corporate governance and shareholder rights and responsibilities. BIS is responsible for engagement and voting in relation to clients' assets managed by certain index equity portfolio managers. Approximately 90% of BlackRock clients' public equity assets under management are held in index strategies, as of 30 September 2024. BAIS partners with BlackRock's active investment teams on company engagement and voting in relation to their holdings. Index or active, BlackRock Stewardship teams, and all of its stewardship efforts across the firm, are focused on making decisions consistent with clients' stated objectives. More information is available on BlackRock's website: www.blackrock.com/corporate/insights/investment-stewardship.

BlackRock Investment Stewardship

continued

The BlackRock Investment Stewardship (BIS) team takes a long-term approach in its stewardship efforts, reflecting the investment horizons of the majority of BlackRock's clients. BIS' activities include engaging with companies, proxy voting on clients' behalf, contributing to industry dialogue on stewardship, and reporting on its activities. These activities are the main components of the stewardship toolkit and are performed all year long. BIS aims to take a globally consistent approach, while recognising the unique markets and sectors in which companies operate.

BIS benchmark policies

BIS's benchmark policies, and the vote decisions made consistent with these policies, take a financial materiality-based approach and are focused solely on advancing clients' financial interests. BIS takes a globally consistent approach, while recognising the unique markets and sectors in which companies operate. More detail in respect of BIS reporting can be found at www.blackrock.com/corporate/insights/investment-stewardship/blackrock-investment-stewardship.

BIS Global principles

The BIS Global Principles reflect BIS' views on certain globally applicable fundamental elements of governance that contribute to a company's ability to create long-term financial value, anchored in transparency and accountability.

The BIS Global Principles are available here: www.blackrock.com/corporate/literature/fact-sheet/blk-responsible-investment-engprinciples-global.pdf.

BIS regional voting guidelines

The BIS regional voting guidelines provide context on how the Principles inform BIS' voting decisions in relation to common ballot items for shareholder meetings in those markets. BIS' regional voting guidelines are available on its website: www.blackrock.com/corporate/insights/investment-stewardship/blackrock-investment-stewardship#stewardship-policies.

Engagement priorities

The BAIS engagement priorities reflect the five themes on which BAIS most frequently engages companies, where they are relevant, as these can be a source of material business risk or opportunity. The engagement priorities are available on BAIS' website: www.blackrock.com/corporate/literature/publication/blk-stewardship-priorities-final.pdf.

Directors' Report

The Directors present the audited Annual Report and Financial Statements of the Company and its subsidiary (together the Group) prepared in accordance with Section 415 (2) of the Companies Act 2006 for the year ended 31 December 2024.

Status of the Company

The Company is domiciled in the United Kingdom. The Company is a public company limited by shares and is also an investment company under Section 833 of the Companies Act 2006 and operates as such. It is not a close company and has no employees.

The Company has been approved by HM Revenue & Customs (HMRC) as an investment trust in accordance with Sections 1158 and 1159 of the Corporation Tax Act 2010, subject to the Company continuing to meet eligibility conditions. The Directors are of the opinion that the Company has conducted its affairs in a manner which will satisfy the conditions for continued approval.

As an investment company that is managed and marketed in the United Kingdom, the Company is an Alternative Investment Fund (AIF) falling within the scope of, and subject to the requirements of, the Alternative Investment Fund Managers' Directive (AIFMD) as implemented, retained and onshored in the UK. The Company is governed by the provisions of The Alternative Investment Fund Managers Regulations 2013 (the Regulations). It must comply with a number of obligations, including the appointment of an Alternative Investment Fund Manager (AIFM) and a depositary to carry out certain functions. The Company must also comply with the Regulations in respect of leverage, outsourcing, conflicts of interest, risk management, valuation, remuneration and capital requirements and must also make additional disclosures to both shareholders and the FCA. Further details are set out in the AIFMD disclosures section and in the notes to the Financial Statements.

The Company's shares are eligible for inclusion in the stocks and shares component of an Individual Savings Account (ISA).

Information to be disclosed in accordance with Listing Rule 9.8.4 (information to be included in annual report and financial statements)

Disclosures in respect of how the Company has complied with Listing Rule 9.8.4 are set out on page 147.

Financial Conduct Authority (FCA) Regulation of 'non-mainstream pooled investments', MiFID II 'complex investments'

The Company currently conducts its affairs so that the shares issued by the Company can be recommended by independent financial advisers to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream pooled investments and intends to continue to do so for the foreseeable future. The shares are excluded from the FCA's restrictions which apply to non-mainstream pooled investments because they are shares in an investment trust. The Company's ordinary shares are not considered to be 'complex instruments' under the FCA's 'Appropriateness' rules and guidance in the Conduct of Business Sourcebook.

Consumer Duty value assessment

The FCA's Consumer Duty rules (published in July 2022) comprise a fundamental component of the FCA's consumer protection strategy and aim to improve outcomes for retail customers across the entire financial services industry through the assessment of various outcomes, one of which is an assessment of whether a product provides value. Under the Consumer Duty, BlackRock Fund Managers Limited (BFM, AIFM or the Manager) is the product 'manufacturer' of the Company and is required to conduct this assessment of value on an annual basis.

The Manager has developed an assessment methodology that takes into consideration a wide range of factors, including the quality of services delivered, the performance of the Company (against both benchmark and peers), the limitations that are part of the product structure, the total costs associated with the product (including management fees and entry and exit fees as applicable to the Company). The Manager also considered whether all consumers, including vulnerable consumers, were able to receive fair value from the product. The Manager has performed this assessment in the year under review and has concluded that the Company is providing value.

The Board has reviewed the Manager's assessment methodology to gain an understanding of the basis used and no concerns were identified with either the assessment method or the outcome of the assessment.

Directors' Report

continued

The Common Reporting Standard

Tax legislation under the Organisation for Economic Cooperation and Development (OECD) Common Reporting Standard for Automatic Exchange of Financial Account Information (the Common Reporting Standard) was introduced on 1 January 2016. The legislation requires investment trust companies to provide personal information to HMRC about investors who purchase shares in investment trusts. As an affected company, BlackRock World Mining Trust plc has to provide information annually to the local tax authority on the tax residencies of a number of non-UK based certification shareholders and corporate entities. The local tax authority to which the information is initially passed may in turn exchange the information with the tax authorities of another country or countries in which the shareholder may be tax resident, where those countries (or tax authorities in those countries) have entered into agreements to exchange financial account information.

All new shareholders, excluding those whose shares are held in CREST, entered on to the share register, will be sent a certification form for the purposes of collecting this information.

GDPR

Data protection rights were harmonised across the European Union following the implementation of the General Data Protection Regulation (GDPR) on 25 May 2018, since retained in the UK by the European Union (Withdrawal) Act 2018. The Board has sought and received assurances from its third-party service providers that they have taken appropriate steps to ensure compliance with the regulation.

Shareholder Rights Directive II

The Shareholder Rights Directive II took effect from 10 June 2019 with some transitional provisions. It encourages long-term shareholder engagement and transparency between companies and shareholders. In substantive terms the changes were small for investment companies and the majority of requirements apply to the Company's remuneration policy and disclosure of processes, as well as related party transactions. There are also additional rules for AIFMs and proxy advisers.

Dividends

Details of the dividends paid and payable in respect of the year are set out in the Chairman's Statement and in note 8 on page 109.

Investment management and administration

BlackRock Fund Managers Limited (BFM, AIFM or the Manager) was appointed as the Company's AIFM with effect from 2 July 2014, having been authorised as an AIFM by the FCA on 1 May 2014. The management contract is terminable by either party on six months' notice. Under the agreement, the Board continues to be independent from the AIFM. The agreement provides the appropriate balance between the Board's control over the Company, its investment policies and compliance with regulatory obligations.

BlackRock Investment Management (UK) Limited (BIM (UK)) continues to act as the Company's Investment Manager under a delegation agreement with BFM. BIM (UK) also acted as the Secretary of the Company throughout the year. The Manager receives an annual management fee equivalent to 0.80% of the Company's gross assets (subject to certain adjustments and deductions), which includes all services provided by BlackRock.

Included within this management fee is a contribution of £169,000 (excluding VAT) to a consortium and trust specific element of a focused investment trust sales and marketing initiative, which enables the BlackRock investment trusts to achieve efficiencies by combining certain sales and marketing activities and is matched by BlackRock. The consortium element of the contribution will be deducted from the fee payable to BlackRock. The purpose of the programme is to ensure effective communication with existing shareholders and to attract new shareholders to the Company. This has the benefit of improving liquidity in the Company's shares and helps sustain the stock market rating of the Company.

BFM and BIM (UK) are subsidiaries of BlackRock, Inc. which is a publicly traded corporation on the New York Stock Exchange operating as an independent firm.

Appointment of the Manager

The Board considers the arrangements for the provision of investment management services to the Company on an ongoing basis and a formal review is conducted annually. As part of this review, the Board considered the quality and continuity of the personnel assigned to handle the Company's affairs, the investment process and the results achieved to date.

The Board believes that the continuing appointment of BFM (the Manager) as AIFM, and the delegation of investment management services to BIM (UK) (the Investment Manager) on the terms disclosed above is in shareholders' interests as a whole. The specialist nature of the Company's investment remit is, in the Board's view, best served by the Sectors and Thematics team at BlackRock, which has a proven track record in successfully investing in the mining sector.

Depository and Custodian

The Company is required under the AIFMD to appoint an AIFMD compliant depository. The Company has appointed The Bank of New York Mellon (International) Limited (BNY or the Depository) to perform this role.

The Depository's duties and responsibilities are outlined in the investment fund legislation (as defined in the FCA Handbook). The main role of the Depository under AIFMD is to act as a central custodian with additional duties to monitor the operations of the Company, including monitoring cash flows and ensuring the Company's assets are valued appropriately in accordance with the relevant regulations and guidance. The Depository is also responsible for enquiring into the conduct of the AIFM in each annual accounting period. The Depository receives a fee payable at 0.0095% per annum of net assets. The Company has appointed the Depository in a tripartite agreement, to which BFM as AIFM is also a signatory. The Depository is liable for the loss of the financial instruments held in custody.

Under the depository agreement, custody services in respect of the Company's assets have been delegated to The Bank of New York Mellon (International) Limited (BNY). BNY receives a custody fee payable by the Company at rates depending on the number of trades effected and the location of securities held. The depository agreement is subject to 90 days' notice of termination by any party.

Registrar

The Company has appointed Computershare Investor Services PLC as its Registrar (the Registrar). The principal duty of the Registrar is the maintenance of the register of shareholders (including registering transfers). It also provides services in relation to any corporate actions, dividend administration, shareholder documentation, the Common Reporting Standard and the Foreign Account Tax Compliance Act.

The Registrar receives a fixed fee each year, plus disbursements and VAT for the maintenance of the register. Fees in respect of corporate actions are negotiated on an arising basis.

Change of control

There are no agreements to which the Company is a party that might be affected by a change in control of the Company.

Exercise of voting rights in investee companies

The exercise of voting rights attached to the Company's portfolio has been delegated to the Investment Manager by BFM. BIM (UK)'s approach to voting at shareholder meetings, engagement with companies and corporate governance is framed within an investment context. BIM (UK) believes that sound corporate governance practices by companies can contribute to their long-term financial performance and thus to better risk adjusted returns. BIM (UK)'s proxy voting process is led by the BIS team, located in nine offices around the world. The team's globally-coordinated, local presence and breadth of experience enables more frequent and better informed dialogue with companies.

During the year under review, the Investment Manager voted on 649 proposals at 62 general meetings on behalf of the Company. At these meetings the Investment Manager voted in favour of most resolutions, as should be expected when investing in well run companies, but voted against management on 29 (4.5%) resolutions and did not abstain from voting on any management resolutions. Most of the votes against were due to poorly structured remuneration arrangements and concerns about board quality and effectiveness.

Continuation vote

As agreed by shareholders, an ordinary resolution for the continuation of the Company as an investment trust is proposed annually at the Annual General Meeting. If any such resolution is not passed, the Board shall put proposals to shareholders within 42 days of the Annual General Meeting with a view to enabling shareholders to realise their holding of shares for cash or, if appropriate, a non-cash consideration with a cash alternative.

Principal risks

The key risks faced by the Company are set out in the Strategic Report.

Directors' Report

continued

Going concern

The Directors, having considered the nature, liquidity and stock volatility of the portfolio, the Company's investment objective and the Company's projected income and expenditure, are satisfied that the Company has adequate resources to continue in operational existence for a period of at least 12 months from the date of approval of these financial statements and is financially sound.

The Company has a portfolio of investments which are predominantly readily realisable and is able to meet all of its liabilities from its assets, including funding requirements, and income generated from these assets. As at 28 February 2025, 91.3% of the portfolio was estimated as being capable of being liquidated within three days. Accounting revenue and expense forecasts are maintained and reported to the Board regularly and it is expected that the Company will be able to meet all its obligations. Borrowings under the overdraft and loan facilities shall at no time exceed £230 million or 25% of the Group's net assets at the time of drawdown of the relevant borrowings (whichever is lower) and this covenant was complied with during the year. Based on the above, the Board is satisfied that it is appropriate to continue to adopt the going concern basis in preparing the financial statements and that the Company has adequate resources to continue in operational existence for the period to 31 March 2026, being a period of at least 12 months from the date of approval of these financial statements. Ongoing charges for the year ended 31 December 2024 were approximately 0.95% of net assets.

The Company has an annual continuation vote with the next vote due to be held at the Annual General Meeting in May 2025. The Board has no reason to believe that this resolution will not be passed. The Company's longer-term viability is considered in the viability statement on page 46.

Directors

The Directors of the Company as at 31 December 2024 and their biographies are set out on pages 37 and 38. Details of their interests in the shares of the Company are set out in the Directors' Remuneration Report on page 66. All of the Directors, apart from Mrs Scott, held office throughout the year under review and up to the date of signing the financial statements.

Although the Company's Articles of Association require that one-third of Directors retire and seek re-election at intervals of no more than three years, the Board has resolved that all Directors should be subject to re-election on an annual basis. Accordingly, all of the Directors (other than Ms Lewis who will be retiring following the Annual General Meeting) will offer themselves for re-election at the Annual General Meeting with the exception of Mrs Scott. Mrs Scott, who was appointed during the year, will stand for election. The Board has considered the positions of the Directors as part of the evaluation process and believes that it would be in the Company's best interests for each of the Directors to be proposed for re-election/election at the forthcoming Annual General Meeting, given their material level of contribution and commitment to the role.

Having considered the Directors' performance within the annual Board performance evaluation process, further details of which are provided on page 72, the Board believes that it continues to be effective and the Directors bring extensive knowledge and commercial experience and demonstrate a range of valuable business, financial and asset management skills. The Board therefore recommends that shareholders vote in favour of each Director's proposed re-election/election. More details in respect of the skills and experience each Director brings to the Board are set out on pages 60 and 61.

There were no contracts subsisting during or at the end of the year in which a Director of the Company is or was materially interested and which is or was significant in relation to the Company's business. None of the Directors has a service contract with the Company. No Director is entitled to compensation for loss of office on the takeover of the Company.

Directors' liability insurance and Directors' indemnity

The Company has maintained appropriate Directors' and Officers' liability insurance throughout the year. In addition to Directors' and Officers' liability insurance cover, the Company's Articles of Association provide, subject to the provisions of applicable UK legislation, a qualifying third-party indemnity for Directors in respect of costs incurred in the defence of any proceedings brought against them by third parties arising out of their positions as Directors, in which they are acquitted, or judgement is given in their favour. The Company has entered into Deeds of Indemnity with Directors individually which are available for inspection at the Company's registered office and will also be available at the Annual General Meeting. The indemnity has been in force during the financial year and up to the date of approval of the financial statements.

Conflicts of interest

The Board has put in place a framework for Directors to report conflicts of interest or potential conflicts of interest which it believes has worked effectively during the year. All Directors are required to notify the Company Secretary of any situations or potential situations where they consider that they have or may have a direct or indirect interest or duty that conflicted or possibly conflicted with the interests of the Company. All such situations are reviewed by the Board and, where appropriate,

duly authorised. Directors are also made aware at each meeting that there remains a continuing obligation to notify the Company Secretary of any new situation that may arise, or any change to a situation previously notified. It is the Board's intention to continue to review all notified situations on a regular basis.

Directors' Remuneration Report and Remuneration Policy

The Directors' Remuneration Report is set out on pages 63 to 66. An advisory ordinary resolution to approve this report will be put to shareholders at the Company's forthcoming Annual General Meeting. The Company is also required to put the Directors' Remuneration Policy on pages 67 and 68 to a binding shareholder vote every three years. The Company's Remuneration Policy was last put to shareholders at the Annual General Meeting in 2023, therefore an ordinary resolution to approve the policy will next be put to shareholders at the 2026 Annual General Meeting.

Notifiable interests in the Company's voting rights

As at 31 December 2024 the Company had not received any notifications in accordance with the FCA's Disclosure Guidance and Transparency Rule 5.1.2R.

Foreign exchange

At the financial year end, approximately 80.9% of the Company's portfolio was invested in non-Sterling assets, with 32.4% invested in US Dollar denominated assets. The Investment Manager does not actively hedge currency exposure.

Derivative transactions

During the year, the Group entered into a number of derivative put and call option contracts generating option premium income of £10,227,000 (2023: £5,964,000). Three option contracts remained open at 31 December 2024 (2023: three option contracts), details of which are given in the investment listing on pages 29 and 30. All open options were fully covered.

Share capital

Details of the Company's issued share capital are given in note 15 to the Financial Statements. Details of the voting rights in the Company's ordinary shares as at the date of this report are given in note 17 to the Notice of Annual General Meeting. The ordinary shares carry the right to receive dividends and have one voting right per ordinary share. There are no restrictions on the voting rights of the ordinary shares or on the transfer of ordinary shares, and there are no shares that carry specific rights with regard to the control of the Company.

Share repurchases

Shares may be repurchased when, in the opinion of the Directors, the discount appears high or wider than the peer group average and shares are available in the market. The main objective of any buy back is to enhance the net asset value per share of the remaining shares and to reduce the absolute level and volatility of any discount to net asset value at which shares may trade. Although the Manager initiates the buy backs, the policy and parameters are set by the Board and reviewed at regular intervals. The Company would raise the cash needed to finance the purchase of ordinary shares either by selling securities in the Company's portfolio or by short-term borrowing.

During the year and up to the date of this report, the Company has repurchased 315,000 ordinary shares at an average discount of 9.2% for a total cost of £1,609,000. The shares have been placed in treasury.

The latest authority to purchase ordinary shares for cancellation or to be held in treasury was granted to the Directors on 9 May 2024 and expires on 21 May 2025. The Directors are proposing that their authority to buy back shares be renewed at the forthcoming Annual General Meeting. Purchases of ordinary shares pursuant to this authority will only be made in the market for cash at prices below the prevailing NAV per share.

Treasury shares

The Company is currently authorised to purchase its own ordinary shares into treasury for reissue or cancellation at a future date. The use of treasury shares should assist the Company in providing a discount management mechanism. The Board intends only to authorise the sale of shares from treasury at prices at or above the prevailing net asset value per share (plus costs of the relevant sale). This should result in a positive overall effect for shareholders if shares are repurchased at a discount and then sold at a price at or above the net asset value per share (plus costs of the relevant sale).

The Company holds 2,143,806 ordinary shares in treasury (1.11% of the Company's issued share capital excluding treasury shares).

Directors' Report

continued

Share issues

The Company has the authority to issue new shares or sell shares from treasury for cash. During the year, the Company has not reissued any ordinary shares from treasury. The current authority to issue new ordinary shares or sell shares from treasury for cash was granted to the Directors on 9 May 2024 and expires on 21 May 2025. The Directors are proposing that their authority to issue new ordinary shares or sell shares from treasury for cash be renewed at the forthcoming Annual General Meeting.

Streamlined Energy and Carbon Reporting (SECR) statement: Greenhouse gas (GHG) emissions and energy Consumption disclosure

As an externally managed investment company, the Company has no greenhouse gas emissions to report from its operations, nor does it have any responsibility for any other emissions producing sources under the Companies Act (Strategic Report and Directors' Reports) Regulations 2013. For the same reason, the Company considers itself to be a low energy user under the SECR regulations and therefore is not required to disclose energy and carbon information.

As an investment company, the Company does not need to report against the Task Force on Climate-related Financial Disclosures (TCFD) framework. However, BlackRock reports detailed information about its management of climate-related risks and opportunities across its business in its TCFD-aligned reports. BlackRock's latest TCFD report can be found at www.blackrock.com/corporate/literature/continuous-disclosure-and-important-information/tcf-report-2023-blkinc.pdf.

Articles of Association

Any amendments to the Company's Articles of Association must be made by special resolution.

Annual General Meeting (AGM)

The following information to be discussed at the forthcoming AGM is important and requires your immediate attention. If you are in any doubt about the action you should take, you should seek advice from your stockbroker, bank manager, solicitor, accountant or other financial adviser authorised under the Financial Services and Markets Act 2000 (as amended).

If you have sold or transferred all of your ordinary shares in the Company, you should pass this document, together with any other accompanying documents (but not the personalised Form of Proxy) as soon as possible to the purchaser or transferee, or to the stockbroker, bank or other agent through whom the sale or transfer was effected, for onward transmission to the purchaser or transferee.

The business of this year's Annual General Meeting consists of 13 resolutions. Resolutions 1 to 11 are proposed as ordinary resolutions and 12 and 13 are being proposed as special resolutions.

Resolution 1 – Approval of the annual report and financial statements

This resolution seeks shareholder approval of the Annual Report and Financial Statements for the year ended 31 December 2024 and the auditors' report thereon.

Resolution 2 – Approval of the Directors' remuneration report

This resolution is an advisory vote on the Directors' Remuneration Report, excluding any content relating to the remuneration policy as set out on pages 67 and 68.

Resolution 3 – Approval of the dividend

Resolution 3 seeks shareholder approval of a final dividend of 6.50p per share for the year ended 31 December 2024.

Resolutions 4 to 7 – Re-election and election of Directors

Resolutions 4 to 7 relate to the re-election and election of the Directors. The Board has undertaken a formal performance evaluation during the year and confirms that the performance of the Directors standing for re-election/election continues to be effective and that each Director demonstrates commitment to their role. The biographies of the Directors are set out on pages 37 and 38. The Directors have been appointed in order to bring a range of experience appropriate to managing a business which invests in mining companies and mining related businesses. Their experiences range from holding senior positions in mining companies, to advising mining companies on investments in other mining companies and mines, to arranging finance for mines and mining companies and to working in the investment business. Individually their competences

and experiences mean that the Board is able to develop appropriate strategies to manage the risk of investing in this sector and also to deal with ESG issues, such as businesses that invest in pure-play thermal coal. The skills and experience each Director brings to the Board for the long-term sustainable success of the Company are set out below.

Resolution 4 relates to the re-election of Charles (Chip) Goodyear who was appointed as a Director in 2023. Mr Goodyear was chief executive officer and executive director for BHP Billiton (now BHP) the world's largest diversified resources company. During his nine years at BHP the company grew considerably, becoming one of largest companies in the world by market capitalisation. As CEO he was early in the identification of China and other emerging markets as drivers for future demand of resources. Accordingly, he has a great deal of experience in the mining sector.

Resolution 5 relates to the re-election of Judith Mosely who was appointed as a Director in 2014 and is the Senior Independent Director. Ms Mosely has over twenty years' experience in the City focusing on the mining sector. She has a strong appreciation of risk, as well as a current appreciation of the opportunities and challenges in the sector including ESG. She regularly attends key industry conferences and her involvement in industry groups ensures that she is kept abreast of key industry matters.

Resolution 6 relates to the re-election of Srinivasan Venkatakrishnan who was appointed as a Director in 2021. He has a proven track record of leading multinational organisations, including major publicly-listed companies, through periods of challenging and transformative change. His career spans across six continents and 15 countries; covers gold, silver and base metals, oil and gas and power generation; and includes intricate, multi-jurisdictional financing and large complex cross-border restructuring. Mr Venkatakrishnan is a chartered accountant and brings this skill set to his role as Chairman of the Company's Audit Committee.

Resolution 7 relates to the election of Elisabeth Scott who brings extensive investment industry experience to her role as a Director. During her 25 year career, she worked across the investment management business as an analyst, fund manager and in distribution and business management. In her role as a director and chair of investment trusts and of the Association of Investment Companies, she has been intimately involved with the development of the investment trust industry over the past 10 years.

Resolutions 8 and 9 – Re-appointment of the external auditors and auditors' remuneration

These resolutions relate to the re-appointment and remuneration of the Company's auditors. The Company, through its Audit Committee, has considered the independence and objectivity of the external auditors and is satisfied that the auditors remain independent. Further information in relation to the assessment of the auditors' independence can be found on page 80.

Resolutions relating to the following items of special business will be proposed at the forthcoming Annual General Meeting.

Resolution 10 – Continuation of the Company as an investment trust

The ordinary resolution to be proposed will seek shareholders' authority that the Company shall continue in being as an investment trust.

Resolution 11 – Authority to allot shares

The Directors may only allot shares for cash if authorised to do so by shareholders in general meeting. This resolution seeks authority for the Directors to allot shares for cash up to an aggregate nominal amount of £954,340 which is equivalent to 19,086,803 ordinary shares of 5p each and represents 10% of the current issued share capital, excluding treasury shares, as at the date of the Notice of Annual General Meeting. This authority will expire at the conclusion of next year's Annual General Meeting in 2026, unless renewed prior to that date at an earlier general meeting.

Resolution 12 – Authority to disapply pre-emption rights

By law, Directors require specific authority from shareholders before allotting new shares or selling shares out of treasury for cash without first offering them to existing shareholders in proportion to their holdings. Resolution 12 empowers the Directors to allot new shares for cash or to sell shares which are held by the Company in treasury, otherwise than to existing shareholders on a pro rata basis, up to an aggregate nominal amount of £954,340 which is equivalent to 19,086,803 ordinary shares of 5p each and 10% of the Company's issued ordinary share capital, excluding treasury shares, as at the date of the Notice of Annual General Meeting. Unless renewed at a general meeting prior to such time, this authority will expire at the conclusion of the Annual General Meeting of the Company to be held in 2026.

Directors' Report

continued

Resolution 13 – Authority to buy back shares

The resolution to be proposed will seek to renew the authority granted to Directors enabling the Company to purchase its own shares. The Directors will only consider repurchasing shares in the market if they believe it to be in shareholders' interests and as a means of correcting any imbalance between supply and demand for the Company's shares.

The Directors are seeking authority to purchase up to 28,611,118 ordinary shares (being 14.99% of the issued share capital, excluding treasury shares, as at the date of this report) or, if less, 14.99% of the ordinary shares in issue at 21 May 2025. This authority, unless renewed at an earlier general meeting, will expire at the conclusion of next year's Annual General Meeting.

Recommendation

The Board considers that the resolutions to be proposed at the Annual General Meeting are likely to promote the success of the Company and are in the best interests of the Company and its shareholders as a whole. The Directors unanimously recommend that shareholders vote in favour of these resolutions as they intend to do so in respect of their own beneficial holdings.

Corporate governance

Full details are given in the Corporate Governance Statement. The Corporate Governance Statement forms part of this Directors' Report.

Audit information

As required by Section 418 of the Companies Act 2006, each of the Directors in office at the date of approval of this report confirm that, so far as they are aware, there is no relevant audit information of which the Group's auditors are unaware and each Director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the Group's auditors are aware of that information.

Independent auditors

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office and resolutions proposing their reappointment and authorising the Audit Committee to determine their remuneration for the ensuing year will be submitted at the Annual General Meeting.

The Directors' Report was approved by the Board at its meeting on 4 March 2025.

By order of the Board

CAROLINE DRISCOLL

For and on behalf of
BlackRock Investment Management (UK) Limited
Company Secretary
4 March 2025

Directors' Remuneration Report

The Board presents the Directors' Remuneration Report for the year ended 31 December 2024 which has been prepared in accordance with Sections 420-422 of the Companies Act 2006.

The Remuneration Report comprises a remuneration policy report and a remuneration policy implementation report. The remuneration policy report is subject to a triennial binding shareholder vote and will be put to shareholders for approval at the 2026 Annual General Meeting. The remuneration implementation report is subject to an annual advisory vote.

The law requires the Company's auditors to audit certain of the disclosures provided. Where disclosures have been audited, they are indicated as such. The auditors' opinion is included in their report on pages 86 to 93.

Statement by the Chairman

The Board's policy on remuneration is set out on pages 67 and 68. A key element of the remuneration policy is that fees payable to Directors should be sufficient to attract and retain individuals with suitable knowledge and experience to promote the long-term success of the Company, whilst also reflecting the time commitment and responsibilities of the role. The basis for determining the level of any increase in the Directors' remuneration and the Board's policy on remuneration is set out in the Directors' Remuneration Policy.

The Board's remuneration is considered annually and was last reviewed in August 2024. Following a review, with effect from 1 October 2024 the Board agreed that the Chairman's fees would remain the same at £54,000, the Chairman of the Audit Committee fees increase from £43,750 to £45,000 and Directors' fees increase from £35,000 to £36,000. The Senior Independent Director receives an additional fee of £3,500. Prior to this, Directors' fees were last increased on 1 October 2023. Mr Goodyear has waived his fees for the year amounting to £46,789.

No discretionary fees have been paid to the Directors during the year or previous year and the payment of such fees is expected to be a rare occurrence, only necessary in exceptional circumstances. Any discretionary fees paid to the Directors will be clearly disclosed in the Directors' Remuneration Report accompanied by an explanation of the work undertaken and why it was deemed necessary to pay such additional remuneration.

Remuneration Committee

The Board as a whole fulfils the function of the Remuneration Committee and considers any change in the Directors' remuneration policy. It is not considered necessary to have a separate Remuneration Committee as the Company's Directors are all non-executive and independent of the Manager. No advice or services were provided by any external agencies or third parties in respect of remuneration levels.

Directors' Remuneration Report

continued

Remuneration implementation report

A single figure for the total remuneration of each Director is set out in the table below for the year ended 31 December 2024.

Directors	Year ended 31 December 2024			Year ended 31 December 2023		
	Fees	Taxable expenses ¹	Total	Fees	Taxable expenses ¹	Total
	£	£	£	£	£	£
Charles Goodyear ²	–	–	–	–	–	–
Srinivasan Venkatakrishnan ³	44,185	4,465	48,650	39,718	5,020	44,738
Judith Mosely ⁴	38,858	–	38,858	36,372	–	36,372
Jane Lewis ⁵	35,348	909	36,257	33,953	887	34,840
Elisabeth Scott ⁶	22,882	467	23,349	–	–	–
David Cheyne ⁷	18,699	–	18,699	50,144	–	50,144
Russell Edey ⁸	–	–	–	12,272	373	12,645
Total	159,972	5,841	165,813	172,459	6,280	178,739

¹ Taxable expenses relate to travel and subsistence costs incurred in carrying out business for the Company and which have been grossed up to include PAYE and NI contributions.

² Appointed as a Director on 24 August 2023 and Chairman on 9 May 2024. Mr Goodyear has waived his Director's fees amounting to £46,789.

³ Chairman of the Audit Committee with effect from 19 April 2023.

⁴ Senior Independent Director with effect from 19 April 2023.

⁵ Chair of the Management Engagement Committee with effect from 19 April 2023.

⁶ Appointed as a Director on 9 May 2024.

⁷ Retired as Chairman on 9 May 2024.

⁸ Retired with effect from 18 April 2023.

The information in the above table has been audited. The amounts paid by the Company to the Directors were for services as non-executive Directors. As at 31 December 2024 fees of £18,000 (2023: £17,000) were outstanding to Directors. No discretionary payments were made in the year to 31 December 2024 (2023: nil).

Relative importance of spend on remuneration

To enable shareholders to assess the relative importance of spend on pay, this has been shown in the table below compared with the Group's dividend distributions, total revenue, net profit on ordinary activities and repurchase of ordinary shares.

As the Company has no employees, no consideration is required to be given to employment conditions elsewhere in setting Directors' fees and expenses.

	2024 £'000	2023 £'000	Change £'000
Directors' total remuneration	166	179	-13
Total dividends paid and payable	43,942	64,016	-20,074
Total revenue	44,127	64,691	-20,564
Net (loss)/profit on ordinary activities after taxation	(119,941)	(78,985)	-40,956
Issue of ordinary shares	–	15,658	-15,658
Repurchase of ordinary shares	874	–	+874

No payments were made in the year to any past Directors (2023: nil).

Annual percentage change in Directors' fees

The following table set outs the annual percentage change in Directors' fees for the past five years.

	31 December 2020	31 December 2021	31 December 2022	31 December 2023	31 December 2024
Charles Goodyear ¹	n/a	n/a	n/a	n/a	n/a
Srinivasan Venkatakrishnan ²	n/a	+0.0%	+5.0%	+22.5%	+11.2%
Judith Mosely ³	+0.0%	+6.7%	+5.0%	+12.4%	+6.8%
Jane Lewis	+0.0%	+6.7%	+5.0%	+4.8%	+4.1%
Elisabeth Scott ⁴	n/a	n/a	n/a	n/a	n/a

¹ Charles Goodyear was appointed as a Director on 24 August 2023, appointed as Chairman with effect from 9 May 2024 and has waived his emoluments of £46,789 (2023: £12,228).

² As Srinivasan Venkatakrishnan was appointed as a Director on 1 August 2021, the percentage change in his annual fixed fee in 2021 has been annualised. Appointed as Chairman of the Audit Committee on 19 April 2023 which accounted for the percentage increase in 2023 and 2024.

³ Judith Mosely was appointed as Senior Independent Director on 19 April 2023 which accounted for the percentage increase in 2023 and 2024.

⁴ Elisabeth Scott was appointed as a Director on 9 May 2024 so no annual change is presented.

As previously noted, the Company does not have any employees and hence no comparisons are given in respect of the comparison between Directors' and employees' pay increases.

Performance

The line graph that follows compares the Company's net asset value and mid-market share price (with dividends reinvested) with the reference index. This index was chosen for comparison purposes as it was deemed to be the most relevant to the Company's investment objective when reporting to shareholders.

Performance 1 January 2014 to 31 December 2024

Total return performance record, rebased to 100 at 31 December 2013.

Sources: BlackRock and LSEG Datastream.

¹ With effect from 1 January 2020, the reference index changed to the MSCI ACWI Metals & Mining 30% Buffer 10/40 Index – net total return. Prior to 1 January 2020, the reference index was the EMIX Global Mining Index (net total return). The performance of the reference index during the period from 1 January 2020 to 31 December 2024 has been blended to reflect this change. Reference index returns are calculated including the effect of reinvestment of dividends.

Directors' Remuneration Report

continued

Shareholdings

The Board has not adopted a policy that Directors are required to own shares in the Company. The interests of the Directors in the ordinary shares of the Company are set out in the following table. The Company does not have a share option scheme, therefore none of the Directors has an interest in share options.

	31 December 2024 Ordinary shares	31 December 2023 Ordinary shares
Charles Goodyear	60,000	60,000
Srinivasan Venkatakrishnan	2,000	2,000
Judith Mosely	7,400	7,400
Jane Lewis	7,000	5,362
Elisabeth Scott ¹	2,200	n/a

¹ Elisabeth Scott was appointed as a Director on 9 May 2024.

The information in the above table has been audited.

All of the holdings of the Directors are beneficial. No changes to these holdings have been notified up to the date of this report.

Implementation of the remuneration policy in 2025 financial year

There are no significant changes in the current financial year. The remuneration policy was implemented at the 2023 Annual General Meeting and details of changes to Directors' fees from 1 October 2024 are outlined on page 63.

Retirement of Directors

Further details are given in the Directors' Report on page 58.

By order of the Board

CHARLES GOODYEAR

Chairman

4 March 2025

Directors' Remuneration Policy

Directors' remuneration policy

In determining the appropriate level of Directors' fees, a number of factors are considered, including the workload of the Directors, their responsibilities, any change in these responsibilities and additional legal duties (for example as a result of new legislation being implemented), the relationship with their suppliers and the size and complexity of the Company. The time commitment required, the level of skills and appropriate experience required and the need for Directors to maintain on an ongoing basis an appropriate level of knowledge of regulatory and compliance requirements in an industry environment of increasing complexity are also taken into account. The Board also considers the average rate of inflation during the period since the last fee increase and reviews the level of remuneration in comparison with other investment trusts of a similar size and/or mandate, as well as taking account of any data published by the Association of Investment Companies to ensure that fees are in line with industry practice. This comparison, together with consideration of any alteration in non-executive Directors' responsibilities, is used to review whether any change in remuneration is necessary.

The review is performed on an annual basis. No director will be present when his or her own pay is being determined. The Company has no employees and consequently no consideration is required to be given to employment conditions elsewhere in setting this policy and there has been no employee consultation.

No element of the Directors' remuneration is performance related or subject to recovery or withholding (except for tax). Directors cannot be awarded any share options or long-term performance incentives. None of the Directors has a service contract with the Company or receives any non-cash benefits (except as described in the policy table), pension entitlements or compensation for loss of office.

The remuneration policy will be applied when agreeing the remuneration package of any new Director. The terms of a Director's appointment are detailed in a letter sent to them when they join the Board. These letters are available for inspection at the registered office of the Company.

Directors' appointments do not have a fixed duration, but they can be terminated by the Company in writing at any time without obligation to pay compensation. On termination of the appointment, Directors shall only be entitled to accrued fees as at the date of termination, together with reimbursement of any expenses properly incurred prior to that date. Directors are also subject to re-election on an annual basis and, if not elected, their appointment ceases immediately. No payments for loss of office are made.

Consideration of shareholders' views

An ordinary resolution to approve the Remuneration Report is put to members at each Annual General Meeting and shareholders have the opportunity to express their views and raise any queries in respect of the remuneration policy at this meeting. To date, no shareholders have commented in respect of the remuneration policy. In the event that there was a substantial vote against any resolution proposed at the Company's Annual General Meeting, the reasons for any such vote would be sought and appropriate action taken. Should the vote be against resolutions in relation to the Directors' remuneration, further details will be provided in future Directors' Remuneration Reports.

In accordance with the Companies Act 2006, the Company is required to seek shareholder approval of its remuneration policy on a triennial basis. An ordinary resolution for the approval of the remuneration policy was put to members at the 2023 Annual General Meeting. It is the intention of the Board that the policy on remuneration will continue to apply for all financial years of the Company up to 31 December 2026.

Any discretionary fees paid to the Directors will be clearly disclosed in the Directors' Remuneration Report accompanied by an explanation of the work undertaken.

Shareholder voting

At the Company's previous Annual General Meeting held on 9 May 2024, 99.45% of votes cast (including votes cast at the Chairman of the Meeting's discretion) were in favour of the resolution to approve the Directors' Remuneration Report in respect of the year ended 31 December 2023 and 0.55% were against. 156,284 votes were withheld.

At the Company's Annual General Meeting held on 18 April 2023, 99.48% (including votes cast at the Chairman of the Meeting's discretion) were in favour of the resolution to approve the Directors' Remuneration Policy and 0.52% of votes cast were against. 226,874 votes were withheld.

Directors' Remuneration Policy

continued

Policy table

Purpose and link to strategy	Fees and benefits payable to Directors should be sufficient to attract and retain individuals of high calibre with suitable knowledge and experience. Those chairing the Board and key Committees should be paid higher fees than other Directors in recognition of their more demanding roles. Fees should reflect the time spent by Directors on the Company's affairs and the level of complexity of responsibilities borne by the Directors.
Description	Current levels of fixed annual fee (effective from 1 October 2024): Chairman – £54,000 Audit Committee Chairman – £45,000 Senior Independent Director – £39,500 Directors – £36,000
Maximum and minimum levels	Remuneration consists of a fixed fee each year, set in accordance with the stated policies and any increase granted must be in line with the stated policies. The Company's Articles of Association set a limit of £250,000 in respect of the remuneration that may be paid to Directors in any financial year, not including expenses and discretionary fees. In addition, the Directors propose a limit of £75,000 (excluding any tax grossing up) in relation to the maximum that may be paid in respect of taxable expenses. These ceilings have been set at a level to provide flexibility in respect of the recruitment of additional Board members and inflation.
Policy on share ownership	Directors are not required to own shares in the Company.
Operation – fees	
Fixed fee element	The Board reviews the quantum of Directors' pay each year to ensure that this is in line with the level of Directors' remuneration for other investment trusts of a similar size. When making recommendations for any changes in fees, the Board will consider wider factors such as the average rate of inflation over the period since the previous review and the level and any change in complexity of the Directors' responsibilities (including additional time commitments as a result of increased regulatory or corporate governance requirements). Directors are not eligible to be compensated for loss of office, nor are they eligible for bonuses, pension benefits, share options or other incentives or benefits. Directors do not have service contracts but are appointed under letters of appointment.
Discretionary fees	The Company's Articles of Association authorise the payment of additional discretionary fees to Directors for any additional work undertaken on behalf of the Company which is outside of their normal duties. Any such work and the fees payable are subject to the prior approval of the Chairman or, in the case of the Chairman undertaking the extra work, subject to the prior approval of the Chairman of the Audit Committee. Any discretionary fees paid will be disclosed in the Directors' remuneration implementation report within the Annual Report. The level of discretionary fees shall be determined by the Directors and will be subject to a maximum of £10,000 per annum per Director.
Operation – expenses	
Taxable expenses	The Directors are entitled to be repaid all reasonable travelling, hotel and other expenses incurred by them in or about the performance of their duties as Directors, including any expenses incurred in attending meetings of the Board or Committees of the Board, Annual General Meetings or General Meetings. Some expenses such as travel expenses incurred by the Directors in the course of travel to attend Board and Committee meetings which are held at the Company's registered office in London and which are reimbursed by the Company are subject to tax and national insurance. The Company's policy is that all reasonable costs of this nature will be reimbursed as they are incurred, including the tax and national insurance costs incurred by the Director on such expenses.

Corporate Governance Statement

Chairman's introduction

Corporate Governance is the process by which the Board seeks to look after shareholders' interests and protect and enhance shareholder value. Shareholders hold the Directors responsible for the stewardship of the Company, delegating authority and responsibility to the Directors to manage the Company on their behalf and holding them accountable for its performance.

The Board is ultimately responsible for framing and executing the Company's strategy and for closely monitoring risks. We aim to run the Company in a manner which is responsible and consistent with our belief in honesty, transparency and accountability. In our view, good governance means managing the business well and engaging effectively with investors. We consider the practice of good governance to be an integral part of the way we manage the Company and we are committed to maintaining high standards of financial reporting, transparency and business integrity.

As a UK-listed investment trust company our principal reporting obligation is driven by the UK Corporate Governance Code (the UK Code) issued by the Financial Reporting Council in July 2018. However, as listed investment trust companies differ in many ways from other listed companies, the Association of Investment Companies has drawn up its own set of guidelines, the AIC Code of Corporate Governance (the AIC Code) issued in February 2019, which addresses the governance issues relevant to investment companies and meets the approval of the Financial Reporting Council.

Both the UK Code and the AIC Code apply to accounting periods beginning on or after 1 January 2019. The Board has determined that it has complied with the recommendations of the AIC Code. This in most material respects is the same as the UK Code, save that there is greater flexibility regarding the tenure of office of the Chairman and membership of the Audit Committee. The 2018 Corporate Governance Code was updated in January 2024 and will apply to financial years beginning on or after 1 January 2025.

This report, which forms part of the Directors' Report, explains how the Board deals with its responsibility, authority and accountability.

Compliance

The Board has made the appropriate disclosures in this report to ensure the Company meets its continuing obligations. It should be noted that, as an investment trust, most of the Company's day-to-day responsibilities are delegated to third parties, the Company has no employees and the Directors are all non-executive, therefore not all of the provisions of the UK Code are directly applicable to the Company.

The Board considers that the Company has complied with the recommendations of the AIC Code and the provisions contained within the UK Code that are relevant to the Company throughout this accounting period, except the provisions relating to:

- the role of the chief executive;
- executive directors' remuneration; and
- the need for an internal audit function.

The Board considers that these provisions are not relevant to the position of the Company, being an externally managed investment company with no executive employees and, in relation to the internal audit function, in view of BlackRock having an internal audit function. Further explanation is provided below.

Information on how the Company has applied the principles of the AIC Code and UK Code is set out below. The UK Code is available from the Financial Reporting Council's website at [frc.org.uk](https://www.frc.org.uk). The AIC Code is available from the Association of Investment Companies at theaic.co.uk.

The Board

The Board currently consists of five non-executive Directors, all of whom are independent of the Company's Manager. Provision 9 of the UK Code which relates to the combination of the roles of the chairman and chief executive does not apply as the Company has no executive directors.

The Board's primary purpose is to direct the Company to maximise shareholder value within a framework of proper controls and in accordance with the Company's investment objective.

Corporate Governance Statement

continued

Board structure and management

Details of the Board's structure, roles and responsibilities and management are set out in the summary of Governance Structure on page 36. The Directors' biographies on pages 37 and 38 demonstrate a breadth of investment, commercial, accounting, financial and professional experience which enables them to provide effective strategic leadership and proper governance of the Company. Details of the Chairman's other significant time commitments can be found on page 37.

The Company does not have a chief executive as day-to-day management of the Company's affairs is delegated to the Manager as AIFM, with investment management and other ancillary services delegated to the Investment Manager. Representatives of the Manager, Investment Manager and Company Secretary attend each Board meeting. The Board, the AIFM, the Investment Manager and the Company Secretary operate in a supportive and co-operative manner.

Board independence and tenure

The Board regularly reviews the independence of its members and considers all of the Directors to be independent. A number of factors were taken into account when making this assertion, including length of tenure, the individual contribution of each Director, their other directorships and interests, and their ongoing commitment and enthusiasm to promote the long-term success of the Company, its shareholders and stakeholders. This individual independence allows all of the Directors to sit on the Company's various Committees, although in line with the UK Code, the Chairman of the Board does not act as a member of the Audit Committee.

The Board is of the view that length of service will not necessarily compromise the independence or contribution of directors of an investment trust company, where continuity and experience can add significantly to the stability and strength of the Board. Following the formal performance evaluation process, the Board has concluded that, notwithstanding Ms Mosely has served as a Director for over nine years, she continues to be independent in character and judgement and her range of skills and experience has been beneficial for the Board.

The Board considers that the tenure of the Chairman should be determined principally by how the Board's purpose in providing strategic leadership, governance and bringing challenge and support to the Manager can best be maintained, whilst also recognising the importance of independence, refreshment, diversity and retention of accumulated knowledge. It firmly believes that an appropriate balance of these factors is essential for an effective functioning Board and, at times, may result in some longer serving directors, including the Chairman. Furthermore, the Board wishes to retain the flexibility to be able to recruit outstanding candidates when they become available rather than simply adding new Directors based upon a predetermined timetable.

None of the Directors has a service contract with the Company. The terms of their appointment are detailed in a letter sent to them when they join the Board. Copies of these letters are available on request from the Company's registered office and will be available at the Annual General Meeting.

Diversity

The Board's aim regarding diversity, including age, gender, educational and professional background and other broader characteristics of diversity, is to take these into account during the recruitment and appointment process. However, the Board is committed to an objective of appointing the most appropriate candidate, regardless of gender or other forms of diversity, and therefore no targets have been set against which to report.

The Board has complied with the recommendations of the Parker Review in respect of board diversity and the recent changes to the FCA's Listing Rules set new diversity targets and associated disclosure requirements for UK companies listed on the London Stock Exchange. Listing Rule 9.8.6R (9) requires listed companies to include a statement in their annual reports and accounts in respect of certain targets on board diversity, or if those new targets have not been met to disclose the reasons for this. This requirement applies to accounting periods commencing on or after 1 April 2022. Further information on the composition and diversity of the Board and its Committees as at 31 December 2024 can be found in the disclosure table which follows.

Gender	Number of Board Members	Percentage of Board	Number of senior roles held¹
Men	2	40%	2
Women	3	60%	1
Ethnicity^{2,3}			
White British (or any other white background)	4	80%	2
Mixed/Multiple Ethnic Groups	0	0%	0
Asian/Asian British	1	20%	1
Black/African/Caribbean/Black British	0	0%	0
Other ethnic group, including Arab	0	0%	0

¹ According to the Listing Rules, the Chair and Senior Independent Director are defined as senior positions. In addition, the Company considers that the role of the Audit Chair is a senior position.

² Categorisation of ethnicity is stated in accordance with the Office of National Statistics classification.

³ Columns corresponding to the 'Number in executive management' and 'Percentage of executive management' are not included in the table. These are inapplicable as the Company is externally managed and does not have executive management functions.

Directors' appointment, retirement and rotation

The rules concerning the appointment, retirement and rotation of Directors are discussed in the Directors' Report on page 58. The Board has considered the position of each of the Directors as part of the evaluation process and believes it would be in the best interests of the Company for the Directors to be proposed for re-election/election at the forthcoming Annual General Meeting given their material level of contribution and commitment to the Company. Ms Lewis will be retiring and will not be seeking re-election.

The Board recognises the value of progressive renewing of, and succession planning for, company boards. The refreshment of the Board will remain as an ongoing process to ensure that the Board is well-balanced through the appointment of new Directors with the skills and experience necessary. Directors must be able to demonstrate commitment to the Company, including in terms of time. The Board is cognisant of the concept of 'overboarding' and has considered the time commitment required by the Directors' other roles, taking into account their nature and complexity. The Board reviews this information annually to ensure all Directors have sufficient capacity to effectively carry out their role.

Directors' induction, training and development

When a new Director is appointed to the Board, he or she is provided with all the relevant information regarding the Company and his or her duties and responsibilities as a Director. In addition, a new Director will also spend some time with the Investment Manager, the Company Secretary and other key employees of the Manager whereby he or she will become familiar with the workings and processes of the Company.

The Company's policy is to encourage Directors to keep up to date and attend training courses on matters which are directly relevant to their involvement with the Company. The Directors also receive regular briefings from, amongst others, the auditors, representatives of the Manager and the Company Secretary regarding any proposed developments or changes in laws or regulations that could affect them or the Company. Directors' training and development needs are reviewed by the Chairman on an annual basis.

Directors' liability insurance

The Company has maintained appropriate Directors' liability insurance cover throughout the year.

The Board's responsibilities

The Board is responsible to shareholders for the overall management of the Company. It decides upon matters relating to the Company's investment objective, policy and strategy and monitors the Company's performance towards achieving that objective through its agreed policy and strategy. The Board has also adopted a schedule of matters reserved for its decision. The Board is supplied in a timely manner with information in a form and of a quality appropriate to enable it to discharge its duties.

Corporate Governance Statement

continued

Strategic issues and all operational matters of a material nature are determined by the Board. The Board has responsibility for ensuring that the Company keeps adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Company and which enable it to ensure that the financial statements comply with the Companies Act 2006. It is the Board's responsibility to present a balanced and understandable assessment, which extends to interim and other price-sensitive reports. The Board is also responsible for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board has established a procedure whereby Directors wishing to do so in the furtherance of their duties, may take independent advice at the Company's expense.

Performance evaluation

In order to review the effectiveness of the Board, the Committees and the individual Directors, the Board carries out a formal and rigorous annual appraisal process. The annual evaluation for the year ended 31 December 2024 has been carried out and took the form of questionnaires. The responses were then collated, analysed and discussions held between the Chairman and the Directors. The Chairman also reviews with each Director their individual performance, contribution and commitment and the appraisal of the Chairman is reviewed by the other Directors, led by the Senior Independent Director.

The appraisal process is considered by the Board to be constructive in terms of identifying areas for improving the functioning and the performance of the Board and its Committees and the contribution of individual Directors, as well as building on and developing individual and collective strengths. The review concluded that the Board oversees the management of the Company effectively and has the skills and expertise to safeguard shareholders' interests. The Board, the Investment Manager and representatives of the Manager were found to operate in a cooperative and open environment. Each Director made a valuable contribution to the Board and its discussions, brought different qualities to the Board, challenged the Investment Manager and Manager constructively, remained independent in character and judgement, and dedicated sufficient time to their respective role on the Board. Board composition, dynamics and structure worked well.

There were no significant actions arising from the evaluation process and it was agreed that the current composition of the Board and its Committees reflected a suitable mix of skills and experience and that the Board as a whole, the individual Directors and its Committees, were functioning effectively.

Delegation of responsibilities

Management and administration

The management of the investment portfolio and the administration of the Company have been contractually delegated to BlackRock Fund Managers Limited (BFM or the Manager), as the Company's AIFM, and BFM (with the permission of the Company) has delegated certain investment management and other ancillary services to BlackRock Investment Management (UK) Limited (BIM (UK) or the Investment Manager). The contractual arrangements with BFM are summarised on page 56.

The Manager, operating under guidelines determined by the Board, has direct responsibility for the decisions relating to the day-to-day running of the Company and is accountable to the Board for the investment, financial and operating performance of the Company. The Board has final investment authority on unquoted investments. The review of the Manager's performance is an ongoing duty and responsibility of the Board which is carried out at each Board meeting. In addition, a formal review is undertaken annually, details of which are set out in the Directors' Report.

The Manager has delegated the portfolio valuation and fund accounting services to The Bank of New York Mellon (International) Limited (BNY). The assets of the Company have been entrusted to the Depositary for safekeeping. The Depositary is The Bank of New York Mellon (International) Limited. The address at which this business is conducted is given on page 144.

The Board has delegated the exercise of voting rights attaching to the securities held in the portfolio to the Investment Manager. Details of the Investment Manager's approach to voting at shareholder meetings are set out on page 57.

The Company Secretary

The Board has direct access to company secretarial advice and the services of the Manager which, through its nominated representative, is responsible for ensuring that Board and Committee procedures are followed and that applicable regulations are complied with. The appointment and removal of the Company Secretary is a matter for the whole Board. The Board has established a procedure whereby Directors wishing to do so in the furtherance of their duties, may take independent professional advice at the Company's expense.

Committees of the Board

The Board has appointed a number of committees as set out below.

Nomination Committee

As the Board is small and comprises only non-executive Directors it fulfils the function of the Nomination Committee and is chaired by the Chairman of the Board. Should a vacancy occur, or the Board decides to recruit new members, the Board will take into account the size, balance and profile of the Board as a whole to identify any areas that need strengthening. Due to the specialist nature of the investment mandate and the difficulty in finding new Directors with knowledge of the mining sector, the existing Directors may identify suitable individuals from their range of contacts, although other sources, including external search consultants, may also be used as required. During the year the Company engaged the services of Fletcher Jones, an independent search consultant, to identify suitable Board candidates, which resulted in the appointment of Mrs Scott on 9 May 2024.

Audit Committee

The Audit Committee, which is chaired by Mr Venkatakrishnan, comprises the whole Board with the exception of Mr Goodyear, who is not a member of the Committee but may attend by invitation. Further details are given in the Report of the Audit Committee on pages 76 to 80.

Management Engagement Committee

The Management Engagement Committee is currently chaired by Ms Lewis and comprises the whole Board. The Committee is responsible for reviewing the performance of the Manager in terms of investment management, company secretarial services and fund accounting and, at least annually, reviews the investment management agreement to ensure the terms remain competitive. It will consider each year whether the continuing appointment of the Manager on the terms of the management contract is in the interests of the Company's shareholders as a whole. It will also consider and make recommendations to the Board regarding the appointment of third-party service providers and ensure that third-party service providers comply with the terms of their respective agreements with the Company and that the provisions of such agreements follow industry practice, remain competitive and are in the best interests of shareholders.

Remuneration Committee

The Company's policy on Directors' remuneration, together with details of the remuneration of each Director, is detailed in the Directors' Remuneration Report and Directors' Remuneration Policy on pages 63 to 68. As stated in the Directors' Remuneration Report, the full Board determines the level of Directors' fees and accordingly there is no separate Remuneration Committee.

Internal controls

The Board is responsible for establishing and maintaining the internal controls of the Company and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable and for regularly monitoring compliance with regulations governing the operation of investment trusts. The Board, through the Audit Committee (the Committee) regularly reviews the effectiveness of the internal control systems to identify, evaluate and manage the Company's significant risks. If any significant failings or weaknesses are identified, the Manager and Board ensure that necessary action is taken to remedy the failings. The Board is not aware of any significant failings or weaknesses arising in the year under review.

Control of the risks identified, covering financial, operational, compliance and risk management, is embedded in the operations of the Company. There is a monitoring and reporting process to review these controls, which has been in place throughout the year under review and up to the date of this report, carried out by the Manager's corporate audit departments. This accords with the Financial Reporting Council's 'Guidance on Risk Management, Internal Control and Related Financial and Business Reporting'.

The Company's risk register sets out the risks relevant to the Company and describes, where relevant, the internal controls that are in place at the AIFM, the Investment Manager and other third-party service providers to mitigate these risks. The Committee formally reviews this register on a semi-annual basis and the Manager as the Company's AIFM reports on any significant issues that have been identified in the period. In addition, BlackRock's internal audit department provides an annual presentation to the Audit Committee chairs of the BlackRock investment trusts on the results of testing performed in relation to BlackRock's internal control processes. The Depositary also reviews the control processes in place at the Custodian, the Fund Accountant and the AIFM and reports formally to the Committee twice yearly. Both the AIFM and the Depositary will

Corporate Governance Statement

continued

escalate issues and report to the Committee outside of these meetings on an ad hoc basis to the extent this is required. The Committee also receives annual and quarterly Service Organisation Control (SOC 1) reports respectively from BlackRock and BNY on the internal controls of their respective operations, together with the opinion of their reporting accountant.

The Board recognises that these control systems can only be designed to manage rather than eliminate the risk of failure to achieve business objectives and to provide reasonable, but not absolute, assurance against material misstatement or loss, and relies on the operating controls established by the Manager, the Fund Accountant and Custodian. The Manager prepares revenue forecasts and management accounts which allow the Board to assess the Company's activities and review its performance. The Board and the Manager have agreed clearly defined investment criteria, specified levels of authority and exposure limits. Reports on these issues, including performance statistics and investment valuations, are submitted to the Board at each meeting.

The Company does not have its own internal audit function, as all the administration is delegated to the Manager and other third-party service providers. The Board monitors the controls in place through the internal control reports and the Manager's internal audit department and feels that there is currently no need for the Company to have its own internal audit function, although this matter is kept under review.

Financial reporting

The Statement of Directors' Responsibilities in respect of the Annual Report and Financial Statements is set out on pages 81 and 82, the Independent Auditors' Report on pages 86 to 93 and the Statement of Going Concern on page 58.

Bribery prevention policy

The provision of bribes of any nature to third parties in order to gain a commercial advantage is prohibited and is a criminal offence. The Board has a zero-tolerance policy towards bribery and a commitment to carry out business fairly, honestly and openly. The Board takes its responsibility to prevent bribery very seriously and the Manager has anti-bribery policies and procedures in place which are high level, proportionate and risk based. The Company's service providers have been contacted in respect of their anti-bribery policies and, where necessary, contractual changes are made to existing agreements in respect of anti-bribery provisions.

Criminal Finances Act 2017

The Company has a commitment to zero tolerance towards the criminal facilitation of tax evasion.

Communications with shareholders

Communications with shareholders is given a high priority. Regular updates on performance are available to shareholders on the BlackRock website and the Investment Manager will review the Company's portfolio performance at the Annual General Meeting. The Notice of Annual General Meeting which is sent out 20 working days in advance of the meeting sets out the business of the Meeting which is explained in the Directors' Report. Separate resolutions are proposed for substantive issues.

Proxy voting figures will be announced to shareholders at the Annual General Meeting and will be made available on the website shortly after the meeting. In accordance with Provision 4 of the UK Code, when 20% of votes have been cast against a resolution at any general meeting, the Board will explain, when announcing the results of voting, what actions it intends to take to understand the reasons behind the vote result. An interim action statement will also be published within six months of the vote, setting out the views received from shareholders and the actions that the Company has taken, and the Board will include a summary of the feedback and actions in the next Annual Report.

The Company's willingness to enter into discussions with institutional shareholders is also demonstrated by the programmes of institutional presentations by the Investment Manager. The Board discusses with the Investment Manager at each Board meeting any feedback from meetings with shareholders and it also receives reports from its corporate brokers. The Chairman is available to meet directly with shareholders periodically without the Investment Manager being present. The Chairman may be contacted via the Company Secretary whose details are given on page 144. The dialogue with shareholders provides a two-way forum for canvassing the views of shareholders and enabling the Board to become aware of any issues of concern, including those relating to performance, strategy and corporate governance.

There is a section within this report entitled 'Shareholder Information' which provides an overview of useful information available to shareholders. The Company's financial statements, regular factsheets and other information are also published on the BlackRock website at www.blackrock.com/uk/brwm. The work undertaken by the auditors does not involve consideration of the maintenance and integrity of the website and, accordingly, the auditors accept no responsibility for any changes that

have occurred to the financial statements since they were initially presented on the website. Visitors to the website need to be aware that legislation in the United Kingdom governing the preparation and dissemination of the accounts may differ from legislation in their jurisdiction.

Packaged Retail and Insurance-Based Investment Products (PRIIPS) Regulation

The PRIIPs KID in respect of the Company can be found at: www.blackrock.com/uk/brwm.

Disclosure Guidance and Transparency Rules

Other information required to be disclosed pursuant to the Disclosure Guidance and Transparency Rules has been placed in the Directors' Report on pages 55 to 62 because it is information which refers to events that have taken place during the course of the year.

For and on behalf of the Board

CHARLES GOODYEAR

Chairman

4 March 2025

Report of the Audit Committee

As Chairman of the Company's Audit Committee (the Committee) I am pleased to present the Committee's report to shareholders for the year ended 31 December 2024.

Composition

All of the Directors, except the Chairman of the Board, were members of the Committee during the year under review. The Chairman may attend Committee meetings by invitation. The Board considers that at least one member of the Committee has recent and relevant financial experience and specific competence in accounting and/or auditing and the Committee as a whole has competence relevant to the sector in which the Company operates.

The biographies of the Directors may be found on pages 37 and 38.

Performance evaluation

Details of the evaluation of the Committee are set out in the Corporate Governance Statement on page 72.

Role and responsibilities

The Committee meets at least twice a year. The two planned meetings are held prior to the Board meetings to approve the half yearly and annual results. The Committee does not consider that as an investment trust company it needs to hold an additional meeting, although this is kept under review. The Chairman of the Audit Committee meets and interacts with the auditors and the Manager's representative in between scheduled meetings to address relevant accounting and financial reporting matters that may arise during the period.

The Committee operates within written terms of reference detailing its scope and duties and these are available on the website at www.blackrock.com/uk/brwm. The Committee's principal duties, as set out in the terms of reference, are set out below. In accordance with these duties, the principal activities of the Committee during the year included:

Internal controls, financial reporting and risk management systems

- reviewing the adequacy and effectiveness of the Group's internal financial controls and the internal control and risk management systems;
- reasonably satisfying itself that such systems meet relevant legal and regulatory requirements;
- monitoring the integrity of the financial statements;
- reviewing the consistency of, and any changes to, accounting policies;
- reviewing the Half Yearly and Annual Report and Financial Statements to ensure that the Group's results and financial position are presented accurately and fairly to shareholders;
- reviewing semi-annual reports from the Manager on its activities as AIFM; and
- reviewing half yearly reports from the Depositary on its activities.

Narrative reporting

- reviewing the content of the Annual Report and Financial Statements and advising the Board on whether, taken as a whole, they are fair, balanced and understandable and provide the information necessary for shareholders to assess the Group's position, performance, business model and strategy.

External audit

- making recommendations to the Board, to be put to shareholders for approval at the Annual General Meeting in relation to the appointment, re-appointment and removal of the Company's external auditors;
- reviewing the scope, execution, results, cost effectiveness, independence and objectivity of the external auditors;
- reviewing and approving the audit and non-audit fees payable to the external auditors and the terms of their engagement;
- reviewing and approving the external auditors' plan for the following financial year, with a focus on the identification of areas of audit risk and consideration of the appropriateness of the level of audit materiality adopted;
- reviewing the efficiency of the external audit process and the quality of the audit engagement partner and the audit team, and making a recommendation with respect to the reappointment of the auditors;
- reviewing the role of the Manager and third-party service providers in an effective audit process;

- considering the quality of the formal audit report to shareholders; and
- overseeing the relationship with the external auditors.

Reporting responsibilities

- reporting to the Board on its proceedings and how it has discharged its responsibilities, making whatever recommendations it deems appropriate on any area within its remit; and
- compiling a report on its activities to be included in the Annual Report and Financial Statements.

Internal audit

- considering the need for an internal audit function, as set out in the Corporate Governance Statement on pages 73 and 74 and below.

The fees paid to the external auditors are set out in note 5 of the Financial Statements. An explanation of how auditor objectivity and independence is safeguarded is reported under 'Assessment of the effectiveness of the external audit process' on pages 79 and 80.

Whistleblowing policy

The Committee has reviewed and accepted the 'whistleblowing' policy that has been put in place by BlackRock under which its staff, in confidence, can raise concerns about possible improprieties in matters of financial reporting or other matters, insofar as they affect the Company.

Internal audit

The Company does not have its own internal audit function, as all the administration is delegated to the Manager. The Board considers that it is sufficient to rely on the internal audit department of BlackRock and the requirement for an internal audit function is kept under review. The external auditors obtain an understanding of the internal controls in place at both the Manager and the Fund Accountant by analysing the relevant control reports issued by their independent auditors.

Non-audit services

The Company's policy on permitted audit related and non-audit services is set out in full in the Committee's terms of reference which are available on the Manager's website at www.blackrock.com/uk/brwm. During the year the auditors did not provide any non-audit services to the Company.

United Kingdom Single Electronic Format Regulatory Technical Standard (UKSEF)

The Committee paid special attention to the preparation of the financial statements in digital form under the UKSEF taxonomy and regulatory technical standard. The Committee made sure the necessary procedures had been completed by all parties, including the technical accounting team of the Manager, the Fund Accountant, The Bank of New York Mellon and a specialist information technology provider.

Audit Committee Standard

The Financial Reporting Council's Audit Committee Standard 'Audit Committees and the External Audit: Minimum Standard' was published in May 2023. It is applicable to FTSE 350 companies with a premium listing on the London Stock Exchange and will operate on a comply or explain basis until the creation of the Audit, Reporting and Governance Authority (ARGA), at which time compliance will be mandated. This standard is not anticipated to have a significant impact on the Company, but the Audit Committee will be reviewing its current practices against the standard to avoid any non compliance when ARGA is formed.

Significant issues considered regarding the Annual Report and Financial Statements

During the year, the Committee considered a number of significant issues and areas of key audit risk in respect of the Annual Report and Financial Statements. The Committee reviewed the external audit plan at an early stage and concluded that the appropriate areas of audit risk relevant to the Company had been identified and that suitable audit procedures had been put in place to obtain reasonable assurance that the financial statements as a whole would be free of material misstatements. The table on page 78 sets out the key areas of risk identified and also explains how these were addressed.

As the provision of portfolio valuation, fund accounting and administration services is delegated to the Manager, which sub-delegates certain administrative functions to The Bank of New York Mellon (International) Limited (BNY), the Committee has also reviewed the internal control reports prepared by BlackRock and BNY. This enables the Committee to ensure that the relevant control procedures are in place to cover the areas of risk as identified in the table that follows and are adequate and appropriate and have been confirmed as operating effectively by their reporting auditor.

Report of the Audit Committee

continued

Significant issue

The accuracy of the valuation of the investment portfolio

How the issue was addressed

Listed investments are valued using stock exchange prices from third-party pricing providers. The Board reviews detailed portfolio valuations including the fair valuation of unquoted investments on a regular basis throughout the year and receives confirmation from the Manager that the pricing basis is appropriate and in line with relevant accounting standards as adopted by the Company and that the carrying values are materially correct. In relation to the BHP Brazil Royalty Contract and equity shares of Jetty Resources and MCC Mining, the Board reviews the valuation reports of independent external valuers. The frequency of independent valuations differs for different assets and could also be ad hoc depending on any events.

Significant issue

The risk of misappropriation of assets and unsecured ownership of investments

How the issue was addressed

The Depositary is responsible for financial restitution for loss of financial investments held in custody. The Depositary reports to the Committee twice a year.

The Committee reviews reports from its service providers on key controls over the assets of the Company and will take action to address any significant issues that are identified in these reports, which may include direct discussions with representatives of the relevant service providers to obtain more detailed information surrounding any matters of concern and gaining assurance that appropriate remediation has been taken. Any significant issues are reported by the Manager to the Committee. The Manager has put in place procedures to ensure that investments can only be made to the extent that the appropriate contractual and legal arrangements are in place to protect the Company's assets.

Significant issue

The accuracy of the calculation of the management fee

How the issue was addressed

The management fee is calculated in accordance with the contractual terms in the investment management agreement by the Fund Accountant and is reviewed in detail by the Manager. The calculations are also reviewed by the Board and auditors.

Significant issue

The risk that income is overstated, incomplete or inaccurate through failure to recognise proper income entitlements or to apply the appropriate accounting treatment for recognition of income

How the issue was addressed

The Committee reviews income forecasts, including special dividends and written options, and receives explanations from the Manager for any variations or significant movements from previous forecasts and prior year numbers. The Committee also reviews and approves the rationale for the revenue/capital accounting treatment of option income and special dividends.

The Committee also reviews SOC1 Reports from its service providers, including the Company's Fund Accountant and Custodian, BNY. These reports include information on control processes in place to ensure the accurate recording of income and any exceptions are highlighted to the Committee and will be investigated further to ensure that appropriate remedial action has been taken where relevant.

Auditors and audit tenure

The Committee reviews the performance of the auditors on an annual basis, taking into consideration the services and advice provided to the Company and the fees charged for these services. The Company's auditors, PricewaterhouseCoopers LLP, were appointed on 28 April 2016 following the result of a tender process held in late 2015. Ms Gillian Alexander has been the Company's audit partner since the financial year commencing on 1 January 2021.

The Committee, in conjunction with the Board, is committed to reviewing the auditors' appointment each year to ensure that the Company is receiving an optimal level of service. In addition, even if no change is made to the audit firm appointed, the audit partner changes at least every five years.

There are no contractual obligations that restrict the Company's choice of auditors. The Committee is mindful of EU audit legislation which requires the rotation of long serving auditors. The Company will be required to put its audit contract out to tender again by no later than 2026.

The Committee is satisfied that the Company has complied with the provisions of the Statutory Audit Services for Large Companies Market Investigation (Mandatory Use of Competitive Processes and Audit Committee Responsibilities) Order 2014, published by the Competition and Markets Authority on 26 September 2014. In recognition of underlying audit rotation requirements, the Committee currently intends that an audit tender process will be undertaken during 2025 to appoint either the incumbent or a new audit firm for the financial year ending 31 December 2026 onwards.

No non-audit fees have been paid to the auditors during the year. Fees of £9,350 paid to PricewaterhouseCoopers LLP in 2023 relate to their review of the half yearly financial statements.

Assessment of the effectiveness of the external audit process

To assess the effectiveness of the external audit, members of the Committee work closely with the Manager to obtain a good understanding of the progress and efficiency of the audit. The Committee has adopted a formal framework to review the effectiveness of the external audit process and audit quality. This includes a review of the following areas:

- the quality of the audit engagement partner and the audit team;
- the expertise of the audit firm and the resources available to it;
- identification of areas of audit risk;
- planning, scope and execution of the audit;
- consideration of the appropriateness of the level of audit materiality adopted;
- the role of the Committee, the Manager and third-party service providers in an effective audit process;
- communications by the auditors with the Committee;
- how the auditors support the work of the Committee and how the audit contributes added value;
- policies and procedures to pre-approve and monitor non-audit services including gifts and hospitality;
- the independence and objectivity of the audit firm; and
- the quality of the formal audit report to shareholders.

Feedback in relation to the audit process and also the effectiveness of the Manager in performing its role is also sought from relevant involved parties, notably the audit partner and team. The external auditors are invited to attend the Committee meetings at which the half yearly and annual financial statements are considered and at which they have the opportunity to meet with the Committee without representatives of the Manager or Investment Manager being present.

The effectiveness of the Committee and the Manager in the external audit process is assessed principally in relation to the timely identification and resolution of any process errors or control breaches that might impact the Company's net asset values and accounting records. It is also assessed by reference to how successfully any issues in respect of areas of accounting judgement are identified and resolved, the quality and timeliness of papers analysing these judgements, the Board and the Manager's approach to the value of the independent audit and the booking of any audit adjustments arising, and the timely provision of draft public documents for review by the auditors and the Committee.

Report of the Audit Committee

continued

To form a conclusion regarding the independence of the external auditors, the Committee considers whether the skills and experience of the auditors make them a suitable supplier of non-audit services and whether there are safeguards in place to ensure that there is no threat to their objectivity and independence in the conduct of the audit resulting from the provision of such services. On an ongoing basis, PricewaterhouseCoopers LLP review the independence of their relationship with the Company and report to the Committee, providing details of any other relationship with the Manager. As part of this review, the Committee also receives information about policies and processes for maintaining independence and monitoring compliance with relevant requirements from the Company's auditors, including information on the rotation of audit partners and staff, the level of fees that the Company pays in proportion to the overall fee income of the firm, and the level of related fees, details of any relationships between the audit firm and its staff and the Company, as well as an overall confirmation from the auditors of their independence and objectivity.

As a result of its review, the Committee has concluded that the external audit has been conducted effectively and also that PricewaterhouseCoopers LLP is independent of the Company and the Manager.

Conclusions in respect of the Annual Report and Financial Statements

The production and the audit of the Company's Annual Report and Financial Statements is a comprehensive process requiring input from a number of different contributors. In order to reach a conclusion that the Annual Report and Financial Statements are fair, balanced and understandable, the Board has requested that the Committee advise on whether these criteria are satisfied. In so doing, the Committee has given consideration to the following:

- the comprehensive control framework over the production of the Annual Report and Financial Statements, including the verification processes in place to deal with the factual content;
- the extensive levels of review that are undertaken in the production process by the Manager, the Depositary and other third-party service providers responsible for accounting services and the Committee;
- the controls that are in place at the Manager and third-party service providers to ensure the completeness and accuracy of the Group's financial records and the security of the Group's assets; and
- the existence of satisfactory internal control reports that have been reviewed and reported on by external auditors to verify the effectiveness of the internal controls of the Manager, Depositary, Custodian and Fund Accountants.

In addition to the work outlined above, the Committee has reviewed the Annual Report and Financial Statements and is satisfied that, taken as a whole, they are fair, balanced and understandable. In reaching this conclusion, the Committee has assumed that the reader of the Annual Report and Financial Statements would have a reasonable level of knowledge of the investment trust industry in general and of investment trusts in particular. The Committee has reported on these findings to the Board who affirm the Committee's conclusions in the Statement of Directors' Responsibilities in respect of the Annual Report and Financial Statements.

SRINIVASAN VENKATAKRISHNAN

Chairman

Audit Committee

Statement of Directors' Responsibilities in respect of the Annual Report and Financial Statements

The Directors are responsible for preparing the Annual Report and Financial Statements in accordance with applicable law and regulations. Company law requires the Directors to prepare financial statements for each financial year. Under that law, the Directors are required to prepare the financial statements in accordance with UK-adopted International Accounting Standards (IAS).

Under Company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company and of the profit or loss of the Group for that period. In preparing those financial statements, the Directors are required to:

- present fairly the financial position, financial performance and cash flows of the Group and Company;
- select suitable accounting policies in accordance with IAS 8: Accounting Policies, Changes in Accounting Estimates and Errors and then apply them consistently;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with UK-adopted IAS, subject to any material departures disclosed and explained in the financial statements;
- provide additional disclosures when compliance with the specific requirements in accordance with UK-adopted IAS is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's and Company's financial position and financial performance; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's and Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company and enable them to ensure that the financial statements comply with the Companies Act 2006.

They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for preparing the Strategic Report, Directors' Report, the Directors' Remuneration Report, the Corporate Governance Statement and the Report of the Audit Committee in accordance with the Companies Act 2006 and applicable regulations, including the requirements of the Listing Rules and the Disclosure Guidance and Transparency Rules. The Directors have delegated responsibility to the Manager for the maintenance and integrity of the Company's corporate and financial information included on the BlackRock website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Each of the Directors, whose names are listed on pages 37 and 38, confirm to the best of their knowledge that:

- the financial statements, which have been prepared in accordance with UK-adopted IAS, give a true and fair view of the assets, liabilities, financial position and net return of the Group and Company; and
- the Strategic Report contained in the Annual Report and Financial Statements includes a fair review of the development and performance of the business and the position of the Group and Company, together with a description of the principal risks and uncertainties that it faces.

The 2018 UK Corporate Governance Code also requires Directors to ensure that the Annual Report and Financial Statements are fair, balanced and understandable. In order to reach a conclusion on this matter, the Board has requested that the Audit Committee advise on whether it considers that the Annual Report and Financial Statements fulfil these requirements. The process by which the Committee has reached these conclusions is set out in the Audit Committee's Report on pages 76 to 80.

Statement of Directors' Responsibilities in respect of the Annual Report and Financial Statements continued

As a result, the Board has concluded that the Annual Report and Financial Statements for the year ended 31 December 2024, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Group's and Company's position, performance, business model and strategy.

For and on behalf of the Board

CHARLES GOODYEAR

Chairman

Independent auditors' report

to the members of BlackRock World Mining Trust plc

Report on the audit of the financial statements

Opinion

In our opinion, BlackRock World Mining Trust plc's Group financial statements and Parent Company financial statements (the "financial statements"):

- give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 31 December 2024 and of the Group's loss and the Group's and Parent Company's cash flows for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards as applied in accordance with the provisions of the Companies Act 2006; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Consolidated and Parent Company Statements of Financial Position as at 31 December 2024; the Consolidated Statement of Comprehensive Income, the Consolidated Statement of Changes in Equity, the Parent Company Statement of Changes in Equity and the Consolidated and Parent Company Cash Flow Statements for the year then ended; and the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

We have provided no non-audit services to the Parent Company or its controlled undertakings in the period under audit.

Our audit approach

Context

The Group comprises BlackRock World Mining Trust plc (the 'Parent Company') and BlackRock World Mining Investment Company Limited. The Group engages BlackRock Fund Managers Limited (the 'Manager') to manage its assets. We conducted our audit of the financial statements using information from the Manager and The Bank of New York Mellon (International) Limited (the 'Fund Accountant') to whom the Manager has, with the consent of the Directors, delegated the provision of certain administrative functions.

Overview

Audit scope

- We tailored the scope of our audit taking into account the types of investments within the Group and Parent Company, the involvement of the third parties referred to in the Context section, the accounting processes and controls, and the industry in which the Group and Parent Company operate.
- We obtained an understanding of the control environment in place at both the Manager and the Fund Accountant and adopted a fully substantive testing approach using reports obtained from the Fund Accountant and the Manager.

Key audit matters

- Valuation and existence of investments (Group and Parent Company)
- Accuracy, completeness and occurrence of income (Group and Parent Company)
- Ability to continue as a going concern (Continuation Vote) (Parent Company)

Materiality

- Overall Group materiality: £9.75m (2023: £11.60m) based on 1% of net assets.
- Overall Parent Company materiality: £9.26m (2023: £11.02m) based on 1% of net assets, capped at 95% of the Group materiality.
- Performance materiality: £7.31m (2023: £8.70m) (Group) and £6.94m (2023: £8.27m) (Parent Company).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

The key audit matters below are consistent with last year.

Key audit matter	How our audit addressed the key audit matter
<p><i>Valuation and existence of investments (Group and Parent Company)</i></p> <p>Refer to the Report of the Audit Committee (page 78), Accounting policies (page 102) and Notes to the Financial Statements (page 111).</p> <p>The investment portfolio of £1.09b at the year end comprised listed equity of £987.72m and unlisted equity, investments in contractual rights and fixed income securities of £105.48m. We focused on the valuation and existence of listed investments because investments represent the principal element of the net asset value as disclosed on the Statement of Financial Position in the Annual Report and Financial Statements.</p> <p>For unlisted equity investments and investments in contractual rights, we focused on the valuation of the BHP Royalty Contract, Jetti Resources and MCC Mining as the valuation of these investments requires estimates and significant judgements to be applied by the Manager. Changes to the estimates and/or judgements can result, either on an individual or aggregate basis, in a material change to the valuation of the investments.</p> <p>We also considered the valuation of the fixed income securities, Vale debentures, as it is listed on the Brazilian National Debenture System (BNDS). As the BNDS has a low volume of transactions it creates estimation uncertainty in the valuation.</p>	<p>Our audit work on the valuation of the listed investments included the following:</p> <ul style="list-style-type: none"> • We tested the valuation of all listed investments by agreeing the valuation to independent third-party sources. <p>Our audit work on the valuation of unlisted investments included the following:</p> <ul style="list-style-type: none"> • We understood the valuation techniques used by the Directors in determining the fair value of each unlisted investment. <p>For the BHP Royalty Contract, we performed the following audit procedures:</p> <ul style="list-style-type: none"> • We obtained and reviewed the valuation report issued by the external expert; • We involved PwC experts to assist us in: <ul style="list-style-type: none"> – evaluating the valuation methodology applied, by reference to the International Private Equity and Venture Capital Valuation guidelines (IPEV); – joining the discussions with the external expert throughout December 2024 up until February 2025 to understand the approach taken in the current year and obtain an understanding of changes in the assumptions since last year; – assessing the impact of climate and political change on the valuation; – assessing the assumptions used by the directors, where different from the assumptions used by the external expert, in determining the fair value; – re-performing the calculations and assessing the reasonableness of production volumes used in the valuation; – performing price benchmarking over gold and copper price forecasts; and – performing an analysis of discount rates used, including determining the sensitivity of key assumptions to changes.

Independent auditors' report

to the members of BlackRock World Mining Trust plc (continued)

Key audit matter	How our audit addressed the key audit matter
	<p>For Jetti Resources we performed the following audit procedures:</p> <ul style="list-style-type: none">• We obtained and reviewed the valuation report issued by the external expert;• We involved PwC experts to assist us in:<ul style="list-style-type: none">– evaluating the valuation methodology applied by reference to the International Private Equity and Venture Capital Valuation guidelines (IPEV);– obtaining an understanding of changes in the assumptions since last year, particularly the assumptions relating to forecasted earnings and exit multiple;– performing price benchmarking over gold and copper price forecasts; and– assessing the impact of climate change on the valuation. <p>For MCC Mining, we performed the following audit procedures:</p> <ul style="list-style-type: none">• We obtained and reviewed the valuation report issued by the external expert;• We involved PwC experts to assist us in:<ul style="list-style-type: none">– evaluating the valuation methodology applied by reference to the International Private Equity and Venture Capital Valuation guidelines (IPEV);– obtaining an understanding of changes in the valuation since last year with the most recent fund raise in February 2024 and most recent transaction in December 2024; and– assessing the impact of climate change on the valuation. <p>For the Vale debentures, we performed the following audit procedures:</p> <ul style="list-style-type: none">• We obtained an independent price from the Brazilian Financial and Capital Markets Association (ANBIMA);• We obtained and reviewed the trade history both prior to and subsequent to year end to gauge the volume of transactions; and• We assessed the validity of the pricing source based on publicly available data. <p>We tested the existence of all of the investments and options by agreeing the Group's holdings to an independent custodian and broker confirmations. For the Parent Company's investment in the subsidiary, we agreed the investment to the net asset value of the subsidiary which we audited.</p> <p>We have no matters to report as a result of this testing.</p>

Key audit matter	How our audit addressed the key audit matter
<p><i>Accuracy, completeness and occurrence of income (Group and Parent Company)</i></p> <p>Refer to the Report of the Audit Committee (page 78), Accounting policies (page 100) and Notes to the Financial Statements (page 104). Income from investments consists primarily of dividend and option income.</p> <p>Within dividend income, there is a risk of incomplete or inaccurate recognition of income through the failure to recognise proper income entitlements or to apply an inappropriate accounting treatment.</p> <p>In addition, the Directors are required to exercise judgement in determining whether income receivable in the form of special dividends should be classified as 'revenue' or 'capital' in the Statement of Comprehensive Income.</p>	<p>We responded to this risk by performing the following audit procedures:</p> <ul style="list-style-type: none"> • We obtained an understanding of the processes and controls around income recognition and classification of special dividends by reviewing the internal controls reports of the Fund Accountant; and • We assessed the appropriateness of the classification of special dividends as revenue or capital by the Directors with reference to publicly available information. <p>For all dividends recorded by the Group, we performed our audit procedures through the use of our proprietary testing tool Halo:</p> <p>We tested the accuracy of dividend income by agreeing the dividend rates from investments to independent market Data. For the income generated by options we tested the accuracy of option income by agreeing a sample of income recorded to supporting evidence such as bank statements and broker statements;</p> <ul style="list-style-type: none"> • We tested occurrence by examining for each investment holding, that all dividends recorded in the year had been declared in the market; and • To test for completeness, we investigated that the appropriate dividend income had been received in the year by reference to independent data of dividends declared for all investment holdings held within the year. <p>As stipulated by the requirements set out in the AIC SORP, we tested the allocation and presentation of dividend income between the revenue and capital columns of the Consolidated Statement of Comprehensive Income by determining reasons behind dividend distributions.</p> <p>We have no matters to report as a result of this testing.</p>
<p><i>Ability to continue as a going concern (Continuation Vote) (Parent Company)</i></p> <p>A continuation vote is due to take place at the next Annual General Meeting in 2025, which, if passed, will allow the Parent Company to continue as an investment trust for a further year. As such, the Directors have considered and assessed the potential impact on the ability of the Parent Company to continue as a going concern.</p> <p>The Directors have concluded, based on their assessment and discussions with key investors, that the Parent Company will be able to continue its operations and meet its liabilities as they fall due for a period of at least 12 months from the date of approving the financial statements.</p>	<p>The procedures we performed and our conclusions on going concern are included in the Conclusions relating to going concern section below.</p>

Independent auditors' report

to the members of BlackRock World Mining Trust plc (continued)

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Group and of the Parent Company, the accounting processes and controls, and the industry in which they operate.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

	Financial statements – Group	Financial statements – Company
Overall materiality	£9.75m (2023: £11.60m).	£9.26m (2023: £11.02m).
How we determined it	1% of net assets.	1% of net assets, capped at 95% of the Group materiality.
Rationale for benchmark applied	We believe that net assets is the primary measure used by the shareholders in assessing the performance of the entity, and is a generally accepted auditing benchmark. This benchmark provides an appropriate and consistent year on year basis for our audit.	We believe that net assets is the primary measure used by the shareholders in assessing the performance of the entity, and is a generally accepted auditing benchmark. This benchmark provides an appropriate and consistent year on year basis for our audit. The materiality of the Parent Company is capped at 95% of the overall Group materiality.

For each component in the scope of our Group audit, we allocated a materiality that is less than our overall Group materiality. The range of materiality allocated across components was between £9,752k and £75k. Certain components were audited to a local statutory audit materiality that was also less than our overall Group materiality.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2023: 75%) of overall materiality, amounting to £7.31m (2023: £8.70m) for the Group financial statements and £6.94m (2023: £8.27m) for the Parent Company financial statements.

The impact of climate risk on our audit

In planning our audit, we made enquiries of the Directors and Investment Manager to understand the extent of the potential impact of climate change on the Group's and Parent Company's financial statements. The Directors and Investment Manager concluded that there was no material impact on the financial statements. Our evaluation of this conclusion included challenging key judgements and estimates in areas where we considered that there was greatest potential for climate change impact. This was principally in relation to the valuation of certain level 3 unquoted investments as explained in our key audit matter 'Valuation and existence of investments'. We also considered the consistency of the climate change disclosures included in the Strategic Report and Investment Manager's Report with the financial statements and our knowledge from our audit.

In determining the performance materiality, we considered a number of factors – the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls – and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £488k (Group audit) (2023: £580k) and £463k (Parent Company audit) (2023: £551k) as well as misstatements below those amounts that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the Directors' assessment of the Group's and the Parent Company's ability to continue to adopt the going concern basis of accounting included:

- evaluating the Directors' updated risk assessment and considering whether it addressed relevant threats, including rise of inflation and the wider macroeconomic uncertainty;
- evaluating the Directors' assessment of potential operational impacts, considering their consistency with other available information and our understanding of the business and assessing the potential impact on the financial statements;
- reviewing the Directors' assessment of the Group's and Parent Company's financial position in the context of its ability to meet future expected operating expenses, their assessment of liquidity as well as their review of the operational resilience of the Group and Parent Company and oversight of key third-party service providers;
- assessing the implication of significant reductions in NAV as a result of a severe but plausible downside scenario in the market's performance on the ongoing ability of the Group and Parent Company to operate; and
- reviewing the Directors' assessment of going concern in relation to the passing of the continuation vote, including assessing the stability of the shareholder register, engagement with key shareholders, the financial performance of the Parent Company compared to its performance benchmark and the result of previous continuation votes.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Group's and the Parent Company's ability to continue as a going concern.

In relation to the Directors' reporting on how they have applied the UK Corporate Governance Code, we have nothing material to add or draw attention to in relation to the Directors' statement in the financial statements about whether the Directors considered it appropriate to adopt the going concern basis of accounting.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our

auditors' report thereon. The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2024 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the Group and Parent Company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Directors' Remuneration

In our opinion, the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006.

Corporate governance statement

The Listing Rules require us to review the Directors' statements in relation to going concern, longer-term viability and that part of the corporate governance statement relating to the Parent Company's compliance with the provisions of the UK Corporate Governance Code specified for our review. Our additional responsibilities with respect to the corporate governance statement as other information are described in the Reporting on other information section of this report.

Based on the work undertaken as part of our audit, we have concluded that each of the following elements of the corporate governance statement is materially consistent with the financial statements and our knowledge obtained during the audit, and we have nothing material to add or draw attention to in relation to:

Independent auditors' report

to the members of BlackRock World Mining Trust plc (continued)

- The Directors' confirmation that they have carried out a robust assessment of the emerging and principal risks;
- The disclosures in the Annual Report that describe those principal risks, what procedures are in place to identify emerging risks and an explanation of how these are being managed or mitigated;
- The Directors' statement in the financial statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them, and their identification of any material uncertainties to the Group's and Parent Company's ability to continue to do so over a period of at least twelve months from the date of approval of the financial statements;
- The Directors' explanation as to their assessment of the Group's and Parent Company's prospects, the period this assessment covers and why the period is appropriate; and
- The Directors' statement as to whether they have a reasonable expectation that the Parent Company will be able to continue in operation and meet its liabilities as they fall due over the period of its assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Our review of the Directors' statement regarding the longer-term viability of the Group and Parent Company was substantially less in scope than an audit and only consisted of making inquiries and considering the Directors' process supporting their statement; checking that the statement is in alignment with the relevant provisions of the UK Corporate Governance Code; and considering whether the statement is consistent with the financial statements and our knowledge and understanding of the Group and Parent Company and their environment obtained in the course of the audit.

In addition, based on the work undertaken as part of our audit, we have concluded that each of the following elements of the corporate governance statement is materially consistent with the financial statements and our knowledge obtained during the audit:

- The Directors' statement that they consider the Annual Report, taken as a whole, is fair, balanced and understandable, and provides the information necessary for the members to assess the Group's and Parent Company's position, performance, business model and strategy;
- The section of the Annual Report that describes the review of effectiveness of risk management and internal control systems; and
- The section of the Annual Report describing the work of the Audit Committee.

We have nothing to report in respect of our responsibility to report when the Directors' statement relating to the Parent Company's compliance with the Code does not properly disclose a departure from a relevant provision of the Code specified under the Listing Rules for review by the auditors.

Responsibilities for the financial statements and the audit

Responsibilities of the Directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in respect of the Annual Report and Financial Statements, the Directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Parent Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Group and industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of Section 1158 of the Corporation Tax Act 2010, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase net asset value. Audit procedures performed by the engagement team included:

- holding discussions with the Manager and the Audit Committee, including consideration of known or suspected

instances of non-compliance with laws and regulation and fraud;

- understanding the controls implemented by the Manager and the Fund Accountant designed to prevent and detect irregularities;
- assessing the Group and Parent Company's compliance with the requirements of Section 1158 of the Corporation Tax Act 2010, including recalculation of numerical aspects of the eligibility conditions;
- identifying and testing journal entries, in particular year-end journal entries posted by the Fund Accountant during the preparation of the financial statements;
- designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing for example, targeting transactions that otherwise would be immaterial; and
- reviewing relevant meeting minutes, including those of the Audit Committee.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Group and Parent Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- the Parent Company financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the Audit Committee, we were appointed by the Directors on 28 April 2016 to audit the financial statements for the year ended 31 December 2016 and subsequent financial periods. The period of total uninterrupted engagement is 9 years, covering the years ended 31 December 2016 to 31 December 2024.

Other matter

The Parent Company is required by the Financial Conduct Authority Disclosure Guidance and Transparency Rules to include these financial statements in an annual financial report prepared under the structured digital format required by DTR 4.1.15R - 4.1.18R and filed on the National Storage Mechanism of the Financial Conduct Authority. This auditors' report provides no assurance over whether the structured digital format annual financial report has been prepared in accordance with those requirements.

The total columns of this statement represent the Group's Statement of Comprehensive Income, prepared in accordance with UK-adopted International Accounting Standards (IAS). The supplementary revenue and capital accounts are both prepared under guidance published by the Association of Investment Companies (AIC). All items in the above statement derive from continuing operations. No operations were acquired or discontinued during the year. All income is attributable to the equity holders of the Group.

The Group does not have any other comprehensive income/(loss) (2023: £nil). The net loss for the year disclosed above represents the Group's total comprehensive income/(loss).

The notes on pages 99 to 134 form part of these financial statements.

The notes on pages 99 to 134 form part of these financial statements.

Notes to the financial statements

for the year ended 31 December 2024

1. Principal activity

The principal activity of the Company is that of an investment trust company within the meaning of Section 1158 of the Corporation Tax Act 2010. The Company was incorporated in England on 28 October 1993 and this is the 31st Annual Report.

The principal activity of the subsidiary, BlackRock World Mining Investment Company Limited, is investment dealing.

2. Material accounting policies

The material accounting policies adopted by the Group and Company have been applied consistently, other than where new policies have been adopted and are set out below.

(a) Basis of preparation

The Group and Company financial statements have been prepared under the historic cost convention modified by the revaluation of certain financial assets and financial liabilities held at fair value through profit or loss and in accordance with UK-adopted International Accounting Standards (IAS), with future changes being subject to endorsement by the UK Endorsement Board and with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards. The Company has taken advantage of the exemption provided under Section 408 of the Companies Act 2006 not to publish its individual Statement of Comprehensive Income and related notes. All of the Group's operations are of a continuing nature.

Insofar as the Statement of Recommended Practice (SORP) for investment trust companies and venture capital trusts, issued by the Association of Investment Companies (AIC) in October 2019 and updated in July 2022, is compatible with UK-adopted IAS, the financial statements have been prepared in accordance with guidance set out in the SORP.

Substantially all of the assets of the Group consist of securities that are readily realisable and, accordingly, the Directors believe that the Group has adequate resources to continue in operational existence for the foreseeable future for the period to 31 March 2026, being a period of at least twelve months from the date of approval of the financial statements and therefore consider the going concern assumption to be appropriate. The Directors have reviewed compliance with the covenants associated with the bank overdraft facility, loan facility, income and expense projections and the liquidity of the investment portfolio in making their assessment.

The Directors have considered the impact of climate change on the value of the investments included in the financial statements and have concluded that there was no further impact of climate change to be considered as the investments are valued based on market pricing as required by IFRS 13.

None of the Group's other assets and liabilities were considered to be potentially impacted by climate change.

The Group's financial statements are presented in Sterling, which is the currency of the primary economic environment in which the Group operates. All values are rounded to the nearest thousand pounds (£'000) except where otherwise indicated.

Adoption of new and amended International Accounting Standards and interpretations:

IAS 1 – Classification of liabilities as current or non current (effective 1 January 2024). The IASB has amended IAS 1 Presentation of Financial Statements to clarify its requirement for the presentation of liabilities depending on the rights that exist at the end of the reporting period. The amendment requires liabilities to be classified as non current if the entity has a substantive right to defer settlement for at least 12 months at the end of the reporting period. The amendment no longer refers to unconditional rights.

IAS 1 – Non current liabilities with covenants (effective 1 January 2024). The IASB has amended IAS 1 Presentation of Financial Statements to introduce additional disclosures for liabilities with covenants within 12 months of the reporting period. The additional disclosures include the nature of covenants, when the entity is required to comply with covenants, the carrying amount of related liabilities and circumstances that may indicate that the entity will have difficulty complying with the covenants.

Notes to the financial statements

continued

2. Material accounting policies continued

Relevant International Accounting Standards that have yet to be adopted:

IAS 21 – Lack of exchangeability (effective 1 January 2025). The IASB issued amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

IFRS 18 – Presentation and disclosure in financial statements (effective 1 January 2027). The IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new. It also requires disclosure of newly defined management defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements and the notes.

None of the standards that have been issued, but are not yet effective, are expected to have a material impact on the Group.

(b) Basis of consolidation

The Group's financial statements are made up to 31 December each year and consolidate the financial statements of the Company and its wholly owned subsidiary, which is registered and operates in England and Wales, BlackRock World Mining Investment Company Limited (together 'the Group'). The subsidiary company is not considered an investment entity. In the financial statements of the Parent Company, the investment in the subsidiary company is held at fair value.

Subsidiaries are consolidated from the date of their acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of subsidiaries used in the preparation of the consolidated financial statements are based on consistent accounting policies. All intra-group balances and transactions, including unrealised profits arising therefrom, are eliminated.

(c) Presentation of the Statement of Comprehensive Income

In order to better reflect the activities of an investment trust company and in accordance with guidance issued by the AIC, supplementary information which analyses the Consolidated Statement of Comprehensive Income between items of a revenue and a capital nature has been presented alongside the Consolidated Statement of Comprehensive Income.

(d) Segmental reporting

The Directors are of the opinion that the Group is engaged in a single segment of business being investment business.

(e) Income

Dividends receivable on equity shares are recognised as revenue for the year on an ex-dividend basis. Where no ex-dividend date is available, dividends receivable on or before the year end are treated as revenue for the year. Provision is made for any dividends and interest income not expected to be received. Special dividends, if any, are treated as a capital or a revenue receipt depending on the facts or circumstances of each particular case. The return on a debt security is recognised on a time apportionment basis so as to reflect the effective yield on the debt security. Interest income and deposit interest is accounted for on an accruals basis.

Options may be purchased or written over securities held in the portfolio for generating or protecting capital returns, or for generating or maintaining revenue returns. Where the purpose of the option is the generation of income, the premium is treated as a revenue item. Where the purpose of the option is the maintenance of capital, the premium is treated as a capital item.

Option premium income is recognised as revenue evenly over the life of the option contract and included in the revenue account of the Consolidated Statement of Comprehensive Income unless the option has been written for the maintenance and enhancement of the Group's investment portfolio and represents an incidental part of a larger capital transaction, in which case any premia arising are allocated to the capital account of the Consolidated Statement of Comprehensive Income.

Royalty income from contractual rights is measured at the fair value of the consideration received or receivable where the Investment Manager can reliably estimate the amount, pursuant to the terms of the agreement. Royalty income from contractual rights received comprises of a return of income and a return of capital based on the underlying cost of the contract and, accordingly, the return of income element is taken to the revenue account and the return of capital element is taken to the capital account. These amounts are disclosed in the Consolidated Statement of Comprehensive Income within income from investments and net profit on investments held at fair value through profit or loss, respectively.

The useful life of the contractual rights will be determined by reference to the contractual arrangements, the planned mine life on commencement of mining and the underlying cost of the contractual rights will be revalued on a systematic basis using the units of production method over the life of the contractual rights which is estimated using available estimated proved and probable reserves specifically associated with the mine. The Investment Manager relies on public disclosures for information on proven and probable reserves from the operators of the mine. Amortisation rates are adjusted on a prospective basis for all changes to estimates of the life of contractual rights and iron ore reserves. These are disclosed in the Consolidated Statement of Comprehensive Income within net profit on investments held at fair value through profit or loss.

Where the Group has elected to receive its dividends in the form of additional shares rather than in cash, the cash equivalent of the dividend is recognised as income. Any excess in the value of the shares received over the amount of the cash dividend is recognised in capital.

Underwriting commission receivable is taken into account on an accruals basis.

(f) Expenses

All expenses, including finance costs, are accounted for on an accruals basis. Expenses have been charged wholly to the revenue account of the Consolidated Statement of Comprehensive Income, except as follows:

- expenses which are incidental to the acquisition or sale of an investment are charged to the capital account of the Consolidated Statement of Comprehensive Income. Details of transaction costs on the purchases and sales of investments are disclosed within note 10 to the financial statements on page 111;
- expenses are treated as capital where a connection with the maintenance or enhancement of the value of the investments can be demonstrated; and
- the investment management fee and finance costs have been allocated 75% to the capital account and 25% to the revenue account of the Consolidated Statement of Comprehensive Income in line with the Board's expectations of the long-term split of returns, in the form of capital gains and income, respectively, from the investment portfolio.

(g) Taxation

The tax expense represents the sum of the tax currently payable and deferred tax. The tax currently payable is based on the taxable profit for the year. Taxable profit differs from net profit as reported in the Consolidated Statement of Comprehensive Income because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that were applicable at the balance sheet date.

Where expenses are allocated between capital and revenue accounts, any tax relief in respect of the expenses is allocated between capital and revenue returns on the marginal basis using the Company's effective rate of corporation tax for the accounting period.

Deferred taxation is recognised in respect of all temporary differences that have originated but not reversed at the financial reporting date, where transactions or events that result in an obligation to pay more taxation in the future or right to pay less taxation in the future have occurred at the financial reporting date. This is subject to deferred taxation assets only being recognised if it is considered more likely than not that there will be suitable profits from which the future reversal of the temporary differences can be deducted. Deferred taxation assets and liabilities are measured at the rates applicable to the legal jurisdictions in which they arise.

Notes to the financial statements

2. Material accounting policies continued

(h) Investments held at fair value through profit or loss

In accordance with IFRS 9, the Group classifies its investments at initial recognition as held at fair value through profit or loss and are managed and evaluated on a fair value basis in accordance with its investment strategy and business model.

All investments, including contractual rights, are measured initially and subsequently at fair value through profit or loss. Purchases of investments are recognised on a trade date basis. Contractual rights are recognised on the completion date, where a purchase of the rights is under a contract, and are initially measured at fair value excluding transaction costs. Sales of investments are recognised at the trade date of the disposal.

The fair value of the financial investments is based on their quoted bid price at the financial reporting date, without deduction for the estimated future selling costs. This policy applies to all current and non-current asset investments held by the Group.

The gains and losses from changes in fair value of contractual rights are taken to the Consolidated Statement of Comprehensive Income and arise as a result of the revaluation of the underlying cost of the contractual rights, changes in commodity prices and changes in estimates of proven and probable reserves specifically associated with the mine.

Under IAS, the investment in the subsidiary in the Company's Statement of Financial Position is fair valued which is deemed to be the net asset value of the subsidiary.

Changes in the value of investments held at fair value through profit or loss and gains and losses on disposal are recognised in the Consolidated Statement of Comprehensive Income as 'Net profit on investments held at fair value through profit or loss'. Also included within the heading are transaction costs in relation to the purchase or sale of investments.

For all financial instruments not traded in an active market, the fair value is determined by using various valuation techniques. Valuation techniques include market approach (i.e., using recent arm's length market transactions adjusted as necessary and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data where possible). See note 2(q) below.

(i) Options

Options are held at fair value through profit or loss based on the bid/offer prices of the options written to which the Group is exposed. The value of the option is subsequently marked-to-market to reflect the fair value through profit or loss of the option based on traded prices. Where the premium is taken to the revenue account, an appropriate amount is shown as capital return such that the total return reflects the overall change in the fair value of the option. When an option is exercised, the gain or loss is accounted for as a capital gain or loss. Any cost on closing out an option is transferred to the revenue account along with any remaining unamortised premium.

(j) Other receivables and other payables

Other receivables and other payables do not carry any interest and are short-term in nature and are accordingly stated on an amortised cost basis.

(k) Dividends payable

Under IAS, final dividends should not be accrued in the financial statements unless they have been approved by shareholders before the financial reporting date. Interim dividends should not be recognised in the financial statements unless they have been paid.

Dividends payable to equity shareholders are recognised in the Consolidated and Parent Company Statements of Changes in Equity.

(l) Foreign currency translation

Transactions involving foreign currencies are converted at the rate ruling at the date of the transaction. Foreign currency monetary assets and liabilities and non-monetary assets held at fair value are translated into Sterling at the rate ruling on the financial reporting date. Foreign exchange differences arising on translation are recognised in the Consolidated Statement of Comprehensive Income as a revenue or capital item depending on the income or expense to which they relate. For investment transactions and investments held at the year end, denominated in a foreign currency, the resulting gains or losses are included in the profit/(loss) on investments held at fair value through profit or loss in the Consolidated Statement of Comprehensive Income.

(m) Cash and cash equivalents

Cash comprises cash in hand, bank overdrafts and on demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to an insignificant risk of changes in value. Bank overdrafts are shown separately on the Consolidated and Parent Company Statements of Financial Position.

(n) Bank borrowings

Bank overdrafts and loans are recorded at the net proceeds received. Finance charges, including any premium payable on settlement or redemption and direct issue costs, are accounted for on an accruals basis in the Consolidated Statement of Comprehensive Income using the effective interest rate method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

(o) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Consolidated and Parent Company Statements of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(p) Share repurchases and share reissues

Shares repurchased and subsequently cancelled – share capital is reduced by the nominal value of the shares repurchased and the capital redemption reserve is correspondingly increased in accordance with Section 733 of the Companies Act 2006. The full cost of the repurchase is charged to the special reserve.

Shares repurchased and held in treasury – the full cost of the repurchase is charged to the special reserve.

Where treasury shares are subsequently reissued:

- amounts received to the extent of the repurchase price are credited to the special reserve and capital reserves based on a weighted average basis of amounts utilised from these reserves on repurchases; and
- any surplus received in excess of the repurchase price is taken to the share premium account.

Costs on share reissues are charged to the special reserve and capital reserves.

(q) Critical accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates and assumptions will, by definition, seldom equal the related actual results. Estimates and judgements are regularly evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Fair value of unquoted financial instruments

When the fair values of financial assets and financial liabilities recorded in the Consolidated and Parent Company Statements of Financial Position cannot be derived from active markets, their fair value is determined using a variety of valuation techniques that include the use of valuation models.

- (a) The fair value of the BHP Brazil contractual rights was assessed by an independent valuer with a recognised and relevant professional qualification. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. The estimates include considerations of production profiles, commodity prices, cash flows and discount rates. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Consolidated and Parent Company Statements of Financial Position and the level where the instruments are disclosed in the fair value hierarchy. To assess the significance of a particular input to the entire measurement, the external valuer performs sensitivity analysis.
- (b) The fair value of the investment in equity shares of Jeti Resources and MCC Mining were assessed by an independent valuer with a recognised and relevant professional qualification.

The valuation is carried out based on market approach using earnings multiple and price of recent transactions. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Consolidated and Parent Company Statements of Financial Position and the level where the instruments are disclosed in the fair value hierarchy. To assess the significance of a particular input to the entire measurement, the external valuer performs sensitivity analysis.

Notes to the financial statements

continued

2. Material accounting policies continued

(c) The investment in the subsidiary company was valued based on the net assets of the subsidiary company, which is considered appropriate based on the nature and volume of transactions in the subsidiary company.

The key assumptions used to determine the fair value of the unquoted financial instruments and sensitivity analyses are provided in note 17(d).

3. Income

	2024 £'000	2023 £'000
Investment income:		
UK dividends	10,223	8,647
Overseas dividends	24,602	33,457
Overseas special dividends	2,558	17,736
Overseas stock dividends	440	–
Income from contractual rights (BHP Brazil Royalty)	2,431	4,186
Income from Vale debentures	2,815	2,608
Income from fixed income investments	810	1,683
Total investment income	43,879	68,317
Other income:		
Option premium income	10,227	5,964
Deposit interest	719	678
Broker interest received	189	104
Stock lending income	120	81
Total other income	11,255	6,827
Total income	55,134	75,144

During the year, the Group received option premium income in cash totalling £10,909,000 (2023: £6,724,000) for writing put and covered call options for the purposes of revenue generation.

Option premium income is amortised evenly over the life of the option contract and, accordingly, during the year, option premiums of £10,227,000 (2023: £5,964,000) were amortised to revenue.

At 31 December 2024, there were three open positions (2023: three) with an associated liability of £622,000 (2023: £1,401,000).

Dividends and interest received in cash during the year amounted to £36,895,000 and £4,584,000 (2023: £59,542,000 and £5,159,000).

No special dividends have been recognised in capital during the year (2023: £630,000).

4. Investment management fee

	2024			2023		
	Revenue £'000	Capital £'000	Total £'000	Revenue £'000	Capital £'000	Total £'000
Investment management fee	2,188	6,764	8,952	2,374	7,317	9,691
Total	2,188	6,764	8,952	2,374	7,317	9,691

The investment management fee (which includes all services provided by BlackRock) is 0.80% of the Company's gross assets (subject to certain adjustments). During the year, £8,471,000 (2023: £9,421,000) of the investment management fee was generated from net assets and £481,000 (2023: £270,000) from the gearing effect on gross assets due to the quarter-on-quarter increase in the NAV per share for the year as set out below:

Quarter end	Cum income NAV per share (pence)	Quarterly increase/ (decrease) %	Gearing effect on management fees (£'000)
31 December 2022	688.35	–	–
31 March 2023	664.51	–3.5	–
30 June 2023	612.72	–7.8	–
30 September 2023	601.47	–1.8	–
31 December 2023	606.78	+0.9	270
31 March 2024	568.07	–6.4	–
30 June 2024	572.21	+0.7	259
30 September 2024	580.66	+1.5	222
31 December 2024	510.53	–12.1	–

The daily average of the net assets under management during the year ended 31 December 2024 was £1,082,468,000 (2023: £1,203,977,000).

The fee is allocated 25% to the revenue account and 75% to the capital account of the Consolidated Statement of Comprehensive Income.

There is no additional fee for company secretarial and administration services.

(b) Factors affecting total taxation charge/(credit) for the year

The taxation assessed for the year is higher (2023: higher) than the standard rate of corporation tax used of 25.00% (2023: blended rate corporation tax of 23.52% based on a rate of 19.00% up to 31 March 2023 and a rate of 25.00% from 1 April 2023). The differences are explained below:

	2024			2023		
	Revenue £'000	Capital £'000	Total £'000	Revenue £'000	Capital £'000	Total £'000
Profit/(loss) on ordinary activities before taxation	49,465	(165,870)	(116,405)	69,117	(145,426)	(76,309)
Profit/(loss) on ordinary activities multiplied by standard rate of 25.00% (2023: blended rate of 23.52%)	12,366	(41,468)	(29,102)	16,256	(34,205)	(17,949)
Effects of:						
Overseas tax suffered	2,235	–	2,235	2,697	95	2,792
Foreign exchange loss/(gain) not taxable	–	168	168	–	(2,121)	(2,121)
Loss on investments held at fair value through profit or loss not subject to tax	–	38,047	38,047	–	33,181	33,181
Non taxable capital special dividends	–	–	–	–	(148)	(148)
Impact of change in tax rates	–	–	–	(2)	(13)	(15)
Non taxable UK dividends	(2,556)	–	(2,556)	(2,034)	–	(2,034)
Non taxable overseas dividends	(6,605)	–	(6,605)	(12,047)	–	(12,047)
Disallowed expenses	–	1,308	1,308	6	3	9
Double taxation relief	(604)	–	(604)	(391)	299	(92)
Prior years adjustment	502	–	502	(17)	–	(17)
Peruvian capital gains tax charge/(credit)	–	18	18	–	(20)	(20)
Peruvian capital gains deferred tax movement	–	125	125	–	183	183
Group relief (received)/surrendered for no payment	–	–	–	(42)	42	–
Management expenses not relieved	–	–	–	–	954	954
	(7,028)	39,666	32,638	(11,830)	32,455	20,625
Total taxation charge/(credit) (note 7(a))	5,338	(1,802)	3,536	4,426	(1,750)	2,676

The Company is exempt from corporation tax on capital gains provided it maintains its status as an investment trust under Chapter 4 of Part 24 of the Corporation Tax Act 2010. Due to the Company's intention to meet the conditions required to maintain its investment trust status, it has not provided for deferred tax on any capital gains or losses.

(c) Deferred taxation liability

Following the changes in Peruvian tax legislation effective from 1 January 2011, a capital gains tax is imposed on gains realised by non-residents at rates of 5% or 30% depending on whether the transaction took place inside or outside of Peru. As at 31 December 2024, the Group has an accrued capital gains tax liability of £610,000 (2023: £485,000) for unrealised capital gains arising on investments in stocks listed on the Peruvian stock exchange. The tax has been calculated at the rate of 5% of the unrealised capital gains, being the difference between the market value of the investments at the year end and their average purchase cost.

	Group and Company 2024 £'000	Group and Company 2023 £'000
Deferred tax liabilities in respect of temporary differences:		
Deferred tax liability brought forward	(485)	(560)
Deferred tax movement in respect of accrued income (note 7(a))	50	262
Other deferred tax differences	–	(4)
Deferred tax – prior year adjustment (note 7(a))	(383)	–
Movement in Peruvian capital gains tax liability (note 7(a))	(125)	(183)
Deferred tax liability carried forward	(943)	(485)

No deferred tax asset has been recognised in respect of the carried forward disallowed interest expenditure of £10,379,000 (2023: £5,163,000).

8. Dividends

Dividends paid on equity shares:	Record date	Payment date	2024 £'000	2023 £'000
Final dividend of 17.00p per share for the year ended 31 December 2023 (2022: 23.50p)	22 March 2024	14 May 2024	32,501	44,392
1st interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	31 May 2024	28 June 2024	10,515	10,485
2nd interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	6 September 2024	30 September 2024	10,515	10,515
3rd interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	29 November 2024	20 December 2024	10,506	10,515
Accounted for in the financial statements			64,037	75,907

The total dividends payable in respect of the year ended 31 December 2024 which form the basis of Section 1158 of the Corporation Tax Act 2010 and Section 833 of the Companies Act 2006, and the amounts declared, meet the relevant requirements as set out in this legislation.

Dividends paid or declared on equity shares:	2024 £'000	2023 £'000
1st quarterly interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	10,515	10,485
2nd quarterly interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	10,515	10,515
3rd quarterly interim dividend of 5.50p per share for the year ended 31 December 2024 (2023: 5.50p)	10,506	10,515
Final dividend of 6.50p per share for the year ended 31 December 2024 (2023: 17.00p)	12,406	32,501
Total	43,942	64,016

¹ Based on 190,868,036 ordinary shares in issue on 28 February 2025.

9. Consolidated earnings and net asset value per ordinary share

Total revenue, capital loss and net asset value per ordinary share are shown below and have been calculated using the following:

	2024	2023
Net revenue profit attributable to ordinary shareholders (£'000)	44,127	64,691
Net capital loss attributable to ordinary shareholders (£'000)	(164,068)	(143,676)
Total (loss)/profit attributable to ordinary shareholders (£'000)	(119,941)	(78,985)
Equity shareholders' funds (£'000)	975,199	1,160,051
The weighted average number of ordinary shares in issue during the year on which the earnings per ordinary share was calculated was:	191,149,163	190,564,324
The actual number of ordinary shares in issue at the year end on which the net asset value per ordinary share was calculated was:	191,018,036	191,183,036
Earnings per ordinary share		
Revenue earnings per share (pence) - basic and diluted	23.09	33.95
Capital loss per share (pence) - basic and diluted	(85.84)	(75.40)
Total loss per share (pence) - basic and diluted	(62.75)	(41.45)
	As at 31 December 2024	As at 31 December 2023
Net asset value per ordinary share (pence)	510.53	606.78
Ordinary share price (pence)	481.00	587.00

There were no dilutive securities at the year end.

10. Investments held at fair value through profit or loss

	Group 2024 £'000	Company 2024 £'000	Group 2023 £'000	Company 2023 £'000

Total	1,092,576	1,100,100	1,297,019	1,304,426

¹ Relates to wholly owned subsidiary, BlackRock World Mining Investment Company Limited.

² Includes profit received in the subsidiary company of £117,000 (2023: £176,000) included within income.

The Group and Company received £637,750,000 (2023: £647,775,000) from investments sold in the year. The book cost of these investments when they were purchased was £639,534,000 (2023: £562,598,000). These investments have been revalued over time and until they were sold any unrealised gains/losses were included in the fair value of investments. Special dividends amounting to £nil (2023: £630,000) have been recognised in capital during the year.

During the year, transaction costs of £1,128,000 (2023: £1,055,000) were incurred on the acquisition of investments. Costs relating to the disposal of investments during the year amounted to £255,000 (2023: £182,000). All transaction costs have been included within the capital reserves.

	2024 £'000	2023 £'000
Securities lending		
Aggregate value of securities on loan at year end	76,551	62,789
Maximum aggregate value of securities on loan during the year	155,680	130,797
Fee income from stock lending during the year	120	81

In respect of securities on loan at the year end, securities of £83,029,000 (2023: £69,549,000) were held as collateral, the value of which exceeded the value of securities on loan by £6,478,000 (2023: £6,760,000).

In respect of the maximum aggregate value of securities on loan during the year, securities of £171,929,000 (2023: £146,885,000) were held as collateral, the value of which is more than the value of securities on loan by £16,249,000 (£16,088,000).

The value of securities on loan did not exceed the value of collateral held at any time during the year ended 31 December 2024 and 31 December 2023.

Notes to the financial statements

11. Investment in subsidiary

At 31 December 2024, the Company had one wholly owned subsidiary which is registered and operating in England and Wales and has been included in the consolidated financial statements. BlackRock World Mining Investment Company Limited was incorporated on 11 November 1993. There are no non-controlling interests in the subsidiary.

The principal activity of the subsidiary company is investment dealing. The registered address of the subsidiary company is 12 Throgmorton Avenue, London EC2N 2DL.

	Description of shares	Issued share capital	
		2024	2023
BlackRock World Mining Investment Company Limited	Ordinary shares of £1	£100	£100

Under IAS, the investment in the subsidiary is fair valued in the separate financial statements of the Company which is deemed to be the total equity of the Company and equates to £7,524,000 (2023: £7,407,000). The subsidiary has not paid dividends to the parent company during the years ended 31 December 2024 or 31 December 2023.

12. Other receivables

	Group 2024 £'000	Company 2024 £'000	Group 2023 £'000	Company 2023 £'000

Cash at bank – bank overdraft	4	4	–	–
Total	135,743	135,743	149,828	149,828

The Group has an overdraft facility of £30 million (2023: £30 million) and a multi-currency loan facility of £200 million (2023: £200 million) which are updated and renewed on an annual basis. Under the multi-currency loan facility, the individual loan drawdowns are taken with a three month maturity period. At 31 December 2024, the Group had a US Dollar loan outstanding of US\$170,000,000 which matures on 12 March 2025 (2023: US Dollar loan for US\$191,000,000 which matured on 22 March 2024). The loans are provided by The Bank of New York Mellon (International) Limited. The interest rate on bank loans is approximately 6.16% per annum for US Dollar balances (2023: 6.14% per annum for US Dollar balances). The Company incurred a total foreign currency loss of £672,000 (2023: foreign currency gain of £9,018,000) which included a gain on the translation of US Dollar denominated loans of £510,000 (2023: £8,955,000).

15. Share capital

	Ordinary shares in issue number	Treasury shares number	Total shares number	Nominal value £'000
Allotted, called up and fully paid share capital comprised:				
Ordinary shares of 5p each				
At 31 December 2022	188,753,036	4,258,806	193,011,842	9,651
Ordinary shares reissued from treasury	2,430,000	(2,430,000)	–	–
At 31 December 2023	191,183,036	1,828,806	193,011,842	9,651

At 31 December 2023	151,493	22,779	193,008	508,899	222,168	52,053

Pursuant to a resolution of the Company passed at an Extraordinary General Meeting on 13 January 1998 and following the Company's application to the Court for cancellation of its share premium account, the Court approval was received on 27 January 1999 and £157,633,000 was transferred from the share premium account to a special reserve which is a distributable reserve.

The share premium account and capital redemption reserve of £151,493,000 and £22,779,000 (2023: £151,493,000 and £22,779,000) are not distributable reserves under the Companies Act 2006. In accordance with ICAEW Technical Release 02/17BL on Guidance on Realised and Distributable Profits under the Companies Act 2006, the special reserve and capital reserves of the Parent Company may be used as distributable reserves for all purposes and, in particular, the repurchase by the Parent Company of its ordinary shares and for payments such as dividends. In accordance with the Company's Articles of Association, the special reserve, capital reserves and the revenue reserve may be distributed by way of dividend. The Parent Company's capital gains of £567,116,000 (2023: £731,067,000) comprise a gain on the capital reserve arising on investments sold of £495,474,000 (2023: £508,899,000), a gain on the capital reserve arising on revaluation of listed investments of £56,862,000 (2023: £189,283,000) revaluation gains on unquoted investments of £7,256,000 (2023: £25,478,000) and a revaluation gain on the investment in the subsidiary of £7,524,000 (2023: £7,407,000). The capital reserve arising on the revaluation of listed investments of £56,980,000 (2023: £189,165,000) is subject to fair value movements and may not be readily realisable at short notice; as such it may not be entirely distributable. The investments are subject to financial risks, as such capital reserves (arising on investments sold) and the revenue reserve may not be entirely distributable if a loss occurred during the realisation of these investments. The reserves of the subsidiary company are not distributable until distributed as a dividend to the Parent Company.

Notes to the financial statements

continued

17. Risk management policies and procedures

The Group's investment activities expose it to various types of risks which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and shareholders should refer to the Alternative Investment Fund Managers' Directive FUND 3.2.2R Disclosures which can be found at www.blackrock.com/uk/brwm for a more detailed discussion of the risks inherent in investing in the Group.

Risk management framework

The following information refers to the risk management framework of the Alternative Investment Fund Manager (AIFM). However, as disclosed in the Corporate Governance Statement on pages 73 and 74 and in the Statement of Directors' Responsibilities on pages 81 and 82, it is the ultimate responsibility of the Board to ensure that the Group's risks are appropriately monitored, and to the extent that elements of this are delegated to third-party service providers, the Board is responsible for ensuring that the relevant parties are discharging their duties in accordance with the terms of the relevant agreements and taking appropriate action to the extent issues are identified.

The Directors of the AIFM review quarterly investment performance reports and receive semi-annual presentations in person from the Investment Manager covering the Group's performance and risk profile during the year. The AIFM has delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Manager is also responsible for ensuring that the Group is managed within the terms of its investment guidelines and limits set out in the Alternative Investment Fund Managers' Directive FUND 3.2.2R Disclosures which can be found at www.blackrock.com/uk/brwm.

The AIFM is responsible for monitoring investment performance, product risk monitoring and oversight and has the responsibility for the monitoring and oversight of regulatory and operational risk for the Group. The Directors of the AIFM have appointed a Risk Manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the Risk and Quantitative Analysis Group (RQA) which is a centralised group which performs an independent risk management function. RQA independently identifies, measures and monitors investment risk, including climate related risk, and tracks the actual risk management practices being deployed across the Group. By breaking down the components of the process, RQA has the ability to determine if the appropriate risk management processes are in place. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

The AIFM reports to the Audit Committee twice yearly on key risk metrics and risk management processes; in addition, the Depositary monitors the performance of the AIFM and reports to the Audit Committee semi-annually. Any significant issues are reported to the Board as they arise.

Risk Exposures

The risk exposures of the Group and Company are set out as follows:

(a) Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by other price, currency and interest rate movements. It represents the potential loss the Group may suffer through holding market positions in financial instruments in the face of market movements.

A key metric the RQA Group uses to measure market risk is Value-at-Risk (VaR) which encompasses price, currency and interest rate risk. VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market moves in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on a confidence level of 99%, with a holding period of not greater than one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one-day period the Company will lose less than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk. It is noted that the use of VaR methodology has limitations, namely assumptions that risk factor returns are normally distributed and that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR percentage amounts. These limitations, and the nature of the VaR measure, mean that the Company can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The one-day VaR for the Group and Company as of 31 December 2024 and 31 December 2023 (based on a 99% confidence level) was 2.98% and 2.13% respectively.

(i) Market risk arising from other price risk

Exposure to other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, climate change, or other events could have a significant impact on the Group and the market price of its investments and could result in increased premiums or discounts to the Group's net asset value.

The Group is exposed to market price risk arising from its equity investments, fixed income investments and written options. The movements in the prices of these investments result in movements in the performance of the Group. Other price risk sensitivity has been covered by the VaR analysis under the market risk section above.

The Group's exposure to other changes in market prices at 31 December 2024 on its equity and fixed interest investments was £1,093,198,000 (2023: £1,298,420,000). In addition, the Group's gross notional market exposure to these price changes through its option portfolio was £51,436,000 (2023: £72,182,000).

Management of other price risk

By diversifying the portfolio, where this is appropriate and consistent with the Group's objectives, the risk that a price change of a particular investment will have a material impact on the NAV of the Group is minimised which is in line with the investment objectives of the Group.

Use of derivatives

The Group may utilise both exchange traded and over-the-counter (OTC) option contracts as part of its investment policy. Options written by the Group provide the purchaser with the opportunity to purchase from or sell the Group the underlying asset at an agreed-upon value either on or before the expiration of the option. Options are generally settled on a net basis.

During the year ended 31 December 2024 and 2023 the Group wrote covered call and put option contracts to generate revenue income for the Group. As the call and put options are covered by dedicated cash resources and no call and put option contracts were written to manage price risk, there is no impact on the Group's exposure to gearing or leverage as a result of writing covered call and put options. The notional amount of the one put and two call options written that were open (2023: three put options) at 31 December 2024 was £51,436,000 (2023: £72,182,000).

Management of OTC financial derivative instruments

Economic exposure through option writing is restricted such that no more than 10% of the Group's portfolio shall be under option at any given time. Exposures are monitored daily by the Investment Manager, BlackRock, and its independent risk management team. The Board also reviews the exposures regularly.

The option positions are diversified across sectors and geographies comprising three positions as at 31 December 2024 (2023: three).

The economic exposures to options can be closed out at any time by the Group with immediate effect. Details of securities and exposures to market risk and credit risk implicit within the options portfolio are given above and on pages 29 and 30.

Concentration of exposure to market price risks

An analysis of the Group's investment portfolio is shown on pages 29 to 31. At 31 December 2024 this shows that the portfolio had significant levels of investments in the United States of America, Canada, Latin America, Australasia and Africa. Accordingly, there is a concentration of exposure to those regions, though it is recognised that an investment's country of domicile or listing does not necessarily equate its exposure to the economic conditions in that country.

(ii) Market risk arising from foreign currency risk

Exposure to foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency sensitivity risk has been covered by the VaR analysis under the market risk section.

Notes to the financial statements

continued

17. Risk management policies and procedures continued

The fair values of the Group's and Company's monetary items which have foreign currency exposure at 31 December 2024 and 31 December 2023 are shown below. Where the equity investments which are not monetary items are denominated in a foreign currency, they have been included separately in the analysis so as to show the overall level of exposure.

	Canadian Dollar	US Dollar	Australian Dollar	Brazilian Real	Others	Total
2024	£'000	£'000	£'000	£'000	£'000	£'000

Management of foreign currency risk

The Investment Manager monitors the Group's exposure to foreign currencies on a daily basis and reports to the Board of the Company on a regular basis.

The Investment Manager measures the risk to the Group of the foreign currency exposure by considering the effect on the Group's net asset value and income of a movement in the exchange rate to which the Group's assets, liabilities, income and expenses are exposed.

The Group does not use financial instruments to mitigate the currency exposure in the period between the time that income is included in the financial statements and its receipt. Derivative contracts are not used to hedge against exposure to foreign currency risk.

Consequently, the Group is exposed to risks that the exchange rate of its reporting currencies, relative to other currencies, may change in a manner which has an adverse effect on the value of the portion of the Group's assets which are denominated in currencies other than their own currencies.

(iii) Market risk arising from interest rate risk

Exposure to interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group is exposed to interest rate risk specifically through its fixed income investments, cash holdings and its borrowing facility for investment purposes. Interest rate movements may affect the level of income receivable from any cash at bank and on deposits. The effect of interest rate changes on the earnings of the companies held within the portfolio may have a significant impact on the valuation of the Group's investments. Interest rate sensitivity risk has been covered by the VaR analysis under the market risk section.

Interest rate exposure

The exposure for Group and Company at 31 December 2024 and 31 December 2023 of financial assets and liabilities to interest rate risk is shown by reference to:

- floating interest rates – when the interest rate is due to be re-set; and
- fixed interest rates – when the financial instrument is due for repayment.

Group	2024			2023		
	Within one year	More than one year	Total	Within one year	More than one year	Total
	£'000	£'000	£'000	£'000	£'000	£'000

Exposure to floating interest rates:						
Cash collateral held with brokers	4,882	–	4,882	6,269	–	6,269
Cash and cash equivalents – cash at bank	14,834	–	14,834	4,261	–	4,261
Bank loans	(135,739)	–	(135,739)	(149,828)	–	(149,828)
Cash and cash equivalents – bank overdraft	(4)	–	(4)	–	–	–
Exposure to fixed interest rates:						
Fixed income investments	–	36,653	36,653	–	53,440	53,440
Total exposure to interest rates	(116,027)	36,653	(79,374)	(139,298)	53,440	(85,858)

Interest rates received on cash balances are approximately 4.98% for US Dollar balances and 4.74% per annum for Sterling balances (2023: 4.82% for US Dollar balances and 4.37% for Sterling balances). Interest rates paid on bank loans are approximately 6.16% per annum for US Dollar balances (2023: 6.14% per annum). Effective interest rates on fixed income investments ranged from 4.00% to 8.75% (2023: 2.00% to 8.75%).

Notes to the financial statements

continued

17. Risk management policies and procedures continued

Management of interest rate risk

The possible effects on fair value and cash flows that could arise as a result of changes in interest rates are taken into account when making investment decisions and borrowings under the loan and overdraft facilities.

The Group finances part of its activities through borrowings at levels approved and monitored by the Board of the Company. Derivative contracts are not used to hedge against the exposure to interest rate risk.

(b) Counterparty credit risk

Counterparty credit risk is the risk that the issuer of a financial instrument will fail to fulfil an obligation or commitment that it has entered into with the Group.

The Group is exposed to counterparty credit risk from the parties with which it trades and will bear the risk of settlement default. Counterparty credit risk to the Group arises from transactions to purchase or sell investments, fixed income investments and through option writing transactions on equity investments held within the portfolio.

The major counterparties engaged with the Group and Company are all widely recognised and regulated entities.

Depository

The Group's Depository is The Bank of New York Mellon (International) Limited (BNY or the Depository) (S&P long-term credit rating as at 31 December 2024: AA- (2023: AA-)). The Group's listed investments are held on its behalf by The Bank of New York Mellon (International) Limited (BNY) as the Group's Custodian (as sub-delegated by the Depository). All of the equity and fixed income assets and cash of the Group are held within the custodial network of the global custodian appointed by the Depository. Bankruptcy or insolvency of the Depository/Custodian may cause the Group's rights with respect to its investments held by the Depository/Custodian to be delayed or limited. The maximum exposure to this risk at 31 December 2024 is the total value of equity and fixed income investments held with the Depository/Custodian and cash and cash equivalents in the Consolidated and Parent Company Statements of Financial Position.

In accordance with the requirements of the depository agreement, the Depository will ensure that any agents it appoints to assist in safekeeping the equity and fixed income investments of the Group will segregate the equity and fixed income investments of the Group. Thus, in the event of insolvency or bankruptcy of the Depository/Custodian, the Group's non-cash assets are segregated and this reduces counterparty credit risk. The Group will, however, be exposed to the counterparty credit risk of the Depository in relation to the Group's cash held by the Depository. In the event of the insolvency or bankruptcy of the Depository, the Group will be treated as a general creditor of the Depository in relation to cash holdings of the Group. The Board monitors the Group's risk by reviewing the custodian's internal control reports.

Securities lending

All securities lending transactions entered into by the Company are subject to a written legal agreement between the Company and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository, The Bank of New York Mellon (International) Limited, on behalf of the Company. Collateral received is segregated from the assets belonging to the Company's Depository or the Lending Agent.

The value of securities on loan as a proportion of the Group and Company's total lendable assets as at 31 December 2024 was 7.6% (2023: 5.4%) and as a proportion of the Group's net assets as at 31 December 2024 was 8.5% (2023: 5.4%). Income earned from securities lending during the year ended 31 December 2024 is set out in note 3 of the financial statements.

Total lendable assets represent the aggregate value of assets forming part of the Group and Company's securities lending programme. This excludes any assets held by the Company that are not considered lendable due to any market, regulatory, investment or other restriction.

The following table details the value of securities on loan and associated collateral received, analysed by counterparty as at 31 December 2024 and 31 December 2023.

2024	Country of establishment	Stock lending £'000	Collateral received £'000

Collateral

The Company engages in securities lending transactions for which it may hold collateral received from a counterparty. The following table provides an analysis by currency of the underlying non-cash collateral received by way of a title transfer collateral arrangement by the Company, in respect of securities lending transactions as at 31 December 2024 and 31 December 2023:

2024	Non-cash collateral received
Currency	£'000
Swiss Franc	390
Chinese Yuan	8,037
Euro	6,127
UK Sterling	16,877
Hong Kong Dollar	1,080
Japanese Yen	5,669
Norwegian Krone	22
Swedish Krone	204
Singapore Dollar	1
US Dollar	44,622
Total	83,029

2023	Non-cash collateral received
Currency	£'000
Australian Dollar	382
Canadian Dollar	204
Chinese Yuan	11,456
Danish Krone	55
Euro	4,642
UK Sterling	3,215
Hong Kong Dollar	1,256
Japanese Yen	747
Norwegian Krone	371
Swedish Krone	49
Singapore Dollar	18
US Dollar	47,154
Total	69,549

Non cash collateral received by way of a title transfer collateral arrangement in relation to securities lending transactions cannot be sold, reinvested or pledged.

The following table provides an analysis of the type, quality and maturity tenor of non cash collateral received and posted by the Group and Company by way of a title transfer collateral arrangement in respect of securities lending transactions as at 31 December 2024 and 31 December 2023.

	Maturity Tenor				Total
	8 to 30 days	91 to 365 days	More than 365 days	Open Transactions	
2024	£'000	£'000	£'000	£'000	£'000
Collateral received – securities lending					
Fixed income					
Investment grade	–	–	24,536	–	24,536
Equities					
Recognised equities	–	–	–	58,493	58,493
Total	–	–	24,536	58,493	83,029

	Maturity Tenor				Total
	8 to 30 days	91 to 365 days	More than 365 days	Open Transactions	
2023	£'000	£'000	£'000	£'000	£'000
Collateral received – securities lending					
Fixed income					
Investment grade	–	–	5,100	–	5,100
Equities					
Recognised equities	–	–	–	64,449	64,449
Total	–	–	5,100	64,449	69,549

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

The maturity tenor analysis for fixed income securities received as collateral is based on the respective contractual maturity date, while equity securities received as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 31 December 2024 and 2023, all non cash collateral (equity and debt securities) received by the Group and Company in respect of securities lending transactions is held by the Group's Depositary (or through its delegates).

The following table lists the ten largest issuers by value of non cash collateral (equity and debt securities) received by the Group and Company by way of a title transfer collateral arrangement across securities lending transactions as at 31 December 2024 and 2023.

2024	Value	% of the
Non cash collateral issuer – securities	£'000	Company's NAV
UK (Government of)	14,209	1.46
United States Treasury Note	7,723	0.79
Microsoft	2,840	0.29
Nvidia	2,749	0.28
Apple	2,605	0.27
Tencent Holdings	2,342	0.24
iShares Trust	2,198	0.23
SPDR	2,198	0.23

Total	69,549	6.00

Counterparties/brokers

The Group only invests directly in markets that operate on a delivery versus payment basis and consequently most investment transactions in listed securities involve simultaneous delivery of securities against cash payment using an approved broker. The risk of default is considered minimal and the trade will fail if either party fails to meet its obligation.

For a few markets that the Group invests in from time to time, although they operate on a delivery versus payment basis, there may be a very short time gap between stock delivery and payment, giving a potential rise to counterparty credit risk with the broker in relation to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used for those markets. The Group monitors the credit rating and financial position of the broker used to further mitigate this risk.

Cash held by a counterparty to financial derivative contracts is subject to the credit risk of the counterparty. The following table details the total number of counterparties to which the Group is exposed, the maximum exposure to any one counterparty, any collateral held by the Group against this exposure, the total exposure to all other counterparties and the lowest long-term credit rating of any one counterparty (or its ultimate parent if unrated).

	Total number of counterparties	Maximum exposure to any one counterparty ¹ £'000	Collateral held ¹ £'000	Total exposure to all other counterparties ¹ £'000	Lowest credit rating of any one counterparty ²
2024	2	21,396	4,882	–	A+
2023	3	10,612	6,269	410	A+

¹ Calculated on a net basis.

² Standard & Poor's ratings.

The Group may also be exposed to counterparty risk should there be any rehypothecation of pledged collateral. Collateral is received/paid where the client service agreement states that there should be collateral movements agreed with the counterparty, where there is a requirement for a mark-to-market process or collateralisation to ensure that the Group is protected against any counterparty default.

Collateral

The Group engages in activities which may require collateral to be provided to a counterparty (pledged collateral) or may hold collateral received (Inbound Collateral) from a counterparty. The Group uses inbound collateral received from a counterparty to reduce the counterparty credit risk associated with any trading activity in which the Group has engaged.

Cash collateral pledged by the Group is separately identified as an asset in the Consolidated and Parent Company Statements of Financial Position and is not included as a component of cash and cash equivalents. The cash is subject to certain counterparty credit risk as the Group's access to its cash could be delayed should the counterparties become insolvent or bankrupt. Collateral received in the form of securities is not reflected in the Consolidated and Parent Company Statements of Financial Position. The Group has the right to sell or re-pledge collateral received in the form of securities in circumstances such as default.

The fair value of inbound cash collateral and cash collateral pledged is reflected in the table below:

	Pledged collateral		Liability for inbound collateral	
	As at 31 December 2024	As at 31 December 2023	As at 31 December 2024	As at 31 December 2023
	£'000	£'000	£'000	£'000
Cash collateral – Bank of America Merrill Lynch (2023: Bank of America Merrill Lynch)	4,882	6,269	–	–

Receivables

Amounts due from debtors are disclosed in the Consolidated and Parent Company Statements of Financial Position as receivables. The counterparties included in receivables are the same counterparties discussed previously under counterparty credit risk and subject to the same scrutiny by the BlackRock RQA Counterparty & Concentration Risk Team (RQA CCR). The Group monitors the ageing of receivables to mitigate the risk of debtor balances becoming overdue.

In summary, the exposure to credit risk at 31 December 2024 and 2023 was as follows:

Group	2024 £'000	2023 £'000
Investment in contractual rights	22,197	18,316
Fixed income investments	36,653	53,440
Cash collateral held with brokers	4,882	6,269
Cash and cash equivalents – cash at bank	21,396	10,612
Other receivables (amounts due from brokers, dividends and interest receivable)	2,836	3,592
Total	87,964	92,229

Company	2024 £'000	2023 £'000
Investment in contractual rights	22,197	18,316
Fixed income investments	36,653	53,440
Cash collateral held with brokers	4,882	6,269
Cash and cash equivalents – cash at bank	14,834	4,261
Other receivables (amounts due from brokers, dividends and interest receivable)	2,836	3,592
Total	81,402	85,878

Management of counterparty credit risk

Credit risk is monitored and managed by RQA CCR. The team is headed by BlackRock's Chief Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Credit Officer and selected team members to whom specific credit authority has been delegated. As such, counterparty approvals may be granted by the Chief Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Credit Officer.

Notes to the financial statements

continued

17. Risk management policies and procedures continued

The counterparty/credit risk is managed as follows:

- transactions are only entered into with those counterparties approved by RQA CCR, with a formal review carried out for each new counterparty and with counterparties selected by RQA CCR on the basis of a number of risk mitigation criteria designed to reduce the risk to the Group of default;
- the creditworthiness of financial institutions with whom cash and fixed income instruments are held is reviewed regularly by RQA CCR; and
- RQA CCR review the credit standard of the Group's brokers on a periodic basis and set limits on the amount that may be due from any one broker.

The Board monitors the Group's counterparty risk by reviewing:

- the semi-annual report from the Depositary, which includes the results of periodic site visits to the Group's Custodian where controls are reviewed and tested;
- the Custodian's Service Organisation Control (SOC 1) reports which include a report by the Custodian's auditor. This report sets out any exceptions or issues noted as a result of the auditor's review of the custodian's control processes;
- the Manager's internal control reports which include a report by the Manager's auditor. This report sets out any exceptions or issues noted as a result of the auditor's review of the Manager's control processes; and
- in addition, the Depositary and the Manager report any significant breaches or issues arising to the Board as soon as these are identified.

There were no past due or impaired assets as of 31 December 2024 (2023: nil). The major counterparties engaged with the Group are all widely recognised and regulated entities.

Offsetting disclosures

In order to better define its contractual rights and to secure rights that will help the Group mitigate its counterparty risk, the Group may enter into an ISDA Master Agreement or similar agreement with its OTC derivative contract counterparties. An ISDA Master Agreement is an agreement between the Group and the counterparty that governs OTC derivative contracts and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, the Group has a contractual right to offset with the counterparty certain derivative financial instruments payables and/or receivables with collateral held and/or posted and create one single net payment in the event of default including the bankruptcy or insolvency of the counterparty. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on, or prohibitions against, the right of offset in bankruptcy, insolvency or other events.

For financial reporting purposes, the Group does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Financial Position. The disclosures set out in the following tables include financial assets and financial liabilities that are subject to an enforceable master netting arrangement or similar agreement.

At 31 December 2024 and 2023, the Group's and Company's derivative assets and liabilities (by type) are as follows:

	At 31 December 2024		At 31 December 2023	
	Assets £'000	Liabilities £'000	Assets £'000	Liabilities £'000
Derivatives				
Written option contracts	–	(622)	–	(1,401)
Total derivative assets and liabilities in the Consolidated and Parent Company Statements of Financial Position	–	(622)	–	(1,401)
Total assets and liabilities subject to a master netting agreement	–	(622)	–	(1,401)

The following table presents the Group's and Company's derivative liabilities by counterparty, net of amounts available for offset, under a master netting agreement and net of any related collateral paid/(received) by the Group at 31 December 2024 and 2023:

Counterparty	Derivative liabilities subject to a master netting agreement by a counterparty £'000	Derivatives available for offset £'000	Non-cash collateral given £'000	Pledged cash collateral £'000	Net amount of derivative liabilities £'000
At 31 December 2024					
Bank of America Merrill Lynch	(622)	–	–	622	–
At 31 December 2023					
Bank of America Merrill Lynch	(1,401)	–	–	1,401	–

Offsetting and cash pooling arrangements

The Company and its subsidiary have a legally enforceable right under the bank overdraft agreement with The Bank of New York Mellon (International) Limited to set off the cash held in the subsidiary and bank overdraft balance in the Company. The cash and overdraft balances are held in the same currency and are managed under a compensated group arrangement with the same bank where interest is received/charged on the net cash/overdraft balance.

In practice, the Group has not and does not expect the cash and overdraft balances to settle on a net basis and, accordingly, we have presented the cash and cash equivalents and bank overdraft balances in the Statement of Financial Position on a gross basis before offsetting the positive cash balances held in the subsidiary company against the bank overdraft balance in the Company.

(c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulties in meeting obligations associated with financial liabilities. The Group is also exposed to the liquidity risk for margin calls on derivative instruments. The Group has an overdraft facility of £30 million (2023: £30 million) and a multi-currency loan facility of £200 million (2023: £200 million) which are updated and renewed on an annual basis. As per the borrowing agreements, borrowings under the overdraft and loan facilities shall at no time exceed £230 million or 25% of the Group's net asset value (whichever is the lower) (2023: £230 million or 25% of the Group's net asset value (whichever is lower)) and this covenant was complied with during the year. For details of the loan facility, refer to note 14.

Liquidity risk exposure

The remaining undiscounted gross cash flows of the financial liabilities as at 31 December 2024 and 2023, based on the earliest date on which payment can be required, were as follows:

Group	2024 3 months or less £'000	2023 3 months or less £'000
Current liabilities:		
Amounts due to brokers, accruals and provisions	10,270	8,052
Derivative financial liabilities at fair value through profit or loss	622	1,401
Bank loans	135,739	149,828
Cash and cash equivalents – bank overdraft	4	–
Total	146,635	159,281

Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet liquidity needs. However, the timely sale of trading positions can be impaired by many factors including decreased trading volume and increased price volatility. As a result, the Group may experience difficulties in disposing of assets to satisfy liquidity demands. Liquidity risk is not significant as the majority of the Group's assets are investments in listed securities that are readily realisable.

The Board gives guidance to the Investment Manager as to the maximum amounts of the Group's resources that should be invested in any one company. The policy is that the Group should remain 90% invested in normal market conditions and that 25% of the Group's assets may be invested in cash or cash equivalents. Short-term borrowings may be used to manage short-term cash requirements.

The Group's liquidity risk is managed on a daily basis by the Investment Manager in accordance with established policies and procedures in place. The Investment Manager reviews daily forward-looking cash reports which project cash obligations. These reports allow them to manage their obligations.

For the avoidance of doubt, none of the assets of the Group are subject to special liquidity arrangements.

(d) Valuation of financial instruments

Financial assets and financial liabilities are either carried in the Consolidated and Parent Company Statements of Financial Position at their fair value (investment and derivatives) or at amortised cost (due from brokers, dividends and interest receivable, due to brokers, accruals, cash at bank and bank overdrafts). IFRS 13 requires the Group to classify fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The valuation techniques used by the Group are explained in the accounting policies note 2(h) to the Financial Statements on page 102.

Categorisation within the hierarchy has been determined on the basis of the lowest level input that is significant to the fair value measurement of the relevant asset.

The fair value hierarchy has the following levels:

Level 1 – Quoted market price for identical instruments in active markets

A financial instrument is regarded as quoted in an active market if quoted prices are readily available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis. The Group does not adjust the quoted price for these instruments.

Level 2 – Valuation techniques using observable inputs

This category includes instruments valued using quoted prices for similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity specific inputs.

Over-the-counter derivative option contracts have been classified as Level 2 investments as their valuation has been based on market observable inputs represented by the underlying quoted securities to which these contracts expose the Group.

Level 3 – Valuation techniques using significant unobservable inputs

This category includes all instruments where the valuation technique includes inputs not based on market data and these inputs could have a significant impact on the instrument's valuation.

This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market. The Investment Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement requires judgement, considering factors specific to the asset or liability including an assessment of the relevant risks including but not limited to credit risk, market risk, liquidity risk, business risk and sustainability risk. The determination of what constitutes 'observable' inputs requires significant judgement by the Investment Manager and these risks are adequately captured in the assumptions and inputs used in measurement of Level 3 assets or liabilities.

Valuation process and techniques for Level 3 valuations

(a) BHP Brazil Royalty

The Directors engage a mining consultant, an independent valuer with a recognised and relevant professional qualification, to conduct a periodic valuation of the contractual rights and the fair value of the contractual rights is assessed with reference to relevant factors. At the reporting date the income streams from contractual rights have been valued on the net present value of the pre-tax cash flows discounted at a rate the external valuer considers reflects the risk associated with the project. The valuation model uses discounted cash flow analysis which incorporates both observable and non-observable data. Observable inputs include assumptions regarding current rates of interest and commodity prices. Unobservable inputs include assumptions regarding production profiles, price realisations, cost of capital and discount rates. In determining the discount rate to be applied, the external valuer considers the country and sovereign risk associated with the project, together with the time horizon to the commencement of production and the success or failure of projects of a similar nature. To assess the significance of a particular input to the entire measurement, the external valuer performs a sensitivity analysis. The external valuer has undertaken an analysis of the impact of using alternative discount rates on the fair value of contractual rights.

This investment in contractual rights is reviewed regularly to ensure that the initial classification remains correct given the asset's characteristics and the Group's investment policies. The contractual rights are initially recognised using the transaction price as it was indicative of the best evidence of fair value at acquisition and are subsequently measured at fair value, taking into consideration the relevant IFRS 13 requirements. In arriving at their estimates of market values, the valuers have used their market knowledge and professional judgement. The Group classifies the fair value of this investment as Level 3.

Valuations are the responsibility of the Directors of the Company. In arriving at a final valuation, the Directors consider the independent valuer's report, the significant assumptions used in the fair valuation and the review process undertaken by BlackRock's Pricing Committee. The valuation of unquoted investments is performed on a quarterly basis by the Investment Manager and reviewed by the Pricing Committee of the Manager. On a quarterly basis the Investment Manager will review the valuation of the contractual rights and inputs for significant changes. A valuation of contractual rights is performed annually by an external valuer, SRK Consulting (UK) Limited, and reviewed by the Pricing Committee of the Manager. The valuations

Notes to the financial statements

continued

17. Risk management policies and procedures continued

are also subject to quality assurance procedures performed within the Pricing Committee. On a semi-annual basis, after the checks above have been performed, the Investment Manager presents the valuation results to the Directors. This includes a discussion of the major assumptions used in the valuations. There were no changes in valuation techniques during the year.

(b) Jetti Resources and MCC Mining equity shares

The fair value of the investment equity shares of Jetti Resources and MCC Mining were assessed by an independent valuer with a recognised and relevant professional qualification. The valuation is carried out based on market approach using earnings multiple and price of recent transactions. Changes in assumptions about these factors could affect the reported fair value of financial instruments in the Consolidated and Parent Company Statements of Financial Position and the level where the instruments are disclosed in the fair value hierarchy. To assess the significance of a particular input to the entire measurement, the external valuer performs a sensitivity analysis.

Fair values of financial assets and financial liabilities

The table below sets out fair value measurements using the IFRS 13 fair value hierarchy.

Financial assets/(liabilities) at fair value through profit or loss at 31 December 2024 – Group	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Assets:				
Equity investments	987,723	10,555	36,070	1,034,348
Fixed income securities	–	36,653	–	36,653
Investment in contractual rights	–	–	22,197	22,197
Total assets	987,723	47,208	58,267	1,093,198
Liabilities:				
Derivative financial instruments – written options	–	(622)	–	(622)
Total	987,723	46,586	58,267	1,092,576

Financial assets/(liabilities) at fair value through profit or loss at 31 December 2023 – Group	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Assets:				
Equity investments	1,193,969	–	32,695	1,226,664
Fixed income securities	16,924	36,516	–	53,440
Investment in contractual rights	–	–	18,316	18,316
Total assets	1,210,893	36,516	51,011	1,298,420
Liabilities:				
Derivative financial instruments – written options	–	(1,401)	–	(1,401)
Total	1,210,893	35,115	51,011	1,297,019

Financial assets/(liabilities) at fair value through profit or loss at 31 December 2024 – Company	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Assets:				
Equity investments	987,723	10,555	43,594	1,041,872
Fixed income securities	–	36,653	–	36,653
Investment in contractual rights	–	–	22,197	22,197
Total assets	987,723	47,208	65,791	1,100,722
Liabilities:				
Derivative financial instruments – written options	–	(622)	–	(622)
Total	987,723	46,586	65,791	1,100,100

Financial assets/(liabilities) at fair value through profit or loss at 31 December 2023 – Company	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Assets:				
Equity investments	1,193,969	–	40,102	1,234,071
Fixed income securities	16,924	36,516	–	53,440
Investment in contractual rights	–	–	18,316	18,316
Total assets	1,210,893	36,516	58,418	1,305,827
Liabilities:				
Derivative financial instruments – written options	–	(1,401)	–	(1,401)
Total	1,210,893	35,115	58,418	1,304,426

A reconciliation of fair value measurement in Level 3 is set out below.

	Group		Company	
	2024	2023	2024	2023
Level 3 Financial assets at fair value through profit or loss at 31 December	£'000	£'000	£'000	£'000
Opening fair value	51,011	56,891	58,418	64,122
Return of capital – royalty	(397)	(497)	(397)	(497)
Additions at cost	5,626	–	5,626	–
Total profit or loss included in net profit on investments in the Consolidated Statement of Comprehensive Income:				
– assets held at the end of the period	2,027	(5,383)	2,144	(5,207)
Closing balance	58,267	51,011	65,791	58,418

The Level 3 valuation process and techniques used are explained in the accounting policies in notes 2(h) and 2(q). A more detailed description of the techniques is found on pages 129 and 130 under 'Valuation process and techniques for Level 3 valuations'.

The Level 3 investments as at 31 December 2024 in the table that follows relate to the BHP Brazil Royalty, equity shares of Jeti Resources and MCC Mining. In accordance with IFRS 13, these investments were categorised as Level 3.

In arriving at the fair value of the BHP Brazil Royalty, the key inputs are the underlying commodity prices and illiquidity discount. In arriving at the fair value of Jeti Resources and MCC Mining, the key inputs are shown on page 132.

Quantitative information of significant unobservable inputs – Level 3 – Group and Company

The significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy, together with an estimated quantitative sensitivity analysis, as at 31 December 2024 and 31 December 2023 are as shown below.

Description	As at 31 December 2024 £'000	Valuation technique	Unobservable input	Range of weighted average inputs	Reasonable possible shift ¹ +/-	Impact on fair value
BHP Brazil Royalty	22,197	Discounted cash flows	Discount rate– weighted average cost of capital	5.0% – 8.0%	1.0%	£1.2m
			Average gold prices	US\$2,270– US\$2,376 per ounce	10.0%	£2.1m
			Average copper prices	US\$9,025– US\$9,325 per tonne	10.0%	£1.0m
Jetti Resources	21,973	Market approach	Earnings multiple	4.75x	10.0%	£2.3m
MCC Mining	14,097	Market approach	Price of recent transaction		10.0%	£1.4m
Total	58,267					

Description	As at 31 December 2023 £'000	Valuation technique	Unobservable input	Range of weighted average inputs	Reasonable possible shift ¹ +/-	Impact on fair value
BHP Brazil Royalty	18,316	Discounted cash flows	Discount rate– weighted average cost of capital	5.0% – 8.0%	1.0%	£1.0m
			Average gold prices	US\$1,706– US\$1,780 per ounce	10.0%	£1.8m
			Average copper prices	US\$8,397– US\$8,469 per tonne	10.0%	£1.2m
Jetti Resources	27,204	Market approach	Earnings multiple	6.00x	5.0%	£1.4m
MCC Mining	5,491	Market approach	Price of recent transaction		5.0%	£0.3m
Total	51,011					

¹ The sensitivity analysis refers to a percentage amount added or deducted from the input and the effect this has on the fair value.

The sensitivity impact on fair value is calculated based on the sensitivity estimates set out by the independent valuer in its report on the valuation of contractual rights. Significant increases/(decreases) in estimated commodity prices and discount rates in isolation would result in a significantly higher/(lower) fair value measurement. Generally, a change in the assumption made for the estimated value is accompanied by a directionally similar change in the commodity prices and discount rates.

For exchange listed equity investments, the quoted price is the bid price. Substantially, all investments are valued based on unadjusted quoted market prices. Where such quoted prices are readily available in an active market, such prices are not required to be assessed or adjusted for any price related risks, including climate risk, in accordance with the fair value related requirements of the Company's financial reporting framework.

(e) Capital management policies and procedures

The Group's capital management objectives are:

- to ensure it will be able to continue as a going concern; and
- to achieve a balanced return of dividends and capital growth over the longer term, by investing primarily in securities of companies in the mining and metals sectors.

This is to be achieved through an appropriate balance of equity capital and gearing. The Company operates a flexible gearing policy which depends on prevailing conditions. The policy is that debt should not be more than 25% of the Group's net assets.

The Group's total invested capital at 31 December 2024 was £1,110,942,000 (2022: £1,309,879,000) comprising of bank loans and an overdraft of £135,743,000 (2023: £149,828,000) and equity shares, capital and reserves of £975,199,000 (2023: £1,160,051,000).

Under the terms of the overdraft and loan facility agreement, the Group's total indebtedness shall at no time exceed £230 million or 25% of the Group's net asset value (whichever is the lowest).

The cash and bank overdraft accounts of the Company and subsidiary in the same currency are managed under a compensated group arrangement and are therefore presented on a net basis in the Group financial statements.

The Board with the assistance of the Investment Manager monitors and reviews the broad structure of the Group's capital on an ongoing basis. This review includes:

- the planned level of gearing, which takes into account the Investment Manager's view on the market; and
- the need to buy back equity shares, either for cancellation or to be held in treasury, which takes account of the difference between the NAV per share and the share price (i.e. the level of share price discount or premium).

The Group is subject to externally imposed capital requirements:

- as a public company, the Group has a minimum share capital of £50,000; and
- in order to be able to pay dividends out of profits available for distribution, the Group has to be able to meet one of the two capital restrictions tests imposed on investment companies by law.

During the year, the Group complied with the externally imposed capital requirements to which it was subject.

18. Transactions with the Investment Manager and AIFM

BlackRock Fund Managers Limited (BFM) provides management and administration services to the Company under a contract which is terminable on six months' notice. BFM has (with the Group's consent) delegated certain portfolio and risk management services, and other ancillary services to BlackRock Investment Management (UK) Limited (BIM (UK)). Further details of the investment management contract are disclosed in the Directors' Report on page 56.

The investment management fee due for the year ended 31 December 2024 amounted to £8,952,000 (2023: £9,691,000). At the year end, £9,018,000 was outstanding in respect of the management fee (2023: £7,262,000).

In addition to the above services, BIM (UK) has provided the Group with marketing services. The total fees paid or payable for these services for the year ended 31 December 2024 amounted to £169,000 excluding VAT (2023: £144,000). Marketing fees of £64,000 were outstanding as at 31 December 2024 (2023: £55,000).

The ultimate holding company of the Manager and the Investment Manager is BlackRock, Inc., a company incorporated in Delaware, USA.

Notes to the financial statements

continued

19. Related party disclosure

Directors' emoluments

At the date of this report, the Board consists of five non-executive Directors, all of whom are considered to be independent of the Manager by the Board. Following the conclusion of the Annual General Meeting on 21 May 2025, the Board will consist of four non-executive Directors.

Disclosures of the Directors' interests in the ordinary shares of the Company and fees and expenses payable to the Directors are set out in the Directors' Remuneration Report on pages 63 to 66. As at 31 December 2024, £18,000 (2023: £17,000) was outstanding in respect of Directors' fees.

Significant holdings

The following investors are:

- a. funds managed by the BlackRock Group or are affiliates of BlackRock Inc. (Related BlackRock Funds); or
- b. investors (other than those listed in (a) above) who held more than 20% of the voting shares in issue in the Company and are, as a result, considered to be related parties to the Company (Significant Investors).

	Total % of shares held by Related BlackRock Funds	Total % of shares held by Significant Investors who are not affiliates of BlackRock Group or BlackRock, Inc.	Number of Significant Investors who are not affiliates of BlackRock Group or BlackRock, Inc.
As at 31 December 2024	1.19	n/a	n/a
As at 31 December 2023	1.29	n/a	n/a

20. Contingent liabilities

There were no contingent liabilities at 31 December 2024 (2023: nil).

Additional information

Alumina prices more than doubled in 2024. We added to our holding in Alcoa given its increased alumina exposure post-acquisition of its JV partner, Alumina Limited.

Shareholder information

Financial calendar

The timing of the announcement and publication of the Company's results may normally be expected in the months shown below:

February/March	Annual results announced.
March	Annual Report and Financial Statements published.
April/May	Annual General Meeting.
August	Half yearly figures announced and Half Yearly Financial Report published.

Dividend – 2024

The proposed final dividend in respect of the year ended 31 December 2024 is 6.50p per share. The Board also declared three quarterly interim dividends of 5.50p per share.

Ex-dividend date (shares transferred without the dividend)	20 March 2025
Record date (last date for registering transfers to receive the dividend)	21 March 2025
Last date for registering DRIP instructions	2 May 2025
Dividend payment date	27 May 2025

Quarterly dividends

Dividends will be paid quarterly as follows.

Period ending	Announce	Payment date
31 March	April/May	June
30 June	August	September
30 September	November	December
31 December	February	May

Payment of dividends

Cash dividends will be sent by cheque to the first-named shareholder at their registered address. Dividends may also be paid direct into a shareholder's bank account via BACSTEL-IP (Bankers' Automated Clearing Service – Telecom Internet Protocol). This may be arranged by contacting the Company's registrar, Computershare Investor Services PLC, through their secure website investorcentre.co.uk, or by telephone on 0370 707 1187, or by completing the Mandate Instructions section on the reverse of your dividend confirmation statement and sending this to the Company's registrar, Computershare. Dividend confirmations will be sent to shareholders at their registered address, unless other instructions have been given, to arrive on the payment date.

Dividend reinvestment scheme (DRIP)

Shareholders may request that their dividends be used to purchase further shares in the Company. Dividend reinvestment forms may be obtained from Computershare Investor Services PLC through their secure website investorcentre.co.uk or on 0370 707 1187. Shareholders who have already opted to have their dividends reinvested do not need to reapply. The last date for registering for this service for the forthcoming dividend is 2 May 2025.

Dividend tax allowance

The annual tax-free allowance on dividend income across an individual's entire share portfolio is currently £500. Above this amount, individuals pay tax on their dividend income at a rate dependent on their income tax bracket and personal circumstances.

The Company continues to provide registered shareholders with confirmation of the dividends paid and this should be included with any other dividend income received when calculating and reporting total dividend income received. It is a shareholder's responsibility to include all dividend income when calculating any tax liability.

If you have any tax queries, please contact a financial adviser.

Share price

The Company's mid-market ordinary share price is quoted daily in The Financial Times and The Times under 'Investment Companies' and in The Daily Telegraph under 'Investment Trusts'. The share price is also available on the BlackRock website at www.blackrock.com/uk/brwm.

ISIN/SEDOL numbers

The ISIN/SEDOL numbers and mnemonic codes for the Company's shares are:

	Ordinary shares
ISIN	GB0005774855
SEDOL	0577485
Reuters Code	BRWM.L
Bloomberg Code	BRWM LN
Ticker	BRWM

Share dealing

Investors wishing to purchase more shares in the Company or sell all or part of their existing holding may do so through a stockbroker. Most banks also offer this service. Alternatively, please go to www.computershare.com/dealing/uk for a range of dealing services made available by Computershare.

CREST

The Company's shares may be held in CREST, an electronic system for uncertificated securities trading.

Private investors can continue to retain their share certificates and remain outside the CREST system. Private investors are able to buy and sell their holdings in the same way as they did prior to the introduction of CREST, although there may be differences in dealing charges.

Risk factors

- Past performance is not necessarily a guide to future performance.
- The value of your investment in the Company and the income from it can fluctuate as the value of the underlying investments fluctuate.
- The price at which the Company's shares trade on the London Stock Exchange is not the same as their net asset value (NAV) (although they are related) and therefore you may realise returns which are lower or higher than NAV performance.

Electronic communications

We encourage you to play your part in reducing our impact on the environment and elect to be notified by email when your shareholder communications become available online. This means you will receive timely, cost-effective and greener online annual reports, half yearly financial reports and other relevant documentation.

Shareholders who opt for this service will receive an email from Computershare with a link to the relevant section of the BlackRock website where the documents can be viewed and downloaded. Please submit your email address by visiting investorcentre.co.uk/ecomms. You will require your shareholder reference number which you will find on your share certificate or dividend confirmation statement.

You will continue to receive a printed copy of these reports if you have elected to do so. Alternatively, if you have not submitted your email address nor have elected to receive printed reports, we will write and let you know where you can view these reports online.

Shareholder information

continued

Electronic proxy voting

Shareholders are able to submit their proxy votes electronically via Computershare's internet site at eproxyappointment.com using their shareholder reference number, control number and a unique identification PIN which will be provided with voting instructions and the Notice of Annual General Meeting.

CREST members who wish to appoint one or more proxies or give an instruction through the CREST electronic proxy appointment service may do so by using the procedures described in the CREST manual. More details are set out in the notes on the Form of Proxy and the Notice of Annual General Meeting.

Duration of the Company

Shareholders are given an opportunity at each Annual General Meeting to vote on an ordinary resolution to continue the life of the Company for a further twelve months.

Nominee code

Where shares are held in a nominee company name, the Company undertakes:

- to provide the nominee company with multiple copies of shareholder communications, so long as an indication of quantities has been provided in advance; and
- to allow investors holding shares through a nominee company to attend general meetings, provided the correct authority from the nominee company is available.

Nominee companies are encouraged to provide the necessary authority to underlying shareholders to attend the Company's general meetings.

Publication of net asset value/portfolio analysis

The net asset value per share (NAV) of the Company is calculated daily, with details of the Company's investments and performance being published monthly.

The daily NAV per share and monthly information are released through the London Stock Exchange's Regulatory News Service and are available on the website at www.blackrock.com/uk/brwm and through the Reuters News Service under the code 'BLRKINDEX', on page 8800 on Topic 3 (ICV terminals) and under 'BLRK' on Bloomberg (monthly information only).

Individual Savings Accounts (ISAs)

ISAs are a tax-efficient method of investment and the Company's shares are eligible investments for inclusion in an ISA. In the 2024/2025 and 2025/2026 tax years, investors will be able to invest up to £20,000 in ISAs either as cash or shares.

Online access

Other details about the Company are also available on the website at www.blackrock.com/uk/brwm. The financial statements and other literature are published on the website. Visitors to the website need to be aware that legislation in the United Kingdom governing the preparation and dissemination of the financial statements may differ from legislation in their jurisdiction.

Shareholders can also manage their shareholding online by using Investor Centre, Computershare's secure website at investorcentre.co.uk. To register on Computershare's website you will need your shareholder reference number which can be found on paper or electronic communications you have previously received from Computershare. Listed below are the most frequently used features of the website.

- Holding enquiry – view balances, values, history, payments and reinvestments.
- Payments enquiry – view your dividends and other payment types.
- Address change – change your registered address.
- Bank details update – choose to receive your dividend payment directly into your bank account instead of by cheque.
- e-Comms sign-up – choose to receive email notifications when your shareholder communications become available instead of paper communications.

- Outstanding payments – reissue payments using the online replacement service.
- Downloadable forms – including dividend mandates, stock transfer, dividend reinvestment and change of address forms.

Shareholder enquiries

The Company's registrar is Computershare Investor Services PLC. Certain details relating to your holding can be checked through the Computershare Investor Centre website. As a security check, specific information needs to be input accurately to gain access to an individual's account. This includes your shareholder reference number, available from your share certificate, dividend confirmation statement or other electronic communications you have previously received from Computershare. The address of the Computershare website is investorcentre.co.uk. Alternatively, please contact the registrar on 0370 707 1187.

Changes of name or address must be notified in writing either through Computershare's website, or to the registrar at:

Computershare Investor Services PLC
The Pavilions
Bridgwater Road
Bristol BS99 6ZZ

AIFMD report on remuneration

(unaudited)

Remuneration related disclosures in accordance with Article 22(2) of the AIFMD, Article 107 of the AIFMD Regulations and Section XIII of the ESMA Guidelines on sound remuneration policies under the AIFMD

The below disclosures are made in respect of the remuneration policies of the BlackRock group (“BlackRock”), as they apply to BlackRock Fund Managers Limited (the “Manager”). The disclosures are made in accordance with the provisions in the UK implementing the Alternative Investment Fund Managers Directive (the “AIFMD”), the European Commission Delegated Regulation supplementing the AIFMD (the “Delegated Regulation”) and the “Guidelines on sound remuneration policies under the AIFMD” issued by the European Securities and Markets Authority.

Quantitative Remuneration Disclosure

The Manager is required under the AIFMD to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock’s interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Remuneration information at an individual AIF level is not readily available. Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; (c) staff who have the ability to materially affect the risk profile of the Company; and (d) staff of companies to which portfolio management and risk management has been formally delegated.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock’s remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals’ services attributable to the Manager is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both AIFMD and non-AIFMD related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Conversely, members of staff and senior management of the broader BlackRock group may provide both AIFMD and non-AIFMD related services in respect of multiple funds, clients and functions of the broader BlackRock group and of the Manager. Therefore, the figures disclosed are a sum of individuals’ portion of remuneration attributable to the Manager according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager and the broader BlackRock group. Accordingly, the figures are not representative of any individual’s actual remuneration or their remuneration structure.

The amount of the total remuneration awarded to the Manager’s staff in respect of the Manager’s financial year ending 31 December 2024 is US\$102.44 million. This figure is comprised of fixed remuneration of US\$37.20 million and variable remuneration of US\$65.24 million. There were a total of 4,206 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager in respect of the Manager’s financial year ending 31 December 2024, to its senior management was US\$14.31 million, and to other members of its staff whose actions potentially have a material impact on the risk profile of the Manager or its funds was US\$16.36 million. These figures relate to the Manager and not to the Company.

Other AIFMD disclosures

(unaudited)

Leverage

The Company may employ leverage and borrow cash in accordance with its stated investment policy or investment strategy. The Company may also employ leverage in its investment programme through foreign exchange forward contracts and may also utilise a variety of exchange traded and over-the-counter (OTC) derivative instruments such as covered put/call options as part of its investment policy. The use of derivatives may expose the Company to a higher degree of risk. In particular, derivative contracts can be highly volatile and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard underlying bonds or equities. Leveraged derivative positions can therefore increase the Company's volatility. The use of borrowings and leverage has attendant risks and can, in certain circumstances, substantially increase the adverse impact to which the Company's investment portfolio may be subject. No foreign exchange forward contracts or derivatives were used for leverage purposes during the year.

For the purposes of this disclosure, leverage is any method by which the Company's exposure is increased, whether through borrowing of cash or securities, or leverage embedded in foreign exchange forward contracts or by any other means.

The AIFMD requires that each leverage ratio be expressed as the ratio between a Company's exposure and its NAV, and prescribes two required methodologies, the gross methodology and the commitment methodology (as set out in AIFMD Level 2 Implementation Guidance), for calculating such exposure.

Using the methodologies prescribed under the AIFMD, the leverage of the Group and Company is disclosed in the following table below:

	Commitment leverage as at 31 December 2024	Gross leverage as at 31 December 2024	Commitment leverage as at 31 December 2023	Gross leverage as at 31 December 2023
Leverage ratio	1.14	1.03	1.14	1.11

Other risk disclosures

The financial risk disclosures relating to risk framework and liquidity risk are set out in note 18 to the notes to the Financial Statements.

Pre investment disclosures

The AIFMD requires certain information to be made available to investors in AIFs before they invest and requires that material changes to this information be disclosed in the Annual Report of each AIF. An Investor Disclosure Document, which sets out information on the Company's investment strategy and policies, leverage, risk, liquidity, administration, management, fees, conflicts of interest and other shareholder information is available on the website at www.blackrock.com/uk/brwm.

There have been no material changes (other than those reflected in these financial statements or previously disclosed to the London Stock Exchange through a primary information provider) to this information requiring disclosure. Any information requiring immediate disclosure pursuant to the AIFMD will be disclosed to the London Stock Exchange through a primary information provider.

Information to be disclosed in accordance with Listing Rule 9.8.4

The disclosures below are made in compliance with the requirements of Listing Rule 9.8.4.

9.8.4 (1) The Company has not capitalised any interest in the period under review.

9.8.4 (2) The Company has not published any unaudited financial information in a class 1 circular or prospectus or any profit forecast or profit estimate.

9.8.4 (3) This provision has been deleted.

9.8.4 (4) The Company does not have any long-term incentive schemes in operation.

9.8.4 (5) and 9.8.4 (6) Charles Goodyear has waived his Director's fee which in the year under review amounted to £46,789.

9.8.4 (7) The Company has not allotted any shares in the year.

9.8.4 (8) The Company's subsidiary has not allotted any equity securities for cash in the period under review.

9.8.4 (9) This provision is not applicable to the Company.

9.8.4 (10) There were no other contracts of significance subsisting during the period under review to which the Company is a party and in which a Director of the Company is or was materially interested, or between the Company and a controlling shareholder.

9.8.4 (11) This provision is not applicable to the Company.

9.8.4 (12) and 9.8.4 (13) There were no arrangements under which a shareholder has waived or agreed to waive any dividends or future dividends.

9.8.4 (14) This provision is not applicable to the Company.

Glossary

Alternative Performance Measure (APM)

An APM is a measure of performance or financial position that is not defined in applicable accounting standards and cannot be directly derived from the financial statements.

The Group's APMs are set out below and are cross-referenced where relevant to the financial inputs used to derive them as contained in other sections of the Annual Financial Report.

Closed-end company

An investment trust works along the same lines as a unit trust, in that it pools money from investors which is then managed on a collective basis. The main difference is that an investment trust is a company listed on the Stock Exchange and, in most cases, trading takes place in shares which have already been issued, rather than through the creation or redemption of units. As the number of shares which can be issued or cancelled at any one time is limited, and requires the approval of existing shareholders, investment trusts are known as closed-end funds or companies. This means that investment trusts are not subject to the same liquidity constraints as open ended funds and can therefore invest in less liquid investments.

Discount and premium*

Investment trust shares can frequently trade at a discount to NAV. This occurs when the share price (based on the mid-market share price) is less than the NAV and investors may therefore buy shares at less than the value attributable to them by reference to the underlying assets. The discount is the difference between the share price and the NAV, expressed as a percentage of the NAV.

Discount calculation	Page	31 December 2024 £'000	31 December 2023 £'000	
Ordinary share price (pence)	110	481.00	587.00	(a)
Net asset value per ordinary share (pence)	110	510.53	606.78	(b)
Discount (c = ((a - b) / b))		(5.8)%	(3.3)%	(c)

A premium occurs when the share price (based on the mid-market share price) is more than the NAV and investors would therefore be paying more than the value attributable to the shares by reference to the underlying assets. For example, if the share price was 610.00p and the NAV 600.00p, the premium would be 1.7%.

Discounts and premiums are mainly the consequence of supply and demand for the shares on the stock market.

Gearing and borrowings

Investment companies can borrow to purchase additional investments. This is called 'gearing'. It allows investment companies to take advantage of a long-term view on a sector or to take advantage of a favourable situation or a particularly attractive stock without having to sell existing investments.

Gearing works by magnifying a company's performance. If a company 'gears up' and then markets rise and returns on the investments outstrip the costs of borrowing, the overall returns to investors will be even greater. But if markets fall and the performance of the assets in the portfolio is poor, then losses suffered by the investor will also be magnified.

Net gearing calculation	Page	31 December 2024 £'000	31 December 2023 £'000	
Net assets	97	975,199	1,160,051	(a)
Borrowings	97	135,743	149,828	(b)
Total assets (a + b)		1,110,942	1,309,879	(c)
Current assets ¹	97	30,431	21,749	(d)
Current liabilities (excluding borrowings)	97	(11,769)	(9,805)	(e)
Net current assets (excluding borrowings) (d + e)		18,662	11,944	(f)
Net gearing (g = (c - f - a) / a) (%)		12.0	11.9	(g)

¹ Includes cash at bank.

Gross assets

Gross assets is defined as the total of the Group's net assets and borrowings.

* Alternative Performance Measure.

Leverage

Leverage is defined in the AIFM Directive as ‘any method by which the AIFM increases the exposure of an AIF it manages whether through borrowing of cash or securities, or leverage embedded in derivative positions or by any other means’.

Leverage is measured in terms of ‘exposure’ and is expressed as a ratio of net asset value:

$$\text{Leverage ratio} = \frac{\text{Exposure}}{\text{Net assets}}$$

The Directive sets out two methodologies for calculating exposure. These are the Gross Method and the Commitment Method. The treatment of cash and cash equivalent balances in terms of calculating what constitutes an ‘exposure’ under AIFMD differs for these two methods. The definitions for calculating the Gross Method exposures require that ‘the value of any cash and cash equivalents which are highly liquid investments held in the base currency of the AIF, that are readily convertible to a known amount of cash, are subject to an insignificant risk of change in value and provide a return no greater than the rate of a three-month high quality government bond’ should be excluded from exposure calculations.

NAV and share price return (with dividends reinvested)*

Performance statistics enable the investor to make performance comparisons between investment trusts with different dividend policies. The performance measures the combined effect of any dividends paid, together with the rise or fall in the share price or NAV. This is calculated by the movement in the share price or NAV plus the dividends paid by the Group assuming these are reinvested in the Group at the prevailing NAV/share price (please see note 9 of the financial statements for the audited inputs to the calculations).

For the year

NAV total return – Sterling	Page	31 December 2024	31 December 2023

Net asset value per share (Cum income NAV)

This is the value of the Group's assets attributable to one ordinary share. It is calculated by dividing 'equity shareholders' funds' by the total number of ordinary shares in issue (excluding treasury shares). For example, as at 31 December 2024, equity shareholders' funds were worth £975,199,000 (2023: £1,160,051,000) and there were 191,018,036 ordinary shares in issue (excluding treasury shares) (2023: 191,183,036); the undiluted NAV was therefore 510.53p per ordinary share (2023: 606.78p) (please see note 9 of the financial statements for the audited inputs to the calculations).

Equity shareholders' funds are calculated by deducting from the Group's total assets, its current and long-term liabilities and any provision for liabilities and charges.

Net asset value per share (Capital only NAV)*

The capital only NAV is a popular point of reference when comparing a range of investment trusts. This NAV focuses on the value of the Group's assets disregarding the current period revenue income, on the basis that most trusts will distribute substantially all of their income in any financial period. It is also the measure adopted by the Association of Investment Companies for preparation of statistical data. It is calculated by dividing 'equity shareholders' funds' (excluding current period revenue) by the total number of ordinary shares in issue.

As at 31 December 2024, equity shareholders' funds less the current year net revenue return (after interim dividends) amounted to £962,608,000 (2023: £1,126,875,000) and there were 191,018,036 ordinary shares in issue (2023: 191,183,036) (excluding treasury shares); therefore the capital only NAV was 503.94p (2023: 589.42p).

Equity shareholders' funds (excluding current period revenue) of £962,608,000 (2023: £1,126,875,000) are calculated by deducting from the Group's net assets (£975,199,000) (2023: £1,160,051,000) its current period revenue (£44,127,000) (2023: £64,691,000) and adding back the interim dividends paid from revenue (£31,536,000) (2023: £31,515,000).

Ongoing charges ratio*

$$\text{Ongoing charges (\%)} = \frac{\text{Annualised ongoing charges}}{\text{Average undiluted net asset value in the period}}$$

Ongoing charges are those expenses of a type which are likely to recur in the foreseeable future, whether charged to capital or revenue, and which relate to the operation of the investment company as a collective fund. Ongoing charges are based on costs incurred in the year as being the best estimate of future costs and include the annual management charge.

As recommended by the AIC in its guidance, ongoing charges are calculated using the Group's annualised recurring revenue and capital expenses (excluding finance costs, direct transaction costs, custody transaction charges, VAT recovered, taxation, prior year expenses written back and certain non-recurring items) expressed as a percentage of the average daily net assets of the Group during the year.

* Alternative Performance Measure.

The inputs that have been used to calculate the ongoing charges percentage are set out in the following table.

Ongoing charges calculation on net assets	Page	31 December 2024 £'000	31 December 2023 £'000	
Management fee	105	8,952	9,691	
Other operating expenses ¹	106	1,288	1,278	
Total management fee and other operating expenses		10,240	10,969	(a)
Average daily net assets in the year		1,082,468	1,203,977	(b)
Ongoing charges on net assets (c = a/b) (%)		0.95	0.91	(c)

¹ Excluding the write back of prior year expenses totalling £19,000 (2023: £nil) and non-recurring expenses of £nil (2023: £nil).

Ongoing charges calculation on gross assets	Page	31 December 2024	31 December 2023	
Management fee	105	8,952	9,691	
Other operating expenses ¹	106	1,288	1,278	
Total management fee and other operating expenses		10,240	10,969	(a)
Average daily gross assets in the year		1,220,436	1,359,094	(b)
Ongoing charges on gross assets (c = a/b) (%)		0.84	0.81	(c)

¹ Excluding the write back of prior year expenses totalling £19,000 (2023: £nil) and non-recurring expenses of £nil (2023: £nil).

Options and options overwriting strategy

An option is a contract that offers the buyer the right, but not the obligation, to buy (call) or sell (put) a security or other financial asset at an agreed-upon price (the strike price) during a certain period of time or on a specific date (exercise date) for a fee (the premium). The sale of call or put options on stocks that are believed to be overpriced or underpriced, based on the assumption that the options will not be exercised, is referred to as an 'options overwriting' strategy.

The seller of the option collects a premium but, if the option subsequently expires without being exercised, there will be no down side for the seller. However, if the stock rises above the exercise price the holder of the option is likely to exercise the option and this strategy can reduce returns in a rising market.

The Company employs an options overwriting strategy but seeks to mitigate risk by utilising predominantly covered call options (meaning that call options are only written in respect of stocks already owned within the Company's portfolio such that, if the options are exercised, the Company does not need to purchase stock externally at fluctuating market prices to meet its obligations under the options contract). Any use of derivatives for efficient portfolio management and options for investment purposes will be made on the basis of the same principles of risk spreading and diversification that apply to the Company's direct investments.

Physical metals

Metals such as copper, zinc and nickel.

Quoted securities and unquoted investments

Securities that trade on an exchange for which there is a publicly quoted price. Unquoted securities are financial securities that do not trade on an exchange for which there is not a publicly quoted price.

* Alternative Performance Measure.

Glossary

Reference index – MSCI ACWI Metals & Mining 30% Buffer 10/40 Index (MSCI ACWI)

The MSCI ACWI Index is designed to be less concentrated and more diversified than other indices by constraining the exposure to any single issuer to 10% of the index value, with a 30% buffer applied, and the sum of the weights of all exposures to single issuers at more than 5% of the index at 40%, also with a 30% buffer applied.

The 30% buffer operates to ensure that the index does not have to be rebalanced constantly to retain its diversification characteristics due to the market movement of the index constituents. The buffer is applied at the quarterly rebalancing of the index taking the maximum weight of any index security to 7% (10% reduced by 30%) and the sum of the weights of securities representing more than 3.5% (5% reduced by 30%) to 28% (40% reduced by 30%).

If, due to market moves, any security breaches a 9% position, or the sum of all securities over 4.5% breach 36%, (which is equivalent to a 10% buffer applied to the 5 and 40 levels) there is an extraordinary rebalance prior to the quarter end taking the index back to the 30% buffer levels as described.

Revenue profit and revenue reserve

Revenue profit is the net revenue income earned after deduction of fees and expenses allocated to the revenue account and taxation suffered by the Group. The revenue reserve is the undistributed income that the Group keeps as reserves. Investment trusts do not have to distribute all the income they generate, after expenses. They may retain up to 15% of revenue generated which will be held in a revenue reserve. This reserve can be used at a later date to supplement dividend payments to shareholders.

Royalties

Contracts that involve one party giving capital (funding) to a mining company in return for a percentage share of the revenues from one or more of the company's assets.

Treasury shares

Treasury shares are shares that a company keeps in its own treasury which are not currently issued to the public. These shares do not pay dividends, have no voting rights and are not included in a company's total issued share capital amount for calculating percentage ownership. Treasury stock may have come from a repurchase or buy back from shareholders, or it may never have been issued to the public in the first place. Treasury shares may be reissued from treasury to the public to meet demand for a company's shares in certain circumstances.

Total dividends and yield*

Total dividends represent total quarterly and final dividends declared by the Company for a particular year. The yield is the amount of cash (in percentage terms) that is returned to the owners of the security, in the form of interest or dividends received from it. Normally, it does not include the price variations, distinguishing it from the total return.

	Page	31 December 2024	31 December 2023	
Interim and final dividends paid/payable (pence) ¹	109	23.00	33.50	(a)
Ordinary share price (pence)	110	481.00	587.00	(b)
Yield (c = a/b) (%)		4.8	5.7	(c)

¹ Comprising dividends declared/paid for the twelve months to 31 December.

Annual General Meeting

Ivanhoe Mines has continued to excel in increasing production at its Kamo-a-Kakula asset in Democratic Republic of the Congo. The adjacent Western Forelands deposit also offers exciting exploration potential.

Notice of Annual General Meeting

Notice is hereby given that the Annual General Meeting of BlackRock World Mining Trust plc will be held at the offices of BlackRock at 12 Throgmorton Avenue, London EC2N 2DL on Wednesday, 21 May 2025 at 11.30 a.m. to consider and, if thought fit, pass resolutions 1 to 11 as ordinary resolutions and resolutions 12 and 13 as special resolutions.

More information in respect of the contribution of each Director to support their re-election is given in the Directors' Report on pages 60 and 61.

Ordinary business

1. To receive the report of the Directors and the financial statements for the year ended 31 December 2024, together with the report of the auditors thereon.
2. To approve the Directors' Remuneration Report for the year ended 31 December 2024, excluding any content relating to the remuneration policy of the Company.
3. To declare a final dividend of 6.50p per ordinary share for the year ended 31 December 2024.
4. To re-elect Mr C W Goodyear as a Director.
5. To re-elect Ms J Mosely as a Director.
6. To re-elect Mr S Venkatakrishnan as a Director.
7. To elect Mrs E Scott as a Director.
8. To reappoint PricewaterhouseCoopers LLP as auditors of the Company to hold office until the conclusion of the next Annual General Meeting of the Company.
9. To authorise the Audit Committee to determine the auditors' remuneration.

Special business

Ordinary resolutions

10. That the Company shall continue in being as an investment trust.
11. That in substitution for all existing authorities, the Directors of the Company be and they are hereby generally and unconditionally authorised pursuant to Section 551 of the Companies Act 2006 (the Act), to exercise all the powers of the Company to allot relevant securities in the Company (as described in that section) up to an aggregate nominal amount of £954,340 (being 10% of the aggregate nominal amount of the issued share capital, excluding treasury shares, of the Company at the date of this notice) provided that this authority shall (unless previously revoked) expire at the conclusion of the Company's Annual General Meeting to be held in 2026, but the Company shall be entitled to make offers or agreements before the expiry of this authority which would or might require relevant securities to be allotted after such expiry and the Directors may allot such securities pursuant to any such offer or agreement as if the power conferred hereby had not expired.

Special resolutions

12. That in substitution for all existing authorities and subject to the passing of resolution numbered 11 above, the Directors of the Company be and are hereby empowered pursuant to Sections 570 and 573 of the Companies Act 2006 (the Act) to allot equity securities (as defined in Section 560 of the Act) and to sell equity securities held by the Company as treasury shares (as defined in Section 724 of the Act) for cash pursuant to the authority granted by the resolution numbered 11 above, as if Section 561(1) of the Act did not apply to any such allotments and sales of equity securities, provided that this power:
 - (a) shall expire at the conclusion of the next Annual General Meeting of the Company to be held in 2026, except that the Company may before such expiry make offers or agreements which would or might require equity securities to be allotted or sold after such expiry and notwithstanding such expiry the Directors may allot and sell equity securities in pursuance of such offers or agreements;
 - (b) shall be limited to the allotment of equity securities and/or the sale of equity securities held in treasury for cash up to an aggregate nominal amount of £954,340 (representing 10% of the aggregate nominal amount of the issued share

capital, excluding treasury shares, of the Company at the date of this notice); and

- (c) shall be limited to the allotment and/or sale of equity securities at a price of not less than the net asset value per share as close as practicable to the allotment or sale.

13. That in substitution for the Company's existing authority to make market purchases of ordinary shares of 5p each in the Company (Shares), the Company be and is hereby generally and, subject as hereinafter appears, unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the Act) to make market purchases of Shares (within the meaning of Section 693 of the Act) provided that:

- (a) the maximum number of Shares hereby authorised to be purchased shall be 28,611,118, or if less, that number of Shares which is equal to 14.99% of the Company's issued share capital (excluding treasury shares) as at 21 May 2025;
- (b) the minimum price (exclusive of expenses) which may be paid for any such Share shall be 5p being the nominal value per share;
- (c) the maximum price (exclusive of expenses) which may be paid for any such Share shall be the higher of (i) 105% of the average of the middle market quotations (as derived from the Official List) of the Shares for the five dealing days prior to the date on which the market purchase is made and (ii) the higher of the price quoted for (a) the last independent trade of and (b) the highest independent bid for, any number of Shares on the trading venue where the purchase is carried out; and
- (d) unless renewed, the authority hereby conferred shall expire at the conclusion of the next Annual General Meeting of the Company in 2026 save that the Company may, prior to such expiry, enter into a contract to purchase Shares under the authority hereby conferred and may make a purchase of Shares pursuant to any such contract notwithstanding such expiry.

All Shares purchased pursuant to the above authority shall be either:

- (i) held, sold, transferred or otherwise dealt with as treasury shares in accordance with the provisions of the Act; or
- (ii) cancelled immediately upon completion of the purchase.

By order of the Board

CAROLINE DRISCOLL

Notice of Annual General Meeting

continued

Notes:

1. A member entitled to attend and vote at the meeting convened by the above Notice is entitled to appoint one or more proxies to exercise all or any of the rights of the member to attend, speak and vote in his place. A proxy need not be a member of the Company. If a member appoints more than one proxy to attend the meeting, each proxy must be appointed to exercise the rights attached to a different share or shares held by the member.
2. To appoint a proxy, you may use the Form of Proxy enclosed with this Annual Report. To be valid, the Form of Proxy, together with the power of attorney or other authority (if any) under which it is signed or a notarially certified or office copy of the same, must be completed and returned to the office of the Company's registrar in accordance with the instructions printed thereon as soon as possible and in any event by not later than 11.30 a.m. on 19 May 2025. Amended instructions must also be received by the Company's registrar by the deadline for receipt of proxies. Alternatively, you can vote or appoint a proxy electronically by visiting www.eproxyappointment.com. You will be asked to enter the Control Number, the Shareholder Reference Number and PIN which are printed on the Form of Proxy. The latest time for the submission of proxy votes electronically is 11.30 a.m. on 19 May 2025.
3. Completion and return of the Form of Proxy will not prevent a member from attending the meeting and voting in person.
4. Proxymity Voting – If you are an institutional investor you may also be able to appoint a proxy electronically via the Proxymity platform, a process which has been agreed by the Company and approved by the Registrar. For further information regarding Proxymity, please go to www.proxymity.io. Your proxy must be lodged by 11.30 a.m. on 19 May 2025 in order to be considered valid. Before you can appoint a proxy via this process you will need to have agreed to Proxymity's associated terms and conditions. It is important that you read these carefully as you will be bound by them and they will govern the electronic appointment of your proxy.
5. Any person receiving a copy of this Notice as a person nominated by a member to enjoy information rights under Section 146 of the Companies Act 2006 (a Nominated Person) should note that the provisions in Notes 1 and 2 above concerning the appointment of a proxy or proxies to attend the meeting in place of a member, do not apply to a Nominated Person as only shareholders have the right to appoint a proxy. However, a Nominated Person may have a right under an agreement between the Nominated Person and the member by whom he or she was nominated to be appointed, or to have someone else appointed, as proxy for the meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he/she may have a right under such agreement to give instructions to the member as to the exercise of voting rights at the meeting.
6. Nominated Persons should also remember that their main point of contact in terms of their investment in the Company remains the member who nominated the Nominated Person to enjoy the information rights (or perhaps the custodian or broker who administers the investment on their behalf). Nominated Persons should continue to contact that member, custodian or broker (and not the Company) regarding any changes or queries relating to the Nominated Person's personal details and interest in the Company (including any administrative matter). The only exception to this is where the Company expressly requests a response from the Nominated Person.
7. Pursuant to regulation 41 of the Uncertificated Securities Regulations 2001, only shareholders registered in the register of members of the Company by not later than 6.00 p.m. on 19 May 2025 shall be entitled to attend and vote at the meeting in respect of the number of shares registered in their name at such time. If the meeting is adjourned, the time by which a person must be entered on the register of members of the Company in order to have the right to attend and vote at the adjourned meeting is 6.00 p.m. two days prior to the time of the adjournment. Changes to the register of members after the relevant times shall be disregarded in determining the rights of any person to attend and vote at the meeting.
8. In the case of joint holders, the vote of the senior holder who tenders a vote whether in person or by proxy shall be accepted to the exclusion of the votes of the other joint holders and, for this purpose, seniority will be determined by the order in which the names stand in the register of members of the Company in respect of the relevant joint holding.
9. Shareholders who hold their shares electronically may submit their votes through CREST, by submitting the appropriate and authenticated CREST message so as to be received by the Company's registrar not later than 11.30 a.m. on 19 May 2025. Instructions on how to vote through CREST can be found by accessing the following website: www.euroclear.com/CREST. Shareholders are advised that CREST and the internet are the only methods by which completed proxies can be submitted electronically.
10. If you are a CREST system user (including a CREST personal member) you can appoint one or more proxies or give an instruction to a proxy by having an appropriate CREST message transmitted. To appoint one or more proxies or to give an instruction to a proxy (whether previously appointed or otherwise) via the CREST system, CREST messages must be received by Computershare (ID number 3RA50) not later than 11.30 a.m. on 19 May 2025. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp generated by the CREST system) from which Computershare is able to retrieve the message. CREST personal members or other CREST sponsored members should contact their CREST sponsor for assistance with appointing proxies via CREST. For further information on CREST procedures, limitations and system timings please refer to the CREST manual. The Company may treat as invalid a proxy appointment sent by CREST in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.
11. If the Chairman, as a result of any proxy appointments, is given discretion as to how the votes subject of those proxies are cast and voting rights in respect of those discretionary proxies, when added to the interest in the Company's securities already held by the Chairman, result in the Chairman holding such number of voting rights that he has a notifiable obligation under the Disclosure Guidance and Transparency Rules, the Chairman will make the necessary notifications to the Company and the Financial Conduct Authority. As a result, any member holding 3% or more of the voting rights in the Company, who grants the Chairman a discretionary proxy in respect of some or all of those voting rights and so would otherwise have a notification obligation under the Disclosure Guidance and Transparency Rules, need not make a separate notification to the Company and the Financial Conduct Authority.

12. Any question relevant to the business of the meeting may be asked at the meeting by anyone permitted to speak at the meeting. A shareholder may alternatively submit a question in advance by a letter addressed to the Company Secretary at the Company's registered office. Under Section 319A of the Companies Act 2006, the Company must answer any question a shareholder asks relating to the business being dealt with at the meeting, unless (i) answering the question would interfere unduly with the preparation for the meeting or involve the disclosure of confidential information; (ii) the answer had already been given on a website in the form of an answer to a question; or (iii) it is undesirable in the interests of the Company or the good order of the meeting that the question be answered.
13. Any corporation which is a member can appoint one or more corporate representatives who may exercise on its behalf all of its powers as a member provided that, if it is appointing more than one corporate representative, it does not do so in relation to the same shares. It is therefore no longer necessary to nominate a designated corporate representative. Representatives should bring to the meeting evidence of their appointment, including any authority under which it is signed.
14. Under Section 527 of the Companies Act 2006, members meeting the threshold requirements set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to:
- (i) the audit of the Company's accounts (including the auditors' report and the conduct of the audit) that are laid before the meeting; or
 - (ii) any circumstance connected with an auditors of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with Section 437 of the Companies Act 2006.

The Company may not require the members requesting such website publication to pay its expenses in complying with Sections 527 or 528 of the Companies Act 2006. Where the Company is required to place a statement on a website under Section 527 of the Companies Act 2006, it must forward the statement to the Company's auditors not later than the time when it makes the statement available on the website. The business which may be dealt with at the meeting includes any statement that the Company has been required under Section 527 of the Companies Act 2006 to publish on a website.

15. Under Sections 338 and 338A of the Companies Act 2006, members meeting the threshold requirements in those sections have the right to require the Company:
- (i) to give, to members of the Company entitled to receive notice of the meeting, notice of a resolution which may properly be moved and is intended to be moved at the meeting; and/or
 - (ii) to include in the business to be dealt with at the meeting any matter (other than a proposed resolution) which may be properly included in the business.

A resolution may properly be moved or a matter may properly be included in the business unless:

- (a) (in the case of a resolution only) it would, if passed, be ineffective (whether by reason of inconsistency with any enactment or the Company's constitution or otherwise);
- (b) it is defamatory of any person; or
- (c) it is frivolous or vexatious.

Such a request may be in hard copy form or in electronic form and must identify the resolution of which notice is to be given or the matter to be included in the business, must be authorised by the person or persons making it, must be received by the Company not later than 8 April 2025, being the date six weeks clear before the meeting and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.

16. Further information regarding the meeting which the Company is required by Section 311A of the Companies Act 2006 to publish on a website in advance of the meeting (including this Notice), can be accessed at www.blackrock.com/uk/brwm.
17. As at 3 March 2025, the Company's issued share capital comprised 190,868,036 ordinary shares of 5 pence each, excluding shares held in treasury. Each ordinary share carries the right to one vote and therefore the total number of voting rights in the Company on 3 March 2025 is 190,868,036.
18. No service contracts exist between the Company and any of the Directors, who hold office in accordance with letters of appointment and the Articles of Association.

Share fraud warning

Be ScamSmart

Investment scams are designed to look like genuine investments

Spot the warning signs

Have you been:

- contacted out of the blue
- promised tempting returns and told the investment is safe
- called repeatedly, or
- told the offer is only available for a limited time?

If so, you might have been contacted by fraudsters.

Avoid investment fraud

1 Reject cold calls

If you've received unsolicited contact about an investment opportunity, chances are it's a high risk investment or a scam. You should treat the call with extreme caution. The safest thing to do is to hang up.

2 Check the FCA Warning List

The FCA Warning List is a list of firms and individuals we know are operating without our authorisation.

3 Get impartial advice

Think about getting impartial financial advice before you hand over any money. Seek advice from someone unconnected to the firm that has approached you.

Report a scam

If you suspect that you have been approached by fraudsters please tell the FCA using the reporting form at www.fca.org.uk/consumers. You can also call the FCA Consumer Helpline on **0800 111 6768**

If you have lost money to investment fraud, you should report it to Action Fraud on 0300 123 2040 or online at www.actionfraud.police.uk

Find out more at www.fca.org.uk/scamsmart

Remember: if it sounds too good to be true, it probably is!
