KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ACS World ESG Equity Tracker Fund
A sub-fund of BlackRock Authorised Contractual Scheme I

Manager: BlackRock Fund Managers Limited

ISIN: GB00BK6Z1728

Class X1 Accumulating GBP Hedged

Objectives and Investment Policy

- The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme. As a consequence of this, the Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund’s prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund.

- The Fund aims to provide a return on your investment (generated through an increase to the value of the assets held by the Fund and/or income received from those assets) by tracking closely the performance of the MSCI World ESG Focus Low Carbon Screened Index, the Fund’s benchmark index (the “Benchmark Index”). The Fund invests in equity securities (e.g. shares) of companies that make up the Benchmark Index. Derivatives may also be used for investment and efficient portfolio management purposes (i.e. the price of an investment is based on one or more underlying asset). The use of derivatives is expected to be limited.

- The Benchmark Index aims to reflect the performance characteristics of a subset of equity securities within the MSCI World Index (“Parent Index”) and seeks to maximise exposure to positive environmental, social and governance (ESG) factors while minimising the carbon exposure. The Fund may obtain indirect exposure (through including but not limited to, derivatives and units in collective investment schemes) to securities considered not to satisfy the ESG criteria.

- The Benchmark Index is derived from the Parent Index by selecting companies on account of their low carbon emissions exposure compared to other companies in the Parent Index. The Benchmark Index is constructed using the index provider model (the “Model”). The eligible universe for the Benchmark Index is all the securities in the Parent Index that are not involved in very severe ESG controversies (“Red flags”), controversial weapons (such as but not limited to, all companies that are involved in the production of cluster bombs and munitions, anti-personnel landmines, anti-vehicle landmines, depleted uranium weapons and armour, chemical and biological weapons), nuclear weapons, tobacco (all producers excluded, retailers, liensors, distributors excluded if >15% revenue), thermal coal (>30% revenue) and civilian firearms (all producers excluded, retailers excluded if >5% revenue). The Model is subject to certain risk diversification constraints, for example, minimum and maximum constituent, sector and country weights relative to the Parent Index and the anticipated volatility of the Benchmark Index may not exceed 0.5% the anticipated volatility of the Parent Index. The Model is also subject to carbon and ESG constraints relative to the Parent Index, for example it targets a reduction in carbon emission intensity of at least 50%, a reduction in carbon reserves intensity of at least 50%. The Benchmark Index measures the performance of equity securities of large and mid-capitalisation companies across developed countries globally.

- The Fund is passively managed and the investment adviser has limited discretion to select the Fund’s investments and in doing so will take into consideration the Benchmark Index.

- The Fund intends to replicate in similar proportions the Benchmark Index by holding the equity securities which make up the Benchmark Index.

- Recommendation: This Fund may not be appropriate for short-term investment.

- Your units will be accumulating units (i.e. dividend income will be included in their value).

- Your units will be denominated in Sterling, the Fund’s base currency.

- Your units will be “hedged” with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the Fund’s underlying portfolio currencies. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your units.

- You can buy and sell your units daily. The minimum initial investment for this unit class is £10,000,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

<table>
<thead>
<tr>
<th>Lower risk</th>
<th>Higher risk</th>
</tr>
</thead>
<tbody>
<tr>
<td>Typically lower rewards</td>
<td>Typically higher rewards</td>
</tr>
</tbody>
</table>

- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

- The risk category shown is not guaranteed and may change over time.

- The lowest category does not mean risk free.

- The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund’s investments or expose the Fund to losses.

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index’s ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund’s investments compared to a fund without such screening.

- Particular risks not adequately captured by the risk indicator include:

  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

  - Tax treatment of Fund: The tax treatment of this fund structure is so far untested which could lead to adverse tax consequences for the investor. Changes to the tax status of the Fund could lead to taxation being due.
Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 July 2022. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund’s annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund’s net asset value at each year-end. The Fund was launched in 2019. The unit class was launched in 2020.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

Practical Information

► The Depositary of the Fund is Northern Trust Investor Services Limited ("NTISL"). The Depositary has delegated custody services to The Northern Trust Company, London Branch.

► Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Authorised Contractual Scheme I (BACS I). These documents are available free of charge in English. These can be found, along with other information, such as unit prices, on the BlackRock website at www.blackrock.com or by calling Fund Services on 0333 300 0356.

► Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.

► The Fund is a sub-fund of BACS I, an umbrella structure comprising different sub-funds. This document is specific to the Fund and unit class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.

► BlackRock Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund’s prospectus.

► The assets of the Fund are beneficially owned by the unitholders in the Fund as tenants in common and must not be used to discharge any liabilities, or meet any claims against, any person other than the unitholders in the Fund.

► Investors may switch their units in the Fund for units in another sub-fund within BACS I, subject to meeting certain conditions as set out in the prospectus.

► The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.
