### ACS World ESG Screened Equity Tracker Fund

A sub-fund of BlackRock Authorised Contractual Scheme I

Class X1 Accumulating GBP

ISIN: GB00BMH1XM28

Manager: BlackRock Fund Managers Limited

## Objectives and Investment Policy

- ▶ The Fund is a sub-fund of BlackRock Authorised Contractual Scheme I taking the form of a Co-ownership Scheme. The Fund may be treated as tax transparent for the purpose of income and/or capital gains by relevant taxing jurisdictions. Each investor should take appropriate professional advice as to the tax treatment of their investment in the Fund. Investors in the Fund must be Eligible Investors as defined in the Fund's prospectus and must have completed all relevant documentation prior to the purchase of units in the Fund.
- ▶ The Fund aims to provide a return on your investment (generated through an increase to the value of the assets held by the Fund and/or income received from those assets) by tracking closely the performance of the MSCI World ESG Screened Index, the Fund's benchmark index (the "Benchmark Index"). The Fund invests in equity securities (e.g. shares) of companies in the Benchmark Index. Derivatives may also be used for investment and efficient portfolio management purposes (i.e. the price of an investment is based on one or more underlying asset). The use of derivatives is expected to be limited.
- ▶ The Benchmark Index aims to reflect the performance of a subset of equity securities within the MSCI World Index ("Parent Index") which comply with the index provider's environmental, social and governance ("ESG") exclusionary criteria. The Fund may obtain indirect exposure (through including but not limited to, derivatives and units in collective investment schemes) to securities considered not to satisfy the ESG criteria.
- ▶ The Parent Index measures the performance of equity securities of large and mid-capitalisation companies across developed countries globally. The Benchmark Index excludes issuers from the Parent Index, defined by the index provider as (A) having specific associations, ties, classifications or activities relating to: (i) controversial weapons and nuclear weapons, (ii) tobacco or certain civilian firearms; or (B) deriving revenues (above a specified threshold) from (i) thermal coal-based power generation, (ii) economic activities related to tobacco-related products, (iii) the production and distribution of certain civilian firearms, (iv) the extraction of certain fossil fuels, (v) the production of palm oil, and (vi) the extraction of art oil and gas. Companies violating United Nations Global Compact principles are also excluded, as are companies identified as being involved in controversies with a negative ESG impact on their operations and/or products and services (based on an evaluation framework and an MSCI ESG controversy score or those missing such a score). Companies may also be excluded based on carbon emission intensity. Companies violating United Nations Global Compact principles or below the index provider's minimum MSCI ESG Controversy Score will be excluded from the Index monthly.
- ▶ The remaining securities are weighted in proportion to their free-float adjusted market capitalisation. Free float-adjusted means that only shares readily available in the market rather than all of a company's issued shares are used in calculating the Index. Free float-adjusted market capitalisation is the share price of a company multiplied by the number of shares readily available in the market.
- ▶ The Fund's investment in the equity securities in the Benchmark Index will, at the time of purchase, comply with the Benchmark Index ESG requirements. Where securities no longer meet such requirements, the Fund may continue to hold them until they cease to form part of the Benchmark Index and it is practicable to sell them.
- ▶ The Fund is passively managed and the investment adviser has limited discretion to select the Fund's investments and in doing so will take into consideration the Benchmark Index.
- ▶ The Fund intends to replicate in similar proportions the Benchmark Index by holding the equity securities which make up the Benchmark Index.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £10,000,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

## Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
  - Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
  - Tax treatment of Fund: The tax treatment of this fund structure is so far untested which could lead to adverse tax consequences for the investor. Changes to the tax status of the Fund could lead to taxation being due.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2023. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* (i) To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges. (ii) Holders in this unit class may be subject to additional periodic charges outside of the Fund by way of separate agreement with BlackRock.

| One-off charges taken before or after you invest |       |
|--|-------|
| Entry Charge                                     | None  |
| Exit Charge                                      | None* |

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

| Charges taken from the Fund over each year           |         |
|--|---------|
| Ongoing Charges                                      | 0.01%** |
| Charges taken from the Fund under certain conditions |         |
| Performance Fee                                      | None    |

## Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2021. The unit class was launched in 2021.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.
