

AI Innovation Fund

A sub-fund of BlackRock Global Funds

Class A10 Hedged CNH Dist

ISIN: LU3397993349

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- ▶ The Fund seeks to maximise total return and invest in a manner consistent with the principles of environmental, social and governance ("ESG") investing.
- ▶ The Fund invests globally at least 70% of its total assets in the equity securities (i.e. shares) of companies whose predominant economic activity is the advancement, development and use of artificial intelligence (AI) technology. The Investment Adviser (IA) considers, in its discretion, that a company is an AI company if it is expected to derive future revenue from the advancement, development, and use of AI technology.
- ▶ The Fund's total assets will be invested in accordance with its ESG Policy as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at <https://www.blackrock.com/baselinescreens>.
- ▶ In normal market conditions the Fund will invest in equity securities of companies with large, medium and small market capitalisation (market capitalisation is the share price of the company multiplied by the number of shares issued). Such companies are generally expected to operate in one or more of the following areas: (i) computing and infrastructure (e.g., graphics processing units (GPUs), cloud computing and data centers); (ii) foundational models; (iii) data (e.g., vertical industry data and proprietary data); (iv) software (e.g., enterprise applications); (v) services (e.g., information technology (IT) services); (vi) internet (e.g., chatbots or content creation); or (vii) hardware (e.g., robotics, smart glasses).
- ▶ Although it is likely that most of the Fund's investments will be in companies located in developed markets globally, the Fund may also invest in emerging markets.
- ▶ The IA may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets).
- ▶ The Fund is actively managed and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to the Morningstar Global Artificial Intelligence Index (the "Index") for risk management purposes to ensure that the active risk (i.e. degree of deviation from the Index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The IA is not bound by the components or weighting of the Index when selecting investments. The MSCI All Countries World Index should be used by investors to compare the performance of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be distributing. The amount of dividend payable on the shares will be determined by a committee appointed by the Directors of the Fund, which will aim to pay stable dividends monthly, although this is not guaranteed. Dividends will be calculated on the basis of expected income, net realised and unrealised capital gains over a period of time. In the event dividend is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.
- ▶ The Fund's base currency is US Dollar. Shares for this class are bought and sold in Renminbi. The performance of your shares may be affected by this currency difference.
- ▶ Your shares will be hedged with the aim of reducing the effect of exchange rate fluctuations between the denominated currency of the shares and the Fund's underlying portfolio currencies or the Fund's base currency. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares. Please see the prospectus for further details.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$5,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated seven due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements, political factors, economic news, company earnings and significant corporate events.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Companies in AI-related businesses will be subject to risks associated with developing technology and will face intense competition which may have an adverse effect on profit margins. It is likely that these companies will also rely heavily on Patents and other proprietary rights and any loss of, or limitation on their ability to enforce, such proprietary rights in the future could have a material adverse effect on their profitability. Certain AI technology features may also increase the risk of fraud or cyberattack.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or share class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made.

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*
This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.	
Charges taken from the Fund over each year	
Ongoing Charges	1.82%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The Fund was launched in 2024. The share class was launched in 2026.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†¹Morningstar Global Artificial Intelligence Select Index (Net)

†²MSCI All Country World Index (Net)

This chart has been left intentionally blank as there is less than one year's performance data.

Practical Information

- ▶ The depositary of the Fund is The Bank of New York Mellon SA / NV, Luxembourg Branch.
- ▶ Further information about the Fund can be obtained from the latest annual and half-yearly reports of the BlackRock Global Funds (BGF). These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as share prices, on the BlackRock website at www.blackrock.com or by calling the International Investor Servicing team on +352 46268 5111.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ The Fund is a sub-fund of BGF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ BGF may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ Under Luxembourg law, BGF has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within BGF). In addition, the Fund's assets are held separately from the assets of other sub-funds.
- ▶ Investors may switch their shares in the Fund for shares in another sub-fund within BGF, subject to meeting certain conditions as set out in the prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.
