Objectives and Investment Policy

The Fund seeks to provide income and long-term capital growth from its investments in a manner consistent with the principles of environmental, social and governance (ESG) focused investing.

In order to achieve its investment objective the Fund will invest globally, directly and indirectly, in the full spectrum of permitted investments including under normal circumstances up to two thirds of its total assets in equities and up to one third of its total assets in fixed income transferable securities (also known as debt securities which may include the Fund investing up to 20% of its total assets in high yield fixed income transferable securities), as well as investing in units of other funds, cash, deposits and money market instruments. The Fund will not be subject to prescribed country or regional limits and although it is likely that most of the Fund’s investments will be in companies located in developed markets globally, the Fund may also invest in emerging markets. The Fund will use quantitative (i.e. mathematical or statistical) models in order to achieve a systematic approach to stock selection. This means that stocks will be selected and weightings allocated based on their ESG attributes and on forecasts of return, risk and transaction costs.

The Investment Adviser (IA) will, in addition to the investment criteria set out above, take into account certain environmental, social and governance (ESG) characteristics when selecting the securities to be held directly by the Fund. For further details regarding the ESG characteristics (and the applicable levels) please refer to the BlackRock website at https://www.blackrock.com/corporate/literature/publication/blackrock-baseline-screens-in-europe-middleeast-and-africa.pdf. The Fund may obtain indirect exposure (through, including but not limited to, financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities which may not satisfy these ESG criteria.

The Fund is actively managed, and the IA has discretion to select the Fund’s investments. In doing so may take into consideration a composite benchmark comprising 33.3% MSCI World Minimum Volatility Index, 33.3% MSCI All Country World Index, 16.7% BBG Global Aggregate Corporate Index and 16.7% BBG Global High Yield Corporate Emerging Markets Index Hedged in USD (Index) when constructing the Fund’s portfolio, and for risk management purposes. The IA will create a portfolio that seeks to deliver a superior ESG outcome versus the Index and the weighted average ESG score of the Fund will be higher than the ESG rating of the Index after eliminating at least 20% of the least well-rated securities from the Index and the IA intends the Fund to have a carbon emissions intensity score that is lower than the Index.

The Fund may use FDIs for investment purposes and for the purposes of efficient portfolio management.

Recommendation: This Fund may not be appropriate for short-term investment.

Your shares will be distributed. The amount of dividend income payable on the shares will be determined by a dedicated committee appointed by the Directors of the Fund, which will aim to pay stable dividend income monthly, although this is not guaranteed. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.

The Fund’s base currency is US Dollar. Shares for this class are bought and sold in Australian Dollar. The performance of your shares may be affected by this currency difference.

Your shares will be “hedged” with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the base currency of the Fund. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.

You can buy and sell your shares daily. The minimum initial investment for this share class is US$5,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

<table>
<thead>
<tr>
<th>Lower risk</th>
<th>Higher risk</th>
</tr>
</thead>
<tbody>
<tr>
<td>Typically lower rewards</td>
<td>Typically higher rewards</td>
</tr>
</tbody>
</table>

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean risk free.

The Fund is rated five due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund’s investments or expose the Fund to losses.

- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater ‘liquidity risk’, restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- Equities and equity-related securities can be affected by daily stock market movements. Fixed Income securities can be affected by changes to interest rates, credit risk and potential or actual credit rating downgrades. Non-investment grade FI securities can be more sensitive to these events. ABS and MBS may have high levels of borrowing and not fully reflect the value of underlying assets. FDIs are highly sensitive to changes in the value of the asset they are based on. The impact is greater where FDIs are used in an extensive or complex way.
- Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund’s ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund’s investments compared to a fund without such screening.
- The Fund uses quantitative models in order to make investment decisions. As market dynamics shift over time, a quantitative model may become less efficient or may even present deficits under certain market conditions.

Particular risks not adequately captured by the risk indicator include:

- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or share class) was newly launched or it has been launched within the reported period. The Fund’s annual report for each financial year will include detail on the exact charges made.

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

<table>
<thead>
<tr>
<th>One-off charges taken before or after you invest</th>
</tr>
</thead>
<tbody>
<tr>
<td>Entry Charge</td>
</tr>
<tr>
<td>Exit Charge</td>
</tr>
</tbody>
</table>

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund under certain conditions

Performance Fee

None

Past Performance

Past performance is not a guide to future performance.

The Fund was launched in 2022. The share class was launched in 2023.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

This chart has been left intentionally blank as there is less than one year's performance data.

Practical Information

The depositary of the Fund is The Bank of New York Mellon SA / NV, Luxembourg Branch.

Further information about the Fund can be obtained from the latest annual and half-yearly reports of the BlackRock Global Funds (BGF). These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as share prices, on the BlackRock website at www.blackrock.com or by calling the International Investor Servicing team on +44 (0) 20 7743 3300.

Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.

The Fund is a sub-fund of BGF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and share class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.

BGF may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund’s prospectus.

Under Luxembourg law, BGF has segregated liability between its sub-funds (i.e. the Fund’s assets will not be used to discharge the liabilities of other sub-funds within BGF). In addition, the Fund’s assets are held separately from the assets of other sub-funds.

Investors may switch their shares in the Fund for shares in another sub-fund within BGF, subject to meeting certain conditions as set out in the prospectus.

The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.
