### BlackRock European Opportunities Extension Fund

A sub-fund of BlackRock Strategic Funds

Class D3G EUR

ISIN: LU1244156755

Management Company: BlackRock (Luxembourg) S.A.

## Objectives and Investment Policy

- ▶ The investment strategy of the Fund is deemed by the Directors of the Fund to be capacity constrained. Buying Shares in the Fund (or converting shares from another fund) is capped at a daily limit of EUR 10 million (or the equivalent thereof) per investor until further notice except at the discretion of the Directors of the Fund (you can still sell your Shares daily without limit).
- ▶ The Fund aims to provide long term capital growth (including income) on your investment through the use of an extension strategy, meaning that, in addition to having up to 100% of the Fund's assets exposed to equity securities (e.g. shares) via long positions and/or synthetic long positions, the intention is to enter into synthetic short positions, to achieve additional investment exposure. The investment adviser (IA) will use the proceeds from these to buy additional synthetic long positions (broadly in the same proportion as the short positions it holds). Through a long position the Fund aims to profit by choosing assets that will rise in value. A short position is the sale of an asset which the Fund does not physically own with the aim of buying it later at a lower price to secure a profit.
- ▶ The Fund seeks to gain at least 70% of any investment exposure to equity securities and other equity-related (E-R) securities, of companies domiciled in, or the main business of which is in, Europe (including former Soviet Union countries) and, when determined appropriate, fixed income (FI) securities (such as bonds), money market instruments (MMIs) (i.e. debt securities with short-term maturities), deposits and cash. The E-R securities include financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used to help achieve the Fund's investment objective and the IA intends to generate market leverage via FDIs (i.e. where the Fund gains market exposure in excess of the value of its assets). A significant portion of the Fund's assets may be invested in total return swaps and contracts for difference.
- ▶ The FI securities and MMIs may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) and may be investment grade (i.e. meet a specified level of credit worthiness), non-investment grade or unrated at the time of purchase.
- ▶ At least 50% of the Fund's investment exposure will be too small and mid capitalisation companies (i.e. companies which, at the time of purchase, form the bottom 30 % by market capitalisation of European exchanges). Market capitalisation is the share price of the company multiplied by the number of shares issued.
- ▶ The Fund is actively managed and the IA has discretion to select the Fund's investments. In doing so, the IA will refer to the S&P Europe BMI Index (the "Index") when constructing the Fund's portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund's investment objective and policy. The IA is not bound by the components or weighting of the Index when selecting investments. The IA may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. However, the geographical scope of the investment objective may have the effect of limiting the extent to which the portfolio holdings will deviate from the Index. The Index should be used by shareholders to compare the performance of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be distributing (i.e. dividend income will be paid monthly and calculated monthly on the shares).
- ▶ Your shares will be denominated in Euro, the Fund's base currency.
- ▶ You can sell your shares daily. Shares, whilst available for purchase, can be bought daily. The minimum initial investment for this share class is US\$100,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

## Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

#A performance fee accrual may be made if the share class has outperformed the benchmark return, even if the benchmark return is negative. Further details are available in the Prospectus.

The ongoing charges figure is based on expenses for the twelve month period ending 29 February 2024. This figure may vary from year to year. It excludes:

- ▶ Performance fees, where relevant.
- ▶ Portfolio trade-related costs, except costs paid to a custodian and any entry/exit charge paid by the Fund to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Ongoing Charges	1.37%**
Charges taken from the Fund under certain conditions	
Performance Fee	20.00%#

# 20.00% of any returns that the Fund achieves above the S&P Europe BMI Index. For the actual amount charged in the Fund's last financial year, please refer to the Fund's annual report.

## Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in EUR for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2007. The share class was launched in 2015.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†S&P Europe BMI Index (EUR)

It is not intended that the performance of the Fund will track the index.

Historic performance to 31 December 2023
