**Objectives and Investment Policy**

- ▶ The Share Class is a share class of the Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the STOXX Global Space Satellites and Drones Index, the Fund's benchmark index ("Index").
- ▶ The Share Class, via the Fund is passively managed and aims to invest so far as possible and practicable in equity securities (e.g. shares) that make up the Index.
- ▶ The Index captures companies with meaningful exposure to the global space, satellite and drone ecosystem.
- ▶ The Index selects companies from the STOXX World AC Universal All Cap Index ("Investible Universe") with minimum size and liquidity requirements applied at each review. Eligible companies must satisfy the minimum revenue threshold requirements across three core sub-themes: Space Equipment, Diversified Aerospace and Drones. Companies must also demonstrate qualifying commercial or supply-chain relationships with space agencies, key private aerospace contractors, space and missile equipment manufacturers and /or the broader Artemis-era space ecosystem.
- ▶ The Index excludes issuers that are involved in controversial weapons. Issuers that are classified as violating the United Nations Global Compact principles (which are widely accepted corporate sustainability principles that meet fundamental responsibilities in areas such as anti-corruption, human rights, labour and environment) are also excluded. The Index also excludes issuers with a "Red" ESG Controversies Score pursuant to ESG principles which measure each issuer's involvement in major ESG controversies and how well they adhere to international norms and principles.
- ▶ The Investible Universe is a broad, market cap weighted index designed to represent the performance of the large, mid and small companies from developed and emerging markets.
- ▶ The Index is weighted by free-float market capitalization and is adjusted for foreign ownership restrictions and China inclusion in line with the Investible Universe.
- ▶ The Index rebalances on an annual basis. Index constituents' weights are capped at each rebalance, and also on a quarterly basis if it is deemed necessary by the index provider.
- ▶ The Fund intends to replicate the Index by holding the equity securities which make up the Index, in similar proportions to it. The investment manager may use financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objectives. FDIs may be used for direct investment purposes. The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

## Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

\*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

\*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
