CORE IN ONE

Build a diversified core portfolio with one fund

Key takeaways

1. A simple way to build a diversified core portfolio based on specific risk considerations using one low-cost fund.

2. Harness the experience of BlackRock and the efficiency of iShares ETFs to get a broad mix of bonds and global stocks.

3. Use to establish a long-term, balanced portfolio and combine with other funds for particular objectives like income.

A diversified, low-cost, one-stop solution

Each iShares Core Allocation Fund offers exposure to U.S. stocks, international stocks, and bonds at fixed weights and holds an underlying portfolio of iShares Core Funds (Figure 1). Investors can choose the portfolio that aligns with their specific risk considerations like investment time horizon; for example, those with longer investment time horizons may consider the iShares Core Aggressive Allocation ETF.

AOK — **iShares Core Conservative Allocation ETF**

Expense ratio[1]: 0.25%

Index: S&P Target Risk Conservative Index

AOM — **iShares Core Moderate Allocation ETF**

Expense ratio[1]: 0.25%

Index: S&P Target Risk Moderate Index

AOR — **iShares Core Growth Allocation ETF**

Expense ratio[1]: 0.25%

Index: S&P Target Risk Growth Index

AOA — **iShares Core Aggressive Allocation ETF**

Expense ratio[1]: 0.25%

Index: S&P Target Risk Aggressive Index

Core facts: how they're built

iShares Core Allocation Funds are constructed using a thoughtful, straightforward process based on the S&P index methodology:

1 Stock and bond weights are fixed for each risk profile (Figure 2).

2 Each fund holds 7 iShares Core funds as underlying investments (Figure 1).

3 Weight of each underlying iShares Core fund based on market capitalization review. Funds rebalance semi annually.

Figure 2: Each fund has a fixed allocation to stocks and bonds

The performance quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by visiting www.iShares.com or www.blackrock.com.

iShares ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Market returns are based upon the midpoint of the bid/ask spread at 4:00 p.m. eastern time (when NAV is normally determined for most ETFs), and do not represent the returns you would receive if you traded shares at other times.

Carefully consider the Funds' investment objectives, risk factors, and charges and expenses before investing. This and other information can be found in the Funds' prospectuses and, if available, summary prospectuses, which may be obtained by visiting www.iShares.com or www.BlackRock.com. Read the prospectus carefully before investing.

Investing involves risk, including possible loss of principal.

The funds are subject to the risks of the underlying funds. Diversification and asset allocation may not protect against market risk or loss of principal. Buying and selling shares of ETFs will result in brokerage commissions.
